VT = Video Program

Training Materials by Subject 2004

Accident Investigation

Accident Investigation

Number: VT01293

Material: video, 22 minutes

Industry: all industries

This video describes accident investigation procedures including gathering and analyzing information, physical evidence, and interviewing witnesses. Summit Training Source, 1987.

Accident Investigation: Just the Facts

Number: VT01416

Material: video, 18 minutes

Industry: construction

This video covers accident investigation procedures including gathering the facts, interviewing witnesses, and analyzing the information. Associated General Contractors of America, 1991.

How to Investigate an Accident

Number: VT01581

Material: video, 13 minutes

Industry: all industries

This video presents the basics of accident investigation including interviewing witnesses, fact gathering, analyzing data, and the points to remember when completing an accident report. Digital 2000, 1999.

Incident Investigation

Number: VT01299

Material: video, 17 minutes

Industry: all industries

This video describes accident investigation procedures including physical evidence, fact finding, data gathering, interviewing witnesses, and analyzing details. Summit Training Source, 1995.

Accident Prevention

See also Construction Safety; Job Safety Analysis; and Industrial Safety

Accident Prevention: Staying a Step Ahead

Number: VT01263

Material: video, 18 minutes

Industry: general industry

This video covers the basics for setting up a company safety program including establishing procedures for reporting hazards, hazard assessment and correction, and employee training. NOTE: *Washington State may have stricter standards than OSHA.* Washington State Department of Labor and Industry, 1992.

Accidents: It Can't Happen to Me

Number: VT01575

Material: video, 10 minutes

Industry: general industry

This video covers, through interviews with workers, the basic causes and prevention of accidents including safety attitudes and practices. Digital 2000, 1997.

Can You Spot the Hazard?

Number: VT01638

Material: video, 6 minutes

Industry: all industries

This video covers conducting a workplace inspection, identifying hazards including fire and electrical, and safety measures including housekeeping and personal protective equipment. Safety Shorts, 1999.

Construction Accidents: It Can't Happen to Me

Number: VT01616

Material: video, 8 minutes

Industry: construction

This video covers, through interviews with workers, the basic causes and prevention of accidents including safety attitudes and practices. Digital 2000, 1997.

Dark Ages of Safety

Number: VT01533

Material: video, 12 minutes

Industry: all industries

This humorous video uses black and white footage from the 20's, 30's, and 40's to emphasize the importance of following safety procedures. Digital 2000, 1995.

► Hazard Recognition

Number: VT01737

Material: video, 5 minutes

Industry: general industry

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

This video covers the skills and techniques for recognizing common types of hazards found in the workplace. Summit Training Source, 1990.

Hazard Recognition: Out of the Ordinary

Number: VT01667

Material: video, 13 minutes

Industry: general industry

This video covers how to identify potential hazards in the workplace through work area inspection and common hazards including contact with objects and equipment, improper lifting, falls, exposure to harmful substances. Summit Training Source, 2000.

It Only Takes a Second...

Number: VT01682

Material: video, 4 minutes

Industry: all industries

This powerful video shows, through work and driving accident re-enactments, how easily accidents can happen and the consequences of not taking the time to think safety. Aurora Pictures, 1995.

Pro-Active Safety Attitudes

Number: VT01620

Material: video (closed-captioned), 18 minutes

Industry: all industries

This video, through re-enactments of real-life accidents, discusses the importance of accident prevention and protection, safety equipment, safety habits and the right attitude. Coastal Training Technologies, 1996.

Safety Attitude

Number: VT01309

Material: video, 6 minutes

Industry: general industry

This video discusses hazard awareness, following safe work practices, and creating a safe work environment. Summit Training Source, 1990.

Safety--It's Your Responsibility

Number: VT01275

Material: video, 19 minutes

Industry: general industry

This video uses dramatized situations to show the role supervisors play in promoting and maintaining safety. NTIS (Producer: USPS), 1982.

Safety: The Bottom Line

Number: VT01694

Material: video, 19 minutes

This video covers the many benefits of establishing a sound company safety program including the economic benefits. Associated General Contractors of America, 1997.

What's Wrong With This Picture?

Number: VT01704

Material: video, 15 minutes

Industry: all industries

This humorous video asks employees to identify lifting, PPE, HazCom, and fire protection hazards in a variety of video clips; the segments are repeated with narration and graphics that explain the hazards or unsafe acts. Long Island Production, 1998.

Aerial Lifts

See also Scaffolding; and Walking and Working Surfaces

Aerial Lift Safety

Number: VT01506

Material: video, 7 minutes

Industry: all industries

This video demonstrates safe operating procedures, pre-operation inspection, work site evaluation and safe work practices. Summit Training Source, 1998

Boomlifts in Construction

Number: VT01528

Material: video (closed captioned), 10 minutes

Industry: construction

This video covers startup inspections, lifting principles, hazards including overhead power lines, and safe operating procedures. Coastal Training Technologies, 1996.

Bucket Truck Safety: Training for Operators

Number: VT01699

Material: video, 18 minutes

Industry: all industries

This video covers safety and operation issues, explains what can go wrong, how to prevent these situations from happening including the importance of PPE and using a fall-restraint system. J.J. Keller, 2000.

Training Materials by Subject 2004

Scissor and Aerial Work Platform Safety: The Sky's the Limit

Number: VT01678

Material: video, 15 minutes

Industry: construction

This video highlights the hazards of working on elevated platforms including overhead power lines, pre-operation inspection, and safe work practices. Associated General Contractors of America, 2000.

Scissor Lifts in Construction

Number: VT01531

Material: video (closed-captioned), 9 minutes

Industry: construction

This video discusses pre-operation inspections, lifting principles, hazards such as overhead power lines, and safe operating procedures. Coastal Training Technologies, 1996.

Agricultural Machinery

Agricultural Vehicle Safety Orientation

Number: VT01532

Material: video, 12 minutes

Industry: agriculture

This video covers basic safety measures including defensive driving techniques and pre-operation inspection. Digital 2000, 1994.

Agricultural Vehicle Safety Orientation (Spanish)

Number: VT01534

Material: video, 12 minutes

Industry: agriculture

See previous description. Digital 2000, 1994.

Machinery Safety: A Close Call

Number: VT01512

Material: video, 9 minutes

Industry: agriculture

This video discusses hazards associated with agricultural machinery including entanglements, pinch and crush points. Kansas State University, 1993.

Safe Harvest

Number: VT01543

Material: video, 24 minutes

Industry: agriculture

This video features farmers who were involved in harvesting equipment accidents who discuss pre-operation inspections, hazards, training, and safety procedures. Kansas State University, 1988.

Tractor Safety: Consider the Flipside

Number: VT01312

Material: video, 15 minutes

Industry: agriculture

This video discusses the importance of ROPS (roll over protective structures) to prevent death or injury due to tractor overturn. Case International, 1995.

Agricultural Operations

See also Grain Elevators

Farm & Ranch Safety Management

Number: S565.A58

Author: Anthony, Stan

Material: book, 231 pages

This book provides safety guidelines to help farmers/ranchers identify and eliminate agricultural safety hazards. Delmar Publishers, 1995.

Farmstead Safety: Do It Everyday!

Number: VT01542

Material: video, 7 minutes

Industry: agriculture

This video focuses on hazards and safety measures including machinery and equipment, grain storage, and housekeeping. Kansas State University, 1994.

Minimizing the Risks of Skin Cancer

Number: VT01513

Material: video, 12 minutes

Industry: all industries

This video, while geared toward farmers, covers safety measures for anyone required to work long hours in the sun including wearing sunscreen and protective clothing, gives SPF ratings for various types of clothing. Kansas State University, 1995.

Training Materials by Subject 2004

Pesticides and You: A Primer on Pesticide Handling and Storage

Number: VT01514

Material: video (closed-captioned), 29 minutes

Industry: all industries

This video, while geared toward farmers, explains and describes safe handling, storage, containment, and application of pesticides for anyone using these chemicals. Kansas State University, 1997.

Asbestos

Asbestos Abatement

Number: VT01324

Material: video, 32 minutes

Industry: construction

This video covers asbestos health hazards, safety measures, and federal and state regulations required in asbestos removal operations. Eastern Contractors Association, 1987.

Asbestos Abatement Safety in the Industrial Setting: Stay Alive!

Number: VT01061

Material: video, 18 minutes

Industry: construction

This video describes safety procedures for asbestos removal operations and the construction, use, and dismantling of decontamination facilities. Intl Association of Heat and Frost Insulators and Asbestos Workers, Local 22, 1986.

Asbestos Alert

Number: VT01057

Material: video, 25 minutes

Industry: all industries

This video discusses asbestos and its hazards, sources of exposure, asbestos containment units, medical surveillance, and PPE. Utility Workers Union of America, 1986.

Asbestos Awareness

Number: VT00359

Material: video, 6 minutes

Industry: general industry

This video covers the identification and uses of asbestos, where it is found and its health hazards. Summit Training Source, 1990.

Asbestos Awareness: Are You At Risk?

Number: VT01565

Material: video, 19 minutes

Industry: all industries

This video introduces the three forms of asbestos, how they are used, hazard communication, health effects, personal protection, and housekeeping requirements. Coastal Training Technologies, 1992.

Asbestos Exposure: Within Safe Limits

Number: VT01590

Material: video, 15 minutes

Industry: construction

This video describes how asbestos is used in construction, its effect on the body, and how workers can protect themselves from exposure. Associated General Contractors of America, 1998.

Asbestos Removal: Job Site Techniques

Number: VT01126

Material: video, 20 minutes

Industry: construction

This video covers safe asbestos removal from job site preparation to clean up. Sheet Metal and Air-Conditioning Industry National Training Fund, 1988.

Electrical Safety and Asbestos Abatement

Number: VT01094

Material: video, 12 minutes

Industry: construction

This video describes electrical fundamentals, effects of electrical shock, and electrical hazards on asbestos removal sites. NOTE: *OSHA does not require explosion-proof lighting or equipment unless some other hazard is present which would require its use.* Intl Association of Heat and Frost Insulators and Asbestos Workers, Local 22, 1987.

Exhaust Air Ventilation Systems: Operation and Maintenance

Number: VT01095

Material: video, 18 minutes

Industry: construction

This video describes how to set up and operate negative air filtration systems used in asbestos removal including exhaust units and HEPA vacuums. Intl Association of Heat and Frost Insulators and Asbestos Workers, Local 22, 1987.

Training Materials by Subject 2004

Automobile Repair and Servicing

Don't Blow It: Asbestos Safety

Number: VT01268
Material: video, 15 minutes
Industry: automotive repair and servicing
This video discusses asbestos, its health effects, and removal methods used to control exposure during brake replacement. NTIS (Producer: EPA), 1986.

Protecting Workers in Auto Body Shops

Number: VT01629
Material: video, 7 minutes
Industry: general industry
This video discusses personal protective equipment, use of spray paint guns, ventilation of spray booths and sanders, and health hazards such as metal dusts and paint. NIOSH, 1995.

Back Safety

See also Materials Handling

Back Injury Prevention: Construction

Number: VT01370
Material: video, 5 minutes
Industry: construction
This video explains how the back functions, safe lifting techniques, and prevention of back injuries. Digital 2000, 1993.

Back Safety

Number: VT00360
Material: video, 6 minutes
Industry: all industries
This video covers how the back functions, proper lifting techniques, good posture, and prevention of injuries. Summit Training Source, 1990.

Back Safety: The Ergonomic Connection

Number: VT01683
Material: video, 14 minutes
Industry: all industries
This video explains ways to prevent back disorders including how the back works, proper body mechanics, common back injuries, risk factors, and preventive measures. Summit Training Source, 1992.

Back to Basics: Construction Back Injury Prevention

Number: VT01406
Material: video, 18 minutes
Industry: construction
This video explains how the back functions and the causes and prevention of back injuries including proper lifting techniques and good work posture. Associated General Contractors of America, 1992.

Back You're Back: Back & Muscle Injury Prevention

Number: VT01276
Material: video, 19 minutes
Industry: general industry
This video explains the causes and prevention of back injuries and lifting techniques. Washington State Department of Labor and Industries, 1992.

Construction Back Safety

Number: VT01600
Material: video (closed captioned), 10 minutes
Industry: construction
This video covers safety techniques including correct posture, proper lifting procedures, and preventing back injuries. Coastal Training Technologies, 1992.

Lifting Safely: Construction

Number: VT01318
Material: video, 12 minutes
Industry: construction
This video explains how the back functions, safe lifting methods, and how to prevent back injuries.

Minimizing Back Strain on the Job

Number: VT00147
Material: video, 24 minutes
Industry: general industry
This video covers explains how to reduce the day-to-day strains of lifting, sitting, and bending, how back injuries occur, and techniques for reducing back injuries including proper lifting. Primedia Workplace Learning, 1985.

► Preventing Back Injuries and Other CTD's: Construction

Number: VT01710
Material: video, 18 minutes
Industry: construction

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

This video discusses how the body works, the best body positions for doing work, back function and injury, proper lifting, proper shoveling, and the three risk factors for cumulative trauma injury, which are force, position, and repetition. National Roofing Contractors Association, 1996.

Safe Lifting (Spanish)

Number: VT01649

Material: video, 5 minutes

Industry: all industries

This video explains how the back functions, safe lifting methods, and how to prevent back injuries. Training Network, 1994.

Shoveling Safety

Number: VT01476

Material: video, 6 minutes

Industry: construction

This video covers using the right shovel for the job, inspection, and proper technique to avoid back injury. Training Network, 1990.

Backhoes

See also Construction Equipment

Backhoe Safety

Number: VT01503

Material: video, 18 minutes

Industry: construction

This video emphasizes safe operating techniques including pre-operation inspection, safety procedures, unloading from trailers, and digging near underground and overhead utilities. Zomar Productions, 1992.

► Backhoe/Loader Operation

Number: VT01740

Material: video, 16 minutes

Industry: construction

This video covers backhoe operation safety including planning the job, trenching and backfilling, working a spoil pile, and lifting techniques. Associated General Contractors of America, 2001.

Backhoe/Loader Operations and Safety

Number: VT01371

Material: video, 5 minutes

Industry: construction

This video covers general backhoe safety practices, operating rules, and maintenance procedures. Digital 2000, 1993.

Backhoe/Loader Operations: The Hazards of Hurry

Number: VT00352

Material: video, 21 minutes

Industry: construction

This video, through re-enactments of accidents, covers the causes and prevention of the most common backhoe/loader accidents including pre-use inspection and maintenance, safe work positioning, carrying a load, and working on slopes. Allied Digital Technologies, 1984.

Bloodborne Pathogens

See also Healthcare; and Laboratory Safety

Bloodborne Pathogens

Number: VT00412

Material: video, 20 minutes

Industry: all industries

This video describes basic bloodborne disease transmission and precautions, decontamination, and minimizing the risk of infection through proper housekeeping and personal protective equipment. Coastal Training Technologies, 1992.

Bloodborne Pathogens

Number: VT01577

Material: video, 9 minutes

Industry: all industries

This video covers information on HIV and Hepatitis B, transmission, work accident first aid procedures, and exposure prevention. Digital 2000, 1998.

► Bloodborne Pathogens

Number: VT01733

Material: video, 6 minutes

Industry: all industries

This video discusses HIV, Hepatitis B and C including the hazards, means of transmission, misconceptions about exposure, symptoms of

Training Materials by Subject 2004

infection, and proper protective measures. Summit Training Source, 1990.

Bloodborne Pathogens Case Histories

Number: VT01592

Material: video, 21 minutes

Industry: general industry

This video, through the retelling of real-life stories, discusses bloodborne disease transmission, safe work practices, PPE, housekeeping, and engineering controls for first responders. Coastal Training Technologies, 1995.

Bloodborne Pathogens: Know the Risk

Number: VT01633

Material: video, 19 minutes

Industry: all industries

This video covers common sense guidelines for workers including information on AIDS and Hepatitis B, exposure risk, transmission, minimizing exposure risk, housekeeping, and proper waste disposal. Coastal Training Technologies, 1997.

Bloodborne Pathogens: Protect Yourself

Number: VT00454

Material: video (closed captioned), 15 minutes

Industry: general industry

This video covers basic bloodborne disease transmission and precautions including first-aid safeguards, decontamination procedures, and proper housekeeping for first-on-the-scene co-workers. Coastal Training Technologies, 1992.

► Bloodborne Pathogens: Protect Yourself (Spanish)

Number: VT01715

Material: video, 15 minutes

Industry: all industries

See previous description. Coastal Training Technologies, 2000.

Bloodborne Pathogens: What Employees Must Know

Number: VT01698

Material: video, 15 minutes

Industry: general industry

This video provides practical tips and safe work practices for employees including personal protective equipment, safe work practices,

engineering controls, reporting exposure and labeling. J.J. Keller, 2001.

Preventing Bloodborne Disease

Number: VT00421

Material: video, 18 minutes

Industry: general industry

This video discusses bloodborne disease transmission, precautions, decontamination measures, and personal protective equipment for first responders and first aid providers. Primedia Workplace Learning, 1992.

Bridge Construction

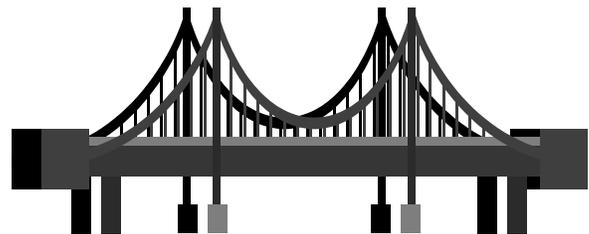

Bridge Construction Safety: Safe Span

Number: VT01423

Material: video, 10 minutes

Industry: construction

This video covers bridge construction hazards and safety measures including falls, cranes, and scaffolds. Associated General Contractors of America, 1993.

Cancer

Minimizing the Risks of Skin Cancer

Number: VT01513

Material: video, 12 minutes

Industry: all industries

This video, while geared toward farmers, covers safety measures for anyone required to work long hours in the sun including wearing sunscreen and protective clothing, gives SPF ratings for various types of clothing. Kansas State University, 1995.

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

Cold Stress

See also Heat Stress

Heat and Cold Stress

Number: VT01361
Material: video, 24 minutes
Industry: all industries

This video describes the hazards of working in hot and humid conditions and in cold environments. OSHA Office of Training and Education, 1985.

Hypothermia

Number: VT01604
Material: video, 7 minutes
Industry: all industries

This video discusses how to recognize the warning signs and how to prevent it including wearing the proper cold-weather PPE. Valley Video, 1998.

Compressed Gases

See also Welding and Cutting

Compressed Gas Cylinders: Storage

Number: VT01471
Material: video, 10 minutes
Industry: construction

This video discusses safety rules and procedures for the safe storage of compressed gas cylinders. Digital 2000, 1992.

Compressed Gas Cylinders: Using and Handling

Number: VT01472
Material: video, 8 minutes
Industry: construction

This video explains the hazards and procedures for the safe use, storage, and handling of compressed gas cylinders. Digital 2000, 1992.

Compressed Gases: Safe Handling

Number: VT01453
Material: video (closed-captioned), 18 minutes
Industry: all industries

This video provides information on both flammable and non-flammable compressed gases including classifications, labeling, handling cylinders, valves and leaks. Coastal Training Technologies, 1995.

Gas Cylinders: Handling and Storing

Number: VT01401
Material: video, 7 minutes
Industry: general industry

This video demonstrates the proper storage and handling procedures for many types of gases contained in cylinders. Summit Training Source, 1990.

Working Safely With Compressed Gases

Number: VT01697
Material: video, 15 minutes
Industry: all industries

This video covers the proper handling and storage of full and empty containers, emergency procedures, and the physical hazards of compressed gases. J.J. Keller, 1995.

Concrete Construction

► Concrete Construction Safety: Laying the Groundwork

Number: VT01751
Material: video, 13 minutes
Industry: construction

This video covers the hazards associated with concrete construction. Illinois Onsite Safety & Health Consultation Program, 2002.

Operation Safe Site: Concrete

Number: VT01203
Material: video, 11 minutes
Industry: construction

This program discusses safety procedures when working in concrete construction including form and shoring systems. Associated General Contractors of Mid-Florida, 1980.

Pave Your Way to Safety: Concrete Paving Safety

Number: VT01571
Material: video, 14 minutes
Industry: construction

This video covers general safety procedures for concrete paving including concrete hazards, heavy equipment, personal protective equipment, paving equipment maintenance, and traffic control. Associated General Contractors of America, 1993.

Training Materials by Subject 2004

Confined Spaces

Complete Confined Spaces Handbook

Number: T55.R45

Author: Rekus, John F.

Material: book, 381 pages

Industry: all industries

This book covers recommended procedures and guidance for safe entry into confined spaces. Lewis Publishers, 1994.

Confined Space Atmospheric Testing

Number: VT01663

Material: video (closed-captioned), 17 minutes

Industry: general industry

This video reviews the how and when to test, atmospheric hazards, procedures for proper pre-testing, and how to respond when air is determined to be unsafe. Coastal Training Technologies, 1992.

Confined Space Case Histories

Number: VT01434

Material: video (closed-captioned), 14 minutes

Industry: all industries

This video shows re-enactments of real-life confined space accidents and reviews what went wrong including atmospheric testing, ventilation and permits. Coastal Training Technologies, 1995.

► Confined Space Case Histories (Spanish)

Number: VT01716

Material: video, 14 minutes

Industry: all industries

See previous description. Coastal Training Technologies, 1995.

Confined Space Emergency Rescue

Number: VT01650

Material: video, 14 minutes

Industry: all industries

This video covers the hazards of confined spaces, the proper use of safety and rescue equipment, and rescue pre-planning and training. Summit Training Source, 1994.

Confined Space Entry

Number: VT01687

Material: video, 25 minutes

Industry: all industries

This video covers characteristics and types of confined space, hazards, control measures, entry permits, personal protective equipment, and rescue techniques. Primedia Workplace Learning, 1993.

