03-177-00	C-1577954	Geisinger Healthcare 457 North Main Street, PITTSSTON, PENNSYLVANIA, 18640	LUZERNE	621399 / 621399	4/24/2020	Phone	Nonformal		N-16- COVID- 19:	1. Employees working for the Geisinger at Home facility in Pittston PA provide care for persons who have tested positive for Covid19 at the persons own homes. A new style of KN95 respirators (black in color) are provided for the employees when in the homes and providing care. Nebulizer respiratory treatments are common, and typically the individual will cough quite a bit after the treatment is done. This exposes the employee to aerosols and mists from the infected individual. The employees are provided with respirators that are not sized properly. Some employees with small faces have significant fitting issues which require them to use rubber bands to attempt to have the respirator better fit their faces. They are not provided with the correctly sized models. Fit testing is not being done. 2. The employees are provided with only 5 surgical type masks to use as source control for the individuals. This is not enough masks for a week's worth of visits. Towards the end of the week, employees have no masks and then source control is not available as infection control mechanism. Many times, home visits take up to 2 hours per visit and this is too long time not to have this available	2/ 25

07-293-00	C-1576980	SELECT SPECIALTY HOSPITAL-ST. LOUIS 300 FIRST CAPITOL DRIVE, SAINT CHARLES, MISSOURI, 63301	SAINT CHARLES	622310 / 622310	4/23/2020	Online	Nonformal		N-16- COVID- 19:	We are getting COVID 19 patients and was not properly educated how to treat or properly take care of the patients. We are not given N95 mask and the staff and the patients are being put in high risk of catching the virus. At this moment they are keeping the fire doors closed which is a violation. We don't feel safe working here. The nurses providing care to COVID patients are walking behind the fire doors working with the patients, then come out sit at nurse station or go into the nutrition room or break room. This is a health hazard and potential risk to spread the virus even more. We have had new patients admitted without being screened for COVID. I personally took care of a patient yesterday and I was told she might be positive for COVID. When asked the CEO if the patient needed to quarantine she said no. The patient is now on the COVID end of the hall. All the workers here at this company feel like we and the patients are not being cared for. We are being lied to about what's going on and being forced to deal with this situation without being provided enough education and PPE to do our jobs. Also the rooms that they keep the COVID patients is not a negative pressure rooms and the one patient has a C pap machine which is putting COVID virus in the air. When we all talked to the CEO, we were told, "if we don't like it to leave".	1/ 200

04-521-10	C-1575186	ST JOSEPH HOSPITAL LONDON 1001 ST JOSEPH LANE, TUTTLE, KENTUCKY, 40741	LAUREL	622110 / 622110	4/20/2020	Fax	Formal		N-16- COVID- 19:	Employee has worked a an Interventional Cardiologist at St. Joseph Hospital in London since 2013. Recently the employee has been working there as a locum, as they are semi-re ired. The latest assignment in London was from March 20 - 30th. During this time, there were several COVID-19 possible patients that have been ruled out. At the time of the complaint, there had been no posi ive COVID-19 patients. Recently the employee was told by he administration that instead of using their services or another physician in Kentucky, they had arranged for coverage by another physician from California. The other physician would be flying from California to London on April 2nd and start working April 3 - 12. It is presumed his change was made as a cost-saving measure. In today's world the employee can understand hiring somebody else at a cheaper rate but not during a pandemic. This physician is obviously coming from one of the three states with the highest number of COVID-19 patients to work in in a hospital in Kentucky, one of he lower risk states. The employee knows that current recommendations are for a person flying from California to Kentucky, it is suggested they self-quaran ine for 14 days. The employee knows that this is not mandatory. The employee thinks it is quite irresponsible and is enganderomg the entire hospital staff and their families.	/

