Director Division of Occupational Safety and Health

Re: Provided is the VIDOSH statement in response to the FY 2012 Abridged Federal Annual Monitoring and Evaluation (FAME) Report

The Virgin Islands Division of Occupational Safety and Health (VIDOSH) is providing a response to the 2012 Enhanced Federal Annual Monitoring and Evaluation (EFAME) Report.

On July 31, 2013 VIDOSH received via email the Virgin Islands 2012 EFAME, FY 2013 Corrective Action Plan (CAP) and the Regional Administrator FAME letter signed by Robert Kulick, Region II OSHA Regional Administrator.

VIDOSH is a public sector only state plan and is working together with the OSHA Region II and the National Office to ensure the implementation of its FY 2013 Corrective Action Plan (CAP). Despite the limited funding and staffing/training challenges, VIDOSH continues to proactively address the findings and/or implement the recommendations identified in the 2012 EFAME Report. The ongoing and positive working relationship with the Region II leadership facilitates our commitment of VIDOSH becoming a model public sector state plan in preventing workplace injuries, illnesses, and fatalities. I appreciate this opportunity to respond to the EFAME. If you have any questions, please do not hesitate to contact me.