Confined Space Entry: Clearing the Air

Number: VT01567

Material: video, 16 minutes

Material: construction

This video discusses the dangers of confined space entry, entry permits, air quality testing, ventilation, rescue procedures and personal protective equipment. Associated General Contractors of America, 1991.

Confined Space Entry: Construction

Number: VT01369

Material: video, 5 minutes

Industry: construction

This video explains hazards, procedures, and safety measures for entry into confined spaces including atmosphere testing. Digital 2000, 1993.

Confined Space Entry: Permit Required!

Number: VT01435

Material: video (closed-captioned), 21 minutes

Industry: all industries

This video covers the dangers of working in confined spaces and safety precautions including entry permit requirements, safe atmospheric testing, ventilation, and personal protective equipment. Coastal Training Technologies, 1990.

Confined Space Hazards

Number: VT01302

Material: video, 5 minutes

Industry: all industries

This video explains types of confined spaces, atmospheric and physical hazards, and safe work practices. Summit Training Source, 1990.

Confined Space Hotwork: Checklist to Safety

Number: VT01454

Material: video, 20 minutes

Industry: all industries

This video covers safety precautions required for confined space hotwork including hotwork permits, fire watch, and emergency rescue. Coastal Training Technologies, 1992.

Training Materials by Subject 2004

Confined Space Rescue

Number: VT01303

Material: video, 6 minutes

Industry: all industries

This video demonstrates simulated rescue situations, proper use of rescue and retrieval equipment, and rescue procedures. Summit Training Source, 1990.

Confined Space Rescue

Number: VT01599

Material: video (closed captioned), 31 minutes

Industry: general industry

This video reviews proper confined space entry, technical rescue procedures, different types of rescue systems and equipment, and developing the rescue team. Coastal Training Technologies, 1991.

Confined Space Ventilation

Number: VT01651

Material: video, 18 minutes

Industry: all industries

This video reviews the safety precautions required for confined space ventilation including the when and how to ventilate, atmospheric hazards, types of mechanical ventilation, and techniques. Coastal Training Technologies, 1992.

Confined Spaces: A Training Program for Employees

Number: VT01517

Material: video, 25 minutes

Industry: general industry

This video covers identification of confined space hazards, discusses entry permits, reviews training needs, and outlines standard requirements such as atmospheric testing and personal protective equipment. J.J. Keller, 1993.

Confined Spaces, Deadly Places

Number: VT01626

Material: video, 21 minutes

Industry: all industries

This video is based on real-life incidents that show the hazards that can befall untrained workers and permit violators including confined space hazards, oxygen deficiency, toxic atmospheres, engulfment, flammable or explosive atmospheres, and mechanical hazards. Safe Expectations, 1992.

Construction Confined Space Entry

Number: VT01455

Material: video (closed-captioned), 12 minutes

Industry: construction

This video covers skills for working safely in confined spaces including how to identify confined spaces, their hazards including oxygen deficiency and toxic gases, safety procedures and entry permits. Coastal Training Technologies, 1992.

Testing Confined Spaces

Number: VT00349

Material: video, 25 minutes

Industry: general industry

This video discusses a variety of methods for testing confined spaces, the dangers of flammable gases and the proper way to detect them, and the use of gas detector tubes and electronic gas detectors. Primedia Workplace Learning, 1986.

Construction Equipment

See also Backhoes; Cranes, Hoists and Conveyors; and Forklifts

Avoiding Struck By/Hit By for Construction

Number: VT01549

Material: video, 18 minutes

Industry: construction

This video covers safety precautions around heavy equipment and rotating/pivoting machinery, construction vehicle movement signals and alarms, proper stacking of building materials, protection from falling objects, and the use of personal protective equipment. J.J. Keller, 1996.

Construction Equipment Safety: Multiple Choice

Number: VT00354

Material: video, 24 minutes

Industry: construction

This video deals with heavy equipment operation safety through accident re-enactments that are freeze-framed at the actual moment of judgment. Viewers are asked to spot the hazards before the action is resumed. Allied Digital Technologies, 1984.

Training Materials by Subject 2004

Construction Equipment Safety: Shake Hands with Danger

Number: VT00259

Material: video, 23 minutes

Industry: construction

This award winning video shows re-enactments of hazardous situations faced by workers who operate and maintain heavy construction equipment, to stress the need to follow safe work practices. Allied Digital Technologies, 1984.

Skid Steer Loader Safety

Number: VT01677

Material: video, 8 minutes

Industry: construction

This video covers safety hazards including limited driver visibility, rollovers and contact with power lines; and safety procedures including pre-use inspection, refueling, and carrying the load. Associated General Contractors of America, 1994.

Trailer Construction Equipment Safety: Making the Move

Number: VT01696

Material: video, 14 minutes

Industry: construction

This video covers how to safely load, transport, and unload construction equipment from trailers. Associated General Contractors of America, 1996.

Working Around Construction Equipment

Number: VT01428

Material: video, 5 minutes

Industry: construction

This video discusses backing accidents and safe work practices for heavy equipment operators. Associated General Contractors of America, 1992.

Construction Safety

See also specific subjects such as Accidents, Fall Protection, Lockout/Tagout, OSHA, Scaffolding, Welding and Cutting, etc.

Bridge Construction Safety: Safe Span

Number: VT01423

Material: video, 10 minutes

Industry: construction

This video covers bridge construction hazards and safety measures including falls, cranes, and scaffolds. Associated General Contractors of America, 1993.

Construction Emergency Medical Response: Making a Difference

Number: VT01674

Material: video, 15 minutes

Industry: construction

This video covers what workers should do in an emergency situation and assists contractors in the development of an emergency medical plan. Associated General Contractors of America, 1999.

Construction Health Hazard Recognition

Number: VT01218

Material: video, 28 minutes

Industry: construction

This video identifies common chemical and physical hazards found on the jobsite and safety measures including personal protective equipment. Building and Construction Trades Council of Colorado, 1987.

Construction Health Risks

Number: VT01232

Material: video, 15 minutes

Industry: construction

This video discusses health hazards found on the construction-site including the effects of toxic chemicals, asbestos, welding fumes, and silica. Florida AFL-CIO United Labor Agency, 1989.

Construction Jobsite Safety

Number: VT01550

Material: video, 20 minutes

Industry: construction

This video covers how to recognize and avoid jobsite hazards such as power tools, heavy equipment, scaffolds, electrical, falls and safety measures such as personal protective equipment and emergency action plans. J.J. Keller, 1996.

Construction Repetitive Stress Injuries

Number: VT01639

Material: video, 5 minutes

Industry: construction

This video covers one of the fastest growing types of workplace injuries, its symptoms, proper work

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

techniques, and the effects of overexertion, incorrect posture, and excessive force. Safety Shorts, 1998.

Construction Safety: Choice or Chance?

Number: VT01280

Material: video, 15 minutes

Industry: construction

This video highlights the four leading causes of fatalities on construction job sites and stresses that safety is also the worker's responsibility. OSHA Office of Information and Consumer Affairs, 1996.

Construction Safety Essentials

Number: VT01548

Material: video, 23 minutes

Industry: construction

This video discusses jobsite hazards such as scaffolding, ladders, confined spaces, excavations, and safety measures such as personal protective equipment and fall arrest systems. Vocam, 1997.

Construction Safety: New Hire Safety Orientation

Number: VT01388

Material: video, 10 minutes

Industry: construction

This video discusses basic jobsite safety procedures including fire extinguisher use, hearing protection, hazardous substances, fall protection, housekeeping, electrical safety, ladders, and lifting. CoreMedia Training Solutions, 1991.

Construction Safety Planning

Number: TH443.M33

Author: MacCollum, David V.

Material: book, 285 pages

This book provides a broad overview and summary of safety considerations when planning for both large and small construction projects. Van Nostrand Reinhold, 1995.

Construction Safety Practices and Principles

Number: TH443.P48

Author: Peyton, Robert and Rubio, Toni C.

Material: book, 266 pages

Industry: construction

This book discusses how to integrate safety into jobsite operations including written safety and

health programs, hazard communication, and safety training. Van Nostrand Reinhold, 1991.

Construction Worker Safety Orientation: Getting the Job Done Safely

Number: VT01569

Material: video, 12 minutes

Industry: construction

This video outlines basic jobsite safety measures including personal protective equipment, manual material handling, fall protection, electrical hazards, excavations, and housekeeping. Assoc General Contractors of America, 1995.

Construction Worker Safety Orientation: Getting the Job Done Safely (Spanish)

Number: VT01607

Material: video, 12 minutes

Industry: construction

See previous description. Associated General Contractors of America, 1995.

Job Safety Analysis for Construction: Step-By-Step

Number: VT01572

Material: video, 14 minutes

Industry: construction

This video discusses the elements of the job safety analysis process used for planning work, and identifying and controlling potential job site hazards. Associated General Contractors of America, 1993.

Jobsite Safety Inspection: Controlling the Field

Number: VT01582

Material: video, 13 minutes

Industry: construction

This video discusses how to conduct jobsite safety inspections, developing and using safety checklists, identifying and eliminating hazards, follow-up on problem areas, and employee training. Associated General Contractors of America, 1991.

► OSHA 10-Hour Construction Industry PowerPoint Presentation

Number: CD01

Material: CD, 10 PowerPoint presentations

Industry: construction

This CD, designed to train workers, emphasizes hazard identification, avoidance and control in the

Training Materials by Subject 2004

following subjects: OSHA, electrical, fall protection, excavations, cranes, materials handling and storage, hand and power tools, ppe, scaffolds, and stairways and ladders. OSHA, 2003.

Permit-Required Activities

Number: VT01690

Material: video, 12 minutes

Industry: construction

This video discusses high-risk contractor work that requires a special work permit including identifying potential hazards, safe work practices for hot work, confined space entry, excavations, asbestos, and lockout/tagout. Summit Training Source, 1995.

Pile Driving Safety: Firm Footing

Number: VT01410

Material: video, 15 minutes

Industry: construction

This video describes common pile driving hazards and safety measures including overhead power lines, equipment inspection, and driving the pile. Associated General Contractors of America, 1993.

Safety: The Bottom Line

Number: VT01694

Material: video, 19 minutes

Industry: construction

This video is designed to show the value of sound safety programs and their economic benefits. Associated General Contractors of America, 1997.

Construction Trades

Carpenters: A Study of Hazards in the Construction Industry

Number: VT01153

Material: video, 12 minutes

Industry: carpentry and floor work

This video focuses on general safety and health hazards faced by carpenters on the construction-site including scaffolding, ladders, personal protective equipment, and power tools. Florida AFL-CIO United Labor Agency, 1986.

Construction Electricians: A Study of Hazards in the Construction Industry

Number: VT01102

Material: video, 18 minutes

Industry: construction

This video discusses jobsite hazards and safety including electrical theory and hazards, protective clothing, ladders, scaffolding, and power tools. Florida AFL-CIO United Labor Agency, 1987.

Ironworkers: A Study of Hazards in the Construction Industry

Number: VT01098

Material: video, 25 minutes

Industry: structural steel erection

This video discusses jobsite hazards and safety precautions including ladders, scaffolds, rigging, setting beams, bolting and welding. *NOTE: Body belts are no longer acceptable as part of a personal fall arrest system.* Florida AFL-CIO United Labor Agency, 1987.

Masonry Trades: A Study of Hazards in the Construction Industry

Number: VT01122

Material: video, 13 minutes

Industry: construction

This video covers construction-site hazards and safety measures including lifting techniques, cement dust, power tools and equipment, wall bracing and supports, and limited access zones. Florida AFL-CIO United Labor Agency, 1989.

Operating Engineers: A Study of Hazards in the Construction Industry

Number: VT01123

Material: video, 18 minutes

Industry: construction

This video discusses hazards and safety measures when operating cranes and heavy equipment including pre-operation inspection, load lifting techniques, power lines, and carrier operations. Florida AFL-CIO United Labor Agency, 1989.

Painters and Allied Trades: A Study of Hazards in the Construction Industry

Number: VT01161

Material: video, 26 minutes

Industry: painting and paper hanging

Training Materials by Subject 2004

This video covers jobsite safety and health hazards including ladders, scaffolds, abrasive blasting, spray painting, and hazardous chemicals. *NOTE: Body belts are no longer acceptable as part of a personal fall arrest system.* Florida AFL-CIO United Labor Agency, 1987.

Plumbing and Pipefitting Trades: A Study of Hazards in the Construction Industry

Number: VT01168

Material: video, 20 minutes

Industry: plumbing, heating & air-conditioning

This video covers construction-site hazards and safety measures including power tools, ladders, welding, and toxic fumes. Florida AFL-CIO United Labor Agency, 1990.

Sheet Metal Workers: A Study of Hazards in the Construction Industry

Number: VT01169

Material: video, 17 minutes

Industry: sheet metal work

This video discusses fabrication and installation hazards including shop machinery, slings and hoists, ladders, power tools, and electricity. Florida AFL-CIO United Labor Agency, 1987.

Corrosives

Chemical Handling: Corrosives

Number: VT01486

Material: video (closed-captioned), 12 minutes

Industry: all industries

This video reviews basic information about corrosives including characteristics, hazards, PPE, exposure symptoms, labeling, handling and storage. Coastal Training Technologies, 1992.

Corrosives

Number: VT00363

Material: video, 5 minutes

Industry: general industry

This video covers the hazards associated with corrosives, including battery acid and phosphates, proper handling and storage in the work environment. Summit Training Source, 1990.

Cranes, Hoists, and Conveyors

See also Rigging.

Chains, Cranes, & Slings

Number: VT01362

Material: video, 5 minutes

Industry: general industry

This video covers equipment pre-use inspection, load handling and sling angles. Training Network, 1992.

Chains, Cranes, Slings and Hoists

Number: VT01363

Material: video, 12 minutes

Industry: general industry

This video covers pre-use inspections, maintenance and proper use of lifting devices including equipment protection, safe load capacities and sling angles. Training Network, 1994.

Conveyors

Number: VT01640

Material: video, 6 minutes

Industry: general industry

This humorous video gives an overview of conveyor hazards including nip points and falling materials, and preventive measures including guards, warning signs, and safe work practices. Safety Shorts, 1996.

Crane and Sling Safety

Number: VT01390

Material: video, 19 minutes

Industry: general industry

This video covers basic safety procedures when working with overhead and jib boom cranes including daily inspection procedures, maintenance, lifting procedures, and proper use techniques. CoreMedia Training Solutions, 1992.

Crane Operation Safety

Number: VT01535

Material: video, 12 minutes

Industry: construction

This video focuses on the basic procedures for the safe operation of overhead and boom cranes including pre-operation inspection, sling maintenance and inspection, and operator training. Industrial Training Systems, 1995.

Training Materials by Subject 2004

Crane Safety Awareness for Site Superintendents

Number: VT01186

Material: video, 8 minutes

Industry: construction

This video highlights common hazards associated with construction mobile crane operations and discusses management responsibilities for safe operation on the jobsite. NTIS (Producer: OSHA Office of Construction and Engineering), 1992.

Crane Safety for Construction

Number: VT01315

Material: video, 13 minutes

Industry: construction

This video covers mobile crane pre-operation inspection, refueling, potential hazards such as power lines, load capacities, lifting procedures, and safety precautions. Digital 2000, 1992.

Crane Safety: Play it Safe

Number: VT01420

Material: video, 15 minutes

Industry: construction

This video covers crane safety practices for crane operators and riggers including daily pre-work inspection and maintenance, proper loading and moving a load, and surveying the jobsite for hazards such as overhead power lines. Associated General Contractors of America, 1992.

Cranes for Construction

Number: VT01190

Material: video, 14 minutes

Industry: construction

This video covers potential hazards, safe operating procedures including lifting procedures, pre-operation inspection and maintenance. Intl Union of Operating Engineers, 1988.

Gantry Crane Inspections

Number: VT01328

Material: video, 13 minutes

Industry: manufacturing

This video discusses pre-operation inspection including wire ropes, pendants, load hooks, counterweights, and hydraulic lines. Intl Union of Operating Engineers, 1988.

Hammerhead and Tower Crane Inspections

Number: VT01329

Material: video, 11 minutes

Industry: construction

This video discusses pre-operation inspection including wire ropes, pendants, load hooks, booms, counterweights, and hydraulic lines. Intl Union of Operating Engineers, 1988.

Hoists and Slings

Number: VT01635

Material: video, 14 minutes

Industry: all industries

This video covers the various types of hoists and slings, factors to consider when choosing a hoist or sling, safety practices, inspection procedures, proper care and storage. Summit Training Source, 2000.

Indoor Cranes: Safe Lifting Operations

Number: VT01602

Material: video (closed captioned), 19 minutes

Industry: general industry

This video covers pre-operation inspections, rigging techniques, and lifting and moving the load. Coastal Training Technologies, 1991.

Manbaskets in Construction

Number: VT01485

Material: video, 10 minutes

Industry: construction

This video covers safety measures including proper procedures for hoisting manbaskets using a crane or derrick. Coastal Training Technologies, 1997.

Mobile Crane Capacities: Construction

Number: VT01675

Material: video, 19 minutes

Industry: construction

This video provides information for the crane operator to make appropriate reductions in mobile crane capacities including crane inspection, leveling, wind effects, dynamic loading and duty cycle work. Associated General Contractors of America, 2000.

Mobile Crane Load Charts: Construction

Number: VT01656

Material: video, 5 minutes

Industry: all industries

▶ = New To Catalog

VT = Video Program

Training Materials by Subject 2004

This video covers load chart interpretations and usage including the importance of factoring in all variables for each lift. Summit Training Source, 1990.

Mobile Crane Setup: Construction

Number: VT01676

Material: video, 19 minutes

Industry: construction

This video provides information for the safe setup of mobile cranes including site condition hazards, leveling, blocking and planning the lift. Associated General Contractors of America, 2000.

Mobile Cranes

Number: VT01509

Material: video, 5 minutes

Industry: all industries

This video discusses the importance of pre-location set-up, pre-operation inspection, safe operating techniques, and planning the lift. Summit Training Source, 1990.

Mobile Cranes for Construction

Number: VT01336

Material: video, 11 minutes

Industry: construction

This video covers types of mobile cranes, hazards, pre-operation inspection and precautionary measures. Intl Union of Operating Engineers, 1988.

Overhead Crane Inspection: Cab Operated

Number: VT01340

Material: video, 14 minutes

Industry: manufacturing

This video covers safety hazards and pre-operation inspection including wire rope, load hooks, bridge truck wheels, controls, and trolley rails. Intl Union of Operating Engineers, 1988.

Overhead Crane Inspection: Pendant Floor Controlled

Number: VT01341

Material: video, 11 minutes

Industry: manufacturing

This video discusses safety hazards and pre-operation inspection including bridge rails, load blocks and hooks, wire ropes, and controls. Intl Union of Operating Engineers, 1988.

Pendant Controlled Crane Safety

Number: VT01669

Material: video, 14 minutes

Industry: general industry

This video covers safety considerations including pre-operation inspection, safe operating procedures, rigging, slings, use of hooks, moving and setting the load, and storage of the crane and block. Summit Training Source, 1997.

Safe Operation of Overhead Cranes

Number: VT01613

Material: video, 19 minutes

Industry: general industry

This video covers safe operation of pendant controlled overhead cranes and hoists including pre-operation inspections, operational checks, hand signals, weight capacity, planning the lift, and shutdown procedures. Safetycare, 1995.

Working Around Cranes

Number: VT01451

Material: video (closed-captioned), 19 minutes

Industry: general industry

This video covers hazards and safety measures around cranes including wire rope/lifting and signaling. Coastal Training Technologies, 1995.

Demolition

Demolition Safety: What Goes Up Must Come Down

Number: VT01573

Material: video, 1993

Industry: construction

This video describes the demolition process and safety measures including on-site preparations, pre-stressed concrete hazards, signs and barricades, cranes, and debris removal. Associated General Contractors of America, 1993.

Lead Safety in the Demolition Industry

Number: VT01260

Material: video, 15 minutes

Industry: wrecking and demolition

This video discusses lead exposure, its health effects, and ways of preventing exposure. National Association of Demolition Contractors, 1994.

Training Materials by Subject 2004

Lead Safety in the Demolition Industry (Spanish)

Number: VT01266

Material: video, 15 minutes

Industry: wrecking and demolition

See previous description. National Association of Demolition Contractors, 1994.

Driving Safety

Driver Attitude

Number: VT00364

Material: video, 5 minutes

Industry: all industries

This video covers safe driving procedures, seat belt use, and the effects of drugs and alcohol on driving. Summit Training Source, 1990.

► Driver's Safety: Thinking Ahead

Number: VT01741

Material: video, 14 minutes

Industry: construction

This video provides instruction on safe driving practices for construction workers required to operate motor vehicles while on the job. Associated General Contractors of America, 1996.

► Driving Safety: Highway-Rail Crossing Safety

Number: VT01713

Material: video, 18 minutes

Industry: commercial vehicles

This video shows a reenactment of a train/school bus crash to illustrate the dangers of not following safety procedures when crossing railroad tracks, also includes a ten-step procedure for safe driver actions. Idaho Dept of Law Enforcement, 1991.

► Driving Safety: The Safety Zone

Number: VT01714

Material: video, 16 minute

Industry: all industries

This video addresses what safety precautions car drivers should take when driving in close proximity to trucks including the difference in weight ratios, blind spots, turning space, safe driving distances, and stopping distance. Idaho Dept of Law Enforcement, 1995.

Egress

See also Emergency Action Plans

Egress/Exit Safety

Number: VT01641

Material: video, 5 minutes

Industry: general industry

This video discusses exit doors, safe exits, clear paths, blocked exits, and employee awareness of exit locations. Safety Shorts, 1992.

Means of Egress

Number: VT01475

Material: video, 5 minutes

Industry: general industry

A Laurel and Hardy spoof showing the consequences of improperly marked exits and blocked exits. Kirkwood Community College, 1995.

