as well as enhance the quality of life in accordance with the Indian Self-Determination Act and Education Assistance Act. The Council also provides guidance to the Secretary on how to make DOL discretionary funding and other special initiatives more accessible to federally recognized tribes, Alaska Native entities, and Native Hawaiian organizations. The charter is required to be renewed every two years. The charter expired on September 9, 2015. The NAETC recommendations and accomplishments have and continue to assist ETA and the Secretary in making policy decisions that impact Native Americans, Alaska Natives and Native Hawaiian communities.

Summary of Revisions: The charter is being renewed to reference updates from the Workforce Investment Act to WIOA, and the following changes:

Clarification that the Council’s Designated Federal Officer (DFO) accepts reports on behalf of the Secretary; an increase in estimated annual operating costs and estimated staff years from a half of a full-time employee (FTE) to one FTE; a definitive range in the number of members; a clarification that the Council consult with the DFO to confirm the Department’s approval for the Council to create a subcommittee or workgroup; and language outlining the use of proxy voting. All revisions are self-explanatory and/or provide clarification of existing procedures, with the exception of the proxy voting. The “Objectives and Scope of Activity” section includes language that specifies the Council’s purpose, focus, and mission; section 5 clarifies that the DFO will accept reports on behalf of the Secretary; section 7 increased the estimated annual operating costs for the Council and increases the estimated staff years from .5 FTE to 1 FTE. Section 12 added “Voting” to the title of this section and includes language that provides a definitive range in the number of members and additional language that outlines the use of proxy voting.

Changes to the language reads: “If a member is unable to attend a meeting, he or she may notify the DFO in writing and request the DFO’s approval to permit another member of the same tribe, organization, or entity to vote on behalf of such member on all matters coming before the Council during that particular meeting. Notice of a proxy’s attendance must be given at least 48 hours in advance of the scheduled meeting. A record of the notification and approval will be kept, and written notice includes email notification. Proxies will be counted when calculating whether a quorum is present at the Council meeting.” This change provides a process for ensuring a balanced Council in the event a Council member is unable to attend a meeting. The member will notify the DFO and request that another member of the same tribe, organization or entity be permitted to vote in their place; but only on the matters before the Council during that particular meeting. This will also ensure that in the event a member is unable to attend a scheduled Council meeting, a balanced membership is maintained for voting purposes. This is the first time that the Department has incorporated the use of proxy/alternate voting on advisory committees, and although it is intended to address the issue of a balanced membership, it is alternatively emphasized that it is important that the members who have been vetted and approved to serve on the Council attend the meetings if they are available and able to participate in person or via teleconference. Proxies should only be used on exceptional occasions. Members are also required to provide notice in writing 48 hours in advance of the scheduled meeting so that the Agency can ensure a balance will be maintained and that there are no conflicts of interest presented by the proxy.

SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

The Occupational Safety and Health Administration is providing notice that SGS North America, Inc. (SGS), is applying for expansion of its current recognition as an NRTL. SGS requests the addition of five (5) recognized testing and certification sites, and fourteen (14) additional test standards to its NRTL scope of recognition.

OSHA’s recognition of an NRTL signifies that the organization meets the requirements specified in Title 29, Code of Federal Regulations, Section 1910.7 (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. Recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The Agency processes applications by an NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the Federal Register in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding. In the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL’s scope of recognition or modifications of that scope. OSHA maintains an informational Web page for each NRTL, including SGS, which details the NRTL’s scope of recognition. These pages are available from the OSHA Web site at http://www.osha.gov/dts/otpca/nrtl/index.html.

Each NRTL’s scope of recognition has three elements: (1) The type of products the NRTL may test, with each type specified by its applicable test standard; (2) the recognized site(s) that has/has the technical capability to perform the product testing and product-certification activities for test standards within the NRTL’s scope; and (3) the supplemental program(s) that the NRTL may use. Each of these elements allows the NRTL to rely on other parties to perform activities necessary for product testing and certification.