04-537-10	C-1574775	SureTech Assembly, Inc. 150 Jeffrey Way, YOUNGSVILLE, NORTH CAROLINA, 27596	FRANKLIN	331319 / 331319	4/17/2020	Email	Formal		N-16- COVID- 19:	<p>To the best of my knowledge as of 04.03.2020 the following are concerns I have on safety and Health Hazards at the described loca ion.</p> <p>1. (Lack of or no) Social distancing: maintaining sufficient distance between individuals to reduce risk of transmission of a communicable disease as defined by the Centers for Disease Control or DHHS; installing protective barriers between workstations or increasing space between workers. Select implement, and ensure workers use controls to prevent exposure, including physical barriers to control the spread of the virus; social distancing; and appropriate personal protective equipment, hygiene, and cleaning supplies.</p> <p>2. (Lack of or no) Control access to buildings (As to Standards set by OSHA); Public has easy access to break room and produc ion floor. I experienced this first had on (4/2/2020) the following incident. I was witness to an unknown individual enter the building and walk into break room. Management over herd the individual talking to a coworker and came out and asked them to leave. Point being easy access to building, unlocked front break room door.</p> <p>3. (Lack of or no) sufficient cleaning supplies; for disinfec ing surfaces, floors, and work area environmental hygiene as of (4/3/2020). paper towels, alcohol-based hand sanitizer that contains at least 60 percent alcohol, and / hand wipes. When management was asked about disinfectant and cleaning supplies, the response was it is on back order.</p> <p>4. Management has directed employees to wash hands once an hour; lack hot water in the facility to accommodate work force due to inadequate water heater (water heater size insufficient).</p> <p>5. (Not Enough,Lack, of or no) (PPE) Personal Protective Equipment Supply (N95 Mask, Gloves, Eye protection, ex..).</p> <p>6. Unessential Employees -work force on site; employees on site working on none essential manufacturing production and products.</p> <p>7. (Lack of or no) protection from possible contamination form asymptomatic coworker's and individuals onsite whom have undocumented cases (Covid 19).</p> <p>8. Insufficient how water to wash employees' hands once and hour or more often due to facility small water heater.</p> <p>9. Inadequate air ventilation due to insufficient and faulty HVAC s system help mitigate air contamination.</p>

05-518-00	C-1572974	Collaborating For Kids 1701 Library Park Blvd. St. A, GREENWOOD, INDIANA, 46142	JOHNSON	624110 / 624110	4/11/2020	Email	Formal		N-16- COVID- 19:	<p>1. Employer not enforcing social distancing</p> <p>2. Employer not disinfecting/deep cleaning work place</p> <p>3. Employer not providing PPE such as gloves, masks, face shields, etc.</p> <p>4. Business operating even though business classified as nonessential</p> <p>5. They are not following any of the recommendations. We still have non essential employees working. There are several of us who could do work from home but they will not allow it. They have shut down their mental health building (providing therapy to many different people, young and old) but continue to keep the ABA services open. We are one of the only, if not the only, ABA clinic still open in the Indy area. Our kids and staff are constantly in close quarters of each other sharing supplies and toys. They complain about how many gloves we go through and only provide us with a small amount at a time (mind you we take children to the restroom several times a day as well.) We are all sharing the same eating spaces and rooms. There are often more than 10 people to a room. We have very little hand sanitizer available to us and they complain about how fast we've gone through it and how expensive it is. We were just now provided a single mask, which for many of us don't even fit so we can't even wear them. They do not take children's or staffs temperatures before entering the building. We had a child with a temp. of 100.3 last week and it took them 3-4 hours before they would call his mom because he was .1 off from the guidelines of having a "temperature." We had to argue with them for hours. Nothing is cleaned consistently. No toys are wiped down or disinfected at the end of the day despite children putting them in their mouth and all sharing them. It is just a complete mess, and I feel like no one is truly safe working here right now. The management does not take it seriously. When someone said their roommate may be sick with it they told them to not tell anyone and they could keep working (this has happened twice that I know of, the manager told me herself).. Mind you we're working with kids with disabilities who are more susceptible to diseases. The BACB (our board) even has sent out emails and has guidelines on their page that we do not follow. I'm very uncomfortable continuing to work under these conditions but I'm afraid of losing my job. I'm even more terrified of a child or co worker becoming ill. It is impossible to provide ABA therapy and implement social distancing. We have to be hands on with our kids and right beside them at all times. I am constantly covered in their bodily fluids from being coughed on, sneezed on, spit on, pee'd on, slobbered on, etc.</p>