Electrical Safety

See also Lockout/Tagout

Avoiding Electrical Hazards

Number: VT01430

Material: video, 19 minutes

Industry: general industry

This video discusses working safely around electricity including personal protection, working on energized circuits, lockout/tagout, and working near power lines. Coastal Training Technologies, 1989.

Avoiding Electrical Hazards (Spanish)

Number: VT01614

Material: video, 19 minutes

Industry: general industry

See previous description. Coastal Training Technologies, 1994.

Basic Electrical Safety

Number: VT01281

Material: video, 7 minutes

Industry: all industries

This video discusses the properties of electricity, its hazards, and working safely with electric powered tools and equipment. Training Network, 1992.

Training Materials by Subject 2004

Basic Electrical Safety: Construction Safety

Number: VT01387

Material: video, 7 minutes

Industry: construction

This video discusses the properties of electricity and the hazards involved in working with electric power tools and equipment including grounding, extension cords, inspection and maintenance, and working in wet weather. CoreMedia Training Solutions, 1991.

Basic Electrical Safety on the Job Site

Number: VT01313

Material: video, 11 minutes

Industry: construction

This video reviews the principles and properties of electricity, its hazards, and the safe use of electrical equipment and extension cords on the job site. Digital 2000, 1992.

Basic Electrical Safety on the Job Site (Spanish)

Number: VT01499

Material: video, 11 minutes

Industry: construction

See previous description. Digital 2000, 1992.

Construction Electrical Safety

Number: VT01456

Material: video (closed-captioned), 10 minutes

Industry: construction

This video covers the properties of electricity, electrical hazards, accident response, and proper work practices including the safe use of power tools and equipment. Coastal Training Technologies, 1993.

Construction Temporary Electricity: Take Charge

Number: VT01426

Material: video, 18 minutes

Industry: construction

This video covers electrical hazards found on the jobsite, how electricity works, safety measures, GFCIs, extension cords, power tools, and temporary power installations. Associated General Contractors of America, 1991.

Contractor Beware: Guide to Power Line Safety

Number: VT01708

Material: video, 16 minutes

Industry: construction

This video covers, through testimonials of people who were injured by contact with power lines, safety precautions when working near overhead or underground power lines including how electricity can kill, operating cranes and heavy equipment such as backhoes, and calling electric utilities before you dig. Connecticut Light & Power, 1997.

Electrical Case Histories: Fatal Shock

Number: VT01439

Material: video (closed-captioned), 20 minutes

Industry: general industry

This video covers, through re-enactments of real-life electrical accidents, electrical principles and safety procedures including PPE and personal verification of lockout/tagout. Coastal Training Technologies, 1995.

Electrical Power Generation: High Voltage

Number: VT01488

Material: video, 27 minutes

Industry: general industry

This video presents safety information for electric utilities operations including working on or near exposed energized parts and overhead power lines. Coastal Training Technologies, 1994.

Electrical Principles

Number: VT01558

Material: video (closed-captioned), 14 minutes

Industry: all industries

This video teaches basic electrical principles including how electricity works, electrical circuits, grounding, and circuit protection devices such as GFCIs. Coastal Training Technologies, 1988.

Electrical Safety

Number: VT00117

Material: video, 27 minutes

Industry: general industry

This video covers everyday encounters that electricians and maintenance personnel have with electricity including circuits, fuses, grounding and lockout. Primedia Workplace Learning, 1984.

Training Materials by Subject 2004

Electrical Safety and Asbestos Abatement

Number: VT01094

Material: video, 12 minutes

Industry: construction

This video describes electrical fundamentals, effects of electrical shock, and electrical hazards on asbestos removal sites. NOTE: *OSHA does not require explosion-proof lighting or equipment unless some other hazard is present which would require its use.* Intl Association of Heat and Frost Insulators and Asbestos Workers, Local 22, 1987.

Electrical Safety: Basic Principles

Number: VT01664

Material: video, 15 minutes

Industry: general industry

This video covers basic electrical safety principles, safe work practices, emergency response procedures, and circuit protection devices. Coastal Training Technologies, 2000.

Electrical Safety: Construction

Number: VT01372

Material: video, 5 minutes

Industry: construction

This video covers basic safety rules when working with electrical tools and equipment including plugs, cords, and GFCI's. Digital 2000, 1993.

Electrical Safety: Ground Fault Circuit Interrupters

Number: VT01580

Material: video, 11 minutes

Industry: construction

This video covers what GFCI's are all about, how they work, and general safety procedures for protection against electrical shock. Digital 2000, 1992.

► Electrical Safety: Ground Fault Circuit Interrupters (Spanish)

Number: VT01726

Material: video, 11 minutes

Industry: construction

See previous description. Digital 2000, 1992.

Electrical Safety in Construction

Number: VT01380

Material: video, 19 minutes

Industry: construction

This video covers both temporary and permanent jobsite installations of electricity including GFCI's, temporary hook-ups, power tools and cord sets. J.J. Keller, 1996.

Electrical Safety Overview

Number: VT01282

Material: video, 10 minutes

Industry: general industry

This video discusses the properties of electricity and its hazards, the inspection and care of electrical equipment and power tools, and safe work practices including grounding, GFCIs, and lockout/tagout. Digital 2000, 1993.

Electrical Safety: Real, Real-Life

Number: VT01601

Material: video (closed captioned), 13 minutes

Industry: general industry

This video explains, through re-enactments of real-life situations, hazards and safety practices when working with or around electricity including PPE, proper grounding, and the use of GFCIs. Coastal Training Technologies, 1998.

► Electrical Safety: Real, Real-Life (Spanish)

Number: VT01717

Material: video, 13 minutes

Industry: general industry

See previous description. Coastal Training Technologies, 1998.

Electrical Safety: Safe Work Practices

Number: VT01304

Material: video, 5 minutes

Industry: general industry

This video describes electrical hazards, maintaining proper work distances from electrical sources, proper tools and equipment, and personal protective equipment. Summit Training Source, 1990.

Electrical Safety: The Hazards of Electricity

Number: VT01400

Material: video, 6 minutes

Industry: general industry

This video covers the basic principles of electricity, the causes of electrocution and electrical shock and electricity as the source of fire. Summit Training Source, 1990.

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

Use of Electrical Equipment in Hazardous Locations

Number: VT01352

Material: video, 16 minutes

Industry: all industries

This video discusses the three classifications of hazardous locations and requirements for approved electrical equipment. Utility Workers Union of America, 1987.

Working Around High Voltage

Number: VT01429

Material: video, 6 minutes

Industry: construction

This video discusses safety measures when working around overhead and underground power lines including what to do if contact does occur. Associated General Contractors of America, 1992.

Emergency Action Plans

See also Egress

Emergency Action Plans: I Plan to Live

Number: VT01642

Material: video, 5 minutes

Industry: general industry

This humorous video covers warning signals, responsibility lists and assignments, exit routes, and evacuation procedures. Safety Shorts, 1992.

Emergency Action Plans: Spiral to Disaster

Number: VT01636

Material: video, 24 minutes

Industry: all industries

This video covers, using the Piper Alpha oil rig explosion as a backdrop, what makes a good Emergency Action Plan including awareness of work-area hazards, risk analysis, safe work practices, training, emergency procedures, and evacuation drills. Coastal Training Technologies, 2000.

Emergency Evacuation Training

Number: VT01522

Material: video (closed captioned), 18 minutes

Industry: general industry

This video gives step-by-step instructions on procedures to follow in an emergency including the important role of pre-planning exit routes, egress, assembly areas, lines of authority, and all-clear signals. Safe Expectations, 1990.

Fire! Getting Out Alive

Number: VT01524

Material: video, 18 minutes

Industry: general industry

This video discusses how to prepare for a fire emergency including exit posting and egress, fire drills, emergency evacuation plans, and employee fire education and preparation training. Safe Expectations, 1995.

Ergonomics

See also Back Safety

Basic Ergonomics

Number: VT01637

Material: video, 5 minutes

Industry: all industries

This humorous video provides a definition, gives a short history, and covers its relevance in the workplace. Safety Shorts, 1989.

Carpal Tunnel

Number: VT00361

Material: video, 5 minutes

Industry: general industry

This video describes the nature of carpal tunnel syndrome and ways to eliminate the stress caused by this repetitive motion injury. Summit Training Source, 1990.

Construction Repetitive Stress Injuries

Number: VT01639

Material: video, 5 minutes

Industry: construction

This video covers one of the fastest growing types of workplace injuries, its symptoms, proper work techniques, and the effects of overexertion,

Training Materials by Subject 2004

incorrect posture, and excessive force. Safety Shorts, 1998.

Ergonomic Programs That Work

Number: VT01498

Material: video, 21 minutes

Industry: general industry

This video discusses various aspects of an ergonomics program by visiting four companies and reviewing their programs. OSHA Office of Information and Consumer Affairs, 1998.

Ergonomics in the Workplace

Number: VT01393

Material: video, 18 minutes

Industry: general industry

This video addresses production line tasks, cumulative trauma disorders, identification of workplace activities that can cause CTD such as manual materials handling, and prevention measures. Primedia Workplace Learning, 1995.

Ergonomics: Solving the Puzzle

Number: VT01623

Material: video, 18 minutes

Industry: general industry

This video covers how to create an ergonomic work environment, how to reduce repetitive motion injuries, and how to create a successful ergonomics program. Coastal Training Technologies, 2000.

Ergonomics: The Finest Tools

Number: VT01271

Material: video, 24 minutes

Industry: all industries

This video explains the factors that contribute to hand/wrist repetitive motion disorders including hand position and force, symptoms, and reducing stress through job redesign. NTIS (Producer: NIOSH), 1982.

Ergonomics: Your Body at Work

Number: VT01624

Material: video, 20 minutes

Industry: general industry

This award winning video reviews ergonomic mechanics, cumulative trauma disorders and contributing factors, worksite analysis, and low-cost ergonomic worksite improvements. Coastal Training Technologies, 1991.

Hand/Arm Vibration Syndrome

Number: VT01270

Material: video, 25 minutes

Industry: all industries

This video covers the cause, symptoms, assessment, and treatment of this cumulative trauma disorder. NTIS (Producer: NIOSH), 1990.

Power Zone Ergonomics

Number: VT01631

Material: video, 10 minutes

Industry: general industry

This video covers manufacturing and office work station design including visual access, work reach zones, standing, and hand-wrist stress. Illinois Onsite Safety & Health Consultation Program, 2000.

Preventing Back Injuries and Other CTD's: Construction

Number: VT01710

Material: video, 18 minutes

Industry: construction

This video discusses how the body works, the best body positions for doing work, back function and injury, proper lifting, proper shoveling, and the three risk factors for cumulative trauma injury, which are force, position, and repetition. National Roofing Contractors Association, 1996.

Repetitive Stress Injures: Manufacturing

Number: VT01644

Material: video, 6 minutes

Industry: general industry

This video covers the symptoms of this painful disorder, proper work techniques, and the effects of overexertion, incorrect posture, lifting, twisting, and improper wrist positions. Safety Shorts, 1998.

Excavations

Competent Person and Soils Testing

Number: VT01504

Material: video, 27 minutes

Industry: construction

This video covers who is considered the "competent person" and their responsibilities, soil classification system, and five easy field tests for determining soil

Training Materials by Subject 2004

types including a pocket penetrometer. Zomar Productions, 1992.

Construction Shoring Safety

Number: VT01505

Material: video, 24 minutes

Industry: construction

This video covers how to install timber, screwjack and hydraulic shoring systems, determining soil types, sheeting designs, and safety hazards unique to trenching operations. Zomar Productions, 1990.

Construction Trenching and Shoring

Number: VT01459

Material: video (closed-captioned), 10 minutes

Industry: construction

This video covers safety guidelines including site evaluation, protective systems, and emergency response. Coastal Training Technologies, 1992.

Excavation and Trenching Safety: On Solid Ground

Number: VT01418

Material: video, 18 minutes

Industry: construction

This video covers identifying jobsite hazards and conditions, access and egress to trench, hazardous atmospheres, emergency rescue, methods of sloping, shoring and shielding, and soil classification. Associated General Contractors of America, 1990.

Excavation Safety for Workers: In the Trenches

Number: VT01415

Material: video, 14 minutes

Industry: construction

This video discusses trench hazards, how hazards can be reduced through sloping and shielding, and how to safety work in and around them. Associated General Contractors of America, 1996.

Excavations: 29 CFR 1926, Subpart P

Number: VT01242

Material: video, 23 minutes

Industry: construction

This video discusses the hazards associated with excavation operations and safe work practices and control measures to prevent accidents. NTIS (Producer: OSHA Office of Training and Education), 1992.

Excavations, Trenches and Shoring

Number: VT01294

Material: video, 14 minutes

Industry: construction

This video provides an overview of protective systems, regulatory requirements and safe work practices. Summit Training Source, 1996.

Survival in Excavation: Safe Working Around Existing Utilities

Number: VT01706

Material: video, 20 minutes

Industry: construction

This video, an orientation for excavators, describes how to safely plan the job from start to finish. Associated General Contractors of America, 1996.

Trench Emergency: Cave-In!

Number: VT01468

Material: video, 14 minutes

Industry: construction

This video reviews, through showing an actual cave-in, the dos and don'ts of trench rescue including the dangers posed by trenches, shoring and shielding, and preparing a rescue team. Coastal Training Technologies, 1993.

Trenching and Excavation Safety

Number: VT01659

Material: video, 18 minutes

Industry: construction

This video explains the hazards created by digging trenches and excavations, how these hazards can be reduced by sloping, shielding, and shoring systems, and by following safe work practices. Zomar Productions, 1987.

Trenching and Shoring

Number: VT01378

Material: video, 5 minutes

Industry: construction

This video explains trenching basics such as soil classification and various types of shoring and shielding. Digital 2000, 1992.

Trenching and Shoring Operations

Number: VT01322

Material: video, 12 minutes

Industry: construction

Training Materials by Subject 2004

This video explains how to avoid cave-ins by following safety precautions including proper sloping, types of shoring, types of shielding, and soil classification. Digital 2000, 1992.

Trenching and Shoring Operations (Spanish)

Number: VT01502

Material: video, 12 minutes

Industry: construction

See previous description. Digital 2000, 1992.

Trenching and Shoring Safety: Cave-In!

Number: VT01431

Material: video (closed-captioned), 18 minutes

Industry: construction

This video covers trench hazards and cave-in prevention including site evaluation, soil testing, protective systems, and emergency response. Coastal Training Technologies, 1994.

Trenching and Shoring: Safety Training Program

Number: VT01555

Material: video, 19 minutes

Industry: construction

This video covers safety and health hazards including falling rock or soil and oxygen deficiencies, soil classification, competent person, installation of protective support systems, sloping including and benching, and emergency cave-in response. J.J. Keller, 1993.

Explosives and Blasting

Blasting and Explosives for Construction and Industry I

Number: VT01355

Material: video, 15 minutes

Industry: construction

This video covers the basics of safe blasting and use of explosives. Associated General Contractors of Mid-Florida, 1986.

Blasting and Explosives for Construction and Industry II

Number: VT01356

Material: video, 21 minutes

Industry: construction

This video discusses the safe transportation, storage, and handling of explosives. Associated General Contractors of Mid-Florida, 1986.

Blasting and Explosives for Construction and Industry III

Number: VT01357

Material: video, 10 minutes

Industry: construction

This video covers accidents and their prevention including initiation of the blast, disposal of misfires, and warning signals. Associated General Contractors of Mid-Florida, 1986.

Working Safely Around Explosives

Number: VT01574

Material: video, 5 minutes

Industry: construction

This video covers basic safety procedures including storage facilities, transportation, loading the charge, and blasting area precautions. Associated General Contractors of America, 1992.

Eye Protection

See also Personal Protective Equipment

Eye and Face Protection: Safety Gear

Number: VT01518

Material: video, 11 minutes

Industry: all industries

This video describes different types of safety glasses, goggles, face shields, and helmets used to protect the eyes and face from debris, chemicals, and dangerous light. Aims Multimedia, 1989.

► Eye and Face Protection: Safety Gear (Spanish)

Number: VT01727

Material: video, 11 minutes

Industry: all industries

See previous description. Aims Multimedia, 1989

Eye Safety

Number: VT00144

Material: video, 20 minutes

Industry: general industry

This video discusses three kinds of eye hazards, the specific type of eye protection for each hazard, and

Training Materials by Subject 2004

proper first aid procedures are demonstrated. Primedia Workplace Learning, 1985.

Eye Safety

Number: VT00365

Material: video, 5 minutes

Industry: general industry

This video covers the importance of eye protection, common eye injuries, and the selection and use of eye protection. Summit Training Source, 1990.

Eye Safety: Your Eyes are Different

Number: VT01653

Material: video, 14 minutes

Industry: general industry

This video stresses, through its depiction of near misses, the need to consistently wear eye protection, common eye injuries, and how to choose the correct type of eyewear for the job. CoreMedia Training Solutions, 1994.

Eyewashes and Safety Showers

Number: VT01702

Material: video, 12 minutes

Industry: all industries

This video reviews the correct operation and use of eyewashes and safety showers, equipment testing, accident prevention, reading MSDS, and proper procedures in chemical contact. Training Network, 1994.

Fall Protection

See also Housekeeping; and Walking and Working Surfaces

Construction Fall Protection: Get Arrested!

Number: VT01557

Material: video (closed-captioned), 11 minutes

Industry: construction

This humorous video covers the effective use of body harness and lanyard in personal fall arrest systems, as well as positioning systems, proper anchorage techniques, floor hole covers, and guardrail construction. Coastal Video Communications, 1998.

Construction Fall Protection: Get Arrested! (Spanish)

Number: VT01615

Material: video, 12 minutes

Industry: construction

See previous description. Coastal Training Technologies, 1998.

Construction Fall Protection: Hook Up

Number: VT01487

Material: video (closed-captioned), 10 minutes

Industry: construction

This video discusses the proper use of fall arrest equipment, fall arrest distances, anchorage and tie-off points, equipment inspection, positioning systems, and rescue of fallen workers. Coastal Video Communication, 1995.

Fall Free: Employer Training

Number: VT01289

Material: video, 25 minutes

Industry: construction

This video covers the requirements of 1926 Subpart M for supervisory and management personnel including fall hazards and their controls, protective systems, management responsibilities, and employee training requirements. Chicago Construction Safety Council, 1995.

Fall Free: Toolbox Talk

Number: VT01288

Material: video, 9 minutes

Industry: construction

This video focuses on the proper use of fall arrest equipment including body harnesses, lanyards, and lifelines. Chicago Construction Safety Council, 1995.

Training Materials by Subject 2004

Fall Prevention: Elevated Work Surfaces

Number: VT01394

Material: video, 21 minutes

Industry: all industries

This video covers safety procedures for working on and inspection of elevated work surfaces including aerial lifts and scaffolds. Primedia Workplace Learning, 1993.

Fall Protection for Construction

Number: VT01556

Material: video (closed-captioned), 24 minutes

Industry: construction

This video covers fall protection systems including guardrails, nets, personal fall arrest, positioning devices, warning lines, floor and hole covers, and controlled access zones. J.J. Keller, 1995.

► Fall Protection for Ironworkers

Number: VT01749

Material: video, 17 minutes

Industry: construction

This video covers fall restraint systems, fall arrest systems, positioning devices, equipment inspection, and controlled decking zones. Coastal Training Technologies 2001.

Fall Protection for the Construction Industry: Heightened Awareness

Number: VT01413

Material: video, 20 minutes

Industry: construction

This video covers types of fall protection systems and where they should be used including personal fall arrest systems, guardrails, safety nets, floor covers, warning lines, and controlled access zones. Associated General Contractors of America, 1995.

Fall Protection for the Construction Industry: Heightened Awareness (Spanish)

Number: VT01515

Material: video, 20 minutes

Industry: construction

See previous description. Associated General Contractors of America, 1995.

Fall Protection: Taking Control

Number: VT01295

Material: video, 11 minutes

Industry: all industries

This video discusses how to recognize potential fall hazards and how to correctly select and use fall arrest equipment including anchor points, rope grabs, full body harnesses, lanyards, and lifelines. Summit Training Source, 1994.

Fall Protection: The Basics

Number: VT01537

Material: video, 10 minutes

Industry: all industries

This humorous video covers engineering controls such as guardrails, barriers, and nets; and personal fall arrest systems including body harnesses, lifelines, lanyards, and anchorages. Industrial Training Systems, 1996.

How Far Is That Fall?

Number: VT01511

Material: video, 22 minutes

Industry: construction

This video covers fall distance calculations for personal fall arrest systems as found in OSHA regulation 1926.502(d)(16). OSHA Office of Training and Education, 1998.

► Residential Fall Protection: Nailing It Down

Number: VT01754

Material: video, 13 minutes

Industry: construction

This video covers fall hazards in the residential construction industry. Illinois Onsite Safety & Health Consultation Program, 2002.

Residential Fall Protection: New Options

Number: VT01291

Material: video, 13 minutes

Industry: construction

This video discusses interim fall protection measures during the rulemaking period. OSHA Directorate of Technical Support, 1996.

Fire Extinguishers

Fire Extinguisher Operation: Construction

Number: VT01568

Material: video, 5 minutes

Industry: construction

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

This video discusses classes of fires, types of fire extinguishers, inspection, operation, and location on the jobsite for visibility and accessibility. Assoc General Contractors of America, 1995.

Fire Extinguisher Safety

Number: VT01391

Material: video, 11 minutes

Industry: general industry

This video discusses knowing your company's fire escape plan, finding out where fire extinguishers are located at your worksite, the four classes of fires, types of fire extinguishers, and their proper use. CoreMedia, 1996.

Fire Extinguisher Training

Number: VT01373

Material: video, 5 minutes

Industry: all industries

This video covers the four classes of fires, the types of fire extinguishers, and their proper use. Digital 2000, 1993.

Fire Extinguisher Training (Spanish)

Number: VT01647

Material: video, 5 minutes

Industry: all industries

See previous description. Digital 2000, 1994.

