Training Materials by Title 2012

**Accident investigation**
Number: VT01293
Material: video 22 minutes
Industry: all industries
Describes how to effectively conduct an accident investigation including the purpose of accident investigation, interviewing the witnesses, gathering and analyzing the information, and implementing improvements.
Summit Training Source 1987

**Accident investigation: examining the details**
DVD017
Material: DVD 19 min
Industry: all industries
Provides a walk-through of the incident analysis process, including examining the accident scene, interviewing witnesses, reviewing records, analyzing information, and communicating recommendations.
Summit Training Source, 2009

**Accident investigation: Just the facts**
Number: VT01416
Material: video 18 minutes
Industry: construction
Covers how to effectively conduct an accident investigation including the purpose of accident investigation, gathering the facts, interviewing the witnesses, analyzing the information, and implementing improvements.
Assoc General Contractors of America 1991

**Accident prevention: Staying a step ahead**
Number: VT01263
Material: video 18 minutes
Industry: general industry
Covers the basics for setting up a company safety program including establishing procedures for reporting hazards, hazard assessment and correction, and employee training. NOTE: Washington State may have stricter standards than OSHA.
WA State Dept of Labor & Industries 1992

**Accidents: It can't happen to me**
Number: VT01575
Material: video 10 minutes
Industry: general industry

Covers, through interviews with workers, the basic causes and prevention of accidents including safety attitudes and practices.
Digital 2000 1997

**Advertencia a los peligros de plomo (lead)**
Number: VT01386 Spanish
Material: video 13 minutes
Industry: construction
Discusses lead hazards including health effects and personal protective equipment.
Chicago Construction Safety Council 1996

**Aerial lift safety**
Number: DVD069
Material: video 14 minutes
Industry: all industries
Describes the various types of aerial lifts, pre-operational inspections and safe use. Covers the use of fall protection and the hazards of working near electrical lines. (English / Spanish)
Summit Training Source, 2005

**Aerial lift safety**
Number: VT01506
Material: video 7 minutes
Industry: all industries
Demonstrates safe operating procedures, pre-operation inspection, work site evaluation and safe work practices.
Summit Training Source 1998

**Agricultural vehicle safety orientation**
Number: VT01532
Material: video 12 minutes
Industry: agriculture
Covers basic safety measures including defensive driving techniques and pre-operation safety inspection.
Digital 2000 1994

**Agricultural vehicle safety orientation**
Number: VT01534 Spanish
Material: video 12 minutes
Industry: agriculture
See previous description.
Digital 2000 1994

**Air purifying respirators**
Number: VT00357
Material: video 7 minutes  
Industry: general industry  
Demonstrates the care and storage of air purifying respirators, the situations where they are worn, and proper fit testing.  
Summit Training Source 1990

**Asbestos awareness**  
Number: VT00359  
Material: video 6 minutes  
Industry: general industry  
Covers the identification and uses of asbestos, where it is found and its health hazards.  
Summit Training Source 1990

**Airborne hazards**  
Number: VT00358  
Material: video 6 minutes  
Industry: general industry  
Describes airborne contaminants, their effect on the respiratory system, and the importance of selecting the right respirator for the job.  
Summit Training Source 1990

**Asbestos awareness: Are you at risk?**  
Number: VT01565  
Material: video 19 minutes  
Industry: all industries  
Discusses the three forms of asbestos, how they are used, possible locations, recognizing damage and deterioration, hazard communication, health effects, housekeeping requirements, and personal protection.  
Coastal Training 1992

**All about OSHA**  
Number: VT01679 Spanish  
Material: video 8 minutes  
Industry: all industries  
Provides an introduction to OSHA for the Spanish-speaking workforce including Latino accident statistics, OSHA inspections, reporting job hazards, and employer responsibilities. NOTE: Mention is made of some Georgia OSHA Atlanta West Area Office 2000

**Asbestos exposure: Within safe limits**  
Number: VT01590  
Material: video 15 minutes  
Industry: construction  
Describes how asbestos is used in construction, its effect on the body, and how workers can protect themselves from exposure.  
Assoc General Contractors of America 1998

**Arc Flash: Live to Tell**  
Number: DVD011  
Material: DVD 16 min  
Industry: all industries  
This DVD reviews the 2009 version of NFPA70E. In this review the definition of an arc flash is provided. The necessary documentation and regulations related to an arc flash incident are identified. Critical approach boundary areas are explained as well as job planning and hazard analysis. Finally, lockout/tagout procedures and proper PPE applications are reviewed.  
Dupont Sustainable Solutions, 2010

**Asbestos removal: Jobsite techniques**  
Number: VT01126  
Material: video 20 minutes  
Industry: construction  
Covers safe asbestos removal from job site preparation to clean up.  
Sheet Metal & Air- 1988 Conditioning Industry

**Avoid hot mix hazards**  
Number: VT01566  
Material: video 12 minutes  
Industry: construction  
Covers basic hot mix road construction safety including hot mix plants, hot mix transfer, dump trucks, heavy equipment, traffic control, and personal protective equipment.  
Assoc General Contractors of America 1993

**Avoiding electrical hazards**  
Number: VT01430  
Material: video 19 minutes
Training Materials by Title 2012

Industry: general industry
Discusses working safely around electricity including personal protection, working on energized circuits, lockout/tagout, and working near powerlines.
Coastal Training 1989

Avoiding electrical hazards
Number: VT01614 Spanish
Material: video 19 minutes
Industry: general industry
See above description
Coastal Training 1994

Avoiding struck by/hit by: Construction
Number: VT01549
Material: video 18 minutes
Industry: general industry
Covers safety precautions around heavy equipment and rotating/pivoting machinery, construction vehicle movement signals and alarms, proper stacking of building materials, protection from falling objects, and the use of personal protective equipment.
J.J. Keller & Associates 1996

Back injury prevention: Construction
Number: VT01370
Material: video 5 minutes
Industry: construction
Explains how the back functions, safe lifting techniques, and prevention of back injuries.
Digital 2000 1993

Back safety
Number: VT00360
Material: video 6 minutes
Industry: all industries
Covers how the back functions, proper lifting techniques, good posture, and prevention of injuries.
Summit Training Source 1990

Back safety: lift well, live well
Number: DVD022
Material: DVD 15 minutes
Industry all industries
Almost everyone has experienced some sort of back pain. Sometimes it can be insufferable. Back injuries are often avoidable, this videos shows ways to "head off back pain" when you use your head and remember to protect your back from stress. Includes printable guides and PowerPoint presentations.

Back safety: The ergonomic connection
Number: VT01683
Material: video 14 minutes
Industry: all industries
Explains ways to prevent back disorders including how the back works, proper body mechanics, common back injuries, risk factors, and preventive measures.
Summit Training Source 1994

Back to basics: Construction back injury prevention
Number: VT01406
Material: video 18 minutes
Industry: construction
Explains how the back functions and the causes and prevention of back injuries including proper lifting techniques and good work posture.
Assoc General Contractors of America 1992

Back your back: Back & Muscle injury prevention
Number: VT01276
Material: video 19 minutes
Industry: general industry
Explains the causes and prevention of back injuries and lifting techniques.
WA State Dept of Labor & 1992 Industries

Backhoe safety
Number: VT01503
Material: video 18 minutes
Industry: construction
Emphasizes safe operating techniques including pre-operation inspection, safety procedures, unloading from trailers, and digging near underground and overhead utilities.
Zomar Productions 1992

Backhoe/loader operation
Number: VT01740
Material: video 16 minutes
Industry: construction
Covers backhoe operation safety including planning the job, trenching and backfilling, working a spoil pile, and lifting techniques.
Assoc General Contractors of America 2001

**Backhoe/loader operations and safety**
Number: VT01371
Material: video 5 minutes
Industry: construction
Covers general backhoe safety practices, operating rules, and maintenance procedures.
Digital 2000 1993

**Basic electrical safety**
Number: VT01281
Material: video 7 minutes
Industry: all industries
Discusses the properties of electricity, its hazards, and working safely with electric powered tools and equipment.
Training Network-LIP 1992

**Basic electrical safety Construction**
Number: VT01387
Material: video 7 minutes
Industry: construction
Discusses the properties of electricity and the hazards involved in working with electric power tools and equipment including grounding, extension cords, inspection and maintenance, and working in wet weather.
CoreMedia Training 1991

**Basic electrical safety on the job site**
Number: VT01499 Spanish
Material: video 11 minutes
Industry: construction
See previous description.
Digital 2000 1992

**Basic ergonomics**
Number: VT01637
Material: video 5 minutes
Industry: all industries
This humorous video provides a definition, gives a short history, and covers its relevance in the workplace.
Safety Shorts 1989

**Basic look at scaffolds for compliance officers**
Number: VT01259
Material: video 21 minutes
Industry: construction
Discusses OSHA requirements for scaffolding and scaffold construction.
OSHA Office of Construction 1994 & Engineering

**Bloodborne pathogens**
Number: DVD066
Material: DVD 14 minutes
Industry: all industries
Explains how employees in general industry can protect themselves from bloodborne diseases by using universal precautions. Describes exposure routes, personal protective equipment, decontamination, and exposure procedures.
(English / Spanish)
Summit Training Source, 2008

**Bloodborne pathogens**
Number: VT00412
Material: video 20 minutes
Industry: all industries
Describes basic bloodborne disease transmission and precautions, decontamination, and minimizing the risk of infection through proper housekeeping and personal protective.
Coastal Training 1992

**Bloodborne pathogens**
Number: VT01577
Material: video 9 minutes
Training Materials by Title 2012

Industry: all industries
Covers information on HIV and Hepatitis B, transmission, work accident first aid procedures, and exposure prevention.
Digital 2000 1998

**Bloodborne pathogens**
Number: VT01733
Material: video 6 minutes
Industry: all industries
Discusses HIV, Hepatitis B and C including the hazards, means of transmission, misconceptions about exposure, symptoms of infection, and proper protective measures.
Summit Training Source 1990

**Bloodborne pathogens case histories**
Number: VT01592
Material: video 21 minutes
Industry: general industry
Through the retelling of real-life stories, discusses bloodborne disease transmission, safe work practices, PPE, housekeeping, and engineering controls for first responders.
Coastal Training 1995

**Bloodborne pathogens standard: How it affects you, how it protects you**
Number: VT01686
Material: video 20 minutes
Industry: health care
Reviews standard precautions, HBV vaccinations, engineering controls, work practice controls, and personal protective equipment.
Coastal Training 1992

**Bloodborne pathogens: just the facts**
Number: DVD039
Material: DVD 14 minutes
Industry: general industry
This DVD will give viewers a picture of the risks of exposure, the kinds of diseases potentially present in blood and bodily fluids, and the best practices to implement in order to stay safe in the event of exposure.
Coastal Training Technologies, 2008

**Bloodborne pathogens: Know the risk**
Number: VT01633
Material: video 19 minutes

Industry: all industries
Covers common sense guidelines for workers including information on bloodborne diseases, transmission, exposure risk, preventing or minimizing exposure risk, housekeeping, and the proper use, removal and disposal of PPE.
Coastal Training 1997

**Bloodborne pathogens: Long-term care**
Number: VT01684
Material: video 23 minutes
Industry: health services
Discusses safe work practices and precautions including workplace transmission, reducing the risk, and personal protective equipment.
Coastal Training 1992

**Bloodborne pathogens: Protect your dental environment**
Number: VT01685
Material: video 19 minutes
Industry: health services
Discusses safe work practices for the dental worker including workplace transmission, dealing with sharp instruments, reducing the risk, and personal protective equipment.
Coastal Training 1992

**Bloodborne pathogens: Protect yourself**
Number: VT00454
Material: video 15 minutes
Industry: general industry
Covers basic bloodborne disease transmission and precautions for workers including first-aid safeguards, decontamination procedures, and proper housekeeping for first-on-the-scene coworkers.
Coastal Training 1992

**Bloodborne pathogens: Protect yourself**
Number: VT001715 Spanish
Material: video 15 minutes
Industry: general industry
See previous description.
Coastal Training 2000

**Bloodborne pathogens: universal precautions**
Number: DVD015
Material: DVD 14 min
Industry: all industries
Explains how employees in general industry can protect themselves from bloodborne diseases by using universal precautions. Describes exposure routes, personal protective equipment, decontamination, and exposure procedures. Summit Training Source, 2008

**Bloodborne pathogens: What employees must know**  
Number: VT01698  
Material: video 15 minutes  
Industry: general industry  
Provides practical tips and safe work practices for employees including personal protective equipment, safe work practices, engineering controls, reporting exposure and labeling. J.J. Keller & Associates 2001

**Can you spot the hazard?**  
Number: VT01638  
Material: video 6 minutes  
Industry: all industries  
Covers conducting a workplace inspection, identifying hazards including fire and electrical, and safety measures including housekeeping and personal protective equipment. Safety Shorts 1999

**Boomlifts in construction**  
Number: VT01528  
Material: video 10 minutes  
Industry: construction  
Covers startup inspections, lifting principles, hazards including overhead power lines, and safe operating procedures. Coastal Training 1996

**Carpal tunnel**  
Number: VT00361  
Material: video 5 minutes  
Industry: general industry  
Describes carpal tunnel syndrome and ways to eliminate the stress caused by this repetitive motion injury. J.J. Keller & Associates 2001

**Breathing easy: What you should know about indoor air quality**  
Number: VT01364  
Material: video 13 minutes  
Industry: general industry  
Discusses the factors affecting indoor air quality including ventilation systems, temperature and humidity, and sources of contaminants. Public Building Services 1992

**Bridge construction safety: Safe span**  
Number: VT01423  
Material: video 10 minutes  
Industry: construction  
Covers bridge construction hazards and safety measures including falls, cranes, and scaffolds. Assoc General Contractors of America 1993

**Carpenters: A study of hazards in the construction industry**  
Number: VT01153  
Material: video 12 minutes  
Industry: carpentry and floor  
Focuses on general safety and health hazards faced by carpenters on the construction-site including scaffolding, ladders, personal protective equipment, and power tools. Florida AFL-CIO United Labor Agency 1986

**Case of the vicious vapor**  
Number: VT01473  
Material: video 7 minutes  
Industry: all industries  
This humorous video deals with how to investigate a hazardous vapor incident including air sampling, personal protective equipment, and proper Kirkwood Community College 1995

**Bucket truck safety: Training for operators**  
Number: VT01699  
Material: video 18 minutes  
Industry: all industries  
Covers safety and operation issues, explains what can go wrong, and how to prevent these situations from happening. J.J. Keller & Associates 2000

**Caution: Foundry at work**  
Number: VT01628  
Material: video 10 minutes  
Industry: general industry
Training Materials by Title 2012

Covers foundry operations, safe work practices, hazard control, and health and safety hazards including metal fumes, noise, heat, and silica.
US National Institute for OSH 1997

Caution: Foundry at work (CC)
Number: DVD07
Material: DVD 10 minutes
Industry: general industry
See previous description.
US National Institute for OSH 1998

Caution: Foundry at work (CC)
Number: DVD08 Spanish
Material: DVD 10 minutes
Industry: general industry
See previous description.
US National Institute for OSH 1998

Chains, cranes, & slings
Number: VT01362
Material: video 5 minutes
Industry: general industry
Covers equipment pre-use inspection, load handling and sling angles.
Training Network-LIP 1992

Chains, cranes, slings and hoists
Number: VT01363
Material: video 12 minutes
Industry: general industry
Covers pre-use inspections, maintenance and proper use of lifting devices including equipment protection, safe load capacities and sling angles.
Training Network-LIP 1994

Chainsaw leg protection
Number: VT01758
Material: video 4 minutes
Industry: general industry
This brief but graphic video demonstrates the devastating effects of the chainsaw on various materials including jeans, old chaps, and state of the art chaps.
WA State Dept of Labor & Industries 2002

Chemical burns
Number: VT00362
Material: video 5 minutes
Industry: general industry

Discusses safe work practices, the use of chemical-resistant personal protection, and first aid measures.
Summit Training Source 1990

Chemical handling: Corrosives
Number: VT01486
Material: video 12 minutes
Industry: all industries
Reviews basic information about corrosives including characteristics, hazards, PPE, exposure symptoms, labeling, handling and storage.
Coastal Training 1992

Chemical handling: Flammables
Number: VT01432
Material: video 14 minutes
Industry: all industries
Covers basic information about handling flammables and combustibles in the workplace including their characteristics and hazards, ignition, MSDSs, labeling, emergency response, handling and storage.
Coastal Training 1992

Chemical handling: General principles
Number: VT01433
Material: video 16 minutes
Industry: all industries
Covers safe work practices for handling flammables, corrosives, and solvents including their characteristics and hazards, handling and storage.
Coastal Training 1990

Chemical handling: Solvents
Number: VT01619
Material: video 12 minutes
Industry: all industries
Provides general information on solvents including the effect of solvents on the body, exposure symptoms, handling and storage, safety rules, labeling, fire hazards, and emergency response.
Coastal Training 1992

Chemical handling safety: the basics
Number: DVD049
Material: DVD 17 minutes
Industry: General Industry
Training Materials by Title 2012

Shows how to identify certain chemical hazards, handle chemicals safely, and respond to chemical emergencies. (English / Spanish)
Coastal Training Technologies, 2010

**Chemicals in the workplace**
- Number: VT01516
- Material: video 15 minutes
- Industry: general industry
Details material safety data sheets and labels, recognition of chemical hazards, safe handling techniques and storage, and personal protective equipment.
J.J. Keller & Associates 1988

