Rec #	Findings	Recommendations	Related FY 09 Rec #
10-1	HIOSH did not notify all complainants of inspection results within 20 workdays of citation issuance or within 30 workdays of closing conference without citation.	HIOSH must ensure that complainants are notified of inspection results in a timely manner.	09-1 Repeated
10-2	Hawaii did not respond to two out of nine complaints classified as imminent danger within a day of receiving the complaint.	Review the complaint processing system and ensure there is adequate staffing to respond to complaints classified as imminent danger in a timely fashion.	09-3 Pending
10-3	Although the information had been entered into IMIS, there was no copy of the OSHA 170 in four of the five cases classified as FAT/CATs.	HIOSH must properly complete the OSHA 170 with sufficient details to describe the accident and include a copy in the case file.	09-4 Pending
10-4	Families of the victims of occupational fatalities were sent the initial contact letter in one of the five fatality cases. There was no evidence of any other written contact with the families in the fatality case files.	HIOSH must follow their FOM and keep the families of victims of occupational fatalities informed by staying in contact with the families and by sending the appropriate letters in a timely fashion during the course of the inspection. While the State program was not required to and did not adopt CPL 02-00-137, Fatality/Catastrophe Investigation Procedures, OSHA strongly recommends adoption of similar procedures.	09-5 Pending

HIOSH needs to evaluate resources or consider hiring additional personnel to ensure that proportionate inspection coverage is provided to the neighbor islands, especially Maui.	09-8 Pending
10-8	Construction contractors working on military bases were seldom inspected by HIOSH.	HIOSH must conduct a proportionate number of inspections of contractors on military bases until Federal OSHA gains jurisdiction.	09-9 Pending

Rec #	Findings	Recommendations	Related FY 09 Rec #
10-15	In 24 of the 43 case files reviewed, HIOSH did not appropriately classify the violations and/or cite all of the obvious hazards. Seven other-than-serious violations (OTS) should have been classified as serious (S). There were 19 case files where the narrative or a photo provided sufficient information of document a hazard which was not cited. There was nothing in the case files to indicate why these hazards were not cited.	Managers must thoroughly review case files to ensure that documentation is complete and citations and classification of violations are consistent and appropriate to the hazards identified during inspections.	09-16 Pending
10-16	There was no documentation that all relevant safety and health programs required by the HIOSH standards were evaluated during programmed planned comprehensive inspections.	Ensure that the OSHA 1A narrative is completed to document the evaluation of all relevant safety and health programs for all programmed planned inspections and where appropriate for unprogrammed activity.	09-17 Pending
10-17	HIOSH did not cite any standard from 29 CFR 1910.38 during FY 2009. 10-18	Documentation that employer injury illness records were reviewed and evaluated as part of the inspection process was missing from the case files. 10-19	The average number of calendar days it took HIOSH to issue citations has more than doubled since FY 2007 to an average of 102 days, which is approximately twice as long as federal OSHA.	HIOSH must improve its citation processing system to effectively decrease citation lapse time. HIOSH must ensure the managers run Open Inspection reports on a weekly basis to track lapse time and intervene when appropriate to ensure that cases are completed in a timely manner. HIOSH should also consider eliminating the final review by the State Designee to reduce additional review time.	09-21 Repeated
10-20	Penalties were not always calculated in accordance with chapter VI of its FOM.	HIOSH must ensure that citations are reviewed to confirm that the penalty calculation includes the appropriate probability and severity for the related employee exposure and type of hazard identified.	09-22 Pending
10-21	S/W/R violations were not always abated in a timely fashion, nor were follow-up inspections conducted in all instances when required.	HIOSH must ensure that abatement is achieved and entered in a timely fashion, and that follow-up inspections are scheduled and conducted when appropriate.	09-23 Repeated

10-23	There was no evidence of the final outcomes of contested cases (i.e. copy of the Formal Settlement Agreement) in the files reviewed. This corresponds disproportionately with the increase in the last three years in the public sector injury and illness rates.	HIOSH should increase its inspections in the public sector.	09-26 Repeated
10-25	As of February 2010 HIOSH had not designated a back-up administrator.	HIOSH should designate a back-up system administrator.	09-31 Pending

HIOSH must submit a written request for prior approval through the grant administrator 30 days in advance of the original award end date in accordance with OSHA directives, and must not take action unless it receives written authorization.	09-43 Pending
10-37	Drawdown of grant funds was not uniform during the fiscal year.	HIOSH needs to closely monitor drawdown of funding from the grants on a monthly basis to ensure grant funds are properly managed.	09-44 Pending
10-38	23g Grant funds were used to pay a temporary employee without requesting written permission to do so and to purchase and maintain a color copier in the Director's office.	HIOSH must ensure that expenditures and equipment purchases made with 23g funds are used for activities covered and authorized by the 23g Grant.	09-45 Pending
