

**Safe Patient Handling Among Health Care Workers**

**Safe Patient Handling Among Health Care Workers: Training Agenda  
DAY 1: DEFINE & MEASURE**

<b>Learning Modules</b>	<b>Time</b>	<b>Exercise</b>
<b>Introductions &amp; Overview</b>	15 min.	
<b>Overview of Inpatient Unit</b>	15 min.	
<b>Overview of Lean Six Sigma (LSS)</b> <ul style="list-style-type: none"> <li>Define Lean Six Sigma and the DMAIC process</li> <li>Explain how the DMAIC process will be utilized throughout the course</li> </ul>	30 Minutes	
<b>Voice of Customer (VOC) Analysis</b> <ul style="list-style-type: none"> <li>Identify the definition of the voice of the customer (VOC)</li> <li>List the importance of the voice of the customer (VOC)</li> <li>Analyze the customers' needs using four steps of the voice of the customer (VOC) analysis</li> <li>Develop a tactical Supplier Input Process Output Customer (SIPOC) chart based on the voice of the customer (VOC) analysis</li> </ul>	1.5 hours	<ul style="list-style-type: none"> <li>Make it Real</li> <li>Making Coffee</li> <li>Customer segmentation Worksheet</li> <li>Brainstorming for Communicating with Customers</li> <li>Affinity Diagrams</li> <li>Identifying big "Ys"</li> <li>SIPOC chart</li> </ul>
<b>Process Mapping</b> <ul style="list-style-type: none"> <li>Identify the importance of process mapping</li> <li>Identify the four different types of process mapping</li> <li>Develop a detailed process map</li> <li>Explain the value of Functional Process Maps</li> </ul>	1 hour	<ul style="list-style-type: none"> <li>Process Map</li> </ul>
<b>Lunch</b>	30 minutes	
<b>Value Stream Mapping</b> <ul style="list-style-type: none"> <li>Identify the definition of value stream mapping</li> <li>List the importance of value stream mapping</li> <li>Develop the value stream mapping based on the five step process for removing waste</li> </ul>	1.5 hours	<ul style="list-style-type: none"> <li>Spaghetti Map</li> <li>Process Step Worksheet / VSM</li> </ul>
<b>Walk the Process</b>	2 hours	
<b>Homework prior to Day 2 Training</b>	15 minutes	
<b>Class Evaluation</b>	15 minutes	

**Safe Patient Handling Among Health Care Workers**

**Safe Patient Handling Among Health Care Workers: Training Agenda  
DAY 2: ANALYZE & IMPROVE**

Learning Modules	Time	Exercise
<b>Review Homework</b> <ul style="list-style-type: none"> <li>• SIPOC- Voice of the Customer</li> <li>• Detailed Process Map</li> </ul>	1.5 hours	<ul style="list-style-type: none"> <li>• In Class Review</li> </ul>
<b>Safe Patient Handling Practice</b> <ul style="list-style-type: none"> <li>• Describe the elements of OSHA and NIOSH’s Safe Patient Handling Programs</li> <li>• Present video(s) and illustrations of mechanical and non-mechanical lift/transfer equipment.</li> <li>• Describe how elements of this program can be incorporated into the inpatient nursing unit.</li> </ul>	1.5 hours	<ul style="list-style-type: none"> <li>• Review inventory of patient handling devices at St. Luke’s</li> </ul>
<b>BREAK</b>	15 minutes	
<b>Failure Model Effects Analysis (FMEA)</b> <ul style="list-style-type: none"> <li>• Identify the definition of Failure Mode Effects Analysis (FMEA)</li> <li>• Describe how to apply FMEA in the procedure of design, process, and project.</li> <li>• Identify the terminology of failure mode, effect and cause, severity, occurrence, detection, and current controls.</li> <li>• Select the appropriate methods and strategies to apply Failure Mode Effects Analysis (FMEA) in the hospital nurse unit.</li> <li>• Develop a completed FMEA using Risk Priority Numbers (RPNs) in the hospital nurse unit.</li> </ul>	2 hours	<ul style="list-style-type: none"> <li>• FMEA Analysis Worksheet</li> </ul>
<b>Lunch</b>	1 hour	
<b>Quick Wins 5S and 8 Wastes</b> <ul style="list-style-type: none"> <li>• Identify the value of a quick win</li> <li>• Identify the principles of 5S</li> <li>• Select the appropriate strategies to apply the 5S approach in the hospital unit environment.</li> <li>• Describe the 8 types of wastes</li> <li>• Analyze the 8 wastes in the hospital unit environment.</li> </ul>	2 hours	<ul style="list-style-type: none"> <li>• The 8 Wastes Worksheet</li> </ul>
<b>Homework prior to Day 3 Training</b>	15 minutes	
<b>Class Evaluation</b>	5 minutes	

<b>Between Days 2 &amp; 3</b>	Meet with Team on their work unit	Question and Answer Session

**Safe Patient Handling Among Health Care Workers**

**Safe Patient Handling Among Health Care Workers: Training Agenda  
DAY 3: CONTROL**

Learning Modules	Time	Exercise
<b>Lean Visual Controls</b> <ul style="list-style-type: none"> <li>Identify the definition of visual control.</li> <li>Identify the four different types of visual control tools.</li> <li>Select appropriate methods using four visual control tools to develop Lean visual controls.</li> </ul>	1.5 hours	<ul style="list-style-type: none"> <li>Visual Controls</li> </ul>
<b>Break</b>	15 min.	
<b>Control Plans</b> <ul style="list-style-type: none"> <li>Identify the concept of a control plan</li> <li>Identify the importance of a control plan</li> <li>Describe the five elements of a comprehensive Control Plan</li> <li>Define project sign-off</li> </ul>	2 hours	<ul style="list-style-type: none"> <li>Control plans</li> </ul>
<b>Lunch</b>	1 hour	
<b>Mistake Proofing (Poke Yoke)</b> <ul style="list-style-type: none"> <li>Identify the concept and importance of mistake proofing (poke yoke)</li> <li>Apply Poke Yoke methods as a control on identified key <b>Xs</b> to reduce or eliminate process errors and defects from occurring</li> <li>Select the appropriate strategies and methods for mistake proofing based on DMAIC Implementation road map</li> </ul>	2 hours	<ul style="list-style-type: none"> <li>Poke Yoke</li> </ul>
<b>Day 4: Train the Trainer</b>	1.5 hours	<ul style="list-style-type: none"> <li>Train coworkers about safe patient handling program</li> </ul>
<b>Class Evaluation</b>	15 minutes	

<b>Between Day 3 and Train-the-Trainer</b>	Meet with Team on their work unit	Question and Answer Session