**Competent person and soils testing**
- Number: VT01504
- Material: video 27 minutes
- Industry: construction
Defines the role and responsibilities of the “competent person,” explains the soil classification system, shows five easy field tests for determining soil types including by means of a pocket penetrometer, and preparing for an OSHA inspection.
Zomar Productions 1992

**Complete confined spaces handbook by John F. Rekus**
- Number: T55.R45
- Material: book 381 pages
- Industry: all industries
Covers recommended procedures and guidance for safe entry into confined spaces.
Lewis Publishers 1994

**Compressed gas cylinders**
- Number: DVD063
- Material: DVD 15 minutes
Demonstrates how improper handling of cylinders can cause damage and injury. Covers: potential hazards; pre-use inspection and testing; best safety practices for handling and use; and proper storage and transportation. (English / Spanish)

**Compressed gas cylinders: Storage**
- Number: VT01471
- Material: video 10 minutes
Industry: construction

**Compressed gas cylinders: Using and handling**
- Number: VT01472
- Material: video 8 minutes
Industry: construction
Explains the hazards and procedures for the safe use, storage, and handling of compressed gas cylinders.
Digital 2000 1992

**Compressed gases: Safe handling**
- Number: VT01453
- Material: video 18 minutes
Industry: all industries
Provides information on both flammable and non-flammable compressed gases including classifications, labeling, handling cylinders, valves and leaks.
Digital 2000 1992

**Concrete construction safety: Laying the groundwork**
- Number: VT01751
- Material: video 13 minutes
Industry: construction
Covers the hazards associated with concrete construction.
IL Onsite S&H Consultation 2002 Program

**Conducting a safety meeting in the field**
- Number: VT01250
- Material: video 14 minutes
Industry: logging
Discusses how to conduct a safety meeting at the work site.
University of Idaho 1992

**Confined space atmospheric testing**
- Number: VT01663
- Material: video 17 minutes
Industry: general industry
Reviews the how and when to test, atmospheric hazards, procedures for proper pre-testing, and how to respond when air is determined to be unsafe.
Coastal Training 1992

| **Confined space case histories**  |
| Number: VT01716 Spanish           |
| Material: video 14 minutes         |
| Industry: all industries           |
| See previous description.          |
| Coastal Training 1995              |

| **Confined space emergency rescue** |
| Number: VT01650                     |
| Material: video 14 minutes           |
| Industry: all industries             |
| Covers the hazards of confined spaces, the proper use of safety and rescue equipment, and rescue pre-planning and training. |
| Summit Training Source 1994         |

| **Confined space entry**            |
| Number: VT01687                     |
| Material: video 25 minutes           |
| Industry: all industries             |
| Covers characteristics and types of confined space, hazards, control measures, entry permits, personal protective equipment, and rescue techniques. |
| Primedia Workplace Learning 1993     |

| **Confined space entry: Clearing the air** |
| Number: VT01567                       |
| Material: video 16 minutes             |
| Industry: construction                 |
| Discusses the dangers of confined space entry, entry permits, air quality testing, ventilation, rescue procedures and personal protective equipment. |
| Assoc General Contractors of America 1991 |

| **Confined space entry: Construction** |
| Number: VT01369                        |
| Material: video 5 minutes               |
| Industry: construction                  |
| Explains hazards, procedures, and safety measures for entry into confined spaces including atmosphere testing. |
| Digital 2000 1993                       |

| **Confined space entry: Permit required!** |
| Number: VT01435                         |
| Material: video 12 minutes               |
| Industry: all industries                 |
| Covers the dangers of working in confined spaces and safety precautions including entry permit requirements, safe atmospheric testing, ventilation, and personal protective equipment. |
| Coastal Training 1990                    |

| **Confined Space Entry: Permit Required** |
| Number: DVD013                           |
| Material: DVD 20 min                     |
| Industry: all industries                  |
| Explains the hazards of confined spaces and demonstrates the precautions you must take when working in or around these spaces. |
| Summit Training Source, 2005             |

| **Confined space entry: plan and prepare** |
| Number: DVD023                           |
| Material: DVD 22 minutes                  |
| Industry: all industries                   |
| Helps employees understand what a confined space is, the hazards associated with it, and the steps to follow to maintain a safe work environment. Includes entry permits, hazard controls, entry teams, and rescue procedures. |
| Coastal Training Technologies, 2010       |

| **Confined space hazards**              |
| Number: VT01302                         |
| Material: video 5 minutes                |
| Industry: all industries                 |
| Explains types of confined spaces, atmospheric and physical hazards, and safe work practices. |
| Summit Training Source 1990             |

| **Confined space hotwork: Checklist to safety** |
| Number: VT01454                          |
| Material: video 20 minutes                |
| Industry: all industries                  |
| Describes the hazards and the safety precautions required for confined space hotwork including hotwork permits, atmospheric testing, safety equipment, fire watch, and emergency rescue. |
| Coastal Training 1992                    |
**Confined space rescue**  
Number: VT01303  
Material: video 6 minutes  
Industry: all industries  
Demonstrates simulated rescue situations, proper use of rescue and retrieval equipment, and rescue procedures.  
Summit Training Source 1990

**Confined space rescue**  
Number: VT01599  
Material: video 31 minutes  
Industry: general industry  
Reviews proper confined space entry, technical rescue procedures, different types of rescue systems and equipment, and developing the rescue team.  
Coastal Training 1991

**Confined space ventilation**  
Number: VT01651  
Material: video 18 minutes  
Industry: all industries  
Reviews the safety precautions required for confined space ventilation including the when and how to ventilate, atmospheric hazards, types of mechanical ventilation, and techniques.  
Coastal Training 1992

**Confined spaces, deadly places**  
Number: VT01626  
Material: video 21 minutes  
Industry: all industries  
Based on real-life incidents that show the hazards that can befall untrained workers and permit violators including confined space hazards, oxygen deficiency, toxic atmospheres, engulfment, flammable or explosive atmospheres, and mechanical hazards.  
Safe Expectations 1992

**Confined spaces: A training program for employees**  
Number: VT01517  
Material: video 25 minutes  
Industry: general industry  
Covers identification of confined space hazards, discusses entry permits, reviews training needs, and outlines standard requirements such as atmospheric testing and personal protective equipment.  
J.J. Keller & Associates 1993

**Construction accidents: It can't happen to me**  
Number: VT01616  
Material: video 8 minutes  
Industry: construction  
Covers, through interviews with workers, the basic causes and prevention of accidents including safety attitudes and practices.  
Digital 2000 1997

**Construction back safety**  
Number: VT01600  
Material: video 10 minutes  
Industry: construction  
Covers safety techniques including correct posture, proper lifting procedures, and preventing back injuries.  
Coastal Training 1992

**Construction confined space entry**  
Number: VT01455  
Material: video 12 minutes  
Industry: construction  
Covers skills for working safely in confined spaces including how to identify confined spaces, their hazards including oxygen deficiency and toxic gases, safety procedures and entry permits.  
Coastal Training 1992

**Construction electrical safety**  
Number: VT01456  
Material: video 10 minutes  
Industry: construction  
Covers the properties of electricity, electrical hazards, accident response, and proper work practices including the safe use of power tools and equipment.  
Coastal Training 1993

**Construction emergency medical response**  
Number: VT01674  
Material: video 15 minutes  
Industry: construction  
Covers what workers should do in an emergency situation and assists contractors in the development of an emergency medical plan.  
Assoc General Contractors of America 1999
### Construction equipment safety: Multiple choice

- **Number:** VT00354
- **Material:** video 24 minutes
- **Industry:** construction
- **Covers** heavy equipment operation safety through accident re-enactments that are freeze-framed at the actual moment of judgment. Viewers are asked to spot the hazards before the action is resumed.
- **Allied Digital Technologies 1984**

### Construction equipment safety: Shake hands with danger

- **Number:** VT00259
- **Material:** video 23 minutes
- **Industry:** construction
- **This** award winning video shows reenactments of hazardous situations faced by workers who operate and maintain heavy construction equipment, to stress the need to follow safe work practices.
- **Allied Digital Technologies 1984**

### Construction fall protection: Get arrested!

- **Number:** VT01557
- **Material:** video 11 minutes
- **Industry:** construction
- **This** humorous video covers the effective use of body harness and lanyard in personal fall arrest systems, as well as positioning systems, proper anchorage techniques, floor hole covers, and guardrail construction.
- **Coastal Training 1998**

### Construction fall protection: Get arrested!

- **Number:** VT01615 Spanish
- **Material:** video 12 minutes
- **Industry:** construction
- **See** previous description.
- **Coastal Training 1998**

### Construction fall protection: Hook Up

- **Number:** VT01487
- **Material:** video 10 minutes
- **Industry:** construction
- **Discusses** fall hazards, the three types of fall arrest systems, fall arrest distances, choosing anchorage and tie-off points, equipment inspection, proper use of equipment, and the rescue of fallen workers.
- **Coastal Training 1995**

### Construction fire prevention: Avoid the heat

- **Number:** VT01405
- **Material:** video 15 minutes
- **Industry:** construction
- **Discusses** fire hazards and prevention on the job site including proper storage of combustibles and flammables, control of welding sparks and fire watch, safety cans, housekeeping, and the types and use of fire extinguishers.
- **Assoc General Contractors of America 1992**

### Construction forklift safety

- **Number:** VT01314
- **Material:** video 14 minutes
- **Industry:** construction
- **Covers** pre-operation inspection, maintenance, safe operating procedures, and forklift engineering principles such as leverage and stability.
- **Digital 2000 1991**

### Construction forklifts

- **Number:** VT01457
- **Material:** video 9 minutes
- **Industry:** construction
- **Covers** safe operating procedures for both fixed mast lift and extended reach forklifts including start-up inspections, lifting principles, rated load capacity, center of gravity, and moving a load.
- **Coastal Training 1996**

### Construction forklifts: Extending your reach

- **Number:** VT01593
- **Material:** video 14 minutes
- **Industry:** construction
- **Covers** extended reach forklift safety including lifting principles, start-up inspections, load stability, leverage, rated load capacity, moving the load, electrical hazards, and safety procedures.
- **Coastal Training 1999**

### Construction health risks

- **Number:** VT01232
- **Material:** video 15 minutes
- **Industry:** construction
Discusses health hazards found on the construction-site including the effects of toxic chemicals, asbestos, welding fumes, and silica.
Florida AFL-CIO United Labor 1989 Agency

**Construction jobsite safety**
Number: VT01550
Material: video 20 minutes
Industry: construction
Covers how to recognize and avoid jobsite hazards such as power tools, heavy equipment, scaffolds, electrical, falls and safety measures such as personal protective equipment and emergency action plans.
J.J. Keller & Associates 1996

**Construction lockout/tagout**
Number: VT01458
Material: video 10 minutes
Industry: construction
Discusses the prevention of unexpected start-ups of equipment during servicing and maintenance including how lockout/tagout systems operate and a sixstep safety procedure.
Coastal Training 1992

**Construction lockout/tagout: Take control**
Number: VT01427
Material: video 20 minutes
Industry: construction
Reviews the types of hazardous energy found on the jobsite, identifying potential hazards, proper lockout/tagout procedures, and equipment re-energizing procedures.
Assoc General Contractors of America 1993

**Construction repetitive stress injuries**
Number: VT01639
Material: video 5 minutes
Industry: construction
Covers one of the fastest growing types of workplace injuries, its symptoms, proper work techniques, and the effects of overexertion, incorrect posture, and excessive force.
Safety Shorts 1998

**Construction respiratory protection:**
*Breathing easier*
Number: VT01408
Material: video 18 minutes
Industry: construction
Provides basic information about jobsite respiratory hazards, types of respirators, selection, fit testing procedures, use, inspection and maintenance.
Assoc General Contractors of America 1993

**Construction safety Choice or chance?**
Number: VT01280
Material: video 15 minutes
Industry: construction
Highlights the four leading causes of fatalities on construction job sites and stresses that safety is also the worker’s responsibility.
OSHA Office of Information & 1996 Consumer Affairs

**Construction safety essentials**
Number: VT01548
Material: video 23 minutes
Industry: construction
Discusses jobsite hazards such as scaffolding, ladders, confined spaces, excavations, and safety measures such as personal protective equipment and fall arrest systems.
Vocam 1997

**Construction safety: New hire safety orientation**
Number: VT01388
Material: video 10 minutes
Industry: construction
Discusses basic jobsite safety procedures including fire extinguisher use, hearing protection, hazardous substances, fall protection, housekeeping, electrical safety, ladders, and lifting.
CoreMedia Training Solutions 1991
Training Materials by Title 2012

**Construction safety planning by David V. MacCollum**
Number: TH443.M
Material: book 285 pages
Industry: construction
Provides a broad overview and summary of safety considerations when planning for both large and small construction
Van Nostrand Reinhold 1995

**Construction safety practices and principles by Robert Peyton and Toni C. Rubio**
Number: TH443.P4
Material: book 266 pages
Industry: construction
Discusses how to integrate safety into jobsite operations including written safety and health programs, hazard communication, and safety training.
Van Nostrand Reinhold 1991

**Construction scaffold safety**
Number: VT01529
Material: video 10 minutes
Industry: construction
Explains construction, inspection, and safety procedures including fall arrest systems for stationary, mobile, and suspension scaffolds.
Coastal Training 1995

**Construction shoring safety**
Number: VT01505
Material: video 24 minutes
Industry: construction
Covers safety practices for working on and around stationary scaffolds including hazards, construction, inspection, fall prevention, and use.
Coastal Training 1997

**Construction signs and barricades**
Number: VT01495
Material: video 10 minutes
Industry: construction
Gives an overview of signs, signals and barricades used on construction sites including road construction.

**Construction slips and falls**
Number: VT01645
Material: video 6 minutes
Industry: construction
This humorous video discusses the causes of slips and falls, proper footwear, and prevention including awareness of hazards and good housekeeping.
Safety Shorts 1996

**Construction stairways and ladders**
Number: VT01436
Material: video 12 minutes
Industry: construction
Discusses ladder and stairway hazards and safety precautions including proper setup and use, slope ratio, inspection and maintenance, and construction.
Coastal Training 1992

**Construction stationary scaffolds**
Number: VT01437
Material: video 11 minutes
Industry: construction
Covers safety practices for working on and around stationary scaffolds including hazards, construction, inspection, fall prevention, and use.
Coastal Training 1997

**Construction temporary electricity: Take charge**
Number: VT01426
Material: video 18 minutes
Industry: construction
Covers electrical hazards found on the jobsite, how electricity works, safety measures, GFCIs, extension cords, power tools, and temporary power installations.
Assoc General Contractors of 1991 America

**Construction trenching and shoring**
Number: VT01459
Material: video 10 minutes
Industry: construction
Covers safety guidelines including site evaluation, protective systems, and emergency response.
Coastal Training 1992

**Construction warning labels and signs**
Number: VT01469  
Material: video 16 minutes  
Industry: construction  
Discusses various labeling systems, the reason for warning labels and signs around the jobsite including chemical hazards and safety precautions.  
Coastal Training 1996

**Construction warning signs**
Number: VT01605  
Material: video 4 minutes  
Industry: construction  
Deals with reasons to take warning signs, found on and around construction sites, seriously because they warn of potential safety hazards.  
Assoc General Contractors of America 1992

**Construction welding safety**
Number: VT01438  
Material: video 12 minutes  
Industry: construction  
Discusses the essentials of welding safety focusing on oxyfuel gas welding and cutting including operation procedures and safety equipment.  
Coastal Training 1993

**Construction worker safety orientation: Getting the job done safely**
Number: VT01569  
Material: video 12 minutes  
Industry: construction  
Outlines basic jobsite safety measures including personal protective equipment, manual material handling, fall protection, electrical hazards, excavations, and housekeeping.  
Assoc General Contractors of America 1995

**Contractor beware: Guide to power line safety**
Number: VT01708  
Material: video 16 minutes  
Industry: construction  
Covers safety precautions when working near overhead or underground power lines including how electricity can kill, operating cranes and heavy equipment such as backhoes, and calling electric utilities before you dig.  
Connecticut Light & Power 1997

**Contractor's guide to process safety management: a part of the process**
Number: VT01585  
Material: video 14 minutes  
Industry: construction  
Covers work safety in industrial process facilities including hazard control, worker training, and OSHA’s Process Safety Management Standard.  
Assoc General Contractors of America 1994

**Conveyors**
Number: VT01640  
Material: video 6 minutes  
Industry: general industry  
This humorous video gives an overview of conveyor hazards including nip points and falling materials, and preventive measures including guards, warning signs, and safe work practices.  
Safety Shorts 1996

**Corrosives**
Number: VT00363  
Material: video 5 minutes  
Industry: general industry  
Covers the hazards associated with corrosives, including battery acid and phosphates, proper handling and storage in the work environment.  
Summit Training Source 1990

**Crane and sling safety: Inspection and use**
Number: VT01390  
Material: video 19 minutes  
Industry: general industry  
Covers basic safety procedures when
<table>

