

BPSOS Nail Salon Safety Training: Trainer Agenda

This material was produced under grant number SH-05066-SH8 from the Occupational Safety and Health Administration, US Department of Labor. It does not necessarily reflect the views or policies of the US Department of Labor, nor does mention of trade names, commercial products, or organizations imply endorsement by the US Government.

Course Description:

The 16-hour train-the-trainer course was designed with one main goal in mind: to increase the number of knowledgeable and empowered trainers around nail salon safety within the Vietnamese community. Through this course, trainers will learn detailed information about how to maintain safety in nail salons, explore community outreach methods, and strengthen their ability to train others with confidence. A significant portion of the train-the-trainer course is to have trainers experiment through hands-on learning to ensure that they have retained the knowledge necessary to conduct proper trainings.

Learning Material & Objectives:

By the end of the course, trainers will have learned and will be able to understand and explain:

- The Role of BPSOS & OSHA
- Nail Salon Hazards: Chemical, Infection, and Ergonomic
- Protective Measures against Hazards
- Help Provided by OSHA for Workers and Employers
- How to Conduct Community Outreach

Performance Evaluation:

Trainers will be given feedback by the instructor and their peers based on their understanding of information, delivery and presentation, and engagement with the class.