Fire Extinguishers

Number: VT01507

Material: video, 5 minutes

Industry: all industries

This video covers classification of extinguishers, the type of fire for which they are suited, and their proper use. Summit Training Source, 1990.

Portable Fire Extinguishers

Number: VT01492

Material: video (closed-captioned), 14 minutes

Industry: all industries

This video discusses the four difference classes of fire, how to choose the appropriate fire extinguisher and the basics of fire extinguisher use. Coastal Training Technologies, 1990.

Fire Prevention

See also Egress; Emergency Action Plans; and Fire Extinguishers

Construction Fire Prevention: Avoid the Heat

Number: VT01405

Material: video, 15 minutes

Industry: construction

This video discusses fire hazards and prevention including storage of combustibles and flammables, control of welding sparks and fire watch, safety cans, and the types and use of fire extinguishers. Associated General Contractors of America, 1992.

Fire! In the Workplace

Number: VT01440

Material: video (closed-captioned), 17 minutes

Industry: general industry

This video covers the recognition of potential hazards, the fire triangle, classes of fires, fire extinguisher use, and how to extinguish small fires. Coastal Training Technologies, 1989.

Fire Prevention for Construction

Number: VT01578

Material: video, 12 minutes

Industry: construction

This video discusses fire hazards and prevention on the job site including proper storage of flammables, safety cans, electrical safety, good housekeeping practices, and the types and use of fire extinguishers. Digital 2000, 1992.

Fire Safety

Number: VT01551

Material: video, 15 minutes

Industry: general industry

This video presents the elements of combustion, the classes for fire, fire hazards commonly found in the workplace, types and use of fire extinguishers, and evacuation procedures. J.J. Keller, 1993.

Fire Safety: Real, Real-Life

Number: VT01559

Material: video (closed-captioned), 15 minutes

Industry: all industries

This humorous video shows reenactments of fire situations, asks viewers how they would respond, discusses the elements and classes of fire, fire

Training Materials by Subject 2004

prevention, fire extinguishers, emergency action plans. Coastal Training Technologies, 1998.

Fire Safety: There's No Second Chance

Number: VT01460

Material: video (closed-captioned), 20 minutes

Industry: general industry

This video re-creates a workplace fire and discusses the elements and classes of fire, fire prevention, emergency action plans, types of fire extinguishers and their use. Coastal Training Technologies, 1996.

First Aid

Chemical Burns

Number: VT00362

Material: video, 5 minutes

Industry: general industry

This video discusses safe work practices, the use of chemical-resistant personal protection, and first aid measures. Summit Training Source, 1990.

Thermal Burns

Number: VT00393

Material: video, 5 minutes

Industry: general industry

This video covers safe work practices and the do's and don'ts when treating a burn victim. Summit Training Source, 1990.

Flammable Materials

Chemical Handling: Flammables

Number: VT01432

Material: video (closed-captioned), 14 minutes

Industry: all industries

This video covers basic information about handling flammables and combustibles including their characteristics, hazards, ignition, labeling, emergency response, handling and storage. Coastal Training Technologies, 1992.

Flammable Liquids

Number: VT01305

Material: video, 7 minutes

Industry: general industry

This video covers the characteristics of, hazards of, and proper handling and storing of flammable liquids. Summit Training Source, 1990.

Materials Handling and Storage: Hazardous and Flammable Materials

Number: VT01606

Material: video, 9 minutes

Industry: all industries

This humorous video covers safety principles for the handling and storage of large quantities of hazardous and flammable materials including manual and equipment handling, stacking, proper storage techniques, and storage areas. Industrial Training Systems, 1995.

Safe Storage of Flammable Liquids

Number: VT01344

Material: video, 10 minutes

Industry: all industries

This video reviews information about flammable safety containers, storage, and use. United Furniture Workers of America, 1986.

Food Service

It's a Wonderful Kitchen: Injury Prevention for Food Service Workers

Number: VT01496

Material: video, 12 minutes

Industry: food service

This video identifies the most common food service-related injuries and methods of prevention including slips and falls, burns and scalds, and cuts. New York State Department of Health, 1991.

Foot Protection

See also Personal Protective Equipment

Foot Protection

Number: VT01374

Material: video, 5 minutes

Industry: all industries

This video discusses various types of hazards, foot injuries and the importance of wearing the proper foot protection on the job. Digital 2000, 1993.

Training Materials by Subject 2004

Foot Protection: Safety Gear

Number: VT01519

Material: video, 11 minutes

Industry: all industries

This video covers foot injuries, workplace hazards, classification of safety shoes, and the purpose of toe shields, metatarsal guards, and puncture-resistant soles. Aims Multimedia, 1989.

► **Foot Protection: Safety Gear (Spanish)**

Number: VT01728

Material: video, 11 minutes

Industry: all industries

See previous description. Aims Multimedia, 1989

Forklift Trucks

Construction Forklift Safety

Number: VT01314

Material: video, 14 minutes

Industry: construction

This video covers pre-operation inspection, maintenance, safe operating procedures, and forklift engineering principles such as leverage and stability. Digital 2000, 1991.

Construction Forklifts

Number: VT01457

Material: video, 9 minutes

Industry: construction

This video covers safe operating procedures for both fixed mast lift and extended reach forklifts including start-up inspections, lifting principles, rated load capacity, center of gravity, and moving a load. Coastal Training Technologies, 1996.

Construction Forklifts: Extending Your Reach

Number: VT01593

Material: video, 14 minutes

Industry: construction

This video covers extended reach forklift safety including lifting principles, start-up inspections, load stability, leverage, rated load capacity, moving the load, electrical hazards, and safety procedures. Coastal Training Technologies, 1999.

Forklift Case Histories: Serious Business

Number: VT01449

Material: video (closed-captioned), 18 minutes

Industry: general industry

This video shows re-enactments of real-life forklift accidents and discusses safe work practices, securing the platform and load, lifting, safe speed and turning, and awareness of surroundings. Coastal Training Technologies, 1992.

Forklift Driving Skills

Number: VT00368

Material: video, 5 minutes

Industry: general industry

This video describes techniques for driving on wet, rough and inclined surfaces and proper procedures for load handling. Summit Training Source, 1990.

Forklift Fundamentals: Get the Facts

Number: VT01594

Material: video, 18 minutes

Industry: general industry

This video covers powered industrial truck design, controls and instrumentation, pre-operation safety inspection, and the vehicle stability triangle. Coastal Training Technologies, 1997.

Forklift Load Capacity

Number: VT01654

Material: video, 5 minutes

Industry: general industry

This video demonstrates proper load balance and weight capacity, the importance of the three-point suspension system and the effect of the stability triangle. Summit Training Source, 1990.

Forklift Operations: Carry the Load

Number: VT01595

Material: video, 19 minutes

Industry: general industry

This video discusses operating conditions and hazards including surface conditions, lifting and putting down the load, load stability, traveling tips, working with stacks, vehicle and pedestrian traffic. Coastal Training Technologies, 1999.

Forklift Pre-Operation Inspection

Number: VT01655

Material: video, 5 minutes

Industry: general industry

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

This video covers the pre-operation inspection checklist, proper forklift maintenance, and basic forklift features. Summit Training Source, 1990.

Forklift Safe Driving

Number: VT00371

Material: video, 5 minutes

Industry: general industry

This video demonstrates how accidents occur and safe driving techniques. Summit Training Source, 1990.

Forklift Safety: Loads of Experience

Number: VT01392

Material: video, 15 minutes

Industry: general industry

This video focuses on the responsibilities of pedestrians who are working around lift trucks to prevent accidents including eye contact with the driver, safe distance, safe work zone, and safe drop zone. CoreMedia Training Solutions, 1990.

Forklift Safety: On the Go

Number: VT01584

Material: video, 17 minutes

Industry: construction

This video on extended reach forklifts discusses pre-operation inspection, vehicle center of balance, load capacities, and safe operation including lifting, moving, and stacking loads. Associated General Contractors of America, 1994.

Forklift Safety: Safe Driving Skills

Number: VT01296

Material: video, 14 minutes

Industry: general industry

This video discusses hazard awareness and safe work practices including driving skills, proper load handling and lifting techniques, and driving on various surfaces such as inclines and dock plates. Summit Training Source, 1995.

Forklift Safety: The Color of Danger

Number: VT01526

Material: video, 17 minutes

Industry: general industry

This award winning video uses re-enactments of actual accidents to show the consequences of a lapse in concentration or safe driving procedures in

various industrial setting including docks and warehouses. Allied Digital Technologies, 1982.

Forklift Walk-Behinds

Number: VT00372

Material: video, 5 minutes

Industry: general industry

This video covers the safe operation of handtrucks including pre-operation inspection and load capacity. Summit Training Source, 1990.

Forklifts and Pedestrians

Number: VT00373

Material: video, 5 minutes

Industry: general industry

This video uses live-action accident scenarios to show how serious forklift accidents involving pedestrians can be prevented. Summit Training Source, 1990.

Foundries

Caution: Foundry at Work

Number: VT01628

Material: video, 10 minutes

Industry: general industry

This video covers foundry operations, safe work practices, hazard control, and health and safety hazards including metal fumes, noise, heat, and silica. NIOSH, 1997.

Grain Elevators

Deadly Dust II

Number: VT01540

Material: video, 30 minutes

Industry: grain elevators

This video shows dramatic scenes of grain elevator explosions, the devastation caused by the blast, demonstrations on how and why these explosions occur, and emergency planning. Kansas State University, 1990.

Deadly Dust III

Number: VT01541

Material: video (closed-captioned), 22 minutes

Industry: grain elevators

Training Materials by Subject 2004

This video features two employees who survived major dust explosions, dramatic scenes of actual explosions, stop motion demonstrations of how primary and secondary explosions occur, and prevention measures. Kansas State University, 1995.

Grain Elevator Safety Orientation

Number: VT01709

Material: video, 14 minutes

Industry: agriculture

This video demonstrates safe work practices including the use of PPE, electrical safety, ladder safety, slip hazards, truck and wagon grain unloading, entering grain bins, engulfment hazards, and grain dust explosion causes and prevention. Illinois Onsite Safety & Health Consultation Program, 2001.

Grinding Wheels

Grinding

Number: VT01402

Material: video, 7 minutes

Industry: general industry

This video discusses engineering controls, proper PPE, and techniques of safe grinding operations. Summit Training Source, 1990.

Grinding Safety: The Rule of Muldoon

Number: VT00526

Material: video, 17 minutes

Industry: general industry

This humorous video covers grinding wheel speeds, guards, mounting procedures, and wheel operating rules. Grinding Wheel Institute, 1985.

Groundskeeping

Groundskeeping Safety: Be a Pro!

Number: VT01489

Material: video (closed-captioned), 17 minutes

Industry: general industry

This video covers hazards and safety procedures for employees responsible for grounds or outdoor maintenance when using chemicals and equipment including basic PPE, tractors, riding mowers, brush-

cutting equipment and blowers. Coastal Training Technologies, 1997.

Pesticides and You: A Primer on Pesticide Handling and Storage

Number: VT01514

Material: video (closed-captioned), 29 minutes

Industry: all industries

This video, while geared toward farmers, explains and describes safe handling, storage, containment, and application of pesticides for anyone using these chemicals. Kansas State University, 1997.

Tree Trimming Safety

Number: VT01478

Material: video, 6 minutes

Industry: general industry

This video covers safety hazards including contact with energy sources and falling limbs as well as tool maintenance. Training Network, 1990.

Hand Protection

See also Personal Protective Equipment

Hand and Arm Protection: Safety Gear

Number: VT01520

Material: video, 11 minutes

Industry: all industries

This video covers how to recognize workplace hand and arm hazards, the causes of traumatic and contact injuries, the reason for and use of guards on equipment and machinery, and choosing the proper gloves for the job. Aims Multimedia, 1989.

► Hand and Arm Protection: Safety Gear (Spanish)

Number: VT01729

Material: video, 11 minutes

Industry: all industries

See previous description. Aims Multimedia, 1989

Hand Safety

Number: VT00376

Material: video, 6 minutes

Industry: general industry

This video covers the causes of hand injuries and prevention including the proper use of hand tools,

Training Materials by Subject 2004

knife safety, working with machinery and pinch points. Summit Training Source, 1990.

Hazard Communication

See also Material Safety Data Sheets

Employee's Guide to Working with Hazardous Materials

Number: VT01176

Material: video, 16 minutes

Industry: all industries

This video gives an overview of the hazard communication standard and an introduction to material safety data sheets. Safety and Health Council of Greater Omaha, 1991.

Employee's Guide to Working with Hazardous Materials (Spanish)

Number: VT01365

Material: video, 16 minutes

Industry: all industries

See previous description. Safety and Health Council of Greater Omaha, 1996.

Hazard Communication

Number: VT01668

Material: video, 13 minutes

Industry: general industry

This video reviews the differences between common hazardous materials, proper storage, labeling systems, material safety data sheets, exposure reduction, and safe handling procedures. Summit Training Source, 1998.

Hazard Communication for Business Professionals

Number: VT01272

Material: video, 11 minutes

Industry: all industries

This video provides an introduction to the OSHA standard and the elements of a written hazard communication program. NTIS (Producer: NIOSH), 1989.

Hazard Communication: The Right to Know

Number: VT01030

Material: video, 13 minutes

Industry: general industry

This video covers chemical classification, hazards, labeling systems, and safety measures. American Electronics Association, 1985.

Hazard Communication: Training for Employees

Number: VT01660

Material: video, 18 minutes

Industry: general industry

This video covers chemical safety, the value of keeping up-to-date hazardous chemical inventory, how to read MSDSs, labeling of containers, what an employee should do if they find an unlabeled container or no MSDS on a substance, and written hazard communication programs. J.J. Keller, 2000.

Hazard Communication: Training for Employees (Spanish)

Number: VT01662

Material: video, 18 minutes

Industry: general industry

See previous description. J.J. Keller, 2000.

Hazard Communication: Your Safety Net

Number: VT01665

Material: video, 14 minutes

Industry: general industry

This video focuses on chemical hazards and safety precautions including exposure situations, ways to control chemical hazards, and reading and using material safety data sheets and warning labels. Coastal Training Technologies, 2000.

Hazard Communications in Manufacturing

Number: VT01285

Material: video, 5 minutes

Industry: general industry

This video discusses material safety data sheets, labeling, handling and safe use of chemicals in the workplace. Training Network, 1992.

HazCom Case Histories: Learn From Their Mistakes

Number: VT01442

Material: video (closed-captioned), 20 minutes

Industry: all industries

This video, using re-enactments of real-life HazCom incidents, covers the importance of following safe work practices, reading material safety data sheets and warning labels, and using

Training Materials by Subject 2004

personal protective equipment. Coastal Training Technologies, 1994.

Right-to-Know

Number: VT00388

Material: video, 5 minutes

Industry: general industry

This video provides hazard communication training on MSDS terms and labeling compliance including proper container labeling. Summit Training Source, 1990.

Working Safely...It's Everybody's Job

Number: VT01249

Material: video, 18 minutes

Industry: all industries

This video discusses hazard communication, material safety data sheets and labels. National Association of Steel Pipe Distributors, 1989.

Hazard Communication-Construction

See also Material Safety Data Sheets

Construction Warning Labels and Signs

Number: VT01469

Material: video, 16 minutes

Industry: construction

This video discusses various labeling systems, the reason for warning labels and signs around the jobsite including chemical hazards and safety precautions. Coastal Training Technologies, 1996.

Hazard Communication for Construction

Number: VT01125

Material: video, 10 minutes

Industry: construction

This video covers construction chemical hazards including types of chemicals, labeling, material safety data sheets, requirements of the standard, and employee training. National Constructors Association, 1989.

Hazard Communication Standard for Construction: 29 CFR 1926.59

Number: VT01243

Material: video, 14 minutes

Industry: construction

This video discusses chemical hazards in construction including materials safety data sheets, container labeling, employee training, and the requirements of the standard. OSHA Office of Training and Education, 1993.

Hazard Communication: The Message is Construction Safety

Number: VT01583

Material: video, 14 minutes

Industry: construction

This video covers construction chemical hazards including types of hazardous materials found on the job, reading product labels and material safety data sheets, safe handling procedures, and the requirements of the standard. Associated General Contractors of America, 1997.

Hazard Communication: The System That Works

Number: VT01412

Material: video, 16 minutes

Industry: construction

This video explains construction chemical hazards including types of hazardous materials, how to read and use material safety data sheets, labeling, requirements of the standards, and safety procedures. Associated General Contractors of America, 1989.

Hazard Communication Training: The Toxic Time Bomb

Number: VT01166

Material: video, 15 minutes

Industry: construction

This video discusses construction chemical hazards including hazard awareness, safe handling procedures, employee right-to-know, and how to read labels and material safety data sheets. Florida AFL-CIO United Labor Agency, 1988.

► Hazard Communication: Your Right to Know

Number: VT01722

Material: video, 12 minutes

Industry: roofing and siding

This video explains how to use material safety data sheets, labeling procedures for hazardous materials, and safety precautions. National Roofing Contractors Association, 1990.

Training Materials by Subject 2004

HazCom Case Histories: Learn From Their Mistakes

Number: VT01442

Material: video (closed-captioned), 20 minutes

Industry: all industries

This video, using re-enactments of real-life HazCom incidents, covers the importance of following safe work practices, reading material safety data sheets and warning labels, and using personal protective equipment. Coastal Training Technologies, 1994.

HazCom for Construction

Number: VT01461

Material: video (closed-captioned), 12 minutes

Industry: construction

This video covers the dangers of working with and around chemicals, how to recognize construction site chemical hazards, hazard control, safety precautions and personal protective equipment. Coastal Video Communications, 1995.

HazCom: Understanding Labels

Number: VT01245

Material: video, 8 minutes

Industry: construction

This video discusses the importance of labels on hazardous materials, how to read them, and various types of labeling systems including that of the National Fire Protection Association which uses color coding to distinguish classes of hazards. Laborers' National Health and Safety Fund, 1993.

Hazardous Substances

See also Asbestos; Corrosives; Flammable Materials; Lead; Silica; and Solvents

Airborne Hazards

Number: VT00358

Material: video, 6 minutes

Industry: general industry

This video describes airborne contaminants, their effect on the respiratory system, and the importance of selecting the right respirator for the job. Summit Training Source, 1990.

Case of the Vicious Vapor

Number: VT01473

Material: video, 7 minutes

Industry: all industries

This Dragnet spoof video covers how to investigate a hazardous vapor incident including air sampling, personal protective equipment, and ventilation. Kirkwood Community College, 1995.

Chemical Control Room

Number: VT01267

Material: video, 23 minutes

Industry: general industry

This video discusses safe chemical handling, identification, proper storage, health hazards, protective equipment, cleanup procedures and emergency care. NTIS (Producer: NIOSH), 1988.

Chemical Handling: General Principles

Number: VT01433

Material: video (closed-captioned), 16 minutes

Industry: all industries

This video provides general information on the characteristics, hazards and safe handling procedures for flammables, corrosives, and solvents. Coastal Training Technologies, 1990.

Chemicals in the Workplace

Number: VT01516

Material: video, 15 minutes

Industry: general industry

This video details material safety data sheets and labels, recognition of chemical hazards, safe handling techniques and storage, and personal protective equipment. J.J. Keller, 1988.

Eyewashes and Safety Showers

Number: VT01702

Material: video, 12 minutes

Industry: all industries

This video reviews the correct operation and use of eyewashes and safety showers, equipment testing, accident prevention, reading MSDS, and proper procedures in chemical contact. Training Network, 1994.

Formaldehyde

Number: VT01625

Material: video, 14 minutes

Industry: general industry

▶ = New To Catalog

VT = Video Program

Training Materials by Subject 2004

This video discusses health hazards and routes of entry into the body, hazard communication, personal protective equipment, and safe work practices. Summit Training Source, 1995.

Non-Compatible Chemicals: What You Should Know

Number: VT01337

Material: video, 14 minutes

Industry: general industry

This slide to video presentation discusses chemical groups and their hazards, storage requirements, and emergency procedures. Intl Chemical Workers Union, 1987.

Spills

Number: VT00392

Material: video, 5 minutes

Industry: general industry

This video demonstrates containment, cleanup and decontamination procedures for small spills of hazardous chemicals. Summit Training Source, 1990.

Toxics

Number: VT01658

Material: video, 5 minutes

Industry: all industries

This video discusses why toxics are dangerous to health, ways to limit exposure, and safe handling procedures in order to prevent injuries and accidents. Summit Training Source, 1990.

Hazardous Substances-Construction

See also Asbestos, Corrosives, Flammable Materials, Lead, Silica and Solvents

Eyewashes and Safety Showers

Number: VT01702

Material: video, 12 minutes

Industry: all industries

This video reviews the correct operation and use of eyewashes and safety showers, equipment testing, accident prevention, reading MSDS, and proper procedures in chemical contact. Training Network, 1994.

Hazardous Substances for Construction

Number: VT01193

Material: video, 12 minutes

Industry: construction

This video identifies types of hazardous substances found on the jobsite such as oxyacetylene, how to read and use material safety data sheets, and safety precautions including safe handling and storage. National Constructors Association, 1985.

Jobsite Hazardous Waste Safety: Handle With Care

Number: VT01411

Material: video, 17 minutes

Industry: construction

This video reviews the proper way to handle the unexpected discovery of hazardous waste on the jobsite including stop work, notifying the designated person, and securing the site. Associated General Contractors of America, 1992.

Knowing the Hazards: Chemical Safety on the Construction Jobsite Part I

Number: VT01109

Material: video, 25 minutes

Industry: construction

This video covers basic safety procedures and identification of carcinogens, metals, and irritants including asbestos, lead, and concrete. NOTE: OSHA requires the use of cartridges approved for formaldehyde, not the white cartridges as shown. Associated General Contractors of California, 1987.