<tr>
<td>working with overhead and boom cranes including daily pre-operation inspection, maintenance, lifting procedures, and proper use techniques. CoreMedia Training 1992</td>
</tr>
</tbody>
</table>
| **Crane operations : hand signals**  
  Number: DVD071  
  Material: DVD 14 minutes  
  Industry: All Industries  
  Covers the basics of hand signals when working with cranes. *(English / Spanish)*  
  Summit Training Source, 2000s |
| **Crane operation safety**  
  Number: VT01535  
  Material: video 12 minutes  
  Industry: construction  
  Focuses on the basic procedures for the safe operation of overhead and boom cranes including pre-operation inspection, pre-lift check, sling maintenance and inspection, and Industrial Training Systems 1995 |
| **Crane rigging safety: Controlling the load**  
  Number: VT01409  
  Material: video 17 minutes  
  Industry: construction  
  Discusses the basics of crane rigging safety including pre-use inspection of hooks and slings, planning the lift including determining the weight, stability of the load, and the center of gravity of the load, and choice of sling. Assoc General Contractors of America 1992 |
| **Crane safety awareness for site superintendents**  
  Number: VT01186  
  Material: video 8 minutes  
  Industry: construction  
  Highlights common hazards associated with construction mobile crane operations and discusses management responsibilities for safe operation on the jobsite. OSHA Office of Construction 1992 |
| **Crane safety: Construction**  
  Number: VT01315  
  Material: video 13 minutes  
  Industry: construction  
  Covers mobile crane pre-operation inspection, refueling, potential hazards such as power lines, load capacities, lifting procedures, and safety Digital 2000 1992 |
| **Crane safety : overhead operations**  
  Number DVD070  
  Material: DVD 19 minutes  
  Industry: Construction  
  Presents safe work practices for operating overhead cranes. Includes common terminology, daily inspections, and the use of slings and lifting attachments. *(English / Spanish)*  
  Summit Training Source, Inc. 2007 |
| **Crane safety: Play it safe**  
  Number: VT01420  
  Material: video 15 minutes  
  Industry: construction  
  Covers crane safety practices for crane operators and riggers including daily prework inspection and maintenance, proper loading and moving a load, and surveying the jobsite for hazards such as overhead power lines. Assoc General Contractors of America 1992 |
| **Cut-off saw safety**  
  Number: VT01671  
  Material: video 9 minutes  
  Industry: construction  
  Reviews hazards, proper PPE, and safe operating practices including pre-use inspection, blade installation, refueling, startup, and guard positioning. Assoc General Contractors of America 1994 |
| **Dark ages of safety**  
  Number: VT01533  
  Material: video 12 minutes  
  Industry: all industries  
  This humorous video uses black and white footage from the 20's, 30's, and 40's to emphasize the importance of following safety procedures. OSHA Office of Construction 1992 & Engineering |
Training Materials by Title 2012

Digital 2000 1995

**Deadly dust II**  
Number: VT01540  
Material: video 30 minutes  
Industry: grain elevators  
Shows dramatic scenes of grain elevator explosions, the devastation caused by the blast, demonstrations on how and why these explosions occur, and emergency planning.  
Kansas State University 1990

**Deadly dust III**  
Number: VT01541  
Material: video 22 minutes  
Industry: grain elevators  
Features two employees who survived major dust explosions, dramatic scenes of actual explosions, stop motion demonstrations of how primary and secondary explosions occur, and prevention measures.  
Kansas State University 1990

**Demolition safety: What goes up must come down**  
Number: VT01573  
Material: video 12 minutes  
Industry: construction  
Describes the demolition process and safety measures including on-site preparations, pre-stressed concrete hazards, signs and barricades, cranes, and debris removal.  
Assoc General Contractors of America 1993

**Don't blow it: Asbestos safety**  
Number: VT01268  
Material: video 15 minutes  
Industry: automotive repair  
Discusses asbestos, its health effects, and removal methods used to control exposure during brake replacement.  
US Environ Protection 1986

**Driver attitude**  
Number: VT00364  
Material: video 5 minutes  
Industry: all industries  
Covers safe driving procedures, seat belt use, and the effects of drugs and alcohol on driving.  
Summit Training Source 1990

**Driver's safety: Thinking ahead**  
Number: VT01741  
Material: video 14 minutes  
Industry: construction  
Provides instruction on safe driving practices for construction workers required to operate motor vehicles while on the job.  
Assoc General Contractors of America 1996

**Driving safety: Highway-rail crossing safety**  
Number: VT01713  
Material: video 18 minutes  
Industry: commercial vehicles  
Shows a reenactment of a train/school bus crash to illustrate the dangers of not following safety procedures when crossing railroad track, also includes a ten-step procedure for safe driver actions.  
Idaho Dept of Law 1991

**Driving safety: The safety zone**  
Number: VT01714  
Material: video 16 minutes  
Industry: all industries  
Addresses what safety precautions car drivers should take when driving in close proximity to trucks including the difference in weight ratios, blind spots, turning space, safe driving distances, and stopping distance.  
Idaho Dept of Law Enforcement 1995

**Dust control: It's everybody's business**  
Number: VT01382  
Material: video 20 minutes  
Industry: all industries  
Discusses how to reduce worker exposure to silica dust including dust collection equipment.  
US Mine Safety and Health 1996

**Egress/exit safety**  
Number: VT01641  
Material: video 5 minutes  
Industry: general industry  
Discusses exit doors, safe exits, clear
paths, blocked exits, and employee awareness of exit locations.
Safety Shorts 1992

**Electrical case histories: Fatal shock**
Number: VT01439
Material: video 22 minutes
Industry: general industry
Covers, through re-enactments of real-life electrical accidents, the principles of electrical safety including the dangers of electrical shock, personal verification of lockout/tagout, response to electrical emergencies, and PPE.
Coastal Training 1994

**Electrical power generation: High voltage**
Number: VT01488
Material: video 27 minutes
Industry: general industry
Presents safety information for electric utilities operations including working on or near exposed energized parts and overhead power lines.
Coastal Training 1994

**Electrical principles**
Number: VT01558
Material: video 14 minutes
Industry: all industries
Demonstrates basic electrical principles including how electricity works, electrical circuits, grounding, and circuit protection devices such as GFCIs.
Coastal Training 1988

**Electrical safety and asbestos abatement**
Number: VT01094
Material: video 12 minutes
Industry: construction
Covers electrical fundamentals and hazards. NOTE: OSHA does not require explosion-proof lighting or equipment unless another hazard is present which would require its use.
Intl Assoc of Heat and Frost Insulators 1987

**Electrical safety in construction**
Number: VT01380
Material: video 19 minutes
Industry: construction
Covers both temporary and permanent jobsite installations of electricity including GFCIs, temporary hook-ups, power tools and cord sets.
J.J. Keller & Associates 1996

**Electrical safety overview**
Number: VT01282
Material: video 10 minutes
Industry: general industry
Discusses the properties of electricity and its hazards, the inspection and care of electrical equipment and power tools, and safe work practices including grounding, GFCIs, and lockout/tagout.
Digital 2000 1993

**Electrical safety: Basic principles**
Number: VT01664
Material: video 16 minutes
Industry: general industry
Covers the basic principles of electricity, reviews safe work conditions and procedures, emergency response procedures, electrical circuits, insulators and conductors, and circuit protection devices such as GFCIs.
Coastal Training 2000

**Electrical safety: Basic principles**
Number: DVD037
Material: DVD 15 minutes
Industry: general industry
Discusses electricity, electrical circuits, insulators and conductors, and electrical paths.
Coastal Training Technologies, Inc. 2004

**Electrical safety: Construction**
Number: VT01372
Material: video 5 minutes
Industry: construction
Covers basic safety rules when working with electrical tools and equipment including plugs, cords, and GFCIs.
Digital 2000 1993

**Electrical safety: Ground Fault Circuit Interrupters**
Number: VT01580
Material: video 11 minutes
Industry: construction
Covers what GFCI’s are all about, how
they work, and general safety procedures for protection against electrical shock.
Digital 2000 1992

**Electrical safety: Ground Fault Circuit Interrupters**
Number: VT01726 Spanish
Material: video 11 minutes
Industry: construction
See previous description
Digital 2000 1992

**Electrical safety: Real, real-life**
Number: VT01601
Material: video 13 minutes
Industry: general industry
Explains, through re-enactments of real-life situations, hazards and safety practices when working with or around electricity including PPE, proper grounding, and the use of GFCIs.
Coastal Training 1998

**Electrical safety: Safe work practices**
Number: VT01304
Material: video 5 minutes
Industry: general industry
Describes electrical hazards, maintaining proper work distances from electrical sources, proper tools and equipment, and personal protective equipment.
Summit Training Source 1990

**Electrical safety: The hazards of electricity**
Number: VT01400
Material: video 6 minutes
Industry: general industry
Covers the basic principles of electricity, the causes of electrocution and electrical shock and electricity as the source of fire.
Summit Training Source 1990

**Elevated work safety**
Number: VT01536
Material: video 12 minutes
Industry: all industries
This humorous video covers general safety procedures for working on tower and suspended scaffolds, aerial lifts, and roofs including proper setup, inspection, and fall arrest systems.
Industrial Training Systems 1996

**Elevated work surfaces: Getting it right at height**
Number: VT01591
Material: video 21 minutes
Industry: construction
Discusses working on scaffolds, elevated and suspended work platforms, and roofs including the importance of planning and preparing the work, hazard recognition, safety procedures, and fall
Vocam 1996

**Emergency action plan: crisis under control**
Number: DVD051
Material: DVD 16 minutes
Industry: General Industry
Uses the backdrop of the evacuation and cleanup of the World Trade Center site to help employees and safety team members understand the vital importance of emergency planning and evacuation drills. These programs will also help teams "think the unthinkable" in creating, implementing, and refining emergency action plans. *(English / Spanish)*
Coastal Training Technologies, 2004

**Emergency action plans: I plan to live**
Number: VT01642
Material: video 5 minutes
Industry: general industry
This humorous video covers warning signals, responsibility lists and assignments, exit routes, and evacuation procedures.
Safety Shorts 1992

**Emergency action plans: Spiral to disaster**
Number: VT01636
Material: video 24 minutes
Industry: all industries
Using the Piper Alpha oil rig explosion as a backdrop, covers what makes a good
Emergency Action Plan including awareness of work-area hazards, risk analysis, training, safe work practices, emergency procedures, and evacuation drills.
Coastal Training 2000

Emergency evacuation: getting out alive
Number: DVD050
Material: DVD 15 minutes
Gives an overview of what to do in different emergency situations such as fire, earthquake, explosions and hazardous materials. (English / Spanish)

Emergency evacuation training
Number: VT01522
Material: video 18 minutes
Industry: general industry
gives step-by-step instructions on procedures to follow in an emergency including the important role of preplanning exit routes, egress, assembly areas, lines of authority, and all-clear signals.
Safe Expectations 1990

Employee's guide to working with hazardous materials
Number: VT01176
Material: video 16 minutes
Industry: all industries
Gives an overview of the hazard communication standard and an introduction to material safety data sheets.
S&H Council of Greater Omaha 1991

Employee's guide to working with hazardous materials
Number: VT01365 Spanish
Material: video 16 minutes
Industry: all industries
See previous description.
S&H Council of Greater 1996 Omaha

Ergonomic programs that work
Number: VT01498
Material: video 21 minutes
Industry: general industry
Discusses various aspects of an ergonomics program by visiting four companies and reviewing their programs.
OSHA Office of Information & 1998 Consumer Affairs
http://www.osha.gov/SLTC/video/ergoprograms

Ergonomics awareness education
Number: VT01759
Material: video 26 minutes
Industry: general industry
Describes musculoskeletal disorders, work related causes, recognizing hazards, identifying common measures to reduce these hazards, risk factors, and the importance of early reporting of
WA State Dept of Labor & 2002 Industries

Ergonomics in the workplace
Number: VT01393
Material: video 18 minutes
Industry: general industry
Addresses production line tasks, cumulative trauma disorders, identification of workplace activities that can cause CTD such as manual materials handling, and prevention measures.
Primedia Workplace Learning 1995

Ergonomics: Solving the puzzle
Number: VT01623
Material: video 18 minutes
Industry: general industry
Covers how to create an ergonomic work environment, how to reduce repetitive motion injuries, and how to create a successful ergonomics program.
Coastal Training 2000

Ergonomics: Your body at work
Number: VT01624
Material: video 20 minutes
Industry: general industry
This award winning video reviews ergonomic mechanics, cumulative trauma disorders and contributing factors, worksite analysis, and low-cost ergonomic worksite improvements.
Coastal Training 1991

**Excavations : safe work essentials**  
Number: DVD068  
Industry: General Industry  
This videodisc reviews the different types of excavations, potential hazards, protective measures, and safe work practices that should be used when on an excavation site. *(English / Spanish)*  
Summit Training Source, Inc. 2000s

**Excavation and trenching safety: On solid ground**  
Number: VT01418  
Material: video 18 minutes  
Industry: construction  
Covers identifying jobsite hazards and conditions, access and egress to trench, hazardous atmospheres, emergency rescue, methods of sloping, shoring and shielding, and soil classification.  
Assoc General Contractors of America 1990

**Excavation and trenching safety: In the trenches**  
Number: VT01415  
Material: video 14 minutes  
Industry: construction  
Discusses trench hazards, how hazards can be reduced through sloping and shielding, and how to safety work in and around them.  
Assoc General Contractors of America 1996

**Excavations, trenches and shoring**  
Number: VT01294  
Material: video 14 minutes  
Industry: construction  
Provides an overview of protective systems, regulatory requirements and safe work practices.  
Summit Training Source 1996

**Excavations: 29 CFR 1926, Subpart P**  
Number: VT01242  
Material: video 23 minutes  
Industry: construction  
Discusses the hazards associated with excavation operations and safe work practices and control measures to prevent accidents.  
OSHA Office of Training and Education 1992

**Exhaust air ventilation systems: operation and maintenance**  
Number: VT01095  
Material: video 18 minutes  
Industry: construction  
Describes how to set up and operate negative air filtration systems used in asbestos removal.  
Intl Assoc of Heat and Frost Insulators 1989

**Eye and face protection: Safety gear**  
Number: VT01518  
Material: video 11 minutes  
Industry: all industries  
Describes different types of safety glasses, goggles, face shields, and helmets used to protect the eyes and face from debris, chemicals, and dangerous light.  
Aims Multimedia 1989

**Eye and face protection: Safety gear**  
Number: VT01727 Spanish  
Material: video 11 minutes  
Industry: all industries  
See previous description.  
Aims Multimedia 1989

**Eye safety**  
Number: VT00365  
Material: video 5 minutes  
Industry: general industry  
Discusses three kinds of eye hazards, the specific type of eye protection for each hazard, and proper first aid procedures are demonstrated.  
Primedia Workplace Learning 1985

**Eye safety**  
Number: VT00144  
Material: video 20 minutes  
Industry: general industry  
Covers the importance of eye protection, common eye injuries, and the selection and use of eye protection.  
Primedia Workplace Learning 1985
Eye safety on the job is the subject of this video. Chicago Construction Safety Council 1995
Most eye injuries can be avoided by using eye safety protective equipment and following simple safety procedures. The three main causes of eye injuries - flying debris, chemicals and infection - are discussed to stress the importance of using adequate protection to prevent these injuries.
Summit Training Source, 1999

**Eye safety: Your eyes are different**
Number: VT01653
Material: video 14 minutes
Industry: general industry
Stresses, through its depiction of near misses and computer graphics, the need to consistently wear eye protection, common eye injuries, and how to choose the correct type of eyewear for the job.
CoreMedia Training 1994

**Eyewashes and safety showers**
Number: VT01702
Material: video 12 minutes
Industry: all industries
Reviews the correct operation and use of eyewashes and safety showers, equipment testing, accident prevention, reading MSDS, and proper procedures in chemical contact.
Training Network-LIP 1994

**Fall free: Employer training**
Number: VT01289
Material: video 25 minutes
Industry: construction
Covers the requirements of 1926 Subpart M for supervisory and management personnel including fall hazards and their controls, protective systems, management responsibilities, and employee training requirements.
Chicago Construction Safety Council 1995

**Fall free: Toolbox talk**
Number: VT01288
Material: video 9 minutes
Industry: construction
Covers fall restraint systems, fall arrest systems, positioning devices, equipment inspection, and controlled decking zones.
Coastal Training 2001

**Fall prevention: Elevated work surfaces**
Number: VT01394
Material: video 21 minutes
Industry: all industries
Covers safety procedures for working on and inspection of elevated work surfaces including aerial lifts and scaffolds.
Primedia Workplace Learning 1993

**Fall protection: personal fall arrest system**
Number: DVD031
Material: DVD 19 minutes
Industry: general industry
Addresses the use and maintenance of personal fall arrest equipment and creates an awareness for fall hazards.
Summit Training Source, 2005

**Fall protection for construction: Heightened awareness**
Number: VT01413
Material: video 20 minutes
Industry: construction
Covers types of fall protection systems and where they should be used including personal fall arrest systems, guardrails, safety nets, floor covers, warning lines, and controlled access zones.
Assoc General Contractors of America 1995

**Fall protection for ironworkers**
Number: VT01749
Material: video 17 minutes
Industry: construction
Covers fall restraint systems, fall arrest systems, positioning devices, equipment inspection, and controlled decking zones.
Coastal Training 2001
Training Materials by Title 2012

Fall protection: Construction
Number: VT01556
Material: video 24 minutes
Industry: construction
Covers fall protection systems including guardrails, nets, personal fall arrest, positioning devices, warning lines, floor and hole covers, and controlled access zones.
J.J. Keller & Associates 1995

Fall protection: personal fall arrest system
Number: DVD031
Material: DVD 19 minutes
Industry: general industry
Addresses the use and maintenance of personal fall arrest equipment and creates an awareness for fall hazards.
Summit Training Source, 2005

Fall protection: Taking control
Number: VT01295
Material: video 11 minutes
Industry: all industries
Discusses how to recognize potential fall hazards, developing a pro-active safety attitude, and the proper use and care of fall protection equipment including anchor points, rope grabs, full body harnesses, lanyards, and lifelines.
Summit Training Source 1994

Fall protection: The basics
Number: VT01537
Material: video 11 minutes
Industry: all industries
This humorous video covers engineering controls such as guardrails, barriers, and nets; and personal fall arrest systems including body harnesses, lifelines, lanyards, and anchorages
Industrial Training Systems 1996

Fall protection: The Right Connection
Number: DVD009
Material: DVD 20 min
Industry: all industries
Describes types of fall protection (guardrails, handrails, positioning devices, and personal fall arrest systems). Encourages viewers to set up fall protection systems correctly and keep them in good condition.