There were 59 employees who left the building at that time. The upper management as well as Human Resources knew, and all they did was rope it off and started cleaning the areas that were roped off the next day at 7:30am on 4-11-20. Comments: They have had many cases of what they thought were coronavirus, as we are deemed essential because we make military planes, however it isn't in no way shape or form social distancing on how we all have to work right next to one ano her. There have been many cases of people sent home wi h symptoms but no one testing positive till yesterday.	1/ 200

05-518-00	C-1571346	Masterson - Associates 2200 N Michigan St, PLYMOUTH, INDIANA, 46563	MARSHALL	531210 / 531210	4/8/2020	Email	Formal		N-16- COVID- 19:	Employer not enforcing social distancing Business operating even though business classified as nonessential "As reported by Plymouth Radio Station WTCA on April 7 http://am1050.com/2020/masterson-associates-send-flowers-to-smiling-millers-residents/ ""The residents of Miller's Assisted Living were overwhelmed by the kindness of Jim Masterson of Masterson - Associates Inc. Realtors of Plymouth. The Cashen Creek Floral Delivery Van recently pulled up to the front door of Miller's and had individual bouquets of flowers for each resident from Masterson. What a beautiful and generous act of kindness. The PCA Staff delivered the bouquets to each apartment and the residents received them with huge smiles and much gratitude."" Masterson is not just a real estate agent, but is a member of the county council running in the upcoming election. It looks like he put vulnerable people at risk of contamination for a promotional stunt, to court likely voters and for personal political gain."	/

At the sorting tables In the packinghouse, we are working elbow-to-elbow depending on the condition of the fruit. When the fruit plies up, we are working very close together. People are also working very close together on the lines where people pack the boxes and he bags. Sometimes there isn't much room to walk so you have to brush by your coworkers. Management is not applying appropriate distances. Management also is not providing the equipment we need. We were not given masks until today (3/31), and hey were not offered to everyone in he packinghouse. I estimate that about fifteen or twenty workers among eighty in my line were offered masks. The sorting tables are not being disinfected. The breakroom is not being disinfected after lunch.	/

03-175-00	C-1565195	Heritage Valley Health System 1000 Dutch Ridge Rd., BEAVER, PENNSYLVANIA, 15009	BEAVER	622110 / 622110	4/3/2020	Phone	Nonformal		N-16- COVID- 19:	<p>1) In the Cardio Pulmonary Unit RN's and CNA employees who provided close contact patient care to COVID-19 positive and presumed positive patients are not afforded the appropriate PPE recommended by current CDC guidelines.</p> <p>2) Employees were provided yellow surgical masks (to re-use), safety glasses, gloves and gowns- not face shields.</p> <p>3) According to Hospital's nursing and infection control managers N95 respirators are currently stocked in the facility for use . But managers are informing staff they are not permitting RN's and CNA's to currently use N95's respirators because "things are not that bad yet".</p> <p>4) It appears management is conserving the supply of appropriate ppe increasing the risk for RN's and CNA's to contract COVID-19 during patient care.</p> <p>5) In this cases, and particularly when workers performed other tasks were provided with alternative equipment, the employer was not able to provide a reasonable rationale for their decision to stockpile respirators appropriate to protect workers during aerosol-generating procedures.</p> <p>Parts of CDC recommendation as of March 2020- ?Updated PPE recommendations for the care of pa ients with known or suspected COVID-19: ?Based on local and regional situational analysis of PPE supplies, facemasks are an acceptable alternative when the supply chain of respirators cannot meet the demand. During this time, available respirators should be prioritized for procedures that are likely to generate respiratory aerosols, which would pose the highest exposure risk to HCP. ?Facemasks protect the wearer from splashes and sprays. ?When the supply chain is restored, facilities wi h a respiratory protection program should return to use of respirators for patients with known or suspected COVID-19.</p>	4/ 40