Knowing the Hazards: Chemical Safety on the Construction Jobsite Part II

Number: VT01115

Material: video, 23 minutes

Industry: construction

This video covers basic safety procedures and identification of solvents, corrosives, and gases including acetone, sodium hydroxide, and propane. Associated General Contractors of California, 1989.

Training Materials by Subject 2004

Hazardous Waste Operations

HAZWOPER Training: Awareness Level

Number: VT01490

Material: video (closed-captioned), 20 minutes

Industry: general industry

This video, designed for all employees, discusses the standard, hazardous materials definitions, and the activities and workers covered by the standard. Coastal Training Technologies, 1990.

Head Protection

See also Personal Protective Equipment

Head Protection: Hard Hats

Number: VT01375

Material: video, 5 minutes

Industry: construction

This video covers hardhat construction, how hard hats work and the importance of wearing head protection on the job. Digital 2000, 1993.

Head Protection: Safety Gear

Number: VT01521

Material: video, 10 minutes

Industry: all industries

This video examines the features and benefits of hard hats including how the suspension system works, proper adjustment, regular inspection, and maintenance. Aims Multimedia, 1989.

► Head Protection: Safety Gear (Spanish)

Number: VT01730

Material: video, 10 minutes

Industry: all industries

See previous description. Aims Multimedia, 1989

Healthcare

See also Laboratories

Bloodborne Pathogens: Long-Term Care

Number: VT01684

Material: video, 23 minutes

Industry: healthcare

This video discusses safe work practices and precautions including workplace transmission,

reducing the risk, and personal protective equipment. Coastal Training Technologies, 1992.

Bloodborne Pathogens: Protect Your Dental Environment

Number: VT01685

Material: video, 19 minutes

Industry: healthcare

This video covers safe dental work practices including HIV transmission, dealing with sharp instruments, and personal protective equipment. Coastal Training Technologies, 1992.

Bloodborne Pathogens Standard: How it Affects You, How it Protects You

Number: VT01686

Material: video, 20 minutes

Industry: healthcare

This video reviews standard precautions, HBV vaccinations, engineering controls, work practice controls, and personal protective equipment. Coastal Training Technologies, 1992.

Healthcare Electrical Safety

Number: VT01561

Material: video, 18 minutes

Industry: healthcare

This video discusses the common hazards of using electrical monitoring and diagnostic equipment, basic electrical principles, and electrical safety guidelines. Coastal Training Technologies, 1991.

Healthcare Ergonomics

Number: VT01562

Material: video, 21 minutes

Industry: healthcare

This video covers cumulative trauma disorders and contributing factors, identifying hazards, proper lifting body mechanics, lifting and transferring of patients, workstation adjustments, and exercises. Coastal Training Technologies, 1996.

Healthcare PPE

Number: VT01563

Material: video, 19 minutes

Industry: healthcare

This video covers types of PPE available to healthcare workers and how they work, how to identify infectious and chemical hazards, selection

Training Materials by Subject 2004

of PPE, proper use and removal, inspection and disposal. Coastal Training Technologies, 1995.

Healthcare Safety Orientation

Number: VT01564

Material: video, 16 minutes

Industry: healthcare

This video provides an overview of workplace hazards and safety measures including slips and falls, back injuries, handling medical waste, chemicals, radiation, and the proper use of personal protective equipment. Coastal Training Technologies, 1994.

► Long Term Care Safety Orientation: Work Smart, Be Safe

Number: VT01753

Material: video, 15 minutes

Industry: healthcare

This video is intended as a safety orientation for new employees or as a refresher for current employees who work in the nursing home industry. Illinois Onsite Safety & Health Consultation Program, 2002.

Nursing Homes: Hazards & Solutions

Number: VT01497

Material: video, 16 minutes

Industry: healthcare

This video discusses various hazards in nursing homes, specifically focusing on resident transfer hazards and the use of patient assist devices. OSHA Directorate of Technical Support, 1998.

Occupationally Acquired Bloodborne Disease Transmission: A Preventable Healthcare Hazard

Number: VT01234

Material: video, 14 minutes

Industry: healthcare

This video reviews methods to protect healthcare workers against bloodborne diseases. NOTE: Represents OSHA standards as OSHA guidelines. Butterworth Health, 1992.

Respirators: Your TB Defense

Number: VT01630

Material: video, 16 minutes

Industry: healthcare

This video covers the history of TB, transmission, symptoms, and respiratory protection including

types of respirators, how they work, fit testing, cleaning, inspection, and storage. NIOSH, 2000.

► TB Respiratory Protection: Administrator's Review

Number: VT01738

Material: video, 48 minutes

Industry: healthcare

This video provides step-by-step information on developing a respiratory protection program for tuberculosis including risk assessment, standard operating procedures, respirator selection, and employee training. NIOSH, 2002.

Worker's Exposed: HIV and Hepatitis B

Number: VT00504

Material: video, 10 minutes

Industry: healthcare

This video explains the means of transmission, the disposal of sharps, and how to clean up blood spills and vomit. Oregon OSH Division, 1993.

Workplace Precautions Against Bloodborne Pathogens: As It Should Be Done

Number: VT01185

Materials: video, 25 minutes

Industry: healthcare

This video discusses OSHA requirements and safety precautions for healthcare and lab workers. NTIS (Producer: OSHA Office of Information and Consumer Affairs), 1992.

Hearing Protection

Hearing

Number: VT00377

Material: video, 5 minutes

Industry: general industry

This video explains how the ear operates, the effects of noise, and the use of earmuffs and earplugs to prevent hearing loss. Summit Training Source, 1990.

Hearing Conservation: An Employee Review

Number: VT01273

Material: video, 9 minutes

Industry: all industries

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

This video discusses control of harmful noise, hearing protection, and noise-induced hearing loss. NTIS (Producer: VA Medical Center), 1991.

Hearing Conservation on the Jobsite: Sound Advice

Number: VT01424

Material: video, 13 minutes

Industry: construction

This video discusses noise on the jobsite and the reason for wearing hearing protection. Associated General Contractors of America, 1995.

► **Hearing Protection: Safety Gear (Spanish)**

Number: VT01731

Material: video, 13 minutes

This video explains how the ear works, workplace noise hazards, the effects of noise, and the use of hearing protection including earmuffs and earplugs. Aims Multimedia, 1989.

Hearing Safety

Number: VT00146

Material: video, 18 minutes

Industry: general industry

This video stresses the hazards of both short- and long-term exposure to common levels of industrial noise, and the correct use of various protective devices. Primedia Workplace Learning, 1986.

Heat Stress

See also Cold Stress

Heat and Cold Stress

Number: VT01361

Material: video, 24 minutes

Industry: all industries

This video describes the hazards of working in hot and humid conditions and in cold environments. OSHA Office of Training and Education, 1985.

Heat Stress

Number: VT01316

Material: video, 10 minutes

Industry: all industries

This video discusses how the body reacts in high temperatures and humidity, safety precautions, and first aid procedures. Digital 2000, 1995.

Heat Stress

Number: VT01634

Material: video, 5 minutes

Industry: all industries

This video covers the effects of heat on the body, health hazards and their symptoms, and preventive measures. Summit Training Source, 1990.

Heat Stress: Don't Lose Your Cool

Number: VT01666

Material: video, 15 minutes

Industry: all industries

This video discusses how to prevent or treat heat disorders including work procedures, fluid intake, eating habits, clothing, and acclimatization. Coastal Training Technologies, 2000.

Heat Stress Prevention

Number: VT01297

Material: video, 10 minutes

Industry: all industries

This video discusses the dangers of excessive heat exposure, how the body reacts in high temperatures, and precautions to take to guard against heat stroke and exhaustion. Summit Training Source, 1989.

Housekeeping

Housekeeping

Number: VT00379

Material: video, 6 minutes

Industry: general industry

This video discusses how proper housekeeping techniques can reduce accidents including slips and falls and prevent fires. Summit Training Source, 1990.

Housekeeping: A Matter of Attitude

Number: VT01525

Material: video, 16 minutes

Industry: all industries

This humorous video points out the impacts of sloppy housekeeping and why good housekeeping is an important aspect of safety because it can prevent accidents. Safe Expectations, 1981.

Training Materials by Subject 2004

Housekeeping: It Ain't Like in the Movies

Number: VT01530

Material: video, 15 minutes (closed captioned)

Industry: all industries

This humorous video, an action adventure spoof, reviews the importance of preventing accidents through good housekeeping techniques including proper tool storage and eliminating spills. Coastal Training Technologies, 1995.

Housekeeping on the Job Site

Number: VT01317

Material: video, 10 minutes

Industry: construction

This video discusses how good housekeeping can prevent accidents on the construction site including slips and falls. Digital 2000, 1995.

Housekeeping on the Jobsite: The Winning Ticket (Spanish)

Number: VT01707

Material: video, 13 minutes

Industry: construction

This video explains the dangers of working on cluttered jobsites including slips and falls. Associated General Contractors of America, 1991

Housekeeping Responsibilities (Spanish)

Number: VT01648

Material: video, 5 minutes

Industry: all industries

This video covers how good housekeeping can prevent accidents and fires including spill cleanup and proper oily rag disposal. Training Network, 1994

Indoor Air Quality

Breathing Easy: What You Should Know About Indoor Air Quality

Number: VT01364

Material: video, 13 minutes

Industry: general industry

This video discusses the factors affecting indoor air quality including ventilation systems, temperature and humidity, and sources of contaminants. NTIS (Producer: Public Building Services), 1992.

Industrial Hygiene

Beginner's Guide to Industrial Hygiene

Number: VT01092

Material: video, 19 minutes

Industry: general industry

This video depicts an industrial hygiene survey in a hypothetical factory showing the basic steps of hazard recognition, evaluation and control. University of California at Los Angeles, 1986.

Industrial Safety

See also Job Safety Analysis

► OSHA 10-Hour General Industry PowerPoint Presentation

Number: CD02

Material: CD, 10 PowerPoint presentations

This CD, designed to train workers, emphasizes hazard identification, avoidance and control in the following subjects: OSHA, bloodborne pathogens, electrical, fire protection, flammable liquids, ppe, hazard communication, machine guarding, walking-working surfaces, and safety and health programs. OSHA, 2003.

Safety Made Easy: A Checklist Approach to OSHA Compliance

Number: T55.D39

Author: Grubbs, John R. and Nelson, Sean M.

Material: book, 198 pages

Industry: general industry

This book provides a guide to understanding and complying with OSHA Title 29 CFR 1910. Government Institutes, 1999.

Safety Orientation: It Begins with You

Number: VT01300

Material: video, 14 minutes

Industry: general industry

This video discusses inspecting for and recognizing potential hazards and following safe work practices including lockout/tagout, lifting, forklift operations, housekeeping, bloodborne pathogens, confined spaces, and PPE. Summit Training Source, 1996.

Training Materials by Subject 2004

Safety Orientation: It Takes a Winning Attitude

Number: VT01462

Material: video, 18 minutes

Industry: general industry

This video presents an overview of workplace safety to protect workers from the most common industrial hazards including lockout/tagout, PPE, bloodborne pathogens, lifting and fire safety. Coastal Training Technologies, 1996.

“So You’re the Safety Director!” An Introduction to Loss Control and Safety Management

Number: T55.3516

Author: Manning, Michael V.

Material: book, 174 pages

Industry: all industries

This book covers evaluating and managing a company safety program, investigating accidents, preparing for and handling OSHA inspections. Government Institutes, 1996.

Supervisors’ Safety Manual

Number: T55.S8156

Material: book, 341 pages

Industry: all industries

This book covers safety management and training, hazards and prevention, and accident investigation. National Safety Council, 1991.

Job Safety Analysis

Job Hazard Analysis: A Guide to Identifying Risks in the Workplace

Number: T55.S93

Author: Swartz, George

Material: book, 205 pages

Industry: all industries

This book provides a step-by-step guide to identifying and preventing occupational hazards on the job. Government Institutes, 2001.

► Job Safety Analysis

Number: VT01752

Material: video, 10 minutes

Industry: all industries

This video provides an overview of job safety analysis including how to identify the hazards

which are associated with each job step and identifying the proper way of doing the job. Illinois Onsite Safety & Health Consultation Program, 2000.

Job Safety Analysis for Construction: Step-By-Step

Number: VT01572

Material: video, 14 minutes

Industry: construction

This video discusses the elements of the job safety analysis process used for planning work, and identifying and controlling potential job site hazards. Associated General Contractors of America, 1993.

Job Stress

► Working With Stress

Number: VT01739

Material: video, 17 minutes

Industry: all industries

This video covers how job stress poses a threat to both the well-being of workers and companies, the body’s physical and psychological responses to stress, and the causes and prevention of job stress. NIOSH, 2002.

Laboratory Safety

► HIV in the Research Laboratory

Number: VT01748

Material: video, 28 minutes

Industry: general industry

This video identifies causes for reported lab-acquired infections and emphasizes practices to protect against HIV transmission. Howard Hughes Medical Institute, 1994.

► Lab Safety: Assessing Risks of Toxic Chemicals

Number: VT01747

Material: video, 11 minutes

Industry: general industry

This video covers risk assessment, determining a chemical’s inherent toxicity, potential routes of exposure, acute versus chronic toxicity, duration

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

and frequency of exposure. Howard Hughes Medical Institute, 1994.

► Lab Safety: Chemical Hazards

Number: VT01744

Material: video, 10 minutes

Industry: general industry

This video demonstrates safe work practices and procedures that apply when working with hazardous chemicals. Howard Hughes Medical Institute, 1994.

► Lab Safety: Chemical Storage Hazards

Number: VT01746

Material: video, 11 minutes

Industry: general industry

This video reviews the basic principles of safe chemical storage for organic and inorganic chemicals, acids, bases, flammables, toxics, caustics, oxidizers, and corrosives. Howard Hughes Medical Institute, 1994.

► Lab Safety: Emergency Response

Number: VT01745

Material: video, 12 minutes

Industry: general industry

This video addresses fire, personal injuries, and radiation, chemical and biological spills and demonstrates proper safety procedures. Howard Hughes Medical Institute, 1994.

Lab Safety: Handling Hazardous Chemicals

Number: VT01689

Material: video, 21 minutes

Industry: general industry

This video discusses the requirements of the Laboratory Safety Standard, hazard identification, exposure monitoring and PELs, recordkeeping, and emergency procedures. Coastal Training Technologies, 1990.

► Lab Safety: Practicing Safe Science

Number: VT01743

Material: video, 29 minutes

Industry: general industry

This video demonstrated safe practices, features reenactments of actual laboratory accidents, and poses questions to help the viewer recognize risks associated with scientific protocols. Howard Hughes Medical Institute, 1994.

Lab Safety: Under the Hood

Number: VT01603

Material: video (closed captioned), 18 minutes

Industry: general industry

This video discusses safe work practices, how to recognize common laboratory chemical and health hazards, laboratory hoods, how to use a Chemical Hygiene Plan and emergency procedures. Coastal Training Technologies, 1998.

Ladders and Stairways

Construction Stairways and Ladders

Number: VT01436

Material: video, 12 minutes

Industry: construction

This video discusses ladder and stairway hazards and safety precautions including proper setup and use, slope ratio, inspection and maintenance, and construction. Coastal Training Technologies, 1992.

Ladder Safety

Number: VT01508

Material: video, 6 minutes

Industry: all industries

This video covers selecting the proper ladder for the job, inspection, truck racks, and proper set-up and use. Valley Video, 1990.

Ladder Safety: Construction

Number: VT01381

Material: video, 5 minutes

Industry: construction

This video explains safe use requirements for ladders including proper set-up, inspection, 4:1 ratio, and climbing techniques. Training Network, 1994.

Ladder Safety: Fall Prevention

Number: VT01545

Material: video, 12 minutes

Industry: all industries

This video explains the principles of ladder selection, inspection, set-up and use, and safe climbing techniques. Primedia Workplace Learning, 1993.

Training Materials by Subject 2004

Ladder Safety for Construction

Number: VT01570

Material: video, 6 minutes

Industry: construction

This video covers the safe use of ladders including inspection, 4:1 pitch ratio, the 3-point rule, safe climbing techniques, and job-made ladders. Associated General Contractors of America, 1992.

Ladder Safety for Construction (Spanish)

Number: VT01672

Material: video, 6 minutes

Industry: construction

See previous description. Associated General Contractors of America, 1992.

Ladder Safety on the Jobsite

Number: VT01194

Material: video, 15 minutes

Industry: construction

This video covers the rules of ladder safety including inspection, 4:1 slope ratio, climbing techniques, unsafe acts and conditions. Intl Association of Plasterers' and Cement Masons', 1985.

Ladder Safety: Step Right Up

Number: VT01279

Material: video, 19 minutes

Industry: general industry

This humorous video demonstrates safety tips and procedures when using portable ladders including carrying, inspection, erecting, securing, and climbing. Coronet/MTI Film & Video, 1981.

Stairway and Ladder Safety: Success at the Top

Number: VT01425

Material: video, 17 minutes

Industry: construction

This video discusses ladder and stairway safety including point of access, inspection, ladder ratings, and requirements for jobmade ladders and stairways such as height limits, lumber strengths, siderails, tie-down, treads, risers, and stair-rail heights. Associated General Contractors of America, 1991.

Stairways and Ladders: Construction Safety

Number: VT01389

Material: video, 7 minutes

Industry: construction

This video mostly discusses ladder safety including step and straight ladder set-up, how to choose the proper ladder for the job, pre-use inspection, and slope ratio, and stairway safety inspection. CoreMedia Training Solutions, 1991.

Stairways and Ladders: The First Step

Number: VT01596

Material: video, 18 minutes

Industry: all industries

This video, which mostly covers portable and fixed ladders, reviews hazards and safety procedures including proper selection for the job, inspection, maintenance, set-up, climbing techniques, and load capacity. Coastal Training Technologies, 1991.

Lasers

Laser Safety for Construction

Number: VT01673

Material: video, 8 minutes

Industry: construction

This video covers the use of lasers in construction, the four classes of lasers, the hazards of laser light, proper eye protection, and safe operating practices including the posting of warning signs. Associated

Lead

Advertencia a los Peligros de Plomo (Lead)

Number: VT01386

Material: video, 13 minutes

Industry: construction

This video discusses lead hazards including health effects and personal protective equipment. Chicago Construction Safety Council, 1996.

Lead Abatement: Safe Practices

Number: VT01261

Material: video, 26 minutes

Industry: construction

This video discusses lead exposure and health hazards and protective measures for reducing exposure including PPE. Laborers-AGC Education and Training Fund, 1995.

Training Materials by Subject 2004

Lead Exposure in Construction: Exposing the Facts

Number: VT01705
Material: video, 17 minutes
Industry: construction

This video describes how lead is used in the construction industry, its effects on the human body, and how workers can protect themselves from overexposure. Associated General Contractors of America, 1992.

Lead in Construction: Caution!

Number: VT01247
Material: video, 11 minutes
Industry: construction

This video discusses sources of lead exposure, lead poisoning symptoms, protective measures, and the hazards of lead in the construction industry. Western Consortium for Public Health, 1993.

Lead in Construction: Medical Surveillance

Number: VT01265
Material: video, 15 minutes
Industry: construction

This video discusses medical examinations and surveillance program that employers are required to provide workers exposed to lead in construction. Laborers-AGC Education and Training Fund, 1993.

Lead Safety in the Demolition Industry

Number: VT01260
Material: video, 15 minutes
Industry: wrecking and demolition

This video discusses lead exposure, its health effects, and ways of preventing exposure. National Association of Demolition Contractors, 1994.

Lead Safety in the Demolition Industry (Spanish)

Number: VT01266
Material: video, 15 minutes
Industry: wrecking and demolition

See previous description. National Association of Demolition Contractors, 1994.

Lead Safety Training for the Construction Site: Employee

Number: VT01236
Material: video, 29 minutes
Industry: construction

This video discusses lead hazards, health effects, sources of lead exposure, medical surveillance, engineering and work practice controls, and abatement procedures. Chicago Construction Safety Council, 1993.

Lead Safety Training for the Construction Site: Employer

Number: VT01237
Material: video, 26 minutes
Industry: construction

This video covers compliance programs, lead hazards, health effects, exposure assessment, control measures, OSHA requirements, recordkeeping requirements, and safety program evaluation. Chicago Construction Safety Council, 1993.

Lead Standard

Number: VT01661
Material: video, 6 minutes
Industry: all industries

This video discusses how lead enters the body, the health hazards associated with overexposure, safety procedures, and preventive measures. Summit Training Source, 1996.

Lead: Treat it With Respect

Number: VT01463
Material: video, 17 minutes
Industry: construction

This video discusses the dangers of lead hazards in construction, how lead enters the body, exposure limits, PPE, housekeeping, and medical surveillance. Coastal Training Technologies, 1993.

Working Safely With Lead: Construction

Number: VT00547
Material: video, 20 minutes
Industry: construction

This video discusses the potential health hazards involved with overexposure to lead, routes of entry into the body, safety precautions and medical surveillance. Primedia Workplace Learning, 1994.

Training Materials by Subject 2004

Lockout/Tagout

Construction Lockout/Tagout

Number: VT01458

Material: video, 10 minutes

Industry: construction

This video discusses the prevention of unexpected start-ups of equipment during servicing and maintenance including how lockout/tagout systems operate and a six-step safety procedure. Coastal Training Technologies, 1992.

Construction Lockout/Tagout: Take Control

Number: VT01427

Material: video, 20 minutes

Industry: construction

This video reviews the types of hazardous energy found on the jobsite, identifying potential hazards, proper lockout/tagout procedures, and equipment re-energizing procedures. Associated General Contractors of America, 1993.

Lockout For Life!: Lockout/Tagout Case Histories

Number: VT01444

Material: video, 20 minutes

Industry: general industry

This award winning video shows dramatic re-enactments of actual accidents, reviews the hazards of uncontrolled energy, proper equipment shutdown and isolation, and critical safety procedures. Coastal Training Technologies, 1992.