Farm & ranch safety management by Stan Anthony
Number: S565.A58
Material: book 231 pages
Industry: agriculture
Provides safety guidelines to help farmers/ranchers identify and eliminate agricultural safety hazards.
Delmar Publishers 1995

Fall protection: The basics
Number: VT01537
Material: video 11 minutes
Industry: all industries
This humorous video covers engineering controls such as guardrails, barriers, and nets; and personal fall arrest systems including body harnesses, lifelines, lanyards, and anchorages
Industrial Training Systems 1996

Fall protection: The Right Connection
Number: DVD009
Material: DVD 20 min
Industry: all industries
Describes types of fall protection (guardrails, handrails, positioning devices, and personal fall arrest systems). Encourages viewers to set up fall protection systems correctly and keep them in good condition.

Fire extinguisher operation: Construction
Number: VT01568
Material: video 5 minutes
Industry: construction
Discusses classes of fires, types of fire extinguishers, inspection, operation, and location on the jobsite for visibility and accessibility.
Assoc General Contractors of America 1995

Fire extinguisher safety
Number: VT01391
Material: video 11 minutes
Industry: general industry
Discusses knowing your company’s fire escape plan, finding out where fire extinguishers are located at your worksite, the four classes of fires, types of fire extinguishers, and their proper use.
CoreMedia Training 1996

</table>
Flammable liquids
Number: VT01305
Material: video 7 minutes
Industry: general industry
Covers the characteristics of, hazards of, and proper handling and storing of flammable liquids.
Summit Training Source 1990

Foot protection
DVD018
Material: DVD 16 min
Industry: all industries
Provides information on the types of safety footwear, getting a proper fit, daily inspections and working safely to prevent wounds and injuries.
Summit Training Source, 2006

Foot protection: Safety gear
Number: VT01519
Material: video 11 minutes
Industry: all industries
Explains how the foot works, workplace hazards to feet, classification of safety shoes, and the function of toe shields, metatarsal guards, and puncture-resistant soles.
Aims Multimedia 1989

Foot protection: Safety gear
Number: VT01728 Spanish
Material: video 11 minutes
Industry: all industries
See previous description.
Aims Multimedia 1989

Forklift case histories: Serious business
Number: VT01449
Material: video 18 minutes
Industry: general industry
Shows re-enactments of real-life forklift accidents, demonstrates the dangers of improper use, and discusses safe work practices, securing the platform and load, lifting, safe speed and turning, and awareness of surroundings.
Assoc General Contractors of America 1992

Forklift driving skills
Number: VT00368
Material: video 5 minutes
Industry: general industry
Describes techniques for driving on wet, rough and inclined surfaces and proper procedures for load handling.
Summit Training Source 1990

Forklift fundamentals: Get the facts
Number: VT01594
Material: video 18 minutes
Industry: general industry
Covers powered industrial truck design, controls and instrumentation, preoperation safety inspection, the vehicle stability triangle and the factors that affect it.
Coastal Training 1997

Forklift load capacity
Number: VT01654
Material: video 5 minutes
Industry: general industry
Demonstrates proper load balance and weight capacity, the importance of the three-point suspension system and the effect of the stability triangle.
Summit Training Source 1990

Forklift operations: carry the load
Number: DVD025
Material: DVD 20 minutes
Industry: general industry
This program talks about forklift operating systems, special hazards and safety rules. It explains to forklift operators how to handle surface conditions, various loads and stability, proper load manipulation, stacking and unstacking, and vehicle and pedestrian traffic. Includes customizable Power-Point presentation and printable leader's guide.
Coastal Training Technologies, 2004
Forklift operations: Carry the load
Number: VT01595
Material: video 19 minutes
Industry: general industry
Discusses operating conditions and hazards including surface conditions, lifting and putting down the load, load stability, traveling tips, working with stacks, special hazards, operating safety, vehicle and pedestrian traffic.
Coastal Training 1999

Forklift operations: safety driven
Number: DVD026
Material: DVD 20 minutes
Industry: general industry
Provides general guidelines for safely operating a powered industrial truck. Covers daily inspections, maintaining stability, driving a forklift, and handling loads.

Forklift pedestrian safety
Number: VT01760
Material: video 10 minutes
Industry: general industry
This dramatic video is intended for people on foot who work in areas where forklifts are being used.
WA State Dept of Labor & 2003 Industries

Forklift pre-operation inspection
Number: VT01655
Material: video 5 minutes
Industry: general industry
covers the pre-operation inspection checklist, proper forklift maintenance, and basic forklift features.
Summit Training Source 1990

Forklift safe driving
Number: VT00371
Material: video 5 minutes
Industry: general industry
Demonstrates how accidents occur and safe driving techniques.
Summit Training Source 1990

Forklift safe driving skills: The responsible operator
Number: VT01296
Material: video 14 minutes
Industry: general industry
Discusses hazard awareness and safety procedures, driving skills, interaction with pedestrian traffic, proper load handling and lifting, and techniques for driving on various surfaces such as ramps, inclines and dock plates.
Summit Training Source 1995

Forklift safety: Loads of experience
Number: VT01392
Material: video 15 minutes
Industry: general industry
Focuses on the responsibilities of pedestrians who are working around lift trucks to prevent accidents including eye contact with the driver, safe distance, safe work zone, and safe drop zone.
CoreMedia Training 1990

Forklift safety: On the go
Number: VT01584
Material: video 17 minutes
Industry: construction
This video on extended reach forklifts discusses pre-operation inspection, vehicle center of balance, load capacities, and safe operation including lifting, moving, and stacking loads.
Assoc General Contractors of America 1994

Forklift Safety: The Color of Danger
Number: VT01526
Material: video 17 minutes
Industry: general industry
This award winning video uses re-enactments of actual accidents to show the consequences of a lapse in concentration or safe driving procedures in various industrial settings including docks and warehouses.
Allied Digital Technologies 1982

Forklift walk-behinds
Number: VT00372
Material: video 5 minutes
Industry: general industry
Covers the safe operation of handtrucks
including pre-operation inspection and load capacity.
Summit Training Source 1990

**Forklifts and pedestrians**
Number: VT00373
Material: video 5 minutes
Industry: general industry
Uses live-action accident scenarios to show how serious forklift accidents involving pedestrians can be prevented.
Summit Training Source 1990

**Formaldehyde**
Number: VT01625
Material: video 14 minutes
Industry: general industry
Discusses health hazards and routes of entry into the body, hazard communication, personal protective equipment, and safe work practices.
Summit Training Source 1990

**From here to there: Moving things by hand**
Number: VT01523
Material: video 13 minutes
Industry: all industries
Presents the fundamentals of manual materials handling including sizing up the item to be moved, proper lifting techniques, and the use of handcarts and trucks.
Safe Expectations 1978

**Gas cylinders: Handling and storing**
Number: VT01401
Material: video 7 minutes
Industry: general industry
Shows the proper storage and handling procedures for many types of gases contained in cylinders.
Summit Training Source 1990

**Gas welding and cutting operations: Construction**
Number: VT01579
Material: video 14 minutes
Industry: construction
Explains basic safety procedures and health hazards including equipment inspection, cylinder connections, valves, fire prevention, and metal fume fever.
Digital 2000 1993

**Gas welding and cutting operations: Construction**
Number: VT01711 Spanish
Material: video 14 minutes
Industry: construction
See previous description.
Digital 2000 1993

**Grain elevator safety orientation**
Number: VT01709
Material: video 14 minutes
Industry: agriculture
Demonstrates safe work practices including the use of PPE, electrical safety, ladder safety, slip hazards, truck and wagon grain unloading, entering grain bins, engulfment hazards, and grain dust explosion causes and
IL Onsite S&H Consultation 2001 Program

**Grinding**
Number: VT01402
Material: video 7 minutes
Industry: general industry
Discusses engineering controls, proper personal protective equipment, and techniques of safe grinding operations.
Summit Training Source 1990

**Grinding safety: The rule of Muldoon**
Number: VT00526
Material: video 17 minutes
Industry: general industry
This humorous video covers grinding wheel speeds, guards, mounting procedures, and wheel operating rules.
Grinding Wheel Institute 1985

**Ground skidding**
Number: VT01257
Material: video 11 minutes
Industry: logging
This video, developed for Pacific Northwest logging, covers the basic safety procedures of ground skidding.
University of Idaho 1992

**Groundskeeping safety: Be a pro!**
Training Materials by Title 2012

Number: VT01489
Material: video 17 minutes
Industry: general industry
Covers hazards and safety procedures for employees responsible for grounds or outdoor maintenance when using chemicals and equipment including basic PPE, tractors, riding mowers, brushcutting equipment and blowers.
Coastal Training 1997

Hand and arm protection: Safety gear
Number: VT01520
Material: video 11 minutes
Industry: all industries
Covers how to recognize workplace hand and arm hazards, the causes of traumatic and contact injuries, the reason for and use of guards on equipment and machinery, and choosing the proper gloves for the job.
Aims Multimedia 1989

Hand and arm protection: Safety gear
Number: VT01729 Spanish
Material: video 11 minutes
Industry: all industries
See previous description.
Aims Multimedia 1989

Hand and power tool safety
Number: VT01283
Material: video 7 minutes
Industry: all industries
Discusses the common hand and power tools involved in accidents including wrenches, drills and handsaws.
Training Network-LIP 1992

Hand and power tool safety
Number: VT01284
Material: video 16 minutes
Industry: all industries
This humorous video reviews the basics of using tools including proper use, choosing the right tool for the job, inspection, and tool related accidents.
Training Network-LIP 1991

Hand and power tool safety
Number: VT01384
Material: video 12 minutes
Industry: all industries
Covers general safety rules and proper techniques when using cutting, striking, and power tools including using the right tool for the job, storage and inspection, avoiding kickbacks, and PPE.
Training Network-LIP 1994

Hand and power tool safety
Number: VT01598
Material: video 13 minutes
Industry: all industries
Discusses good safety attitudes and proper techniques as the key to injuryfree use of hand and powers tools including wrenches, power drills and saws.
Training Network-LIP 1996

Hand and power tool safety: Construction
Number: VT01379
Material: video 13 minutes
Industry: construction
Discusses tool care and inspection, grounding, and general safety rules including using the proper tool for the
Digital 2000 1992

| **Hand/arm vibration syndrome** |
| Number: VT01270 |
| Material: video 25 minutes |
| Industry: all industries |
| Covers the cause, symptoms, assessment, and treatment of this cumulative trauma disorder. US National Institute for OSH 1990 |

| **Hazard communication** |
| Number: VT01668 |
| Material: video 13 minutes |
| Industry: general industry |
| Reviews the differences between common hazardous materials, proper storage, labeling systems, material safety data sheets, exposure reduction, and safe handling procedures. Summit Training Source 1998 |

| **Hazard communication in manufacturing** |
| Number: VT01285 |
| Material: video 5 minutes |
| Industry: general industry |
| Discusses material safety data sheets, labeling, handling and safe use of chemicals in the workplace. Training Network-LIP 1992 |

| **Hazard communication standard 1926.59** |
| Number: VT01243 |
| Material: video 14 minutes |
| Industry: construction |
| Discusses chemical hazards in construction including materials safety data sheets, container labeling, employee training, and the requirements of the standard. OSHA Office of Training and 1993 Education |

| **Hazard communication: informed for safety** |
| Number: DVD027 |
| Material: DVD 15 minutes |
| Industry: general industry |
| Discusses the prevalence of hazardous chemicals in industrial settings, the use of product labels and material safety data sheets to inform workers of possible dangers, and OSHA's hazard communication standard. Summit Training Source, 2008 |

| **Hazard communication: signs for safety** |
| Number: DVD028 |
| Material: DVD 13 minutes |
| Industry: general industry |
| A program designed to keep employees safe and well-educated about chemical hazards. Covers labeling systems and Material Safety Data Sheets, safe handling of hazardous materials, differences between common hazardous materials and how to reduce or eliminate exposure. Summit Training Source, 2002 |

| **Hazard communication: The message is construction safety** |
| Number: VT01583 |
| Material: video 14 minutes |
| Industry: construction |
| Covers construction chemical hazards including types of hazardous materials found on the jobsite, reading product labels and material safety data sheets, safe handling procedures, and the requirements of the standard. Assoc General Contractors of America 1997 |

| **Hazard communication: Training for employees** |
| Number: VT01660 |
Training Materials by Title 2012

Material: video 18 minutes
Industry: general industry
Covers chemical safety, the importance of keeping an up-to-date hazardous chemical inventory, how to read MSDSs, labeling of containers, what an employee should do if they find an unlabeled container or no MSDS on a substance, and written hazcom programs.
J.J. Keller & Associates 2000

Hazard communication: Training for employees
Number: VT01662 Spanish
Material: video 18 minutes
Industry: general industry
See previous description.
J.J. Keller & Associates 2000

Hazard communication: Your right to know
Number: VT01722
Material: video 12 minutes
Industry: roofing and siding
Explains how to use material safety data sheets, labeling procedures for hazardous materials, and safety precautions.
National Roofing Contractors Assoc 1990

Hazard communication: Your safety net
Number: VT01665
Material: video 14 minutes
Industry: general industry
Focuses on chemical hazards and safety precautions including exposure situations, ways to control chemical hazards, and reading and using material safety data sheets and warning labels.
Coastal Training 2000

Hazard communication training: The toxic timebomb
Number: VT01166
Material: video 15 minutes
Industry: construction
Discusses construction chemical hazards including hazard awareness, safe chemical handling procedures, employee right-to-know, and how to read labels and material safety data sheets.
Florida AFL-CIO United Labor Agency 1988

Hazard recognition
Number: VT01737
Material: video 5 minutes
Industry: general industry
Covers the skills and techniques for recognizing common types of hazards found in the workplace.
Summit Training Source 1990

Hazard recognition: Out of the ordinary
Number: VT01667
Material: video 13 minutes
Industry: general industry
Covers how to identify potential hazards in the workplace through work area inspection and common hazards including contact with objects and equipment, improper lifting, falls, exposure to harmful substances.
Summit Training Source 2000

Hazard recognition and control
Number: DVD059
Material: DVD 18 minutes
Industry: All industries
Designed to teach workers the key to job safety: recognizing and controlling hazards. This program uses hazard scenarios to demonstrate direct, indirect and root causes of accidents. Also outlines supervisor and team leader responsibilities.

