Availability of NPRM's

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web page at http://www.faa.gov/airports_airtraffic/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 1601 Lind Avenue, SW., Renton, WA 98057.

Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267-9677, for a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by establishing Class E airspace extending upward from 700 feet above the surface at Nephi Municipal Airport, Nephi, UT. Controlled airspace is necessary to accommodate aircraft using the new RNAV (GPS) standard instrument approach procedures at the airport, and would enhance the safety and management of aircraft operations.

Class E airspace designations are published in paragraph 6005, of FAA Order 7400.9U, dated August 18, 2010, and effective September 15, 2010, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes additional controlled airspace at Nephi Municipal Airport, Nephi, UT.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9U, Airspace Designations and Reporting Points, dated August 18, 2010, and effective September 15, 2010 is amended as follows:

The purpose of the teleconferences was to gather information from small businesses about their experiences recording work-related musculoskeletal disorders (MSDs) and how they believe they would be impacted by OSHA's proposed rule to revise its Recordkeeping regulations to restore a column on the OSHA 300 Log that employers would have to check if a case they already are required to record is an MSD. The record will remain open for 30 days for comment on these limited issues.

DATES: Comments must be submitted (postmarked, sent, received) by June 16, 2011.

ADDRESSES: You may submit comments using one of the following methods:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the on-line instructions for submitting comments electronically;

SUPPLEMENTARY INFORMATION:

References and Exhibits

This notice references documents in the public docket of this rulemaking (Docket No. OSHA–2009–0044). They are available on the Internet at <http://www.regulations.gov>, the Federal eRulemaking Portal. The referenced documents are identified as “Ex.” followed by the document number. The document number is the last sequence of numbers in the Document ID Number on <http://www.regulations.gov>. For example, the proposed rule, which is Document ID Number OSHA–2009–0044–0001 at <http://www.regulations.gov>, is Ex. 1.

Background

On January 29, 2010, OSHA proposed to revise its Occupational Injury and Illness Recording and Reporting (Recordkeeping) regulation to restore a column to the OSHA 300 Log that employers would have to check if a case they already are required to record under the existing Recordkeeping rule is an MSD (Ex. 1; 75 FR 4728 (1/29/2010)). The proposed rule would not change the existing Recordkeeping requirements about when and under what circumstances employers must record work-related injuries and illnesses. Under the existing Recordkeeping rule (66 FR 5916 (1/19/2001)) employers already must determine whether a case is recordable; that is, whether the case meets the definition of “injury or illness,” is a new case, is work-related, and meets at least one of the recording criteria (e.g., involves days away from work, restricted work, or medical

treatment beyond first aid). The only additional requirement the proposed rule would impose is for employers to mark the MSD column box on the OSHA 300 Log if a case they have already recorded meets the definition of an MSD. The proposed rule would define an MSD, for recordkeeping purposes only, as a disorder of the muscles, nerves, tendons, ligaments, joints, cartilage or spinal discs that was not caused by a slip, trip, fall, motor vehicle accident or similar accident (Proposed § 1904.12(b)(1); Ex. 1; 75 FR 4740).

OSHA's revised 2001 Recordkeeping rule included an MSD column, but that provision never became effective and was deleted in 2003 (68 FR 38601 (6/30/2003)). In proposing to restore the MSD column, OSHA explained:

After further consideration and analysis, OSHA believes that the MSD column would provide valuable information for maintaining complete and accurate national occupational injury and illness statistics; assist OSHA in targeting its inspection, outreach, guidance, and enforcement efforts to address MSDs; and provide easily identifiable information at the establishment level that will be useful for both employers and employees (75 FR 4731).

In the proposed rule, OSHA estimated that 1.505 million recordable MSDs were expected to occur annually among the 1.542 million affected establishments. Therefore, the economic impact of the proposed rule on any affected establishment would be quite small (75 FR 4737). OSHA estimated the annualized costs of the proposed rule would be \$1.379 million per year for all affected establishments combined (\$4 per establishment the first year and 67 cents in future years). The costs represent the time that establishments would need to become familiar with the rule (5 minutes per establishment the first year) and to determine if the recordable case meets the MSD definition and check the MSD column (1 minute per MSD annually).

OSHA provided 60 days for stakeholders to submit comments on the proposed rule (75 FR 10738 (3/9/2010)), consistent with Executive Orders 12866 and 13563 (58 FR 51735; 76 FR 3821). OSHA also held a public meeting on March 9, 2010, to allow stakeholders to make oral presentations and question the Agency about the proposed rule. The transcript of the public meeting is in the public docket of this rulemaking (Ex. 56).