► Lockout Tragedy: Danger Zone

Number: VT01750

Material: video, 15 minutes

Industry: general industry

This high-impact video retells the story of a worker who lost his life in an avoidable accident involving improper lockout procedures. Coastal Training Technologies, 2001.

Lockout/Tagout: Controlling the Beast

Number: VT01470

Material: video (closed-captioned), 19 minutes

Industry: general industry

This video graphically demonstrates the hazards of uncontrolled energy, reviews proper lockout/tagout

procedures, and the why and how of lockout. Coastal Training Technologies, 1994.

Lockout/Tagout for Machine Shop Employees

Number: VT01239

Material: video, 18 minutes

Industry: general industry

This video discusses lockout/tagout procedures for machine shop employees. National Tooling and Machining Association, 1992.

Lockout/Tagout for Machine Shop Managers

Number: VT01238

Material: video, 19 minutes

Industry: general industry

This video discusses lockout/tagout procedures and employer compliance responsibilities. National Tooling and Machining Association, 1992.

Lockout/Tagout Procedures

Number: VT01306

Material: video, 6 minutes

Industry: general industry

This video covers proper procedures for isolating various types of hazardous energy including electrical, mechanical, hydraulic and pneumatic, and the procedures to take when restarting equipment. Summit Training Source, 1990.

Lockout/Tagout: Real, Real-Life

Number: VT01608

Material: video, 18 minutes

Industry: general industry

This interactive video covers the when, where and why of lockout including safe work practices, proper locking/tagging procedures, and spotting potential dangers. Coastal Video Communications, 2000.

► Lockout/Tagout: Real, Real-Life (Spanish)

Number: VT01718

Material: video, 18 minutes

Industry: general industry

See previous description. Coastal Training Technologies, 2000.

Lockout/Tagout Safety Procedures

Number: VT01277

Material: video, 17 minutes

Industry: general industry

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

This video discusses energy control during the maintenance and servicing of equipment. NOTE: *Washington State may have stricter standards than Federal OSHA.* Washington State Department of Labor and Industries, 1992.

Lockout/Tagout: Safety Training for Employees

Number: VT01552

Material: video, 15 minutes

Industry: general industry

This video details the requirements and definitions found in the standard and basic safety principles including using proper procedures and training. J.J. Keller, 1995.

Lockout/Tagout: The Process of Controlling Hazardous Energy

Number: T55.G77

Author: Grund, Edward V.

Material: book, 429 pages

Industry: general industry

This book covers safeguards and practices to protect workers when servicing, repairing, adjusting, and inspecting machinery, equipment, and processes. National Safety Council, 1995.

Machine Lockout: Controlling Hazardous Energy

Number: VT01396

Material: video, 21 minutes

Industry: general industry

This video explains the lockout procedures needed for the control of electric, hydraulic, pneumatic, mechanical, gas, water, steam, chemical and thermal energy during equipment servicing including the disconnection of power and dissipation of residual energy. Primedia Workplace Learning, 1989.

Logging Operations

Conducting a Safety Meeting in the Field

Number: VT01250

Material: video, 14 minutes

Industry: logging

This video discusses how to conduct a safety meeting at the work site. University of Idaho, 1992.

Ground Skidding

Number: VT01257

Material: video, 11 minutes

Industry: logging

This video, developed for Pacific Northwest logging, covers the basic safety procedures of ground skidding. University of Idaho, 1992.

Landing Safety

Number: VT01251

Material: video, 18 minutes

Industry: logging

This logging video discusses safety measures to be taken at landing areas. University of Idaho, 1992.

Line Skidding

Number: VT01252

Material: video, 16 minutes

Industry: logging

This video covers safety procedures for skidding with a gravity yarder. University of Idaho, 1992.

Loading and Hauling

Number: VT01253

Material: video, 17 minutes

Industry: logging

This video discusses safety procedures for drivers and loader operators during the loading and hauling of logs. University of Idaho, 1992.

Logging Body Mechanics

Number: VT01292

Material: video, 22 minutes

Industry: logging

This video discusses the prevention of back injuries for loggers working with chain saws and logging equipment. Lumberjack Resource Conservation and Development Council, 1995.

Logging Safety in the Intermountain Northwest

Number: VT01254

Material: video, 18 minutes

Industry: logging

This video gives an overview of logging operations and safety practices. University of Idaho, 1992.

Mechanized Logging

Number: VT01255

Material: video, 12 minutes

Industry: logging

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

This video covers the basics of safe mechanized logging. University of Idaho, 1992.

Physics of Falling

Number: VT01256

Material: video, 14 minutes

Industry: logging

This video discusses the basics of safe tree falling including saw cuts. University of Idaho, 1992.

Machine Guarding

Machine Guarding

Number: VT01307

Material: video, 7 minutes

Industry: general industry

This video discusses different types of guards, the importance of not bypassing guards, and the use of guards in lockout procedures. Summit Training Source, 1990.

Machine Guarding

Number: VT01395

Material: video, 16 minutes

Industry: general industry

This video provides an overview of machine hazards including point of operation and pinch points, the necessity and techniques of machine guarding, safety precautions, and guarding devices including sensors, restraints, pullbacks and gates. Primedia Workplace Learning, 1989.

Machine Guarding

Number: VT01445

Material: video (closed-captioned), 14 minutes

Industry: general industry

This video explains the potential hazards of working with machines, categories and types of machine guards, the importance of using guards, the places where machine hazards occur, and safety control devices. Coastal Training Technologies, 1992.

► Machine Guarding (Spanish)

Number: VT01719

Material: video, 14 minutes

Industry: general industry

See previous description. Coastal Training Technologies, 1992.

Machine Guarding: A Management & Employee Safety Program

Number: VT01700

Material: video, 18 minutes

Industry: general industry

This video explains the roles of management and employees, discusses the elements of a sound machine guarding policy, and maintaining a safe work environment. J.J. Keller, 1995.

Machine Shops

Lockout/Tagout for Machine Shop Employees

Number: VT01239

Material: video, 18 minutes

Industry: general industry

This video discusses lockout/tagout procedures for machine shop employees. National Tooling and Machining Association, 1992.

Lockout/Tagout for Machine Shop Managers

Number: VT01238

Material: video, 19 minutes

Industry: general industry

This video discusses lockout/tagout procedures and employer compliance responsibilities. National Tooling and Machining Association, 1992.

Marine Cargo Handling

Container Terminal Health and Safety

Number: VT01068

Material: video, 30 minutes

Industry: marine cargo handling

This video covers personal protective equipment, arrival and storage of containers, and safe operation of container handling equipment. Intl Longshoremen's and Warehousemen's Union, 1986.

Container Vessel Health and Safety

Number: VT01064

Material: video, 25 minutes

Industry: marine cargo handling

Training Materials by Subject 2004

This video covers the safe handling of containers including loading and discharging to or from container vessels and safe crane operation. Intl Longshoremen's and Warehousemen's Union, 1986.

Ship's Cargo Handling Gear

Number: VT01227

Material: video, 19 minutes

Industry: marine cargo handling

This video discusses inspection requirements, proper rigging, and safe use of cargo handling gear including booms, wire rope, hooks, and winches. National Maritime Safety Association, 1981.

Material Safety Data Sheets

See also Hazardous Substances

HazCom: Understanding MSDS

Number: VT01246

Material: video, 19 minutes

Industry: construction

This video discusses the eight sections required on material safety data sheets including health hazards. Laborers' National Health and Safety Fund, 1993.

HazCom: Using MSDS

Number: VT01538

Material: video, 12 minutes

Industry: general industry

This humorous video provides a basic overview of a typical material safety data sheet, how to read and use them, and the reasons to consult a MSDS when working with hazardous chemicals. Industrial Training Systems, 1996.

Material Safety Data Sheets

Number: VT01334

Material: video, 20 minutes

Industry: all industries

This video explains OSHA's non-mandatory MSDS form and the types of information found in each section. NOTE: *Other MSDS formats are acceptable.* New Hampshire Safety Council, 1987.

MSDS

Number: VT00383

Material: video, 5 minutes

Industry: general industry

This video explains how to read and use a material safety data sheet. Summit Training Source, 1990.

MSDS: Communicating Chemical Safety

Number: VT01546

Material: video, 15 minutes

Industry: all industries

This video provides a basic overview of a typical material safety data sheet including the types of information they contain, and why they should be consulted when working with chemicals. Industrial Training Systems, 1994.

MSDS: Read It Before You Need It!

Number: VT01464

Material: video, 20 minutes

Industry: general industry

This video will help employees use and understand the various sections of material safety data sheets including exposure situations, hazard prevention and personal protection, toxicology, and disposal. Coastal Training Technologies, 1993.

Materials Handling

See also Back Safety; and Warehouses

From Here to There: Moving Things by Hand

Number: VT01523

Material: video, 13 minutes

Industry: all industries

This video presents the fundamentals of manual materials handling including sizing up the item to be moved, proper lifting techniques, and the use of handcarts and trucks. Safe Expectations.

Material Handling Equipment Safety

Number: VT01618

Material: video, 9 minutes

Industry: general industry

This video covers safe operating procedures for 2-wheel dollies, cages, manual pallet jacks, gas and electric forklifts, stock chasers, stock pickers and electric jacks. Aims Multimedia, 1991.

Materials Handling and Storage

Number: VT01474

Material: video, 22 minutes

Industry: general industry

Training Materials by Subject 2004

This video discusses safety procedures when using common material handling equipment including forklifts, cranes, hoists, and conveyors. Kirkwood Community College, 1995.

Materials Handling and Storage: Hazardous and Flammable

Number: VT01606

Material: video, 9 minutes

Industry: all industries

This humorous video covers safety principles for the handling and storage large quantity hazardous and flammable materials including manual and equipment handling, stacking, proper storage techniques, and storage areas. Industrial Training Systems, 1995.

Materials Handling Safety: Making the Right Move

Number: VT01417

Material: video, 14 minutes

Industry: construction

This video discusses hazards and safety measures when handling construction materials including proper lifting techniques, storage areas, and safe stacking methods for materials. Associated General Contractors of America, 1992.

Mechanical Materials Handling

Number: VT01335

Material: video, 20 minutes

Industry: general industry

This video describes hazards and safety measures when operating or working around forklifts, conveyors, cranes, hoists, and powered hand trucks. Society of the Plastics Industry, 1984.

Skid Steer Loader Safety

Number: VT01677

Material: video, 8 minutes

Industry: construction

This video covers safety hazards including limited driver visibility, rollovers and contact with power lines; and safety procedures including pre-use inspection, refueling, and carrying the load. Associated General Contractors of America, 1994.

Offices

► Mailroom Safety

Number: VT01734

Material: video, 6 minutes

This video covers how to recognize suspicious packages, helps dispel myths about the hazards presented by suspicious packages, and proper procedures for handling suspect mail. Summit Training Source, 2002.

► Office Safety

Number: VT01735

Material: video, 5 minutes

Industry: all industries

This video covers how to recognize potential hazards and take preventive measures to help eliminate incidents including slips and falls and back injuries. Summit Training Source, 1990.

Oops Your Office is Showing

Number: VT01278

Material: video, 15 minutes

Industry: all industries

This video discusses how to identify the causes of office accidents and ways to prevent them including workstation design, and proper lifting techniques. Washington State Department of Labor and Industries, 1992.

Working Smart: General Office Safety

Number: VT01452

Material: video (closed-captioned), 20 minutes

Industry: office

This video discusses identifying office hazards and ways to prevent accidents including slips and falls, hazardous substances, flammable chemicals, and ergonomics. Coastal Training Technologies, 1992.

OSHA

About OSHA

Number: VT01003

Material: video, 11 minutes

Industry: all industries

This video discusses the OSH Act and the functions of OSHA. Intl Brotherhood of Painters and Allied Trades, 1978.

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

About OSHA (Spanish)

Number: VT01003S

Material: video, 11 minutes

Industry: all industries

See previous description. Intl Brotherhood of Painters and Allied Trades, 1978.

All about OSHA (Spanish)

Number: VT01679

Material: video, 8 minutes

Industry: all industries

This video provides an introduction to OSHA for the Spanish-speaking workforce including Latino accident statistics, OSHA inspections, reporting job hazards, and employer responsibilities. **NOTE:** Mention is made of some Georgia statistics. Telephone numbers to Georgia OSHA offices are given. The audience elsewhere should use the OSHA hotline number. OSHA Atlanta West Area Office, 2000.

► OSHA 10-Hour Construction Industry PowerPoint Presentation

Number: CD01

Material: CD, 10 PowerPoint presentations

Industry: construction

This CD, designed to train workers, emphasizes hazard identification, avoidance and control in the following subjects: OSHA, electrical, fall protection, excavations, cranes, materials handling and storage, hand and power tools, ppe, scaffolds, and stairways and ladders. OSHA, 2003.

► OSHA 10-Hour General Industry PowerPoint Presentation

Number: CD02

Material: CD, 10 PowerPoint presentations

Industry: general industry

This CD, designed to train workers, emphasizes hazard identification, avoidance and control in the following subjects: OSHA, bloodborne pathogens, electrical, fire protection, flammable liquids, ppe, hazard communication, machine guarding, walking-working surfaces, and safety and health programs. OSHA, 2003.

OSHA At Work

Number: VT01184

Material: video, 22 minutes

Industry: all industries

This video describes OSHA and its functions. **NOTE:** *First two minutes of video contains extraneous material.* OSHA Office of Information and Consumer Affairs, 1991.

OSHA In Review

Number: VT01233

Material: video, 10 minutes

Industry: all industries

This video reviews the history of OSHA through film footage of former Assistant Secretaries. U.S. Department of Labor-OSHA, 1989.

OSHA Inspection: Overcoming the Fear

Number: VT01691

Material: video (closed captioned), 24 minutes

Industry: all industries

This video discusses how to prepare for an OSHA inspection and what to expect including the opening conference, what is included in the inspection tour, the closing conference, types of violations and their penalties, and how to appeal a citation. Coastal Training Technologies 1994.

OSHA Inspections: Preparation and Response

Number: T55.K26

Author: Kaletsky, Rick

Material: book, 438 pages

Industry: all industries

This book covers how OSHA works, what employers need to do in order to have an effective safety and health program, and how to prepare for and respond to an OSHA work site inspection. McGraw-Hill, 1997.

► OSHA Recordables

Number: VT01736

Material: video, 6 minutes

Industry: all industries

This video covers the recording of workplace illnesses and accidents on the OSHA 300, 300-A, and 301 forms including what records must be kept and how to determine what goes on the record. Summit Training Source, 2002.

OSHA Recordkeeping: On the Record

Number: VT01681

Material: video, 18 minutes

Industry: all industries

Training Materials by Subject 2004

This video discusses the revised OSHA recordkeeping system including how to distinguish between a recordable and non-recordable incident and the new OSHA 300, 300-A, and 301 forms. Summit Training Source, 2001.

OSHA Recordkeeping: True to Form

Number: VT01680

Material: video, 13 minutes

Industry: all industries

This video covers the revised OSHA recordkeeping system including an overview of changes, when to begin and end counting, employee privacy issues, procedures, and the new OSHA forms 300, 300-A and 301. Coastal Training Technologies, 2001.

OSHA's Inspection and Citation Process: Construction

Number: VT01586

Material: video, 14 minutes

Industry: construction

This video provides information on employer rights and responsibilities under the OSH Act including the reasons for inspections, the opening conference, inspection tour, closing conference, citations, the seven types of violations, and penalties. Associated General Contractors of America, 1993.

OSHA's Top 12 Violations: The Dirty Dozen

Number: VT01692

Material: video (closed captioned), 16 minutes

Industry: general industry

This video points out the most common OSHA violations for general industry including machine guarding, lockout/tagout, hazard communication, warning signs and labels, and employee training. Coastal Training Technologies, 1993.

Protecting Workers: How OSHA Conducts Inspections

Number: VT01258

Material: video, 18 minutes

Industry: all industries

This video describes the OSHA inspection process and OSHA services available to employers. OSHA Office of Information and Consumer Affairs, 1994.

Protecting Workers: How OSHA Writes Standards

Number: VT01183

Material: video, 13 minutes

Industry: all industries

This video describes how OSHA standards are developed using the excavation standard as an example. OSHA Office of Information and Consumer Affairs, 1992.

Painting

See also Construction Trades

Spray Application Operations

Number: VT01207

Material: video, 27 minutes

Industry: general industry

This video covers recognition of spray-painting hazards and methods of prevention and control including air monitoring. NTIS (Producer: OSHA Office of Training and Education), 1985.

Spray Painting: Dual Protection

Number: VT01269

Material: video, 14 minutes

Industry: general industry

This video discusses the spray-painting process, its health hazards, and basic control strategies for dealing with these hazards. NTIS (Producer: NIOSH), 1984.

Personal Protective Equipment

See also Eye Protection; Foot Protection; Hand Protection; Head Protection; Hearing Protection; and Respiratory Protection

Personal Protective Equipment

Number: VT00386

Material: video, 5 minutes

Industry: all industries

This video demonstrates the proper use of personal protective equipment including hard hats, respirators, eye protection, and gloves. Summit Training Source, 1990.

Training Materials by Subject 2004

Personal Protective Equipment

Number: VT01286

Material: video, 6 minutes

Industry: all industries

This video covers the selection and use of hard hats, gloves, safety glasses, and earmuffs. Training Network, 1992.

Personal Protective Equipment

Number: VT01287

Material: video, 9 minutes

Industry: all industries

This video discusses types of hazards found in the workplace and appropriate personal protective equipment. Training Network, 1993.

Personal Protective Equipment: Danger Zone

Number: VT01652

Material: video, 12 minutes

Industry: general industry

This video stresses the importance of assessing hazards prior to PPE selection and includes demonstrations of the proper use and care of hard hats, safety glasses, goggles, respirators, gloves, and shoes. Summit Training Source, 1992.

Personal Protective Equipment for Construction: Best Strategy

Number: VT01407

Material: video, 12 minutes

Industry: construction

This video discusses sizing up the job, choosing proper PPE, and the use of hard hats, earplugs and muffs, face shields, safety shoes, gloves, safety glasses and goggles, respirators, and fall protection. Associated General Contractors of America, 1995.

Personal Protective Equipment for Construction: Best Strategy (Spanish)

Number: VT01646

Material: video, 12 minutes

Industry: construction

See previous description. Associated General Contractors of America, 1995.

Personal Protective Equipment for Head, Eye/Face, Hand and Foot

Number: VT01398

Material: video, 19 minutes

Industry: all industries

This video discusses matching personal protective equipment with the hazards associated with the job, proper selection, fit, inspection, and maintenance of hard hats, safety glasses, gloves, and work boots. Primedia Workplace Learning, 1994.

Personal Protective Equipment: Real, Real-Life

Number: VT01493

Material: video (closed-captioned), 14 minutes

Industry: all industries

This humorous video discusses the use of various types of personal protective equipment and shows re-enactments of real-life situations and asks viewers to think how they would respond. Coastal Video Communication, 1997.

Personal Protective Equipment Training

Number: VT01553

Material: video, 22 minutes

Industry: general industry

This video covers eye and face, head, foot, hand, hearing, and respiratory personal protective equipment, how to use it, fit testing, maintenance and inspection. J.J. Keller, 1994.

Personal Protective Equipment: You're Covered

Number: VT01447

Material: video, 18 minutes

Industry: general industry

This video covers workplace hazards and the selection, care and use of head, eye/face, foot, hand, and hearing personal protective equipment including safety glasses, types and classes of hard hats, gloves, footwear, and ear muffs and plugs. Coastal Training Technologies, 1995.

► Personal Protective Equipment: What's the Difference?

Number: VT01723

Material: video, 10 minutes

Industry: roofing and siding

This video covers the types of personal protective equipment needed to prevent injuries including hard hats, gloves, goggles, boots and the conditions in which it is needed. National Roofing Contractors Association, 1990.

Training Materials by Subject 2004

Petroleum Engineering

Hand Injuries in Drilling

Number: VT01062

Material: video, 11 minutes

Industry: oil and gas well extraction

This video discusses the anatomy of the hand and how to avoid injuries including the proper use of tools and equipment, machine guarding, and materials handling. University of Oklahoma, 1986.

Power Presses

Mechanical Power Press Safety: Don't Press Your Luck

Number: VT01446

Material: video, 19 minutes

Industry: general industry

This video discusses proper safety procedures, types of presses, safeguarding devices, press operation, inspection and maintenance. Coastal Training Technologies, 1996.

Teamwork and Common Sense: The Basics of Power Press Brake Safety

Number: VT01350

Material: video, 20 minutes

Industry: manufacturing

This video discusses operation, hazard recognition, and hazard abatement. Intl Association of Machinists and Aerospace Workers, 1988.

PowerPoint Presentations

▶ OSHA 10-Hour Construction Industry PowerPoint Presentation

Number: CD01

Material: CD, 10 PowerPoint presentations

Industry: construction

This CD, designed to train workers, emphasizes hazard identification, avoidance and control in the following subjects: OSHA, electrical, fall protection, excavations, cranes, materials handling and storage, hand and power tools, ppe, scaffolds, and stairways and ladders. OSHA, 2003.

▶ OSHA 10-Hour General Industry PowerPoint Presentation

Number: CD02

Material: CD, 10 PowerPoint presentations

This CD, designed to train workers, emphasizes hazard identification, avoidance and control in the following subjects: OSHA, bloodborne pathogens, electrical, fire protection, flammable liquids, ppe, hazard communication, machine guarding, walking-working surfaces, and safety and health programs. OSHA, 2003.

Process Safety

Contractor Safety in Petrochemical Facilities

Number: VT01326

Material: video, 36 minutes

Industry: construction

This video discusses hazards and safety measures at petrochemical facilities. Associated Builders and Contractors, Pelican Chapter, 1988.

Contractor's Guide to Process Safety Management: A Part of the Process

Number: VT01585

Material: video, 14 minutes

Industry: construction

This video covers how to work safely in industrial process facilities including hazard control, worker training, safe work practices, and complying with OSHA's Process Safety Management Standard. Assoc General Contractors of America, 1994.