04-547-32	C-1563997	Sumner County - Health Department DBA Health Department 1005 Union School Road, 710 Hart Lane, GALLATIN, TENNESSEE, 37066	SUMNER	923120 / 923120	4/2/2020	Online	Formal		N-16- COVID- 19:	<p>The Gallatin Health Department is a triage location for COVID19. Employees (Nurses, PHOAs, and PHOS) in direct contact with the infected return back to work in the same clothing worn while testing patients. During a drive thru POD Monday, they were removing PPE in between patients; touching their phones, faces, water bottles and drink cups, eye glasses, pens, clip boards, paperwork, chairs, their hair, etc. When someone would pull up they were putting the same PPE back on again to include face shields, gowns, and even gloves. The Director is telling employees to go easy on disinfecting wipes, and how the PHOS sighed out loud, and questioned the request for gloves when employees were told to sanitize pens. Only one Nurse is consistently wearing a mask, and she is available for general patients that come in (non-COVID19), but she worked the POD on Monday, maybe Saturday as well. EVERYONE ELSE THAT HAS BEEN IN DIRECT CONTACT DOES NOT WEAR A MASK BEYOND THE MOMENT OF TESTING leaving all of the rest of the employees exposed. The 6' rule is NEVER followed. Employees are not secure with the unsafe practices allowed by the Director, and Supervisors of our County employer under these current conditions of a pandemic that is killing people. Employees were informed of using our own time if they get sick, but many do not have that kind of time accrued yet they are expected to work. One of the nurses that works in the basement with the infected everyday said anyone exposed to COVID19 would need to mask for 14 days because as a contact employees could be contagious...so why don't we??? Except for the one nurse no one does.</p> <p>Also, state vital records is closed, but PHOAs are expected to accept requests for certificates when driver's licensing stations are closed, in addition to law firms, and even DHS for things like food stamps where a birth certificate is needed. Why are employees expected to process them from the public when vital records itself is closed? Cremation Permits are usually done via fax, death does not stop, but birth certificates? Unless it is for an emergency situation, these requests should completely cease because everyone coming through the door could be infected. Telling the employer anything has never gotten results.</p>	/

07-293-00	C-1564101	SSM HEALTH St. Mary's Hospital DBA St. Mary's Hospital 6420 Clayton Road, RICHMOND HEIGHTS, MISSOURI, 63117	SAINT LOUIS	622110 / 622110	4/2/2020	Online	Nonformal		N-16- COVID- 19:	<p>Health care professionals at SSM Health St. Mary's Hospital in St. Louis, MO are allegedly exposed to the following hazards:</p> <p>1. Nurses, Respiratory Therapists, and CNAs are treating patients in COVID-19 Units one shift and then transferred to other departments to treat patients in Non-COVID-19 departments during following shifts; thus exposing staff and patients to the virus in the Non-COVID-19 units. Most concerning is when they have to provide medical treatment to the NICU and ICU departments and are not permitted to wear PPE to protect medical staff and patients from virus exposure knowing they could be carriers. It is poor infection control practice to have staff assigned to COVID-19 departments who are then crossing over to work in other specialty care departments.</p> <p>2. There are at least three Respiratory Therapists working St. Mary's that have tested positive for COVID-19 with additional tests results pending. Each and every staff member in the various departments where these respiratory therapists have been assigned over the past one-two weeks has been exposed to the virus since these respiratory therapists have been seen working without any PPE after they have treated patients who have died from the coronavirus. Medical staff are permitted to continue to work once symptoms appear after exposures therefore exposing nearly everyone they come in contact with.</p> <p>3. Medical staff are storing their respirators in brown paper bags between each use. Staff are concerned that they cannot insert and remove the PPE and guarantee the contaminated exterior of the facepiece doesn't contaminate the interior of the paper bag and then transfer back to the interior of the respirator. We suggest management put paint on the exterior of the respirator and then put it in an out of a paper bag numerous times and see where the paint spreads to ? how can this be done to prevent the interior contamination? Recommend training workers on how to do this.</p> <p>4. It does not appear that OSHA is investigating the death of PII, SSM Health St. Mary's Hospital nurse who was the first St. Louis COVID-19 death. She contracted the virus when traveling on business to Indiana for a conference.</p> <p>5. Nurses are not permitted to wear N95 masks/respiratory protection voluntarily when purchased with their own money to protect themselves and others. Since a nurse with 32 years of experience quit, the hospital has permitted staff to wear cloth masks; however, these masks are inadequate to prevent the spread of the virus. If nurses have adequate PPE (purchased on their own to avoid depleting the hospital's supply), they should be permitted to wear the appropriate respiratory protection and not have to settle for an inadequate cloth masks. Wearing cloth masks donated by the community potentially exposes the staff to the virus since the hospital can't</p>	6/ 5

