**LOHP**  
LABOR OCCUPATIONAL  
HEALTH PROGRAM

CALIFORNIA  
*healthy nail salon*  
COLLABORATIVE  
Liên Hiệp Ngành Móng Tay Lành Mạnh

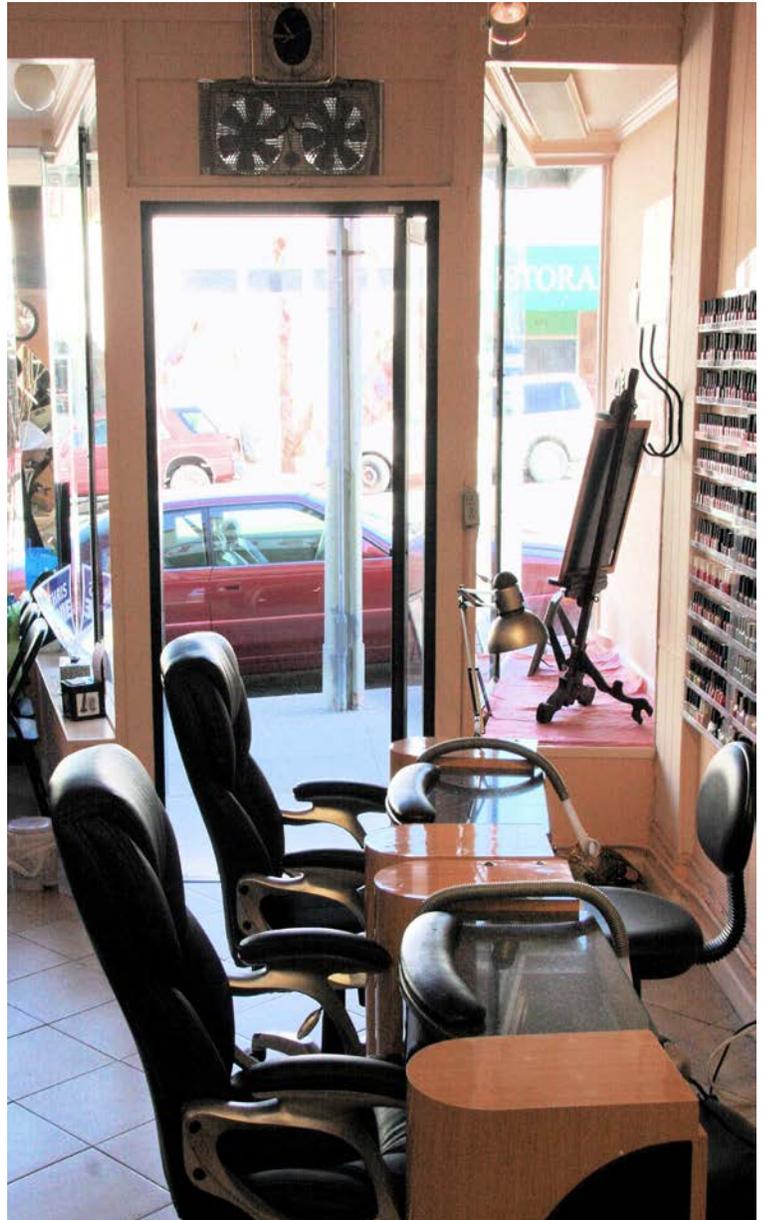

**Health Effects** can occur when:

- workers are exposed to chemicals during the manufacture of nail polishes and other products
- nail salon customers and workers are exposed to chemicals during a manicure

**Air and Water**

**Pollution** is created:

- during the manufacture of polishes and other products
- when used products are thrown in the landfill

What is the environmental impact of pedicures?  
Acrylic nails?

These environmental impacts add up when you think of all the nail salon services that are done each year across the state.