It Can Happen Here: Chemical Disasters

Number: VT01171

Material: video, 5 minutes

Industry: chemical

This video describes the causes of toxic releases and explosions at chemical plants. Intl Chemical Workers Union, 1989.

Line Breaking: Use a Permit!

Number: VT01443

Material: video, 16 minutes

Industry: chemical industry

This video discusses the dangers involved in not following process system safety procedures including line and equipment opening (LEO), LEO

Training Materials by Subject 2004

permits, lockout/ tagout, line-breaking procedures, and emergency response. Coastal Training Technologies, 1992.

Never Again: Preventing Chemical Disasters

Number: VT01172

Material: video, 49 minutes

Industry: chemical products

This video covers safety committees, risk analysis, and accidents. United Steelworkers of America, 1989.

Not by Chance: Chemical Disasters

Number: VT01175

Material: video, 21 minutes

Industry: chemical industry

This video discusses the risks of accidental chemical releases to workers and the general public. AFL-CIO Industrial Union Department, 1990.

Permit-Required Activities

Number: VT01690

Material: video, 12 minutes

Industry: construction

This video discusses high-risk contractor work that requires a special work permit including identifying potential hazards, safe work practices for hot work, confined space entry, excavations, asbestos, and lockout/tagout. Summit Training Source, 1995.

Process Incident Investigation

Number: VT01657

Material: video, 18 minutes

Industry: general industry

This video covers the methods and techniques of gathering evidence, interviewing witnesses, analyzing details, and documenting information. Summit Training Source, 1993.

Process Safety: Employee Awareness

Number: VT01465

Material: video, 15 minutes

Industry: general industry

This video explains basic elements of the Process Safety Standard, the importance of following proper procedures, employee participation in process safety programs, incident investigation and follow-up. Coastal Training Technologies, 1994.

Process Safety for the Hard Hat Crew

Number: VT01621

Material: video, 12 minutes

Industry: construction

This video provides an overview of what a contract employee can expect when working at chemical or petroleum facilities including how the Process Safety Standard applies to them, contract employee responsibilities, safe work practices, lines of communication, and handling emergencies and accidents. Coastal Training Technologies, 1995.

Pulp, Paper, and Paperboard Mills

Hazard Recognition in Pulp, Paper & Paperboard Mills

Number: VT01331

Material: video, 22 minutes

Industry: paper and allied products

This video discusses potential hazards, safety precautions and OSHA standards including machine guarding, lockout, and confined spaces. United Paperworkers Intl Union, 1986.

Respiratory Protection

Air Purifying Respirators

Number: VT00357

Material: video, 7 minutes

Industry: general industry

This video demonstrates the care and storage of air purifying respirators, the situations where they are worn, and proper fit testing. Summit Training Source, 1990.

Airborne Hazards

Number: VT00358

Material: video, 6 minutes

Industry: general industry

This video describes airborne contaminants, their effect on the respiratory system, and the importance of selecting the right respirator for the job. Summit Training Source, 1990.

Training Materials by Subject 2004

Construction Respiratory Protection: Breathing Easier

Number: VT01408

Material: video, 18 minutes

Industry: construction

This video provides basic information about jobsite respiratory hazards, types of respirators, selection, fit testing procedures, use, inspection and maintenance. Associated General Contractors of America, 1993.

Respirators and How to Use Them

Number: VT01319

Material: video, 12 minutes

Industry: all industries

This video covers typical workplace respiratory hazards, facts regarding respirator use, and various types of respiratory equipment. Digital 2000, 1995.

► Respirators and How to Use Them (Spanish)

Number: VT01732

Material: video, 12 minutes

Industry: all industries

See previous description. Digital 2000, 1995.

Respirators: SCBA Care and Maintenance

Number: VT01560

Material: video (closed-captioned), 15 minutes

Industry: all industries

This video covers the care and use of the most common types of respirators including donning, fit testing, inspecting, disinfecting, storing, and disassembly/reassembly. Coastal Video Communications, 1991.

Respiratory Protection

Number: VT01377

Material: video, 5 minutes

Industry: general industry

This video covers common respiratory health hazards, and the inspection, use, and storage of respiratory equipment. Digital 2000, 1993.

Respiratory Protection: Another World

Number: VT01466

Material: video (closed-captioned), 19 minutes

Industry: general industry

This video discusses respiratory protection including when it is needed, airborne hazardous substances, hazardous atmospheres, types of

respirators, fit testing, maintenance, and written programs. Coastal Training Technologies, 1995.

Rigging

See also Cranes, Hoists and Conveyors

Care, Use and Maintenance of Wire Rope Slings

Number: VT01128

Material: video, 29 minutes

Industry: construction

This video describes the basic types of wire rope slings, safe operating practices and maintenance procedures. Building and Construction Trades Council of Colorado, 1985.

Crane Rigging Safety: Controlling the Load

Number: VT01409

Material: video, 17 minutes

Industry: construction

This video discusses the basics of crane rigging safety including pre-use inspection of hooks and slings, planning the lift including determining the weight, stability of the load, and the center of gravity of the load, and choice of sling. Associated General Contractors of America, 1992.

Rigging Equipment: Inspecting for Safety

Number: VT01479

Material: video, 15 minutes

Industry: general industry

This video covers the importance of both regular and periodic inspections of rigging equipment and what signs of damage to look for on synthetic web slings, metal mesh slings, chain slings, wire rope, and rigging hardware. Primedia Workplace Learning, 1990.

Rigging Equipment: Selection and Care

Number: VT01480

Material: video, 16 minutes

Industry: general industry

This video introduces the characteristics of slings (synthetic web, metal mesh, chain and wire rope) and hardware (hoist locks, shackles, eye bolts, and turn buckles) commonly used for overhead lifting in industry including its proper care and handling, and special use considerations. Primedia Workplace Learning, 1990.

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

Rigging Safety

Number: VT01670

Material: video, 13 minutes

Industry: all industries

This video covers types of rigging, sling selection and inspection, pre-lift preparation, load control and dynamics, work site hazards, and safe work practices. Summit Training Source, 1998.

Safe Rigging

Number: VT01481

Material: video, 20 minutes

Industry: general industry

This video explains the procedures involved in rigging for a safe lift, the importance of lift capacity rating, types of hitches, how to calculate the load weight for simple and complex shapes, and center of gravity. Primedia Workplace Learning, 1990.

► Wire Rope: Above the Hook

Number: VT01742

Material: video, 18 minutes

Industry: construction

This video provides an overview of wire rope safety for crane operators including installation, inspection, maintenance, deficiencies, wedge sockets and block spinning. Associated General Contractors of America, 2001.

Rim Wheels

Servicing Multi-Piece Rim Wheels

Number: VT00111

Material: video, 10 minutes

Industry: general industry

This video discusses multi-piece rim wheel safety during deflation and inflation including use of proper equipment including clip-on chunks, restraining devices, and barriers. OSHA, 1982.

Split Rim Tire Safety

Number: VT01477

Material: video, 6 minutes

Industry: general industry

This video outlines how to remove and replace tires from rims and split rings, air pressure, and using a safety inflation cage. Training Network, 1990.

Road Construction

Avoid Hot Mix Hazards

Number: VT01566

Material: video, 12 minutes

Industry: construction

This video covers basic hot mix road construction safety including hot mix plants, hot mix transfer, dump trucks, heavy equipment, traffic control, and personal protective equipment. Associated General Contractors of America, 1993.

Highway Work Zone Safety: Work Zone Ahead

Number: VT01693

Material: video, 12 minutes

Industry: construction

This video provides basic safety training to road construction workers. Associated General Contractors of America, 1996.

Pave Your Way to Safety: Concrete Paving Safety

Number: VT01571

Material: video, 14 minutes

Industry: construction

This video covers general safety procedures for concrete paving including concrete hazards, heavy equipment, personal protective equipment, paving equipment maintenance, and traffic control. Associated General Contractors of America, 1993.

Work Zone Safety: Training for Construction

Number: VT01701

Material: video, 18 minutes

Industry: construction

This video covers the dangers of roadwork for construction and utility workers including traffic control, warning signs, flaggers, PPE, channeling devices, equipment inspection and maintenance. J.J. Keller, 2001.

Roofing Work

► Fire Safety: Don't Get Burned

Number: VT01721

Material: video, 10 minutes

Industry: roofing and siding

Training Materials by Subject 2004

This video covers fire hazards and burn prevention by illustrating the correct use of kettles, tankers, LP gas tanks and torches, as well as proper emergency first-aid techniques. National Roofing Contractors Association, 1990.

► **Hazard Communication: Your Right to Know**

Number: VT01722

Material: video, 12 minutes

Industry: roofing and siding

This video explains how to use material safety data sheets, labeling procedures for hazardous materials, and safety precautions. National Roofing Contractors Association, 1990.

► **Personal Protective Equipment: What's the Difference?**

Number: VT01723

Material: video, 10 minutes

Industry: roofing and siding

This video covers the types of personal protective equipment needed to prevent injuries including hard hats, gloves, goggles, boots and the conditions in which it is needed. National Roofing Contractors Association, 1990.

► **Preventing Back Injuries and Other CTD's: Construction**

Number: VT01710

Material: video, 18 minutes

Industry: construction

This video discusses how the body works, the best body positions for doing work, back function and injury, proper lifting, proper shoveling, and the three risk factors for cumulative trauma injury, which are force, position, and repetition. National Roofing Contractors Association, 1996.

Roofing Contractor Safety

Number: VT01632

Material: video, 10 minutes

Industry: construction

This video covers roofing safety awareness and safe work practices including falls, hot work, ladders, fires, material storage, cranes, weather conditions, personal protective equipment, housekeeping, and equipment use. Illinois Onsite Safety & Health Consultation Program, 2000.

► **Safety Awareness: It's Up to You!**

Number: VT01724

Material: video, 13 minutes

Industry: roofing and siding

This video provides a summary of safety procedures including fall prevention, burns, proper lifting techniques and personal protective equipment. National Roofing Contractors Association, 1993.

► **Setting Up a Jobsite Safely**

Number: VT01725

Material: video, 9 minutes

Industry: roofing and siding

This video covers the importance of planning and implementing safety procedures on the jobsite including setting up warning lines & ladder safety. National Roofing Contractors Association, 1994.

Rubber Industry-Mills and Calendars

Mill Safety and Rescue in the Rubber Industry

Number: VT01544

Material: video, 18 minutes

Industry: rubber industry

This video re-creates mill accidents, demonstrates rescue methods, and discusses mill hazards, machine guards, and safe operating procedures. Rubber Manufacturers Association, 1997.

Sawmills

Machine Guarding in Sawmills

Number: VT01073

Material: video, 17 minutes

Industry: sawmills

This video covers machine guarding from log entry to board outflow including the barker, head saws, edgers, trimmers, and chippers. West Virginia University, 1987.

Sawmill Health and Safety

Number: VT01345

Material: video, 8 minutes

Industry: sawmills

Training Materials by Subject 2004

This video identifies hazards found in sawmills including chemicals, slips and falls, struck by, and caught between. University of Maine, 1986.

X Factor: Accidents in Woods and Millyards

Number: VT01527

Material: video, 22 minutes

Industry: logging

This award winning video uses accident reenactments to explore the reasons behind accidents in the logging industry and in millyards. Allied Digital Technologies, 1980.

Scaffolding

See also Aerial Lifts; and Walking and Working Surfaces

Basic Look at Scaffolds for Compliance Officers

Number: VT01259

Material: video, 21 minutes

Industry: construction

This video discusses OSHA requirements for scaffolding and scaffold construction. OSHA Office of Construction and Engineering. 1994.

Construction Scaffold Safety

Number: VT01529

Material: video, 10 minutes

Industry: construction

This video demonstrates the construction, inspection, and safety procedures including fall arrest systems for stationary, mobile, and suspension scaffolds. Coastal Training Technologies, 1995.

Construction Stationary Scaffolds

Number: VT01437

Material: video, 11 minutes

Industry: construction

This video covers safety practices for working on and around stationary scaffolds including hazards, construction, inspection, fall prevention, and use. Coastal Training Technologies, 1997.

Introduction to Scaffolding Safety

Number: VT01597

Material: video, 22 minutes

Industry: construction

This video discusses scaffold erection, hazards, and safe work practices. National Ironworkers and Employers Apprenticeship Training and Journeyman Upgrading Fund, 1999.

Mobile Scaffold Safety: Rolling Towers

Number: VT01587

Material: video, 12 minutes

Industry: construction

This video describes mobile scaffold safety including erection and dismantling, 4:1 ratio, inspection, use, fall protection, and load capacity. Associated General Contractors of America, 1997.

Scaffold Hazard Recognition

Number: VT01220

Material: video, 24 minutes

Industry: construction

This video shows jobsite situations and points out good and bad design and construction practices including base plates, frames, bracing, and planking. Building and Construction Trades Council of Colorado, 1982.

Scaffold Safety: Construction

Number: VT01320

Material: video, 10 minutes

Industry: construction

This video covers basic safety hazards and procedures when working on stationary, mobile and suspended scaffolds including erecting, inspection, guardrails, power lines, and load capacities. Digital 2000, 1992.

Scaffold Safety: Construction (Spanish)

Number: VT01501

Material: video, 10 minutes

Industry: construction

See previous description. Digital 2000, 1992.

Scaffold Safety: Putting It All Together

Number: VT01422

Material: video, 15 minutes

Industry: construction

This video provides step-by-step erecting procedures including worksite evaluation and preparation, selecting and inspection of scaffolding, siles, cross bracing, planking, access points, fall protection systems, and tie-ins to existing

Training Materials by Subject 2004

structures. Associated General Contractors of America, 1996

Scaffolding Safety: Erecting and Dismantling

Number: VT01403

Material: video, 19 minutes

Industry: construction

This video covers potential hazards, site evaluation and preparation, selecting and inspection of scaffolding, proper erecting and dismantling procedures, and safe work practices during erection and dismantling. Summit Training Source, 1997.

Scaffolding Safety: Safe Work Practices

Number: VT01404

Material: video, 12 minutes

Industry: construction

This video demonstrates the potential hazards associated with scaffolds including falls, falling objects, power lines, load capacity, inspection, and safe work practices such as fall arrest systems and good housekeeping. Summit Training Source, 1997.

Scaffolding Safety Training for Construction

Number: VT01554

Material: video, 17 minutes

Industry: construction

This video provides an overview of the standard and demonstrates scaffolding techniques, reviews rules on selection and construction, use of guardrails and ladders, and preventing accidents due to falling objects, falls, overloading, and structural instability. J.J. Keller, 1997.

Scaffolds: Safety at All Levels

Number: VT01448

Material: video (closed-captioned), 18 minutes

Industry: construction

This video discusses the role of the competent person, pre-assembly inspection, safe assembly, pre-shift inspection, maintenance, dismantling, and safe work practices such as the use of fall arrest systems. Coastal Training Technologies, 1997.

Scaffolds: Safety at All Levels (Spanish)

Number: VT01612

Material: video, 16 minutes

Industry: construction

See previous description. Coastal Training Technologies, 1998.

Suspension Scaffolds in Construction

Number: VT01467

Material: video, 10 minutes

Industry: construction

This video covers safety procedures including recognizing hazards, access, hoisting, inspection, electrical hazards, and safe work practices. Coastal Training Technologies, 1997.

Swing Stage Scaffolds

Number: VT01589

Material: video, 13 minutes

Industry: construction

This video covers 2-point adjustable scaffold safety including correct rigging, operation, inspection, and personal fall arrest systems. Associated General Contractors of America, 1997.

Signs, Signals, and Barricades

Construction Signs and Barricades

Number: VT01495

Material: video, 10 minutes

Industry: construction

This video gives an overview of signs, signals and barricades used on construction sites including road construction. Digital 2000, 1995.

Construction Warning Labels and Signs

Number: VT01469

Material: video, 16 minutes

Industry: construction

This video discusses various labeling systems, the reason for warning labels and signs around the jobsite including chemical hazards and safety precautions. Coastal Training Technologies, 1996.

Construction Warning Signs

Number: VT01605

Material: video, 4 minutes

Industry: construction

This video covers warning signs found on construction sites. Associated General Contractors of America, 1992.

Training Materials by Subject 2004

Silica

Abrasive Blasting Operations

Number: VT01323

Material: video, 34 minutes

Industry: construction

This video discusses safety and health hazards related to abrasive blasting operations. Intl Brotherhood of Painters and Allied Trades, 1989.

Dust Control: It's Everybody's Business

Number: VT01382

Material: video, 20 minutes

Industry: all industries

This video discusses reducing worker exposure to silica dust including dust collection equipment. Mine Safety and Health Administration, 1996.

Managing Silica Hazards: Construction

Number: VT01483

Material: video, 14 minutes

Industry: construction

This video discusses silica, its hazards, hazard assessment at the jobsite, engineering and work practices controls, personal protective equipment, and the employer's responsibilities for protecting workers. Chicago Construction Safety Council, 1997.

Silica Exposure: It Can Leave You Breathless

Number: VT01695

Material: video, 13 minutes

Industry: construction

This video highlights the use of silica in the construction industry, its effects on the body, and how workers can protect themselves from the hazards. Associated General Contractors of America, 1999.

Silica Hazard Awareness: Construction

Number: VT01482

Material: video, 16 minutes

Industry: construction

This video discusses silica, its hazards and health effects on the respiratory system, sources of silica exposure, and exposure protection. Chicago Construction Safety Council, 1997.

Stop Silicosis

Number: VT01383

Material: video, 13 minutes

Industry: all industries

This black-and-white 1938 documentary discusses the causes of silicosis and its effects on the respiratory system. U.S. Department of Labor, 1938.

Solvents

Chemical Handling: Solvents

Number: VT01619

Material: video, 12 minutes

Industry: all industries

This video supplies general information on solvents including the uses, hazards, storage, handling, safety rules, exposure symptoms, health problems, fire hazards, and emergency response. Coastal Training Technologies, 1992.

Spanish Language

About OSHA (Spanish)

Number: VT01003S

Material: video, 11 minutes

Industry: all industries

This video discusses the OSH Act and the functions of OSHA. Intl Brotherhood of Painters and Allied Trades, 1978.

Advertencia a los Peligros de Plomo (Lead)

Number: VT01386

Material: video, 13 minutes

Industry: construction

This video discusses lead hazards including health effects and personal protective equipment. Chicago Construction Safety Council, 1996.

Agricultural Vehicle Safety Orientation (Spanish)

Number: VT01534

Material: video, 12 minutes

Industry: agriculture

This video covers basic safety measures including defensive driving techniques and pre-operation inspection. Digital 2000, 1994.

Training Materials by Subject 2004

All about OSHA (Spanish)

Number: VT01679

Material: video, 8 minutes

Industry: all industries

This video provides an introduction to OSHA for the Spanish-speaking workforce including Latino accident statistics, OSHA inspections, reporting job hazards, and employer responsibilities. **NOTE:** Mention is made of some Georgia statistics. Telephone numbers to Georgia OSHA offices are given. The audience elsewhere should use the OSHA hotline number. OSHA Atlanta West Area Office, 2000.

Avoiding Electrical Hazards (Spanish)

Number: VT01614

Material: video, 19 minutes

Industry: general industry

This video discusses working safely around electricity including personal protection, working on energized circuits, lockout/tagout, and working near power lines. Coastal Training Technologies, 1994.

Basic Electrical Safety on the Job Site (Spanish)

Number: VT01499

Material: video, 11 minutes

Industry: construction

This video reviews the principles and properties of electricity, its hazards, and the safe use of electrical equipment and extension cords on the job site. Digital 2000, 1992.

► Bloodborne Pathogens: Protect Yourself (Spanish)

Number: VT01715

Material: video, 15 minutes

Industry: general industry

This video covers basic bloodborne disease transmission and precautions including first-aid safeguards, decontamination procedures, and proper housekeeping for first-on-the-scene co-workers. Coastal Training Technologies, 2000.

► Confined Space Case Histories (Spanish)

Number: VT01716

Material: video, 14 minutes

Industry: all industries

This video shows re-enactments of real-life confined space accidents and reviews what went

wrong including atmospheric testing, ventilation and permits. Coastal Training Technologies, 1995.

Construction Fall Protection: Get Arrested! (Spanish)

Number: VT01615

Material: video, 11 minutes

Industry: construction

This humorous video covers the effective use of body harness and lanyard in personal fall arrest systems, as well as positioning systems, proper anchorage techniques, floor-hole covers, and guardrail construction. Coastal Video Communications, 1998.

Construction Worker Safety Orientation: Getting the Job Done Safely (Spanish)

Number: VT01607

Material: video, 12 minutes

Industry: construction

This video outlines basic jobsite safety measures including personal protective equipment, manual material handling, fall protection, electrical hazards, excavations, and housekeeping. Assoc General Contractors of America, 1995.

► Electrical Safety: Ground Fault Circuit Interrupters (Spanish)

Number: VT01726

Material: video, 11 minutes

Industry: construction

This video covers what GFCI's are all about, how they work, and general safety procedures for protection against electrical shock. Digital 2000, 1992.

► Electrical Safety: Real, Real-Life (Spanish)

Number: VT01717

Material: video, 13 minutes

Industry: general industry

This video explains, through re-enactments of real-life situations, hazards and safety practices when working with or around electricity including PPE, proper grounding, and the use of GFCIs. Coastal Training Technologies, 1998.

Training Materials by Subject 2004

Employee's Guide to Working with Hazardous Materials (Spanish)

Number: VT01365

Material: video, 16 minutes

Industry: all industries

This video gives an overview of the hazard communication standard and an introduction to material safety data sheets. Safety and Health Council of Greater Omaha, 1996.

▶ Eye and Face Protection: Safety Gear (Spanish)

Number: VT01727

Material: video, 11 minutes

Industry: all industries

This video describes different types of safety glasses, goggles, face shields, and helmets used to protect the eyes and face from debris, chemicals, and dangerous light. Aims Multimedia, 1989.