HazCom case histories: Learn from their mistakes
Number: VT01442
Material: video 20 minutes
Industry: all industries
Using re-enactments of real-life HazCom incidents, covers the importance of following safe work practices, reading material safety data sheets and warning labels, emergency response, and using personal protective equipment.
Coastal Training 1994

HazCom for construction
Number: VT01461
Material: video 12 minutes
Industry: construction
Covers the dangers of working with and around chemicals, how to recognize
Training Materials by Title 2012

construction site chemical hazards, hazard control, safety precautions and personal protective equipment.
Coastal Training 1995

HazCom: Understanding labels
Number: VT01245
Material: video 8 minutes
Industry: construction
Discuss the importance of labels on hazardous materials, how to read them, and various types of labeling systems including that of the National Fire Protection Association which uses color coding to distinguish classes of hazards.
Laborers' National H&S Fund 1993

HazCom: Understanding MSDS
Number: VT01246
Material: video 19 minutes
Industry: construction
Discuss the eight sections required on material safety data sheets including health hazards and exposure prevention.
Laborers' National H&S Fund 1993

HazCom: Using MSDS
Number: VT01246
Material: video 12 minutes
Industry: general industry
This humorous video provides a basic overview of a typical material safety data sheet, how to read and use them, and the reasons to consult a MSDS when working with hazardous chemicals.
Industrial Training Systems 1996

HAZWOPER training: Awareness level
Number: VT01490
Material: video 20 minutes
Industry: general industry
Designed for all employees, discusses the standard, hazardous materials definitions, and the activities and workers covered by the standard.
Coastal Training Technologies 1990

Head protection: Safety gear
Number: VT01521
Material: video 10 minutes
Industry: all industries
Examines the features and benefits of wearing hard hats including how the suspension system works, adjustment, regular inspection, and maintenance.
Aims Multimedia 1989

Health & safety Why care?
Number: VT01173
Material: video 14 minutes
Industry: general industry
Presents an overview of potential hazards and safety precautions for retail, wholesale and department store employees.
Retail, Wholesale and Dept 1991

Health and safety Why care?
Number: VT01173S Spanish
Material: video 14 minutes
Industry: general industry
See previous description.
Retail, Wholesale and Dept 1991

Health and safety in welding and allied processes
by Nigel C. Balchin
Number: TS227.8H
Material: book 231 pages
Industry: all industries
Identifies the hazards of major welding processes including gas welding, arc welding, brazing and soldering.
McGraw-Hill 1993
Training Materials by Title 2012

**Healthcare electrical safety**  
Number: VT01561  
Material: video 18 minutes  
Industry: health services  
Discusses the common hazards of using electrical monitoring and diagnostic equipment typical to the healthcare setting, basic electrical principles, and electrical safety guidelines.  
Coastal Training 1991

**Healthcare ergonomics**  
Number: VT01562  
Material: video 21 minutes  
Industry: health services  
Covers cumulative trauma disorders and contributing factors, identifying hazards, proper lifting body mechanics, lifting and transferring of patients, workstation adjustments, and exercises.  
Coastal Training 1996

**Healthcare PPE**  
Number: VT01563  
Material: video 19 minutes  
Industry: health services  
Covers types of PPE available to healthcare workers and how they work, how to identify hazards such as infectious and chemical, selection of PPE, proper use and removal, inspection and disposal.  
Coastal Training 1995

**Healthcare safety orientation**  
Number: VT01564  
Material: video 16 minutes  
Industry: health services  
Gives employees an overview of workplace hazards and safety measures including slips and falls, back injuries, handling medical waste, chemicals, radiation, and the proper use of personal protective equipment.  
Coastal Training 1994

**Hearing**  
Number: VT00377  
Material: video 5 minutes  
Industry: general industry  
Explains how the ear operates, the effects of noise, and the use of earmuffs and earplugs to prevent hearing loss.  
Summit Training Source 1990

**Hearing conservation on the jobsite: Sound advice**  
Number: VT01424  
Material: video 13 minutes  
Industry: construction  
Discusses noise on the jobsite and the reason for wearing hearing protection.  
Assoc General Contractors of America 1995

**Hearing conservation: An employee review**  
Number: VT01273  
Material: video 9 minutes  
Industry: all industries  
Discusses control of harmful noise, hearing protection, and noise-induced hearing loss.  
VA Medical Center 1991

**Hearing protection: Safety gear**  
Number: VT01731 Spanish  
Material: video 13 minutes  
Industry: general industry  
Explains how the ear works, workplace noise hazards, the effects of noise, and the use of hearing protection including earmuffs and earplugs.  
Aims Multimedia 1989

**Hearing safety**  
Number: VT00146  
Material: video 18 minutes  
Industry: general industry  
Stresses the hazards of both short- and long-term exposure to common levels of industrial noise, and the correct use of various protective devices.  
Primedia Workplace Learning 1986

**Heat stress**  
Number: VT01634  
Material: video 5 minutes  
Industry: all industries  
Covers the effects of heat on the body, health hazards and their symptoms, and preventive measures.  
Summit Training Source 1990

Training Materials by Title 2012

Housekeeping on the jobsite: The winning ticket
Number: VT01707 Spanish
Material: video 13 minutes
Industry: construction
Explains the dangers of working on cluttered jobsites including slips and falls.
Assoc General Contractors of America 1991

Housekeeping responsibilities
Number: VT01648 Spanish
Material: video 5 minutes
Industry: all industries
Covers how good housekeeping can prevent accidents and fires including spill cleanup and oily rag disposal.
Training Network-LIP 1994

Housekeeping: A matter of attitude
Number: VT01525
Material: video 16 minutes
Industry: all industries
This humorous video points out the impacts of sloppy housekeeping and why good housekeeping is an important aspect of safety because it can prevent accidents.
Safe Expectations 1981

Housekeeping: It ain't like in the movies
Number: DVD052
Material: DVD 15 minutes
Industry: all industries
This humorous video, an action adventure spoof, reviews the importance of preventing accidents through good housekeeping techniques including proper tool storage and eliminating spills.
(English / Spanish)
Coastal Training Technologies, 2005, 1995

How far is that fall?
Number: VT01511
Material: video 22 minutes
Industry: construction
Covers fall distance calculations for personal fall arrest systems as found in OSHA regulation 1926.502(d)(16).
OSHA Office of Training and Education 1998

How to investigate an accident
Number: VT01581
Material: video 13 minutes
Industry: all industries
Presents the basics of accident investigation including interviewing witnesses, fact gathering, analyzing data, and the points to remember when completing an accident report.
Digital 2000 1999

Hypothermia
Number: VT01604
Material: video 7 minutes
Industry: all industries
Discusses how to recognize the warning signs and how to prevent it including wearing the proper cold-weather PPE.
Summit Training Source 1998

Incident investigation
Number: VT01299
Material: video 17 minutes
Industry: all industries
Provides training on the methods and techniques required to discover the accurate cause of an incident including physical evidence, fact finding, data gathering, interviewing witnesses, analyzing details, and effective corrective actions.
Summit Training Source 1995

Indoor cranes: Safe lifting operations
Number: VT01602
Material: video 19 minutes
Industry: general industry
Covers how to safely operate shopoperated power hoist equipment and discusses pre-operation safety.

Training Materials by Title 2012

inspections, basic rigging techniques, and lifting and moving the load.
Coastal Training 1991

**Industrial ventilation: a practical overview**
Number: VT01188
Material: video 22 minutes
Industry: general industry
Discusses the principles of industrial ventilation to control the buildup of hazardous industrial chemicals in the air.
OSHA Office of Training and 1991 Education

**Introduction to scaffolding safety**
Number: VT01597
Material: video 22 minutes
Industry: construction
Discusses scaffold erection, hazards, and safe work practices.
National Ironworkers Training 1999 Fund

**Ironworkers: A study of hazards in the construction industry**
Number: VT01098
Material: video 25 minutes
Industry: structural steel
Discusses jobsite hazards and safety precautions including ladders, scaffolds, rigging, setting beams, bolting and welding. NOTE: Body belts are no longer acceptable as part of a personal fall arrest system.
National Ironworkers Training Fund 1999

**Is it worth your life? Workplace violence prevention**
Number: VT01262
Material: video 19 minutes
Industry: retail trade
This video shows ways to prevent or defuse violent situations in retail stores.
NOTE: Washington State has a Crime Prevention Code. OSHA uses the General Duty Clause to cover this workplace hazard.
WA State Dept of Labor & Industries 1992

**It can happen here: Chemical disasters**
Number: VT01171
Material: video 5 minutes
Industry: chemical
Describes the causes of toxic releases and explosions at chemical plants.
Int'l Chemical Workers Union 1989

**It only takes a second…**
Number: VT01682
Material: video 4 minutes
Industry: all industries
This powerful video shows, through work and driving accident re-enactments, how easily accidents can happen and the consequences of not taking the time to think safety.
Aurora Pictures 1995

**It's a wonderful kitchen: Injury prevention for food service workers**
Number: VT01496
Material: video 12 minutes
Industry: food service
Identifies the most common food service-related injuries and methods of prevention including slips and falls, burns and scalds, and cuts.
NY State Dept of Health 1991

**Job hazard analysis: A guide to identifying risks in the workplace by George Swartz**
Number: T55.S93
Material: book 205 pages
Industry: all industries
Provides a step-by-step guide to identifying and preventing occupational hazards on the job.
Government Institutes 2001

**Job safety analysis**
Number: VT01752
Material: video 10 minutes
Industry: all industries
Offers an overview of job safety analysis including how to identify the hazards which are associated with each job step and identifying the proper way of doing the job.
IL Onsite S&H Consultation Program 2000

<td>Discusses the requirements of the Laboratory Safety Standard, hazard identification, exposure monitoring and PELs, recordkeeping, and emergency procedures. Coastal Training 1990</td>
</tr>
<tr>
<td><strong>Lab safety: Practicing safe science</strong></td>
<td>VT01743</td>
<td>Video 29 minutes</td>
<td>General industry</td>
<td>Demonstrates safe practices, features reenactments of actual laboratory accidents, and poses questions to help the viewer recognize risks associated with scientific protocols. Howard Hughes Medical Institute 1994</td>
</tr>
<tr>
<td><strong>Lab safety: Under the hood</strong></td>
<td>VT01603</td>
<td>Video 20 minutes</td>
<td>General industry</td>
<td>Demonstrates safe work practices and procedures that apply when working with hazardous chemicals. Howard Hughes Medical Institute 1994</td>
</tr>
</tbody>
</table>
Material: video 18 minutes  
Industry: general industry  
Discusses safe work practices, how to recognize common laboratory chemical and health hazards, laboratory hoods, how to use a Chemical Hygiene Plan and emergency procedures.  
Coastal Training 1998

**Ladder safety**  
Number: VT01508  
Material: video 6 minutes  
Industry: all industries  
Covers selecting the proper ladder for the job, inspection, truck racks, and proper set-up and use.  
Summit Training Source 1998

**Ladder safety: Construction**  
Number: VT01381  
Material: video 5 minutes  
Industry: construction  
Explains safe use requirements for ladders including proper set-up, inspection, 4:1 ratio, and climbing techniques.  
Training Network-LIP 1994

**Ladder safety: Construction**  
Number: VT01570  
Material: video 6 minutes  
Industry: construction  
Covers the safe use of ladders including inspection, 4:1 pitch ratio, the 3-point rule, safe climbing techniques, and jobmade ladders.  
Assoc General Contractors of America 1992

**Ladder safety: Construction**  
Number: VT01672 Spanish  
Material: video 6 minutes  
Industry: construction  
See previous description.  
Assoc General Contractors of America 1992

**Ladder safety: every step counts.**  
Number: DVD074  
Material: DVD 17 minutes  
Industry: General Industry  
Explains how to properly select, set up, use and maintain portable ladders. Contains a short segment on fixed ladders and mobile ladder stands. (*English / Spanish*)  
Summit Training Source, Inc. 2005

**Ladder safety: Fall prevention**  
Number: VT01545  
Material: video 12 minutes  
Industry: all industries  
Explains the principles of ladder selection, inspection, set-up and use, and safe climbing techniques.  
Primedia Workplace Safety 1993

**Ladder safety: Step right up**  
Number: VT01279  
Material: video 19 minutes  
Industry: general industry  
This humorous video demonstrates safety tips and procedures when using portable ladders including carrying, inspection, erecting, securing, and climbing.  
Coronet/MTI Film & Video 1993

**Landing safety**  
Number: VT01251  
Material: video 18 minutes  
Industry: logging  
This logging video discusses safety measures to be taken at landing areas.  
University of Idaho 1992

**Large power hand tool safety**  
Number: VT01617  
Material: video 10 minutes  
Industry: all industries  
Covers safety risks and precautions that should be observed when working with the impact wrench, large power drills, portable band saws, and the roto  
Aims Multimedia 1991

**Laser safety: Construction**  
Number: VT01673  
Material: video 8 minutes  
Industry: construction  
Covers the use of lasers in construction, the four classes of lasers, the hazards of laser light, proper eye protection, and safe operating practices including the posting of warning signs.  
Assoc General Contractors of America 1997
Lead abatement: Safe practices
Number: VT01261
Material: video 26 minutes
Industry: construction
Discusses lead hazards and ways of preventing exposure in the construction industry.
Laborers-AGC Education and 1995 Training Fund

Lead exposure in construction: Caution!
Number: VT01705
Material: video 11 minutes
Industry: construction
Discusses sources of lead exposure, lead poisoning symptoms, protective measures, and the hazards of lead in the construction industry.
Western Consortium for Public Health 1993

Lead exposure in construction: Exposing the facts
Number: VT01705
Material: video 17 minutes
Industry: construction
Describes how lead is used in the construction industry, its effects on the human body, and how workers can protect themselves from overexposure.
Assoc General Contractors of America 1992

Lead in construction: Medical surveillance
Number: VT01265
Material: video 15 minutes
Industry: construction
Discusses medical examinations and surveillance program that employers are required to provide workers exposed to lead in construction.
Laborers-AGC Education and Training Fund 1993

Lead safety in the demolition industry
Number: VT01266 Spanish
Material: video 15 minutes
Industry: wrecking and See previous description.
National Assoc of Demolition Contractors 1994

Lead safety on the construction site: Employee
Number: VT01236
Material: video 29 minutes
Industry: construction
Discusses lead hazards, health effects, sources of lead exposure, medical surveillance, engineering and work practice controls, and abatement procedures.
Chicago Construction Safety Council 1993

Lead safety on the construction site: Employer
Number: VT01237
Material: video 26 minutes
Industry: construction
Covers compliance programs, lead hazards, health effects, exposure assessment, control measures, OSHA requirements, recordkeeping requirements, and safety program evaluation.
Chicago Construction Safety Council 1993

Lead standard
Number: VT01661
Material: video 6 minutes
Industry: all industries
Discusses how lead enters the body, the health hazards associated with overexposure, safety procedures, and preventive measures.
Summit Training Source 1996

Lead: Treat it with respect
Number: DVD060
Material: video 17 minutes
Industry: construction
This program documents the dangers to workers from lead poisoning and the safety guidelines to
use when exposed to lead in the workplace. 
(English / Spanish)
Coastal Training Technologies, 2011

**Lead: Treat it with respect**
Number: VT01463
Material: video 17 minutes
Industry: construction
Discusses the dangers of lead hazards in construction, how lead enters the body, exposure limits, PPE, housekeeping, and medical surveillance.
Coastal Training 1991

**Lifting safely: Construction**
Number: VT01318
Material: video 12 minutes
Industry: construction
Explains how the back functions, safe lifting methods, and how to prevent back injuries.
Digital 2000 1993

**Line breaking: Use a permit**
Number: VT01443
Material: video 16 minutes
Industry: chemical
Discusses the dangers involved in not following process system safety procedures including line and equipment opening (LEO), LEO permits, lockout/tagout, line-breaking procedures and post procedures, and emergency response.
Coastal Training 1992

**Line skidding**
Number: VT01252
Material: video 16 minutes
Industry: logging
Covers safety procedures for skidding with a gravity yarder.
University of Idaho 1992

**Loading and hauling**
Number: VT01253
Material: video 17 minutes
Industry: logging
Discusses safety procedures for drivers and loader operators during the loading and hauling of logs.
University of Idaho 1992

**Lockout for life! Lockout/tagout case histories**
Number: VT01444
Material: video 20 minutes
Industry: general industry
Shows dramatic re-enactments of actual accidents, reviews the hazards of uncontrolled energy, details correct procedures for locking and tagging, proper equipment shutdown and isolation, and proper safety procedures.
Coastal Training 2001

**Lockout tragedy: Danger zone**
Number: VT01750
Material: video 15 minutes
Industry: general industry
This high-impact video retells the story of a worker who lost his life in an avoidable accident involving improper lockout procedures.
Coastal Training 2001

**Lockout/tagout for machine shop employees**
Number: VT01239
Material: video 18 minutes
Industry: general industry
Discusses lockout/tagout procedures for machine shop employees.
National Tooling and Machining Association

**Lockout/tagout for machine shop managers**
Number: VT01238
Material: video 19 minutes
Industry: general industry
Discusses lockout/tagout procedures for machine shop employees.
National Tooling and Machining Association

**Lockout/tagout procedures**
Number: VT01306
Material: video 6 minutes
Industry: general industry
Covers proper procedures for isolating various types of hazardous energy including electrical, mechanical, hydraulic and pneumatic, and the
Training Materials by Title 2012

procedures to take when restarting
Summit Training Source 1990

**Lockout/tagout safety procedures**
- Number: VT01277
- Material: video 17 minutes
- Industry: general industry
- Discusses energy control during the maintenance and servicing of equipment. NOTE: Washington State may have stricter standards than Federal WA State Dept of Labor and 1992 Industries

**Lockout/tagout: Controlling the beast**
- Number: VT01470
- Material: video 19 minutes
- Industry: general industry
- Graphically demonstrates the hazards of uncontrolled energy, reviews and explains the purpose of proper lockout/tagout procedures and the dangers if those procedures are not Coastal Training 1994

**Lockout/Tagout : Employee Awareness**
- Number: DVD021
- Material: DVD 14 minutes
- Industry: general industry
- Discusses why lockout procedures are important, an overview of the procedures, and your role in preventing accidents Summit Training Source, 2009

**Lockout/tagout: Lighting in a Bottle**
- Number: DVD010
- Material: DVD 16 min
- Industry: all industries
- Fatal injuries occur in workplaces when hazardous energy is released and lockout/tagout procedures are not in place. This video reviews the OSHA lockout/tagout standard and provides the six steps to proper lockout/tagout. Includes customizable Power-Point presentation, printable leader's guide, program outline and training points. Coastal Training 2006

**Lockout/tagout: Real, real-life**
- Number: VT011608
- Material: video 18 minutes
- Industry: general industry
- This interactive video covers the when, where and why of lockout including safe work practices, proper locking/tagging procedures, and spotting potential dangers. Coastal Training 2000

**Lockout/tagout: Real, real-life**
- Number: VT01718 Spanish
- Material: video 18 minutes
- Industry: general industry
- See previous description. Coastal Training 2000

**Lockout/tagout: safety training for employees**
- Number: VT01552
- Material: video 15 minutes
- Industry: general industry
- Provides an overview of the standard and demonstrates proper safety procedures including how to apply and remove safety devices, the requirements for locks and tags, inspections, recordkeeping, and maintaining lockout/tagout during shift changes. J.J. Keller & Associates 1995

**Lockout/tagout: The process of controlling hazardous energy by Edward R. Grund**
- Number: T55.G77
- Material: book 429 pages
- Industry: general industry
- Covers safeguards and practices to protect workers when servicing, repairing, adjusting, and inspecting machinery, equipment, and processes. National Safety Council 1995

**Logging body mechanics**
- Number: VT01292
- Material: video 22 minutes
- Industry: logging
- Discusses the prevention of back injuries for loggers working with chain saws and logging equipment. Lumberjack Resource 1995 Development Council

