1.) Provide a definition for a Confined Space and Permit Required Confined Space.

**Confined Space** Has limited or restricted means of entry or exit Is large enough for an employee to enter and perform assigned work, and Is not designed for continuous occupancy by the employee.

A permit-required confined space is one that meets the definition of a confined space and has one or more of these characteristics: Contains or has the potential to contain a hazardous atmosphere, Contains a material that has the potential for engulfing the entrant, Has an internal configuration that might cause an entrant to be trapped or asphyxiated by inwardly converging walls or by a floor that slopes downward and tapers to a smaller cross section, and/or Contains any other recognized serious safety or health hazards.

2.) List the three primary personnel roles during a Permit Required Confined Space entry and provide a brief description.

A.) Entry Supervisor  
B.) Entry Attendant  
C.) Entrant

3.) It is the employer’s responsibility to evaluate prospective rescuers ability to respond to a summons in a timely manner.  
   True  False

4.) Propane is will rise and Methane will drop in a confined space.  
   True  False

5.) Permit required confined space entry records must be retained for 1 year.  
   True  False

6.) Chemical warning labels must be in English.  
   True  False

7.) Entry Attendants must remain outside the space.  
   True  False

8.) Atmospheric oxygen up to 19.5 is safe for humans.  
   True  False

9.) 911 is an effective rescue system for permit required confined space entry.  
   True  False

10.) 50% of PRCS fatalities are would be rescuers.  
     True  False
