

Controls for Risk Factors Relating to the Individual

- Rushing
- Sloppiness
- Age
- Vision
- Choice of footwear
- Fatigue or stress
- Inattentiveness
- Failure to use safety equipment
- Opportunism
- Cell Phone use

Engineering Controls

- Provide equipment that won't operate unless fall-protection guards are in place (e.g. a forklift cage that won't start until employee has fastened appropriate seat belts or fall protection).
- Provide enough space so that employees can avoid storing boxes and other obstacles in walkways.

Administrative Controls

- Provide education and training on the importance of keeping workstations clean.
- Provide adequate work-rest periods so that employees stay alert and refreshed.
- Implement performance standards to require employees to keep their workstations clean, wear their PPE and use proper safety precautions.
- Keep thorough records.
- Encourage employees for keeping a clean work area.
- Encourage employees for wearing their Personal Protective Equipment (PPE).
- Encourage employees for following safety precautions.

Personal Protective Equipment (PPE)

- Establish procedures to ensure employees wear their PPE.
- Establish routine checks to ensure employees wear PPE.
- Apply consequences for employees not wearing PPE.