SGS currently has one facility (site) recognized by OSHA for product testing and certification, with its headquarters located at: SGS North America, Inc., 620 Old Peachtree Road, Suwanee, Georgia 30024. A complete list of SGS sites recognized by OSHA is available at https://www.osha.gov/dts/otpca/nrtl/sgs.html.

II. General Background on the Application

SGS submitted an application, dated October 1, 2014 (OSHA–2006–0040, Exhibit 15–1 SGS Expansion Application), to expand its recognition to include the addition of five recognized testing and certification sites located at: SGS–CSTC Standards Technical Services Co., Ltd. Guangzhou Branch, 198 Kezhu Road, Scientech Park Guangzhou Economic & Technology Development District, Guangzhou, Guangdong, China, 510663; SGS–CSTC Standards Technical Services Co., Ltd. Shunde Branch, 198 Kezhu Road, Scientech Park Building 1, European Industrial Park, No. 1, Shunde South Road, Wusha, Daliang, Shunde District, Foshan, Guangdong, China; SGS–CSTC Standards Technical Services Co., Ltd Ningbo Branch, 1–5/F., West of Building 4, Lingyun Industry Park, No. 1177, Lingyun Road, Ningbo National Hi-Tech Zone, Ningbo, Zhejiang, China; SGS–CSTC Standards Services Co., Ltd. Shenzhen Branch, No. 1 Workshop, M–10, Middle Section, Science & Technology Park, Nan Shan District, Shenzhen, China 518057; SGS–CSTC Standards Technical Services (Shanghai) Co., Ltd., No 588 West Jindu Road, Xinqiao Town, Songjiang District 201612, Shanghai, China. SGS’s application also requested the addition of fourteen additional test standards to its scope of recognition. OSHA staff performed an on-site review of SGS’s testing facilities on June 15, 2015 at SGS Shanghai, June 18, 2015 at SGS Ningbo, June 22, 2015 at SGS Shenzhen, June 24, 2015 at the two SGS Guangdong locations (Guangzhou and Shunde) in which the assessors found some nonconformances with the requirements of 29 CFR 1910.7. SGS addressed these issues sufficiently, and OSHA staff preliminarily determined that OSHA should grant the application.

Table 1 below lists the appropriate test standards found in SGS’s application for expansion for testing and certification of products under the NRTL Program. One of these test standards, UL 60335–2–24, is new to the NRTL Program, and OSHA preliminarily determined that it is an “appropriate test standard” within the meaning of 29 CFR 1910.7(c).

III. Preliminary Finding on the Application

1. SGS submitted an acceptable application for expansion of its scope of recognition. OSHA’s review of the application file and its detailed on-site assessments indicate that SGS can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of five sites and these fourteen test standards for NRTL testing and certification. This preliminary finding does not constitute an interim or temporary approval of SGS’s application.

2. The UL 60335–2–24 standard is an appropriate test standard, and OSHA proposes to include this test standard in the NRTL Program’s list of appropriate test standards.

OSHA welcomes public comment as to whether SGS meets the requirements of 29 CFR 1910.7 for expansion of its recognition as an NRTL. OSHA also seeks comments as to whether or not the UL 60335–2–24 test standard is an appropriate test standard under the NRTL Program. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if it is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, Room N–2625, Occupational Safety and Health Administration, U.S. Department of Labor, at the above address. These materials also are available online at http://www.regulations.gov under Docket No. OSHA–2006–0040.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will recommend to the Assistant Secretary for Occupational Safety and Health whether to grant SGS’s application for expansion of its scope of recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will incorporate into its informational Web pages the modifications OSHA decides to make to its current list of NRTL test standards, as well as any changes to an NRTL’s scope of recognition. Access to these Web pages is available at http://www.osha.gov/dts/otpca/nrtl/index.html.

OSHA will publish a public notice of this final decision in the Federal Register.

Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, 200 Constitution Avenue NW., Washington, DC 20210, authorized the preparation of this notice. Accordingly, the Agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor’s Order No. 1–2012 (77 FR 3912, Jan. 25, 2012), and 29 CFR 1910.7.
