

# Flying Particle?

**Now You See it.**

**Now You Don't!**

**Wear These Today**

**...Or  
THIS  
Tomorrow!**

[www.landcarenetwork.org](http://www.landcarenetwork.org)

Fact you should know: 1) A particle thrown from a mower, weed wacker, chain saw, demo saw, or grinder may be moving at more than 200 mph.  
2) All eye protection should be labeled Z87. Make sure you check for it on the temples or the frame.