**Logging safely in the Intermountain Northwest**
- Number: VT01254
Training Materials by Title 2012

Material: video 18 minutes  
Industry: logging  
Gives an overview of logging operations and safety practices.  
University of Idaho 1992

**Long term care safety orientation: Work smart, be safe**  
Number: VT01753  
Material: video 15 minutes  
Industry: health services  
Intended as a safety orientation for new employees or as a refresher for current employees who work in the nursing home industry.  
IL Onsite S&H Consultation Program 2002

**Machine guard awareness/**  
Number: DVD020  
Material: DVD 14 minutes  
Teaches employees to recognize the hazards of machines and their moving parts, to understanding the purpose and function of machine guards, and to follow safe work practices.  
Industry: general industry  
Summit Training Source, 2008

**Machine guarding**  
Number: VT01307  
Material: video 7 minutes  
Industry: general industry  
Discusses different types of guards, the importance of not bypassing guards, and the use of guards in lockout procedures.  
Summit Training Source 1990

**Machine guarding**  
Number: VT01395  
Material: video 16 minutes  
Industry: general industry  
Provides an overview of machine hazards including point of operation and pinch points, the necessity and techniques of machine guarding, safety precautions, and guarding devices including sensors, restraints, pullbacks and gates.  
Primedia Workplace Learning 1989

**Machine guarding**  
Number: VT01445  
Material: video 14 minutes  
Industry: general industry  
Describes machine hazards, the categories and types of machine guards, the importance of using guards, the places where machine hazards occur such as pinch points, and safety control devices including pullbacks and gates.  
Coastal Training 1992

**Machine guarding: A management & employee safety program**  
Number: VT01700  
Material: video 18 minutes  
Industry: general industry  
Explains the roles of management and employees, discusses the elements of a sound machine guarding policy, and maintaining a safe work environment.  
J.J. Keller & Associates 1995

**Machine guarding: safeguard your future**  
Number: DVD012  
Material: DVD 14 min  
Industry: all industries  
Practically every machine has some sort of machine guarding – a shield, automatic shutoff or even a laser curtain – to protect workers if a body part should come in contact with the machine. In fact, OSHA requires specific machines to have specific guards. Make sure your employees understand the importance of knowing about and using the machine guards meant to protect them.  
• Safety guards  
• Safety devices  
• Lockout/tagout  
• PPE  
Coastal Training Technologies, 2008

**Machinery and machine guarding**  
Number: VT01755
Training Materials by Title 2012

Material: video 15 minutes
Industry: general industry
Covers ways to safeguard machinery and shows a variety of machine safeguarding techniques.
IL Onsite S&H Consultation 2003 Program

Machinery safety: A close call
Number: VT01512
Material: video 9 minutes
Industry: agriculture
Discusses hazards associated with agricultural machinery including entanglements, pinch and crush points.
Kansas State University 1993

Mailroom safety
Number: VT01734
Material: video 6 minutes
Industry: all industries
Covers how to recognize suspicious packages, helps dispel myths about the hazards presented by suspicious packages, and proper procedures for handling suspect mail.
Summit Training Source 2002

Managing silica hazards: Construction
Number: VT01483
Material: video 14 minutes
Industry: construction
Discusses silica, its hazards, hazard assessment at the jobsite, engineering and work practice controls, personal protective equipment, and the employer’s responsibilities.
Chicago Construction Safety 1997 Council

Manbaskets in construction
Number: VT01485
Material: video 10 minutes
Industry: construction
Covers safety measures including proper procedures for hoisting manbaskets using a crane or derrick.
Coastal Training 1997

Masonry trades: A study of hazards
Number: VT01122

Material: video 13 minutes
Industry: construction
Covers construction-site hazards and safety measures including lifting techniques, cement dust, power tools and equipment, wall bracing and supports, and limited access zones.
Florida AFL-CIO United Labor Agency 1989

Material handling equipment safety
Number: VT01618
Material: video 9 minutes
Industry: general industry
Covers safe operating procedures for 2-wheel dollies, cages, manual pallet jacks, gas and electric forklifts, stock chasers, stock pickers and electric jacks.
Aims Multimedia 1991

Materials handling and storage
Number: VT01474
Material: video 22 minutes
Industry: general industry
Discusses safety procedures when using common material handling equipment including forklifts, cranes, hoists, and conveyors.
Kirkwood Community College 1995

Materials handling and storage: Hazardous and flammable
Number: VT01606
Material: video 9 minutes
Industry: all industries
This humorous video covers safety principles for the handling and storage large quantity hazardous and flammable materials including manual and equipment handling, stacking, proper storage techniques, and storage areas.
Industrial Training Systems 1995

Materials handling safety: Making the right move
Number: VT01417
Material: video 14 minutes
Industry: construction
Discusses hazards and safety procedures when handling and storing construction materials including proper lifting techniques, storage areas,

Training Materials by Title 2012

Number: DVD067  
Material: DVD 15 minutes  
Industry: General Industry  
Describes safe operating practices for mobile cranes, including pre-operational set-up and inspection, planning a lift and load chart interpretation. *(English / Spanish)*  
Summit Training Source, Inc.

**Mobile scaffold safety: Rolling towers**  
Number: VT01587  
Material: video 12 minutes  
Industry: construction  
Describes mobile scaffold safety including erection and dismantling, 4:1 ratio, inspection, use, fall protection, and load capacity.  
Assoc General Contractors of America 1997

**MSDS**  
Number: VT00383  
Material: video 5 minutes  
Industry: general industry  
Explains how to read and use a material safety data sheet.  
Summit Training Source 1990

**MSDS: Communicating chemical safety**  
Number: VT01546  
Material: video 15 minutes  
Industry: all industries  
Provides a basic overview of a typical material safety data sheet including the types of information they contain, and why they should be consulted when working with chemicals.  
Industrial Training Systems 1994

**MSDS: Read it before you need it!**  
Number: DVD054  
Material: video 20 minutes  
Industry: general industry  
This DVD will help employees use and understand the various sections of material safety data sheets including exposure situations, hazard prevention and personal protection, toxicology, and disposal. *(English / Spanish)*  
Coastal Training Technologies, 1993, 2004

**MSDS: Read it before you need it!**  
Number: VT01464  
Material: video 20 minutes  
Industry: general industry  
This video will help employees use and understand the various sections of material safety data sheets including exposure situations, hazard prevention and personal protection, toxicology, and disposal.  
Coastal Training 1993

**Never again: Preventing chemical disasters**  
Number: VT01172  
Material: video 49 minutes  
Industry: chemical  
Covers safety committees, risk analysis, and accidents.  
United Steelworkers of America 1989

**Non-compatible chemicals: What you should know**  
Number: VT01337  
Material: video 14 minutes  
Industry: general industry  
Discusses chemical groups and their hazards, storage requirements, and emergency procedures.  
Intl Chemical Workers Union 1987

**Not by chance: Chemical disasters**  
Number: VT01175  
Material: video 21 minutes  
Industry: chemical  
Discusses the risks of accidental chemical releases to workers and the general public.  
AFL-CIO Industrial Union 1990

**Nursing homes: Hazards & solution**  
Number: VT01497  
Material: video 16 minutes  
Industry: nursing homes  
Discusses various hazards in nursing homes, specifically focusing on resident transfer hazards and the use of patient assist devices.  
OSHA Directorate of Technical Support 1998  

**Office safety**
Training Materials by Title 2012

Number: VT01735  
Material: video 5 minutes  
Industry: all industries  
Covers how to recognize potential hazards and take preventive measures to help eliminate incidents including slips and falls and back injuries. 
Summit Training Source 1990

**Oops! Your office is showing**  
Number: VT01278  
Material: video 15 minutes  
Industry: all industries  
Discusses how to identify the causes of office accidents and ways to prevent them including workstation design, and proper lifting techniques. 
WA State Depart of Labor & Industries 1992

**Operating engineers: A study of hazards in the construction industry**  
Number: VT01123  
Material: video 18 minutes  
Industry: construction  
Discusses hazards and safety measures when operating cranes and heavy equipment including pre-operation inspection, load lifting techniques, power lines, and carrier operations. 
Florida AFL-CIO United Labor Agency 1988

**Operation safe site: Concrete**  
Number: VT01203  
Material: video 11 minutes  
Industry: construction  
Discusses safety procedures when working in concrete construction including form and shoring systems. 
Assoc Contractors of Mid- Florida 1980

**OSHA 10-hour construction PowerPoint**  
Number: CD01  
Material: CD 10  
Industry: construction  
Emphasizes hazard identification, avoidance and control in the following subjects: OSHA, electrical, fall protection, excavations, cranes, materials handling and storage, hand and power tools, ppe, scaffolds, and stairways and 
OSHA Office of Training and 2003 Education  
http://www.osha.gov/fso/ote/training/outreach/con st_outreach_tp.html

**OSHA 10-hour general industry PowerPoint**  
Number: CD02  
Material: CD 10  
Industry: general industry  
Hazard identification, avoidance and control in the following subjects: OSHA, bloodborne pathogens, electrical, fire protection, flammable liquids, ppe, hazard communication, machine guarding, walking-working surfaces, and safety and health programs. 
OSHA Office of Training and 2003 Education  
http://www.osha.gov/fso/ote/training/outreach/gi _outreach_tp.html

**OSHA at work**  
Number: VT01184  
Material: video 22 minutes  
Industry: all industries  
Describes OSHA and its functions. NOTE: First two minutes of video contains extraneous material. 
OSHA Office of Information & 1991 Consumer Affairs

**OSHA in review**  
Number: VT01233  
Material: video 10 minutes  
Industry: all industries  
Reviews the history of OSHA through film footage of former Assistant Secretaries. 
OSHA 1989

**OSHA inspection: Overcoming the fear**  
Number: VT01691  
Material: video 24 minutes  
Industry: all industries  
Discusses how to prepare for an OSHA inspection and what to expect including the opening conference, what is included in the inspection tour, the closing conference, types of violations and their penalties, and how to appeal a citation.
Coastal Training 1994

**OSHA inspection: Preparation and response**

*by Rick Kaletsky*

Number: T55.K26  
Material: book 438 pages  
Industry: all industries  
Covers how OSHA works, what employers need to do in order to have an effective safety and health program, and how to prepare for and respond to an OSHA work site inspection.  
McGraw-Hill 1997

**OSHA on-site consultation program**

Number: VT01756  
Material: video 10 minutes  
Industry: all industries  
Provides an overview of the services provided by state OSHA Consultation Programs by presenting a jointly developed Industry/OSHA silica hazard control program.  
IL Onsite S&H Consultation Program 2002

**OSHA recordables**

Number: VT01736  
Material: video 6 minutes  
Industry: all industries  
Covers the recording of workplace illnesses and accidents on the OSHA 300, 300-A, and 301 forms including what records must be kept and how to determine what goes on the record.  
Summit Training Source 2002

**OSHA recordkeeping**

Number: DVD030  
Material: DVD 18 minutes  
Industry: all industries  
Describes what workplace incidents to report, how to report them according to OSHA standards, and how to keep the necessary records at the work site.  
Summit Training Source, 2002

**OSHA recordkeeping: On the record**

Number: VT01681  
Material: video 18 minutes  
Industry: all industries  
Discusses the revised OSHA recordkeeping system including how to distinguish between a recordable and non-recordable incident and the new OSHA 300, 300-A, and 301 forms.  
Summit Training Source 2001

**OSHA recordkeeping : true to form.**

Number: DVD040  
Material: DVD 35 minutes  
Industry: general industry  
This video talks how to be true to form with OSHA's record keeping procedures. It instructs how to record accidents and illness at the work place, how to make your workers aware of injuries and illnesses at the workplace and how to fill out OSHAs forms (300, 300A, 301). Includes printable leader's guide and customizable Power-Pont presentation.  
Coastal Training Technologies, 2004

**OSHA recordkeeping: True to form**

Number: VT01680  
Material: video 13 minutes  
Industry: all industries  
Covers the revised OSHA recordkeeping system including an overview of changes, when to begin and end counting, employee privacy issues, procedures, and the new OSHA forms 300, 300-A and 301.  
Coastal Training 2001

**OSHA top ten**

Number: VT01771  
Material: video 25 minutes  
Industry: general industry  
Points out the most common OSHA violations for general industry including machine guarding, lockout/tagout, hazard communication, warning signs and labels, and employee training.  
Coastal Training 2002

**OSHA's inspection and citation process:**

*Construction*

Number: VT01586  
Material: video 14 minutes  
Industry: construction  
Provides information on employer rights and responsibilities under the OSH Act including the reasons for inspections, the opening conference, inspection tour,
Training Materials by Title 2012

closing conference, citations, the seven types of violations, and penalties.
Assoc General Contractors of America 1993

**Oxyacetylene safety**
Number: VT01397
Material: video 22 minutes
Industry: all industries
Discusses the importance of following basic safety rules, ten safety rules are given and illustrated, and demonstrations show the dangers and effects of misuse of oxyacetylene equipment.
Primedia Workplace Learning 1996

**Oxyfuel gas cutting: The sure cut**
Number: VT01491
Material: video 13 minutes
Industry: all industries
Details the principles of welding safety and provides specific procedures when performing oxyfuel gas cutting including safety equipment, hook-up procedures, hazardous fumes, and ventilation.
Coastal Training 1990

**Painters and allied trades: A study of hazards**
Number: VT01161
Material: video 26 minutes
Industry: painting and paper
Covers jobsite safety and health hazards including ladders, scaffolds, abrasive blasting, spray painting, and hazardous chemicals. NOTE: Body belts are no longer acceptable as part of a personal fall arrest system.
Florida AFL-CIO United Labor Agency 1987

**Pave your way to safety: Concrete paving safety**
Number: VT01571
Material: video 14 minutes
Industry: construction
Covers general safety procedures for concrete paving including concrete hazards, heavy equipment, personal protective equipment, paving equipment maintenance, and traffic control.
Assoc General Contractors of America 1993

**Pendant controlled crane safety**
Number: VT01669
Material: video 14 minutes
Industry: general industry
Covers safety considerations including pre-operation inspection, safe operating procedures, rigging, slings, use of hooks, moving and setting the load, and storage of the crane and block.
Summit Training Source 1997

**Permit-required activities**
Number: VT01690
Material: video 12 minutes
Industry: construction
 Discusses high-risk contractor work that requires a special work permit including identifying potential hazards, safe work practices for hot work, confined space entry, excavations, asbestos, and lockout/tagout.
Summit Training Source 1995

**Personal protective equipment**
Number: VT01287
Material: video 9 minutes
Industry: all industries
Discusses types of hazards found in the workplace and appropriate personal protective equipment.
Training Network-LIP 1992

**Personal protective equipment**
Number: VT00386
Material: video 5 minutes
Industry: all industries
Demonstrates the proper use of personal protective equipment including hard hats, respirators, eye protection, and
Summit Training Source 1990

**Personal protective equipment**
Number: VT01286
Material: video 6 minutes
Industry: all industries
Covers the selection and use of hard hats, gloves, safety glasses, and earmuffs.
Training Network-LIP 1992

**Personal protective equipment for construction: Best strategy**
Number: VT01407
Training Materials by Title 2012

Material: video 12 minutes
Industry: construction
Discusses the safety reasons for using PPE, sizing up the job, choosing the proper PPE, and the use of hard hats, earplugs and muffs, face shields, safety shoes, gloves, safety glasses and goggles, respirators, and fall protection.
Assoc General Contractors of America 1995

Personal protective equipment for construction: Best strategy
Number: VT01646 Spanish
Material: video 12 minutes
Industry: construction
See previous description.
Assoc General Contractors of America 1995

Personal protective equipment for head, eye/face, hand, foot
Number: VT01398
Material: video 19 minutes
Industry: all industries
Discusses matching personal protective equipment with the hazards associated with the job, proper selection, fit, inspection, and maintenance of hard hats, safety glasses, gloves, and work.
Primedia Workplace Learning 1992

Personal protective equipment training
Number: VT01553
Material: video 22 minutes
Industry: general industry
Covers eye and face, head, foot, hand, hearing, and respiratory personal protective equipment, how to use it, fit testing, maintenance and inspection.
J.J. Keller & Associates 1994

Personal protective equipment: Danger zone
Number: VT01652
Material: video 12 minutes
Industry: general industry
Stresses the importance of assessing hazards prior to PPE selection and includes demonstrations of the proper use and care of hard hats, safety glasses, goggles, respirators, gloves, and shoes.
Summit Training Source 1992

Personal protective equipment: Real, real-life
Number: VT01493
Material: video 14 minutes
Industry: all industries
This humorous video discusses the use of various types of personal protective equipment and shows re-enactments of real-life situations and asks viewers to think how they would respond.
Coastal Training 1997

Personal protective equipment: the right choice!
Number: DVD038
Material: DVD 20 minutes
Industry: general industry
Introduces the various types of PPE available and emphasizes why it should be worn. Features a graphic testimonial from a worker who neglected to wear the proper PPE. Includes resource material.
Coastal Training Technologies, 2007

Personal protective equipment: What's the difference?
Number: VT01723
Material: video 10 minutes
Industry: roofing and siding
Covers the types of personal protective equipment needed to prevent injuries including hard hats, gloves, goggles, boots and the conditions in which it is needed.
National Roofing Contractors Assoc. 1990

Personal protective equipment: win the race to safety
Number: DVD041
Material: DVD 20 minutes
Industry: general industry
Discusses how to wear and adjust PPE, its limitations, and care, maintenance, and disposal of equipment. Discusses special protection issues relating to: eye and face, hearing, head, hand and foot, and full protective clothing.
Coastal Training Technologies, 2007

