**DEPARTMENT OF LABOR**

**Employment and Training Administration**

**Proposed Collection of the ETA 9048, Worker Profiling and Reemployment Services Activity and the ETA 9049, Worker Profiling and Reemployment Services Outcomes; Comment Request**

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments

concerning the proposed extension of the collection of the ETA 9048, Worker Profiling and Reemployment Services Activity, and the ETA 9049, Worker Profiling and Reemployment Services Outcomes. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the **ADDRESSES** section of this notice or by accessing: <http://www.doleta.gov/OMBCN/OMBControlNumber.cfm>.

**DATES:** Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before December 26, 2006.

**ADDRESSES:** Diane Wood, Office of Workforce Security, 200 Constitution Ave. NW., Room S-4231, Washington, DC 20210; telephone 202-693-3212; fax 202-693-3975 (these are not toll-free numbers) or e-mail [wood.diane@dol.gov](mailto:wood.diane@dol.gov).

**SUPPLEMENTARY INFORMATION:**

I. *Background:* The Worker Profiling and Reemployment Services (WPRS) program allows for the targeting of reemployment services to those most in need of services. The ETA 9048 and ETA 9049 are the only means of tracking the activities in the WPRS program. The ETA 9048 reports on the numbers and flows of claimants at the various stages of the WPRS system from initial profiling through the completion of specific reemployment services. This allows for evaluation and monitoring of the program. The ETA 9049 gives a limited, but inexpensive, look at the reemployment experience of profiled claimants who were referred to services by examining the state's existing wage record files to see in which quarter the referred individuals became employed, what wages they earned and whether they have changed industries.

II. *Desired Focus of Comments:* The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. *Current Actions:* This collection continues to be needed to evaluate and monitor the WPRS program.

*Type of Review:* Extension without change.

*Agency:* Employment and Training Administration.

*Title:* Worker Profiling and Reemployment Services Activity, and Worker Profiling and Reemployment Services Outcomes.

*OMB Number:* 1205-0353.

*Agency Number:* ETA 9048 and ETA 9049.

*Affected Public:* State Governments.

*Total Respondents:* 53.

*Frequency:* Quarterly.

*Total Responses:* 424.

*Average Time per Response:* 15 minutes.

*Estimated Total Burden Hours:* 106 hours.

*Total Burden Cost (operating/maintaining):* \$0.

Comments submitted in response to this comment request will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request and will become a matter of public record.

Dated: October 18, 2006.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate.

The Occupational Safety and Health Act of 1970 (the Act) (29 U.S.C. 651 *et*

*seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

Employers who modify an aerial lift for uses other than those provided by the manufacturer must obtain a certificate from the manufacturer or equivalent entity certifying that the modification is in conformance with applicable ANSI standards and this Standard, and the equipment is as safe as it was prior to the modification. The manufacturer’s certification demonstrates to interested parties that the manufacturer or an equally qualified entity assessed a modified aerial lift and found that it was safe for use by, or near, employees, and would provide employees with a level of protection equivalent to the protection afforded by the lift prior to modification.

##### **II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirement is necessary for the proper performance of the Agency’s functions, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

##### **III. Proposed Actions**

OSHA is requesting OMB to extend their approval of the collection of information requirement contained in the Aerial Lifts Standard. The Agency is requesting a nine hour decrease as a result of reestimating the number of inspections where employers will provide OSHA these certificates. The Agency will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB.

*Type of Review:* Extension of currently approved information collection requirements.

*Title:* Manufacturer’s Certification of Modifications Made to Construction Aerial Lifts (29 CFR 1926.453).

*OMB Number:* 1218–0216.

*Affected Public:* Business or other for-profit.

*Number of Respondents:* 62.

*Frequency:* On occasion.

*Average Time Per Response:* Six minutes (.06 hour).

*Estimated Total Burden hours:* 6 hours.

*Estimated Cost (Operation and Maintenance):* \$0.

#### **IV. Public Participation—Submission of Comments on this Notice and Internet Access to Comments and Submissions**

You may submit comments and supporting materials in response to this notice by (1) Hard copy, (2) FAX transmission (facsimile), or (3) electronically through the OSHA Web page.