10-502-10	C-1568227	Advanced Physical Therapy 1917 Abbott Road, Suite 200, ANCHORAGE, ALASKA, 99507	ANCHORA GE	621340 / 621340	4/2/2020	Email	Nonformal		N-16- COVID- 19:	? CP is employee of a PT clinic that for weeks hasn't provided PPE in the COVID-19 outbreak. CP said if the clinic can't provide this they need to close. ? Patient came into clinic visibly sick. Patient was told to leave. But administrative staff was exposed, they don't have a barrier, masks, shields, full PPE. CP talked to management about the potential COVID-19 patient who was admitted to the clinic (febrile). Management said the clinic is "medium risk" and didn't help with providing Staff with more protections. CP said the clinic is trying to provide some controls (cleaning), but they aren't doing enough. Several Staff have taken leave because they don't agree with how management are providing PPE and workplace protections. The CP wants the clinic to measure up to OSHA standards for the sake of the community, employees and patients. There is no safety officer working at the clinic now. as far as the CP knows	2/ 2

There are people there puking, pooping all over the place. If they developed a fever while in he facility they are kept until they can find placement. They Originally offered employees lay offs that are freaked out about COVID-19 But then redacted it when people wanted to take advantage of it.	/
10-553-10	C-1565575	ICE FLOE LLC DBA NICHOLS BROTHERS BOAT BUILDERS 5400 Cameron Rd, FREELAND, WASHINGTON, 98249	ISLAND	336611 / 336611	3/31/2020	Email	Formal		N-16- COVID- 19:	Employer is still working while the rest of he community is in a shut down mode. The boats that they build are non essential. The workers are at risk because of the distance space they need. The working quarters are small and tight. When the workers work they have to perform in pairs or in groups. Then hey go out in the public with their dirty clothes on. Thy are putting our community at risk.	/

05-518-00	C-1573729	MasterBrand Cabinets 624 W 3rd St, FERDINAND, INDIANA, 47532	DUBOIS	337110 / 337110	3/29/2020	Email	Formal		N-16- COVID- 19:	Only thing they have implemented is putting hand sanitizer by the exits. The very last day we worked March 26 they handed out old cut up t-shirts that had been sprayed with a bottle of bleach water (two squirts per rag) and told us to wipe areas. They hadn't even finished handing the rags out before the line was back on and we were to stop forget that and continue to make cabinets. The stain room has around twenty people in it. I'm not sure the room size but it is definitely packed in there. You are side by side running in to each other all night. They literally are rubbing sweat on each other all night because of limited space. And instead of staggering shifts and lunches it's business as usual and we are even working overtime days and hours. It really is business as usual the only thing to have changed is the formality they read us at our group huddles. Other employees are getting aggravated too and when we ask questions either they can't talk about it or they know nothing about it. There is a floater on the E-line who is on FMLA at the moment because he developed pneumonia on either March 24or March 25 and he has not been tested for the virus because he is not a health concern. A sprayer came to work two Mondays ago almost making it a point to tell everyone he traveled to New York that weekend to buy a car and he wasn't the least bit concerned about it because he doesn't think it's a serious situation. It concerns me because we have a very large amount of senior citizens and a risk people in general that work there. I'm all for following the states guidlines and trying to help the situation accordingly but I think if the employees are willing or just left with no other option but to risk their wellbeing and the wellbeing of their families by going to work then employers should be held accountable for not following proper guidelines. If someone at the plant has it or eventually does and they don't change guidelines it will spread like wildfire in there.	/

