August 30, 2013

Dear Mr. Atha,

Enclosed is the California Corrective Action Plan in response to the 2012 FAME Report that we received on July 31, 2013.

The California Department of Industrial Relations, Cal/OSHA, the Occupational Safety and Health Standards Board, and the Division of Labor Standards Enforcement appreciate the time and effort devoted to ongoing oversight by Federal OSHA personnel in northern and southern California. We always welcome the opportunity to learn how we can operate more efficiently and meet our mandate and mission in the most effective manner possible.

The specific responses to OSHA's findings and recommendations are summarized in the attached chart. We have significantly reduced the number of findings since the 2011 FAME report and we are working diligently to continue improving our program.

We look forward to ongoing collaboration with Federal OSHA toward our joint goal of ensuring that every working person in California is able to return home safe and sound at the end of their work day.

Sincerely,

Christine Baker, Director
Department of Industrial Relations
