Reducing Fall Hazards in the Construction Industry

Conference and Exposition

Sponsored by

**OSHA's Denver Area
Office**

and

**The City and County of
Denver**

Gregory J. Baxter
OSHA Region VIII - Regional Administrator

Make plans to attend this informative event designed to reduce fall hazards in Colorado's construction industry. This conference is highlighted by instructional presentations from over twenty leading safety professionals representing both public and private sectors.

Don't miss this opportunity to attend *free* classroom training sessions and learn about the OSHA standards that apply to working from roofs, scaffolds, and ladders. This valuable safety training is presented to you in both **English and Spanish!!!**

Company owners, managers, safety professionals, and employees will surely benefit from the interactive displays and demonstrations of today's state-of-the-art scaffolding, roofing safety equipment and fall protection systems.

Advanced registration is *not* required. Classroom seating is limited and will be provided on a "first-come, first-served" basis.

Keynote Speakers

Wilma J. Webb
Secretary's Representative - Region VIII
U.S. Department of Labor