See the notice of proposed rulemaking (OSHA–2009–0044–0001) for additional information on the events leading to this rulemaking and the history of the 2001 Recordkeeping rulemaking as well as a detailed explanation of the proposed

MSD column provision, OSHA's reasons for proposing to restore the MSD column and the estimated economic impacts (Ex. 1; 75 FR 4728).

Small Business Teleconferences

On January 25, 2011, OSHA announced that the Agency had decided to seek additional input from small businesses on the impact of the proposal through outreach in partnership with the SBA Office of Advocacy and, therefore, was temporarily withdrawing the proposed rule from review by the Office of Management and Budget. On March 23, 2011, OSHA announced that, together with the SBA Office of Advocacy, the Agency would hold three teleconferences on April 11–12, 2011 to reach out to small businesses. The purpose of the teleconferences was to gather information from small businesses about their current recordkeeping practices, including their experiences recording work-related MSDs, and the impact they believe the proposal would have on them. OSHA also provided the following information about the teleconferences:

- OSHA and the SBA Office of Advocacy would select the small business participants for the teleconferences;
- The public would be invited to listen to the teleconferences, but only selected small businesses could participate;
- In advance of the teleconferences, OSHA would provide participants with background information on the proposed rule and a list of questions and issues for discussion;
- The teleconferences would not be electronically recorded or transcribed;
- OSHA staff would take notes during the teleconferences and prepare a summary report that would not identify the source of specific comments;
- Small business participants also could send written comments following the teleconferences; and
- After the teleconferences, OSHA would reopen the rulemaking record for the limited purpose of allowing interested persons, particularly small business, to comment on the teleconferences and the issues raised by the participants (Summary of Comments from the Small Business Teleconferences on OSHA's Proposed Rule on MSD Recordkeeping Requirements, Ex. 0139).

Sixteen small businesses, with employment ranging from about 10 to more than 400 employees, participated in the three teleconferences (Summary of Comments from the Small Business Teleconferences on OSHA's Proposed Rule on MSD Recordkeeping

Requirements, Appendix A, Ex. 0139). In addition, dozens of interested persons listened to the teleconferences in person or by telephone.

OSHA has prepared a summary of the participants' comments during the teleconferences and has placed the summary in the public docket for this rulemaking (Summary of Comments from the Small Business Teleconferences on OSHA's Proposed Rule on MSD Recordkeeping Requirements, Ex. 0139). The document summarizes the topics the participants discussed, including their current recordkeeping practices, how they determine the work-relatedness of MSDs, how the participants believe the proposed rule would change their recordkeeping practices, benefits of the proposed rule, and other issues the participants raised. The summary document also includes the list of teleconference participants (Summary of Comments from the Small Business Teleconferences on OSHA's Proposed Rule on MSD Recordkeeping Requirements Appendix A, Ex. 0139) and the background materials and list of discussion issues that OSHA provided to the small business participants (Summary of Comments from the Small Business Teleconferences on OSHA's Proposed Rule on MSD Recordkeeping Requirements, Appendix B, Ex. 0139). The background materials contain information on the proposed and existing recordkeeping requirements, the need for the proposed rule, updated cost estimates of the proposed rule and economic impacts on small businesses, and OSHA's existing recordkeeping forms. Interested persons may read and download the summary and appendices at Docket Number OSHA–2009–0044 at <http://www.regulations.gov>. The summary and appendices also are available on OSHA's Web page at <http://www.osha.gov>.

Public Participation

OSHA invites comment, particularly from small businesses, on the small business teleconferences by the participants. Interested persons must submit comments by June 16, 2011.

You may submit comments and attachments by one of the following methods: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by fax; or (3) by hard copy. All submissions must identify the Agency name and the OSHA docket number (Docket No. OSHA–2009–0044) or RIN number (RIN No. 1218–AC45) for this rulemaking. You may supplement electronic comments by uploading attachments electronically. If, instead, you wish to

submit a hard copy of the attachments, you must submit those materials to the OSHA Docket Office (see **ADDRESSES** section). The additional materials must clearly identify your electronic comments by name, date, and docket number, so OSHA can attach them to your submission.

Because of security-related procedures, the use of regular mail may cause a significant delay in the receipt of submissions. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger or courier service, please contact the OSHA Docket Office at (202) 693–2350 (TTY (877) 889–5627).