Fall Protection for the Construction Industry: Heightened Awareness (Spanish)

Number: VT01515

Material: video, 20 minutes

Industry: construction

This video covers types of fall protection systems and where they should be used including personal fall arrest systems, guardrails, safety nets, floor covers, warning lines, and controlled access zones. Associated General Contractors of America, 1995.

Fire Extinguisher Training (Spanish)

Number: VT01647

Material: video, 5 minutes

Industry: all industries

This video covers the four classes of fires, the types of fire extinguishers, and their proper use. Digital 2000, 1993.

▶ Foot Protection: Safety Gear (Spanish)

Number: VT01728

Material: video, 11 minutes

Industry: all industries

This video explains how the foot works, workplace hazards to feet, classification of safety shoes, and the function of toe shields, metatarsal guards, and puncture-resistant soles. Aims Multimedia, 1989.

▶ Gas Welding and Cutting Operations: Construction (Spanish)

Number: VT01711

Material: video, 14 minutes

Industry: construction

This video explains basic safety procedures and health hazards including equipment inspection, cylinder connections, valves, fire prevention, and metal fume fever. Digital 2000, 1993.

▶ Hand and Arm Protection: Safety Gear (Spanish)

Number: VT01729

Material: video, 11 minutes

Industry: all industries

This video covers how to recognize workplace hand and arm hazards, the causes of traumatic and contact injuries, the reason for and use of guards on equipment and machinery, and choosing the proper gloves for the job. Aims Multimedia, 1989.

Hand and Power Tool Safety for Construction (Spanish)

Number: VT01500

Material: video, 13 minutes

Industry: construction

This video discusses tool care and inspection, grounding, and general safety rules including using the proper tool for the job. Digital 2000, 1992.

Hazard Communication: Training for Employees (Spanish)

Number: VT01662

Material: video, 18 minutes

Industry: general industry

This video covers chemical safety, the importance of keeping an up-to-date hazardous chemical inventory, how to read MSDS, labeling of containers, what an employee should do if they find an unlabeled container or no MSDS on a substance, and written hazard communication programs. J.J. Keller, 2000.

▶ Head Protection: Safety Gear (Spanish)

Number: VT01730

Material: video, 10 minutes

Industry: all industries

This video examines the features and benefits of wearing hard hats including how the suspension system works, proper adjustment, regular

Training Materials by Subject 2004

inspection, and maintenance. Aims Multimedia, 1989.

Health & Safety: Why Care? (Spanish)

Number: VT01173S

Material: video, 14 minutes

Industry: general industry

This video presents an overview of potential hazards and safety precautions for retail, wholesale and department store employees. Retail, Wholesale and Department Store Union, 1991.

► Hearing Protection: Safety Gear (Spanish)

Number: VT01731

Material: video, 13 minutes

This video explains how the ear works, workplace noise hazards, the effects of noise, and the use of hearing protection including earmuffs and earplugs. Aims Multimedia, 1989.

Housekeeping on the Jobsite: The Winning Ticket (Spanish)

Number: VT01707

Material: video, 13 minutes

Industry: construction

This video explains the dangers of working on cluttered jobsites including slips and falls. Associated General Contractors of America, 1991.

Housekeeping Responsibilities (Spanish)

Number: VT01648

Material: video, 5 minutes

Industry: all industries

This video covers how good housekeeping can prevent accidents and fires including spill cleanup and oily rag disposal. Training Network, 1994

Ladder Safety for Construction (Spanish)

Number: VT01672

Material: video, 6 minutes

Industry: construction

This video covers the safe use of ladders including inspection, 4:1 pitch ratio, the 3-point rule, safe climbing techniques, and job-made ladders. Associated General Contractors of America, 1992.

Lead Safety in the Demolition Industry (Spanish)

Number: VT01266

Material: video, 15 minutes

Industry: wrecking and demolition

This video discusses lead exposure, its health effects, and ways of preventing exposure. National Association of Demolition Contractors, 1994.

► Lockout/Tagout: Real, Real-Life (Spanish)

Number: VT01718

Material: video, 18 minutes

Industry: general industry

This interactive video covers the when, where and why of lockout including safe work practices, proper locking/tagging procedures, and spotting potential dangers. Coastal Video Communications, 2000.

► Machine Guarding (Spanish)

Number: VT01719

Material: video, 14 minutes

Industry: general industry

This video explains the potential hazards of working with machines, categories and types of machine guards, the importance of using guards, the places where machine hazards occur, and safety control devices. Coastal Training Technologies, 1992.

Personal Protective Equipment for Construction: Best Strategy (Spanish)

Number: VT01646

Material: video, 12 minutes

Industry: construction

This video discusses sizing up the job, choosing proper PPE, and the use of hard hats, earplugs and muffs, face shields, safety shoes, gloves, safety glasses and goggles, respirators, and fall protection. Associated General Contractors of America, 1995.

► Power Tool Safety: On Your Guard (Spanish)

Number: VT01720

Material: video, 14 minutes

Industry: construction

This video covers hazards and safety rules when using circular, reciprocating and radial arm saws, drills, sanders, and bench and angle grinders including proper use, safety eyewear, the importance of reading and understanding the

► = New To Catalog

VT = Video Program

Training Materials by Subject 2004

operator's manual, tool guards, and electrical safety. Associated General Contractors of America, 1992.

► Respirators and How to Use Them (Spanish)

Number: VT01732

Material: video, 12 minutes

Industry: all industries

This video covers typical workplace respiratory hazards, facts regarding respirator use, and various types of respiratory equipment. Digital 2000, 1995.

Safe Lifting (Spanish)

Number: VT01649

Material: video, 5 minutes

Industry: all industries

This video explains how the back functions, safe lifting methods, and how to prevent back injuries. Training Network, 1994.

Scaffold Safety: Construction (Spanish)

Number: VT01501

Material: video, 10 minutes

Industry: construction

This video covers basic safety hazards and procedures when working on stationary, mobile and suspended scaffolds including erecting, inspection, guardrails, power lines, and load capacities. Digital 2000, 1992.

Scaffolds: Safety at All Levels (Spanish)

Number: VT01612

Material: video, 16 minutes

Industry: construction

This video discusses the role of the competent person, pre-assembly inspection, safe assembly, pre-shift inspection, maintenance, dismantling, and safe work practices such as the use of fall arrest systems. Coastal Training Technologies, 1997.

► Slips and Falls in Construction (Spanish)

Number: VT01712

Material: video, 10 minutes

Industry: construction

This video covers slip and fall hazards, basic safety rules, and hazard abatement including housekeeping. Digital 2000, 1992.

Trenching and Shoring Operations (Spanish)

Number: VT01502

Material: video, 12 minutes

Industry: construction

This video explains how to avoid cave-ins by following safety precautions including proper sloping, types of shoring, types of shielding, and soil classification. Digital 2000, 1992.

Steel Pipe Industry

Steel Pipe Industry

Number: VT01138

Material: video, 12 minutes

Industry: general industry

This video covers material handling and storage in the steel pipe industry. National

Tools

See also Electrical Safety; and Hand Protection

Cut-Off Saw Safety

Number: VT01671

Material: video, 9 minutes

Industry: construction

This video reviews hazards, proper PPE, and safe operating practices including pre-use inspection, blade installation, refueling, startup, and guard positioning. Associated General Contractors of America, 1994.

Hand and Power Tool Safety

Number: VT01283

Material: video, 7 minutes

Industry: all industries

This video discusses the common hand and power tools involved in accidents including wrenches, drills and handsaws. Training Network, 1992.

Hand and Power Tool Safety

Number: VT01284

Material: video, 16 minutes

Industry: all industries

This humorous video covers tool-related accidents and safety rules including hazards and using the right tool for the job. Training Network, 1991.

Training Materials by Subject 2004

Hand and Power Tool Safety

Number: VT01384

Material: video, 12 minutes

Industry: all industries

This video covers general safety rules and proper techniques when using cutting, striking, and power tools including using the right tool for the job, storage, avoiding kickbacks, and personal protective equipment. Training Network, 1994.

Hand and Power Tool Safety

Number: VT01598

Material: video, 13 minutes

Industry: all industries

This video discusses good safety attitudes and proper techniques as the key to injury-free use of hand and power tools including wrenches, power drills and saws. Training Network, 1996.

Hand and Power Tool Safety for Construction

Number: VT01379

Material: video, 13 minutes

Industry: construction

This video discusses tool care and inspection, grounding, and general safety rules including using the proper tool for the job. Digital 2000, 1992.

Hand and Power Tool Safety for Construction (Spanish)

Number: VT01500

Material: video, 13 minutes

Industry: construction

See previous description. Digital 2000, 1992.

Hand and Power Tools

Number: VT01376

Material: video, 5 minutes

Industry: all industries

This video covers general safety rules when using hand and power tools including wrenches. Digital 2000, 1992.

Hand Tool Safety Overview: Give Safety a Hand

Number: VT01441

Material: video, 15 minutes

Industry: all industries

This video provides an introduction to hand tool safety including basic safety procedures, safe work practices, and proper use of wrenches, hammers,

and screw drivers. Coastal Training Technologies, 1994.

Large Power Hand Tool Safety

Number: VT01617

Material: video, 10 minutes

Industry: all industries

This video covers safety risks and precautions that should be observed when working with the impact wrench, large power drills, portable band saws, and the roto hammer. Aims Multimedia, 1991.

Pneumatic Fastening Tools

Number: VT01611

Material: video, 12 minutes

Industry: all industries

This video covers the safe and effective use of pneumatic nailers and staplers including components, loading and operation, hoses and couplings, and air pressure. Safetycare, 1995.

Powder Actuated Tool Safety

Number: VT01421

Material: video, 5 minutes

Industry: construction

This video reviews the hazards and safety measures associated with these tools including caution when working on walls and loading. Associated General Contractors of America, 1992.

Power and Hand Tool Safety

Number: VT01399

Material: video, 21 minutes

Industry: all industries

This video covers safety rules, good judgment and the proper methods of selection, inspection and use of both hand tools and portable power tools. Primedia Workplace Learning, 1988.

Power Tool Safety: On Your Guard

Number: VT01419

Material: video, 14 minutes

Industry: construction

This video covers hazards and safety rules when using circular, reciprocating and radial arm saws, drills, sanders, and bench and angle grinders including proper use, safety eyewear, the importance of reading and understanding the operator's manual, tool guards, and electrical

Training Materials by Subject 2004

safety. Associated General Contractors of America, 1992.

► **Power Tool Safety: On Your Guard (Spanish)**

Number: VT01720

Material: video, 14 minutes

Industry: construction

See previous description. Associated General Contractors of America, 1992.

Power Tools

Number: VT01643

Material: video, 8 minutes

Industry: construction

This *graphic* video covers safe power tool use and operation, electrical hazards, pre-use inspection and maintenance, and personal protective equipment. Safety Shorts, 1996.

Powered Hand Tool Safety: Handle With Care

Number: VT01609

Material: video, 19 minutes (closed captioned)

Industry: all industries

This video discusses predicting and avoiding dangers when working with powered hand tools including safety procedures, pre-use inspection, and proper PPE. Coastal Training Technologies, 2000.

Shoveling Safety

Number: VT01476

Material: video, 6 minutes

Industry: construction

This video covers using the right shovel for the job, inspection, and proper technique to avoid back injury. Training Network, 1990.

Training

Safety Meetings: Give' em What They Want

Number: VT01622

Material: video (closed-captioned), 16 minutes

Industry: all industries

This video discusses how to conduct successful safety meetings including determining your needs, executing a plan, keeping the meeting interesting, save time for questions, evaluate the training, and try out new material. Coastal Training Technologies, 2000.

Train the Trainer

Number: VT01311

Material: video, 5 minutes

Industry: all industries

This video covers how to conduct effective safety meetings including meeting preparation, capturing audience attention, and leading effective discussions. Summit Training Source, 1990.

Tree Trimming

Tree Trimming Safety

Number: VT01478

Material: video, 6 minutes

Industry: general industry

This video covers hazards including contact with energy sources and falling limbs and tool maintenance. Training Network, 1990.

Tunneling

Tunneling Inspections

Number: VT01351

Material: video, 18 minutes

Industry: construction

This video covers safety and health problems, safety procedures and equipment used in tunneling. Intl Union of Operating Engineers, 1988.

Valves

Pressure Valves

Number: VT01627

Material: video, 5 minutes

Industry: general industry

This video discusses hazards, injury prevention, and safe work practices. Summit Training Source, 1990.

Ventilation

Confined Space Ventilation

Number: VT01651

Material: video, 18 minutes

Industry: all industries

Training Materials by Subject 2004

This video reviews the safety precautions required for confined space ventilation including the when and how to ventilate, atmospheric hazards, types of mechanical ventilation, and techniques. Coastal Training Technologies, 1992.

Exhaust Air Ventilation Systems: Operation and Maintenance

Number: VT01095

Material: video, 18 minutes

Industry: construction

This video describes how to set up and operate negative air filtration systems used in asbestos removal including exhaust units and HEPA vacuums. Intl Association of Heat and Frost Insulators and Asbestos Workers, Local 22, 1987.

Industrial Ventilation: A Practical Overview

Number: VT01188

Material: video, 22 minutes

Industry: general industry

This video discusses the principles of industrial ventilation to control the buildup of hazardous industrial chemicals in the air. NTIS (Producer: OSHA Office of Training and Education), 1991.

Walking and Working Surfaces

See also Housekeeping; Ladders and Stairways; and Scaffolding

Construction Slips and Falls

Number: VT01645

Material: video, 6 minutes

Industry: construction

This humorous video discusses the causes of slips and falls, proper footwear, and prevention including awareness of hazards and good housekeeping. Safety Shorts, 1996.

Elevated Work Safety

Number: VT01536

Material: video, 12 minutes

Industry: all industries

This humorous video covers general safety procedures for working on tower and suspended scaffolds, aerial lifts, and roofs including proper setup, inspection, and fall arrest systems. Industrial Training Systems, 1996.

Elevated Work Surfaces: Getting It Right at Height

Number: VT01591

Material: video, 21 minutes

Industry: construction

This video discusses working on scaffolds, elevated and suspended work platforms, and roofs including the importance of planning and preparing the work, hazard recognition, safety procedures, and fall protection. Vocam, 1996.

Fall Prevention: Elevated Work Surfaces

Number: VT01394

Material: video, 21 minutes

Industry: all industries

This video covers safety procedures for working on and inspection of elevated work surfaces including aerial lifts and scaffolds. Primedia Workplace Learning, 1993.

Slips and Falls

Number: VT01310

Material: video, 5 minutes

Industry: all industries

This video discusses the causes of slips and falls on ladders, stairs, loading docks, and wet surfaces, preventive measures, and fall techniques. Summit Training Source, 1990.

Slips and Falls

Number: VT01348

Material: video, 19 minutes

Industry: general industry

This video covers walking/working surface hazards, the causes of, controls for, and prevention of slips and falls. NTIS (Producer: OSHA Office of Training and Education), 1988.

Slips and Falls in Construction

Number: VT01321

Material: video, 10 minutes

Industry: construction

This video covers slip and fall hazards, basic safety rules, and hazard abatement including housekeeping. Digital 2000, 1992.

Training Materials by Subject 2004

► Slips and Falls in Construction (Spanish)

Number: VT01712
Material: video, 10 minutes
Industry: construction
See previous description. Digital 2000, 1992.

Slips, Trips & Falls

Number: VT01510
Material: video, 15 minutes
Industry: all industries
This video uses falls performed by stunt people to demonstrate the importance of the correct use of ladders, stair safety, good housekeeping, picking up obstacles, cleaning up spills, and fall protection equipment. Summit Training Source, 1990.

Slips, Trips & Falls: Real, Real-Life

Number: VT01610
Material: video, 17 minutes
Industry: all industries
This interactive video uses “real-life” situations to cover awareness and identification of potential dangers, taking action to minimize hazards including good housekeeping and spill cleanup, and minimizing improper use of equipment such as ladders. Coastal Training Technologies, 2000.

Walking and Working Surfaces: Watch Your Step!

Number: VT01484
Material: video (closed-captioned), 19 minutes
Industry: all industries
This video discusses the proper use of equipment and procedures on various walking and working surfaces including ramps, scaffolds and platforms. Coastal Training Technologies, 1995.

Warehouses

Warehouse Safety: It's No Mystery

Number: VT01494
Material: video, 22 minutes
Industry: general industry
This video covers the most common hazards in warehouses and how to correct them including lifting, housekeeping, driving and working around forklifts, hazard communication, PPE, and materials handling. Coastal Training Technologies, 1997.

Welding and Cutting

See also Compressed Gases

Arc Welding Operations: Construction

Number: VT01576
Material: video, 11 minutes
Industry: construction
This video reviews safety and health hazards including operating procedures, securing the work zone, ventilation, grounding, personal protective equipment, and fire prevention. Digital 2000, 1993.

Confined Space Hotwork: Checklist to Safety

Number: VT01454
Material: video, 20 minutes
Industry: all industries
This video covers safety precautions required for confined space hotwork including hotwork permits, fire watch, and emergency rescue. Coastal Training Technologies, 1992.

Construction Welding Safety

Number: VT01438
Material: video, 12 minutes
Industry: construction
This video discusses the essentials of welding safety focusing on oxyfuel gas welding and cutting including operation procedures and safety equipment. Coastal Training Technologies, 1993.

Gas Welding and Cutting Operations: Construction

Number: VT01579
Material: video, 14 minutes
Industry: construction
This video explains basic safety procedures and health hazards including equipment inspection, cylinder connections, valves, fire prevention, and metal fume fever. Digital 2000, 1993.

► Gas Welding and Cutting Operations: Construction (Spanish)

Number: VT01711
Material: video, 14 minutes
Industry: construction
See previous description. Digital 2000, 1993.

Training Materials by Subject 2004

Health and Safety in Welding and Allied Processes

Number: TS227.8.H43

Author: Balchin, Nigel C.

Material: book, 231 pages

Industry: all industries

This book identifies the hazards of major welding processes including gas welding, arc welding, brazing and soldering. McGraw-Hill, 1993.

Hot Work Permit

Number: VT01298

Material: video, 13 minutes

Industry: all industries

This video discusses proper procedures and safe work practices when performing hot work (welding, grinding, cutting) including identifying potential hazards, permit procedures, and personal protective equipment. Summit Training Source, 1995.

Hot Work: Welding and Cutting Safety in Construction

Number: VT01414

Material: video, 14 minutes

Industry: construction

This video covers safe work practices and procedures for gas and arc welding and cutting operations including recognizing hazards, personal protective equipment, and equipment inspection. Associated General Contractors of America, 1994.

Oxyacetylene Safety

Number: VT01397

Material: video, 22 minutes

Industry: all industries

This video discusses the importance of following basic safety rules, ten safety rules are given and illustrated, and demonstrations show the dangers and effects of misuse of oxyacetylene equipment. Primedia Workplace Learning, 1996.

Oxyfuel Gas Cutting: The Sure Cut

Number: VT01491

Material: video, 13 minutes

Industry: all industries

This video details the principles of welding safety and provides specific procedures when performing oxyfuel gas cutting including safety equipment, hook-up procedures, hazardous fumes, and ventilation. Coastal Training Technologies, 1990.

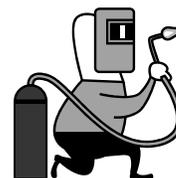

Safety and Health Factors in Welding and Cutting

Number: VT01290

Material: video, 30 minutes

Industry: all industries

This program discusses general safety and health hazards and techniques for controlling or reducing these hazards including gases, chemical agents, hearing loss, and fire. NTIS (Producer: OSHA Office of Training and Education), 1990.

Welding: Respecting the Hazards

Number: VT01301

Material: video, 13 minutes

Industry: all industries

This video discusses understanding and recognizing potential hazards, safe work practices, types of welding, inspecting the welding environment and equipment, proper personal protective equipment, and fire prevention. Summit Training Source, 1996.

Welding Safety: Securing the Work Zone

Number: VT01450

Material: video (closed-captioned), 16 minutes

Industry: all industries

This video explains proper procedures for oxyfuel and electric-arc welding, securing the 360-degree zone, proper ventilation, personal protective equipment, and fire watch. Coastal Training Technologies, 1988.

Wholesale and Retail Trades

Health & Safety: Why Care?

Number: VT01173

Material: video, 14 minutes

Industry: general industry

This video presents an overview of potential hazards and safety precautions for retail, wholesale and department store employees. Retail, Wholesale and Department Store Union, 1991.

Training Materials by Subject 2004

Health & Safety: Why Care? (Spanish)

Number: VT01173S

Material: video, 14 minutes

Industry: general industry

See previous description. Retail, Wholesale and Department Store Union, 1991.

Woodworking Machinery

Hazard Control for Woodworking Machines

Number: VT01330

Material: video, 31 minutes

Industry: wood products

This video discusses mechanical, electrical and health hazards including nip points, guards, dust control, and noise. United Furniture Workers of America, 1986.

Workplace Violence

Is It Worth Your Life?: Workplace Violence Prevention in Retail Stores

Number: VT01262

Material: video, 19 minutes

Industry: retail trade

This video shows ways to prevent or defuse violent situations in retail stores. NOTE: *Washington State has a Crime Prevention Code. OSHA uses the General Duty Clause to cover this workplace hazard.* Washington State Department of Labor and Industries, 1992.

Targeting Workplace Violence

Number: VT01385

Material: video, 19 minutes

Industry: general industry

This video shows three scenarios (hospital, late night custodial, and office) then discusses ways to prevent or defuse the situations that are depicted. Oregon Occupational Safety & Health Division, 1997.

Violence in the Workplace

Number: VT01703

Material: video, 15 minutes

Industry: all industries

This video covers the underlying causes of workplace violence, warning signs, types of threats including aggressive behavior and verbal abuse, proper response to threatening words or actions, and handling disputes with co-workers. Long Island Production, 1996.