Personal protective equipment: You're covered
Number: VT01447
Material: video 18 minutes
Industry: general industry
Covers workplace hazards and the selection, care and use of head, eye/face, foot, hand, and hearing personal protective equipment including safety glasses, types and classes of hard hats, gloves, footwear, and ear muffs and Coastal Training 1994

**Pesticides and you: A primer on pesticide handling and storage**
Number: VT01514
Material: video 29 minutes
Industry: all industries
This video, while geared toward farmers, explains and describes safe handling, storage, containment, and application of pesticides for anyone using these chemicals.
Kansas State University 1997

**Physics of falling**
Number: VT01256
Material: video 14 minutes
Industry: logging
This video, developed for Pacific Northwest logging, discusses the basics of safe tree falling including saw cuts.
University of Idaho 1992

**Pile driving safety: Firm footing**
Number: VT01410
Material: video 15 minutes
Industry: construction
Describes common pile driving hazards and safety measures including overhead power lines, equipment inspection, and driving the pile.
Assoc General Contractors of America 1993

**Plumbing and pipefitting trades: A study of hazards**
Number: VT01168
Material: video 20 minutes
Industry: construction
Covers construction-site hazards and safety measures including power tools, ladders, welding, and toxic fumes.
Florida AFL-CIO United Labor Agency 1990

**Pneumatic fastening tools**
Number: VT01611
Material: video 12 minutes
Industry: all industries
Covers the safe and effective use of pneumatic nailers and staplers including components, loading and operation, hoses and couplings, and air pressure.
Safetycare 1995

**Pole topping safety: High voltage electrical**
Number: VT01761
Material: video 10 minutes
Industry: utilities
This video, for utilities workers and linemen, shows examples of acceptable and effective pole top removal practices.
WA State Dept of Labor & 2000 Industries

**Portable fire extinguishers**
Number: VT01492
Material: video 14 minutes
Industry: all industries
Discusses the four difference classes of fire, how to choose the appropriate fire extinguisher and the basics of fire extinguisher use.
Coastal Training 1990

**Powder actuated tool safety**
Number: VT01421
Material: video 5 minutes
Industry: construction
Reviews the hazards and safety measures associated with these tools including caution when working on walls and loading.
Assoc General Contractors of America 1992

**Power and hand tool safety**
Number: VT01399
Material: video 21 minutes
Industry: all industries
Covers safety rules, good judgment and the proper methods of selection, inspection and use of both hand tools and portable power tools.
Primedia Workplace Learning 1988

**Powered hand tool safety: Handle with care**
Number: DVD014
Training Materials by Title 2012

Material: DVD 21 minutes
Industry: all industries
Discusses three rules of power tool safety: avoid, learn, and, defend. Also examines basic do's and don'ts for the power tools used most often.
Coastal Training Technologies, 2004

**Power tool safety: On your guard**
Number: VT01419
Material: video 14 minutes
Industry: construction
Hazards of circular, reciprocating and radial arm saws, drills, sanders, and bench and angle grinders including safety eyewear, the importance of reading and understanding the operator’s manual, tool guards, proper use, and
Assoc General Contractors of America 1992

**Power tool safety: On your guard**
Number: VT01720 Spanish
Material: video 14 minutes
Industry: construction
See previous description.
Assoc General Contractors of America 1992

**Power tools**
Number: VT01643
Material: video 8 minutes
Industry: construction
This graphic video covers safe power tool use and operation, electrical hazards, pre-use inspection and maintenance, and personal protective equipment.
Safety Shorts 1996

**Power zone ergonomics**
Number: VT01631
Material: video 10 minutes
Industry: general industry
Covers manufacturing and office work station design including visual access, work reach zones, standing, and handwrist stress.
IL Onsite S&H Consultation Program 2000

**Powered hand tool safety: Handle with care**
Number: VT01609
Material: video 19 minutes
Industry: all industries
Discusses predicting and avoiding dangers when working with powered hand tools including safety procedures, pre-use inspection, and proper PPE.
Coastal Training 2000

**Preparing your office for an earthquake**
Number: VT01762
Material: video 7 minutes
Industry: all industries
Identifies potential hazards, shows how to lessen damage with simple preventive measures, and lists items for emergency kits.
WA State Dept of Labor & Industries 2001

**Pressure valves**
Number: VT01627
Material: video 5 minutes
Industry: general industry
Discusses hazards, injury prevention, and safe work practices.
Summit Training Source 1990

**Preventing back injuries and other CTD's**
Number: VT01710
Material: video 18 minutes
Industry: construction
Discusses how the body works, the best body positions for doing work, back function and injury, proper lifting, proper shoveling, and the three risk factors for cumulative trauma injury, which are force, position, and repetition.
National Roofing Contractors Assoc1996

**Preventing bloodborne disease**
Number: VT00421
Material: video 18 minutes
Industry: general industry
Discusses bloodborne disease transmission, precautions, decontamination measures, and personal protective equipment for first responders and first aid providers.
Primedia Workplace Learning 1992

**Pro-active safety attitudes: Looking out for number one**
Number: VT01620
Material: video 15 minutes

Training Materials by Title 2012

and EPA's Risk Management Program regulation. (English / Spanish)
Summit Training Source, Inc. 2007

Repetitive stress injuries: Manufacturing
Number: VT01644
Material: video 6 minutes
Industry: general industry
Covers the symptoms of this painful disorder, proper work techniques, and the effects of overexertion, incorrect posture, lifting, twisting, and improper wrist positions.
Safety Shorts 1998

Residential construction: Framing safety
Number: VT01764
Material: video 13 minutes
Industry: construction
Designed for general contractors, carpenters, and framers. Covers safe work practices including guardrails, raising walls, rolling trusses, and roof sheeting.
WA State Dept of Labor & Industries 2000

Residential construction: Framing safety
Number: VT01768 Spanish
Material: video 13 minutes
Industry: construction
See previous description.
WA State Dept of Labor & Industries 1999

Residential construction: Roofing safety
Number: VT01765
Material: video 13 minutes
Industry: construction
Covers job preparation, walk-around safety inspections, ladder safety, fall protection, roofing hazards, and housekeeping.
WA State Dept of Labor & Industries 1999

Residential construction: Roofing safety
Number: VT01769 Spanish
Material: video 13 minutes
Industry: construction
See previous description.
WA State Dept of Labor & Industries 1999

Residential construction: Siding safety
Number: VT01770 Spanish
Material: video 13 minutes
Industry: construction
See previous description.
WA State Dept of Labor & Industries 1999

Residential fall protection: Nailing it down
Number: VT01754
Material: video 13 minutes
Industry: construction
Covers fall hazards in the residential construction industry and hazard controls such as guardrails, controlled access zones, side rails, and PPE.
IL Onsite S&H Consultation Program 2002

Residential fall protection: New options
Number: VT01291
Material: video 13 minutes
Industry: construction
Discusses interim fall protection measures during the rulemaking period.
OSHA Directorate of Technical Support 1996

Respirators and how to use them
Number: VT01319
Material: video 12 minutes
Industry: all industries
Covers typical workplace respiratory hazards, facts regarding respirator use, and various types of respiratory equipment.
Digital 2000 1995

Respirators and how to use them
Number: VT01732 Spanish
Material: video 12 minutes
Industry: all industries
See previous description.
Digital 2000 1995

Respirators: SCBA care and maintenance
Training Materials by Title 2012

Number: VT01560
Material: video 15 minutes
Industry: all industries
Covers the care and use of the most common types of respirators including donning, fit testing, disassembly and reassembly, inspecting, and storing.
Coastal Training 1991

Respirators: Your TB Defense/ TB respiratory protection
Number: DVD01
Material: DVD 48 minutes
Industry: health services
Discuss respiratory protection for healthcare workers, and gives step-by-step instructions for developing a respiratory protection program for tuberculosis.
US National Institute for OSH 2002

Respirators: Your TB Defense/ TB respiratory protection (CC)
Number: DVD02
Material: DVD 48 minutes
Industry: health services
Discuss respiratory protection for healthcare workers, and gives step-by-step instructions for developing a respiratory protection program for tuberculosis.
US National Institute for OSH 2002

Respirators: Your TB defense
Number: VT01630
Material: video 16 minutes
Industry: health services
Covers the history of TB, transmission, symptoms, and respiratory protection including types of respirators, how they work, fit testing, cleaning, inspection, and storage.
US National Institute for OSH 2000

Respiratory protection
Number: VT01377
Material: video 5 minutes
Industry: general industry
Covers common respiratory health hazards, and the inspection, use, and storage of respiratory equipment.
Digital 2000 1993

Respiratory protection: Another world
Number: VT01466
Material: video 19 minutes
Industry: general industry
Discusses respiratory protection including when it is needed, airborne hazardous substances, hazardous atmospheres, types of respirators, fit testing, maintenance, and written programs.
Coastal Training Technologies 1995

Respiratory protection for healthcare workers
Number: DVD047
Material: DVD 33 minutes
Industry: Healthcare
This video provides a brief overview and general information regarding respirator use in a healthcare facility. It does not cover all of the requirements specified by OSHA's Respiratory Protection Standard at 29 CFR 1910.134. It gives a basic understanding of why a respirator may be used in a healthcare setting and how to properly use one. The video addresses the comprehensive plan that is needed if respirators are used in a healthcare facility. Finally, the myths surrounding respirators are addressed.
OSHA, 2011

Rigging: specialized in safety
Number: DVD032
Material: DVD 16 minutes
Industry: general industry
Provides an introduction to rigging safety for cranes, derricks and hoists. Covers slings, planning the lift, and best work practices.
Summit Training Source, 2009

Rigging equipment: Inspecting for safety
Number: VT01479
Material: video 15 minutes
Industry: general industry
Covers the importance of both regular and periodic inspections of rigging equipment and what signs of damage to look for on synthetic web slings, metal mesh slings, chain slings, wire rope, and
Training Materials by Title 2012

Rigging equipment: Selection and care
Number: VT01480
Material: video 16 minutes
Industry: general industry
Introduces the characteristics, care and handling of slings (synthetic web, metal mesh, chain and wire rope) and hardware (hoist locks, shackles, eye bolts, and turn buckles) commonly used for overhead lifting in industry.
Primedia Workplace Learning 1990

Rigging safety
Number: VT01670
Material: video 13 minutes
Industry: all industries
Covers types of rigging, sling selection and inspection, pre-lift preparation, load control and dynamics, work site hazards, and safe work practices.
Summit Training Source 1998

Right-to-know
Number: VT00388
Material: video 5 minutes
Industry: general industry
Provides hazard communication training on MSDS terms and labeling compliance including proper container labeling.
Summit Training Source 1990

Roofing contractor safety
Number: VT01632
Material: video 10 minutes
Industry: construction
Covers roofing safety awareness and safe work practices including falls, hot work, ladders, fires, material storage, cranes, weather conditions, personal protective equipment, housekeeping, and equipment use.
IL Onsite S&H Consultation Program 2000

Safe harvest
Number: VT01543
Material: video 24 minutes
Industry: agriculture
Features farmers who were involved in harvesting equipment accidents who discuss pre-operation inspections, hazards, training, and safety procedures.
Kansas State University 1988

Safe lifting
Number: VT01649 Spanish
Material: video 5 minutes
Industry: all industries
Explains how the back functions, safe lifting methods, and how to prevent back injuries.
Training Network-LIP 1994

Safe operation of overhead cranes: Pendant controlled
Number: VT01613
Material: video 19 minutes
Industry: general industry
Covers the major steps that should be followed to insure safe operation of pendant controlled overhead cranes and hoists including pre-operation inspections, operational checks, hand signals, weight capacity, planning the lift, and shutdown procedures.
Safetycare 1995

Safe rigging
Number: VT01481
Material: video 20 minutes
Industry: general industry
Explains the procedures involved in rigging for a safe lift, the importance of lift capacity rating, types of hitches, how to calculate the load weight for simple and complex shapes, and center of
Primedia Workplace Learning 1990

Safe stone slab handling II: focused on facilities with overhead cranes
Number: DVD044
Material: DVD 60 minutes
This video demonstrates the best practices for safe stone slab handling. It includes practices recommended by the Occupational Safety & Health Administration (OSHA), and the hazards of not following proper procedures. This DVD is divided into eight sections that review accidents, slab handling, overhead cranes, forklifts, slings and clamps, material handling with containers.
and flatbeds, and employee and consumer training.
Marble Institute of America, 2010

**Safety and health factors in welding and cutting**
Number: VT01290
Material: video 30 minutes
Industry: all industries
Discusses general safety and health hazards associated with gas and arc welding and cutting as well as techniques for controlling or reducing these hazards including gases, chemical agents, hearing loss, and fire.
OSHA Office of Training and 1990 Education

**Safety attitude**
Number: VT01309
Material: video 6 minutes
Industry: general industry
Discusses hazard awareness, following safe work practices, and creating a safe work environment.
Summit Training Source 1990

**Safety awareness: It's up to you!**
Number: VT01724
Material: video 13 minutes
Industry: roofing and siding
Provides a summary of safety procedures including fall prevention, burns, proper lifting techniques and personal protective equipment.
National Roofing Contractors 1993 Assoc

**Safety awareness: don't be a dummy**
Number: DVD033
Material: DVD 11 minutes
Industry: general industry
This video reviews how employees can accept personal responsibility for safety by inspecting their work areas and equipment for unsafe conditions. The video also reviews how to recognize and respect potential hazards. Finally, utilization of PPE and following safe work practices are reviewed.
Summit Training Source, 2000s

**Safety-- It's your responsibility**
Number: VT01275
Material: video 19 minutes
Industry: general industry
Uses dramatized situations to show the role supervisors play in promoting and maintaining safety.
US Postal Service 1982

**Safety made easy: Checklist to OSHA compliance by John R. Grubbs and Sean M. Nelson**
Number: T55.D39
Material: book 198 pages
Industry: general industry
Provides a guide to understanding and complying with OSHA Title 29 CFR 1910.
Government Institutes 1999

**Safety meetings: Give'em what they want**
Number: VT01622
Material: video 16 minutes
Industry: all industries
Discusses how to conduct successful safety meetings including determining your needs, executing a plan, keeping the meeting interesting, save time for questions, evaluate the training, and try out new material.
Coastal Training 2000

**Safety on trial**
Number: VT01767
Material: video 35 minutes
Industry: construction
This video was developed to assist the general contractor in establishing work rules to prevent accidents, explains the role of the employer in worker safety, and shows how an accident can devastatingly alter a workers life.
WA State Dept of Labor & 1994 Industries

**Safety orientation: It begins with you**
Number: VT01300
Material: video 14 minutes
Industry: general industry
Discusses inspecting for and recognizing potential hazards and following safe work practices including lockout/tagout,
Training Materials by Title 2012

lifting, forklift operations, housekeeping, bloodborne pathogens, confined spaces, and PPE.
Summit Training Source 1996

Safety orientation: It takes a winning attitude
Number: VT01462
Material: video 18 minutes
Industry: general industry
Presents an overview of workplace safety to protect workers from the most common industrial hazards including lockout/tagout, PPE, bloodborne pathogens, lifting and fire safety.
Coastal Training 1996

Safety: The bottom line
Number: VT01694
Material: video 19 minutes
Industry: construction
Designed to demonstrate the value of establishing a sound safety programs and the economic benefits.
Assoc General Contractors of America 1997

Safety: the good fight
Number: DVD034
Material: DVD 15 minutes
Industry: general industry
Features Ron Hayes, the father of a young man who died on the job, speaking on the importance of taking personal responsibility for working safely.
Coastal Training Technology, 2004

Scaffold hazard recognition
Number: VT01220
Material: video 24 minutes
Industry: construction
Shows jobsite situations and points out good and bad design and construction practices including base plates, frames, bracing, and planking.
CO Building & Construction 1982
Trades Council

Scaffold safety: Construction
Number: VT01320
Material: video 10 minutes
Industry: construction
Covers basic safety hazards and procedures when working on stationary, mobile and suspended scaffolds including erecting, inspection, guardrails, power lines, and load capacities.
Digital 2000 1992

Scaffold safety: Construction
Number: VT01501 Spanish
Material: video 10 minutes
Industry: construction
See previous description.
Digital 2000 1992

Scaffolding safety: erecting & dismantling
Number: DVD035
Material: DVD 19 minutes
Industry: general industry
Provides a general introduction to the safety requirements for constructing and working on scaffolds specified in 29 CFR 1926.451. Covers erecting and dismantling, pre-planning inspection of scaffold components, load capacity, platform construction, access, fall protection, falling object protection, dismantling, and more.
Summit Training Source, 2004

Scaffold safety: Putting it all together
Number: VT01422
Material: video 15 minutes
Industry: construction
Provides step-by-step erecting procedures including worksite evaluation and preparation, selecting and inspection of scaffolding, siles, cross bracing, planking, access points, fall protection systems, and tie-ins to existing structures.
Assoc General Contractors of America 1996

Scaffolding safety training: Construction
Number: VT01554
Material: video 17 minutes
Industry: construction
Provides an overview of the standard and demonstrates scaffolding techniques, reviews rules on selection and construction, use of guardrails and ladders, and preventing accidents due to falling objects, falls, overloading, and structural instability.
J.J. Keller & Associates 1997
Scaffolding safety: Erecting and dismantling
Number: VT01403
Material: video 19 minutes
Industry: construction
Covers potential hazards, site evaluation and preparation, selecting and inspection of scaffolding, proper erecting and dismantling procedures, and safe work practices during erection and Summit Training Source 1997

Scaffolding safety: Safe work practices
Number: VT01404
Material: video 12 minutes
Industry: construction
Demonstrates the potential hazards associated with scaffolds including falls, falling objects, power lines, load capacity, inspection, and safe work practices such as fall arrest systems and good housekeeping. Summit Training Source 1997

Scaffolds: Safety at all levels
Number: VT01448
Material: video 18 minutes
Industry: construction
Covers the requirements of 1926.450-454 including hazards, safe work practices, fall arrest systems, the role of the competent person, preassembly inspection, assembly, pre-shift inspection, and maintenance. Coastal Training 1997

Scaffolds: Safety at all levels
Number: VT01612 Spanish
Material: video 18 minutes
Industry: construction
See previous description. Coastal Training 1998

Scaffolds: safety at all levels
Number: DVD036
Material: DVD 19 minutes
Industry: general industry
Scaffold-related incidents result in approximately 4,500 injuries and 50 deaths every year, which is why OSHA revised its scaffold standard. This program covers requirements of 1926.450-454.

Scissor and aerial work platform safety
Number: VT01678
Material: video 15 minutes
Industry: construction
Highlights the hazards of working on elevated platforms including overhead power lines, pre-operation inspection, and safe work practices. Assoc General Contractors of America 2000

Scissor lifts for construction
Number: DVD048
Material: DVD 10 minutes
Industry: Construction
Discusses the safe operation of elevated work platforms, showing a variety of lifts in various industrial environments. Covers operator training, stability, inspection, safe driving and fall prevention. (English / Spanish) Coastal Technologies Corp. 2007

Scissor lifts in construction
Number: VT01531
Material: video 9 minutes
Industry: construction
Discusses pre-operation inspections, lifting principles, hazards such as overhead power lines, and safe operating procedures. Coastal Training 1996

Setting up a jobsite safely
Number: VT01725
Material: video 9 minutes
Industry: roofing and siding
Explains the importance of planning and implementing safety procedures on the jobsite including setting up warning lines, ladder safety, and material safety data sheets. National Roofing Contractors 1994 Assoc

Sheet metal workers: A study of hazards
Number: VT01169
Material: video 17 minutes
Industry: sheet metal
Discusses fabrication and installation
Training Materials by Title 2012

hazards including shop machinery, slings and hoists, ladders, power tools, and electricity.
Florida AFL-CIO United Labor Agency 1987

Shoveling safety
Number: VT01476
Material: video 6 minutes
Industry: construction
Covers using the right shovel for the job, inspection, and proper technique to avoid back injury.
Training Network-LIP 1990

Silica exposure: It can leave you breathless
Number: VT01695
Material: video 13 minutes
Industry: construction
Covers the use of silica in the construction industry, its effects on the body, and how workers can protect themselves from the hazards.
Assoc General Contractors of America 1999

Silica hazard awareness: Construction
Number: VT01482
Material: video 16 minutes
Industry: construction
Discusses silica, its hazards and health effects on the respiratory system, sources of silica exposure, and exposure protection.
Chicago Construction Safety Council 1997

Skid steer loader safety
Number: VT01677
Material: video 8 minutes
Industry: construction
Covers safety hazards including limited driver visibility, rollovers and contact with power lines; and safety procedures including pre-use inspection, refueling, and carrying the load.
Assoc General Contractors of America 1994

Slips and falls
Number: VT01310
Material: video 5 minutes
Industry: all industries
Discusses the causes of slips and falls on ladders, stairs, loading docks, and wet surfaces, preventive measures, and fall techniques.
Summit Training Source 1990

Slips and falls in construction
Number: VT01321
Material: video 10 minutes
Industry: construction
Covers slip and fall hazards, basic safety rules, and hazard abatement including housekeeping.
Digital 2000 1992

Slips and falls in construction
Number: VT01712 Spanish
Material: video 10 minutes
Industry: construction
See previous description.
Digital 2000 1992

Slips, trips and falls
Number: VT01510
Material: video 15 minutes
Industry: all industries
Uses falls performed by stunt people to demonstrate the importance of the correct use of ladders, stair safety, good housekeeping, picking up obstacles, cleaning up spills, and fall protection equipment.
Summit Training Source 1990

Slips, trips and falls: Real, real-life
Number: VT01610
Material: video 17 minutes
Industry: all industries
This interactive video uses “real-life” situations to cover awareness and identification of potential dangers, taking action to minimize hazards including good housekeeping and spill cleanup, and minimizing improper use of equipment such as ladders.
Coastal Training Technologies 2000

Small spills and leaks
Number: DVD056
Industry: General Industry
Leaks and spills can cause serious problems, but you can understand ways to 'mop' them up with this program: supervisor notification, securing,
Training Materials by Title 2012

cleanup/decontamination/PPE. *(English / Spanish)*
Coastal Training Technologies Corp. 2004

**So you're the safety director!**: An introduction to loss control and safety management by Michael V. Manning
Number: T55.M3516
Material: book 174 pages
Industry: all industries
Covers evaluating and managing a company safety program, investigating accidents, preparing for and handling OSHA inspections.
Coastal Training 1996

**Spills**
Number: VT00392
Material: video 14 minutes
Industry: general industry
Demonstrates containment, cleanup and decontamination procedures for small spills of hazardous chemicals.
Summit Training Source 1990

**Split rim tire safety**
Number: VT01477
Material: video 6 minutes
Industry: general industry
Outlines how to remove and replace tires from rims and split rings, air pressure, and using a safety inflation cage.
Training Network-LIP 1990

**Spray painting: Dual protection**
Number: VT01269
Material: video 14 minutes
Industry: general industry
Discusses the spray-painting process, its health hazards, and basic control strategies for dealing with these hazards.
US National Institute for OSH 1984

**Stairway and ladder safety: Success at the top**
Number: VT01425
Material: video 17 minutes
Industry: construction
Discusses ladder and stairway safety including point of access, inspection, ladder ratings, and requirements for jobmade ladders and stairways such as height limits, lumber strengths, siderails, tie-down, treads, risers, and stair-rail heights.
Assoc General Contractors of America 1991

**Stairways and ladders: Construction safety**
Number: VT01389
Material: video 7 minutes
Industry: construction
Mostly discusses ladder safety including step and straight ladder set-up, how to choose the proper ladder for the job, preuse inspection, and slope ratio, and stairway safety inspection.
CoreMedia Training 1991

**Stairways and ladders: The first step**
Number: DVD057
Material: video 18 minutes
Industry: all industries
This video, which mostly covers portable and fixed ladders, reviews hazards and safety procedures including proper selection for the job, inspection, maintenance, set-up, climbing techniques, and load capacity. *(English / Spanish)*
Coastal Training Technologies, 1991, 2005

**Stairways and ladders: The first step**
Number: VT01596
Material: video 18 minutes
Industry: all industries
This video, which mostly covers portable and fixed ladders, reviews hazards and safety procedures including proper selection for the job, inspection, maintenance, set-up, climbing techniques, and load capacity.
CoreMedia Training 1991

**Stop silicosis**
Number: VT01383
Material: video 13 minutes
Industry: all industries
This black-and-white 1938 documentary discusses the causes of silicosis and its effects on the respiratory system.
USDOL 1938

**Strains and sprains: a public concern**
DVD016
Training Materials by Title 2012

Material: DVD 20 min
Industry: all industries
Discusses how to avoid muscle strains and other injuries in workplace environments that requires lifting.
Coastal Training Technologies, 2009

Supervisor's safety manual
Number: T55.S8156
Material: book 341 pages
Industry: all industries
Covers safety management and training, hazards and prevention, and accident investigation.
National Safety Council 1991

Survival in excavation: Safe working around existing utilities
Number: VT01706
Material: video 20 minutes
Industry: construction
This video, an orientation for excavators, describes how to safely plan the job from start to finish.
Assoc General Contractors of America 1996

Suspension scaffolds in construction
Number: VT01467
Material: video 10 minutes
Industry: construction
Covers safety procedures including recognizing hazards, access, hoisting, inspection, electrical hazards, and safe work practices.
Coastal Training 1997

Swing stage scaffolds
Number: VT01589
Material: video 13 minutes
Industry: construction
Covers 2-point adjustable scaffold safety including correct rigging, operation, inspection, and personal fall arrest systems.
Coastal Training 1997

Targeting workplace violence
Number: VT01385
Material: video 19 minutes
Industry: general industry
Shows three scenarios (hospital/late night custodial/office) then discusses ways to prevent or defuse the situations.
Oregon Occupational S&H Division 1997

TB respiratory protection: Administrator's review
Number: VT01738
Material: video 48 minutes
Industry: health services
takes you step-by-step through developing a respiratory protection program for tuberculosis including risk assessment, standard operating procedures, respirator selection, and employee training.
US National Institute for OSH 2002

Thermal burns
Number: VT00393
Material: video 5 minutes
Industry: general industry
Shows how to prevent heat related burns using safe work practices and the do’s and don’t when treating a burn victims.
Summit Training Source 1990

Toxics
Number: VT01658
Material: video 5 minutes
Industry: all industries
Discusses why toxics are dangerous to health, ways to limit exposure, and safe handling procedures in order to prevent injuries and accidents.
Summit Training Source 1990

Tractor safety: Consider the flipside
Number: VT01312
Material: video 15 minutes
Industry: agriculture
Discusses the importance of ROPS (roll over protective structures) to prevent death or injury due to tractor overturn.
Case International 1995

Trailering construction equipment safely
Number: VT01696
Material: video 14 minutes
Industry: construction
Covers how to safely load, transport, and unload construction equipment from
Train the trainer
Number: VT01311
Material: video 5 minutes
Industry: all industries
Covers how to conduct effective safety meetings including meeting preparation, capturing audience attention, and leading effective discussions.
Summit Training Source 1990

Tree trimming safety
Number: VT01478
Material: video 6 minutes
Industry: general industry
Covers hazards including contact with energy sources and falling limbs and tool maintenance.
Training Network-LIP 1990

Trench emergency: Cave in!
Number: VT01468
Material: video 14 minutes
Industry: construction
Reviews, through showing an actual cave-in, the dos and don'ts of trench rescue including the dangers posed by trenches, shoring and shielding, and preparing a rescue team.
Coastal Training 1993

Trenching and excavation safety
Number: VT01659
Material: video 18 minutes
Industry: construction
Explains the hazards created by digging trenches and excavations, how these hazards can be reduced by sloping, shielding, and shoring systems, and emphasizes personal and work safety.
Zomar Productions 1987

Trenching and shoring
Number: VT01378
Material: video 5 minutes
Industry: construction
Explains trenching basics such as soil classification and various types of shoring and shielding.

Digital 2000 1992

Trenching and shoring operations
Number: VT01322
Material: video 12 minutes
Industry: construction
Explains how to avoid cave-ins by following safety precautions including proper sloping, types of shoring, types of shielding, and soil classification.
Digital 2000 1992

Trenching and shoring operations
Number: VT01502 Spanish
Material: video 12 minutes
Industry: construction
See previous description.
Digital 2000 1992

Trenching and shoring safety: Cave-in!
Number: VT01431
Material: video 18 minutes
Industry: construction
Covers trench hazards and cave-in prevention including site evaluation, soil testing, protective systems, and emergency response.
Coastal Training 1994

Trenching and shoring: Safety training program
Number: VT01555
Material: video 19 minutes
Industry: construction
Covers safety and health hazards including falling rock or soil and oxygen deficiencies, soil classification, competent person, installation of protective support systems, sloping including and benching, and emergency.
J.J. Keller & Associates 1993

Tunneling inspections
Number: VT01351
Material: video 18 minutes
Industry: construction
Covers safety and health problems, safety procedures and equipment used in tunneling.
Intl Union of Operating 1988 Engineers
Use of electrical equipment in hazardous locations
Number: VT01352
Material: video 16 minutes
Industry: all industries
Discusses the three classifications of hazardous locations and requirements for approved electrical equipment.
Utility Workers Union of America 1987

Violence in the workplace
Number: VT01703
Material: video 15 minutes
Industry: all industries
Covers the underlying causes of workplace violence, warning signs, types of threats including aggressive behavior and verbal abuse, proper response to threatening words or actions, and handling disputes with co-workers.
Training Network-LIP 1996

Violence on the job
Number: DVD03
Material: DVD 27 minutes
Industry: all industries
Discusses practical measures for identifying risk factors for violence at work, and taking strategic action to keep employees safe.
US National Institute for OSH 2004

Violence on the job (CC)
Number: DVD04
Material: DVD 27 minutes
Industry: all industries
Discusses practical measures for identifying risk factors for violence at work, and taking strategic action to keep employees safe.
US National Institute for OSH 2004

Walking and working surfaces: Watch your step!
Number: VT01484
Material: video 19 minutes
Industry: all industries
Discusses the proper use of equipment and procedures on various walking and working surfaces including ramps, scaffolds and platforms.
Coastal Training 1995

Warehouse safety: It's no mystery
Number: VT01494
Material: video 22 minutes
Industry: general industry
Covers the most common hazards in warehouses and how to correct them including lifting, housekeeping, driving and working around forklifts, hazard communication, PPE, and materials handling.
Coastal Training 1997

Welding safety: Securing the work zone
Number: VT01450
Material: video 16 minutes
Industry: all industries
Explains proper procedures for oxyfuel and electric-arc welding, securing the 360-degree zone, proper ventilation, personal protective equipment, and fire
Coastal Training 1988

Welding: Respecting the hazards
Number: VT01301
Material: video 13 minutes
Industry: all industries
Discusses understanding and recognizing potential hazards, safe work practices, types of welding, inspecting the welding environment and equipment, proper personal protective equipment, and fire prevention.
Summit Training Source 1996

What's wrong with this picture?
Number: VT01704
Material: video 15 minutes
Industry: all industries
This humorous video asks employees to identify lifting, PPE, HazCom, and fire protection hazards in a variety of video clips; the segments are repeated with narration and graphics that explain the hazards or unsafe acts.
Training Network-LIP 1998

Wire rope: Above the hook
Number: VT01742
Training Materials by Title 2012

Material: video 18 minutes
Industry: construction
Provides an overview of wire rope safety for crane operators including installation, inspection, maintenance, deficiencies, wedge sockets and block spinning.
Assoc General Contractors of America 2001

Work zone safety training
Number: VT01701
Material: video 18 minutes
Industry: construction
Covers the dangers of roadwork for construction and utility workers including traffic control, warning signs, flaggers, PPE, channeling devices, equipment inspection and maintenance.
J.J. Keller & Associates 2001

Workers exposed: HIV and Hepatitis B
Number: VT00504
Material: video 10 minutes
Industry: health services
Explains the means of transmission, the disposal of sharps, and how to clean up blood spills and vomit.
Oregon Occupational S&H 1993 Division

Working around construction equipment
Number: VT01428
Material: video 5 minutes
Industry: construction
Discusses backing accidents and safe work practices for heavy equipment operators.
Assoc General Contractors of America 1992

Working around cranes
Number: VT01451
Material: video 19 minutes
Industry: general industry
Covers hazards and safety measures around cranes including wire rope/lifting and signaling.
Coastal Training 1995

Working around high voltage
Number: VT01429
Material: video 6 minutes
Industry: construction
Discusses safety measures when working around overhead and underground power lines including what to do if contact does occur.
Assoc General Contractors of America 1992

Working safely around explosives
Number: VT01574
Material: video 5 minutes
Industry: construction
Covers basic safety procedures including storage facilities, transportation, loading the charge, and blasting area.
Assoc General Contractors of America 1992

Working safely with compressed gases
Number: VT01697
Material: video 15 minutes
Industry: all industries
Covers the proper handling and storage of full and empty containers, emergency procedures, and the physical hazards of compressed gases.
J.J. Keller & Associates 1995

Working safely with lead: Construction
Number: VT00547
Material: video 20 minutes
Industry: construction
Discusses the potential health hazards involved with overexposure to lead, routes of entry into the body, safety precautions and medical surveillance.
Primedia Workplace Learning 1994

Working smart: General office safety
Number: VT01452
Material: video 20 minutes
Industry: general industry
Discusses identifying office hazards and ways to prevent accidents including slips and falls, hazardous substances, flammable chemicals, and ergonomics.
Coastal Training 1992

Working with stress
Number: DVD05
Material: DVD 17 minutes
Industry: all industries
Discusses how job stress poses a threat to both the well-being of workers and...
companies, the body’s physical and psychological responses to stress, and the causes and prevention of job stress.
US National Institute for OSH 2002

**Working with stress**
Number: VT01739
Material: video 17 minutes
Industry: all industries
Covers how job stress poses a threat to both the well-being of workers and companies, the body’s physical and psychological responses to stress, and the causes and prevention of job stress.
US National Institute for OSH 2002

**Working with stress (CC)**
Number: DVD06
Material: DVD 17 minutes
Industry: all industries
Covers how job stress poses a threat to both the well-being of workers and companies, the body’s physical and psychological responses to stress, and the causes and prevention of job stress.
US National Institute for OSH 2002

**Workplace precautions against bloodborne pathogens: as it should be done**
Number: VT01185
Material: video 25 minutes
Industry: general industry
Highlights OSHA requirements and discusses how health care workers can protect themselves against occupational exposure to Hepatitis B and HIV.
OSHA Office of Information & 1992 Consumer Affairs

**X factor: Accidents in woods and millyards**
Number: VT01527
Material: video 22 minutes
Industry: logging
This award winning video uses accident reenactments to explore the reasons behind accidents in the logging industry and in millyards.
Allied Digital Technologies 1980