05-518-00	C-1571399	Redbud Landscape Services 9603 Wicker Ave, SAINT JOHN, INDIANA, 46373	LAKE	561730 / 561730	3/28/2020	Email	Formal		N-16- COVID- 19:	Unfortunately, this company falls under the "Construction" Essential Services category; however, I do not find that performing routine yard work, laying mulch, etc., constitute essential services. Trucks arrive wi h workers crammed in the cab like sardines. Then, they run around properties touching surfaces, coming into contact wi h residents, etc. I managed to find one worker who spoke English, and I educated him about social distancing. The crew knows of coronavirus, but not well versed on the implications of not following social distancing. I am very concerned that a crew like his could widely impact communities--especially in HOAs like mine that have a large population of elderly. Service areas for this company per their website include NWI cities of St. John, Cedar Lake, Lowell, Crown Point, Highland, Schererville, Dyer, Munster, and Valparaiso. They also service Illinois cities such as Beecher, Crete, Mokena, and Frankfort.	/
05-518-00	C-1571411	Lawrence Township Trustees Office 4455 McCoy St, LAWRENCE, INDIANA, 46226	MARION	921190 / 921190	3/28/2020	Email	Formal		N-16- COVID- 19:	Doors are open to the public - walk-ins and appointments. we are required to continue face to face interviews, we have been informed by callers (2) they are infected - the Trustee said we must still interview everyone. The lady at the front desk is the 1st contact. He has offered gloves and sanitizer, no mask and no protective garments. Two staff are 65+. One is 68. Neither has been offered the stay at home requirement. The director set up the Zoom app for interviews but the trustee didn't want this- you must read the suspension letter given to him. WE NEED HELP!	/

If any of these symptoms apply, we are to notify HR and our manager, and they will make the decision if staying home is warranted. HR isn't available for 3rd shift and the managers are now doctors.</p> <p>3 - The third flyer informed us union employees were not able to work from home there for no matter our risk of exposure we might be exposed to because we make a few gears for the defense department we are considered essential employees. We have five employees quarantined and two more sick.</p> <p>4 - Our leadership has not informed us of anything except handing out flyers nor have they mentioned anything about possible individuals that might of been exposed/work or share common areas with quarantined employees.</p>	/

02-536-50	C-1560033	NYCPD 1 Police Plaza, NEW YORK, NEW YORK, 10038	NEW YORK	922120 / 922120	3/27/2020	Online	Nonformal		N-16- COVID- 19:	Deputy Inspector Paul Rasa of the NYPD Human Resources Division is subjecting the employees of the Civilian Hiring Unit (both essential and nonessential) to extremely unsafe conditions amidst the COVID-19 pandemic. Members of the hiring staff (approximately 20 people) are being required to onboard new employees which requires close in-person contact with large numbers of people from the general public, coworkers, and personnel. Workers are being required to hire 100 custodians to work for the NYPD between Monday 3/23/20 and Friday 3/27/20 which puts employees in close quarters for several hours with hundreds of people whose level of exposure to the corona virus is unknown. This has been put into effect despite the Governor's executive order for 100% of all nonessential employees to work from home immediately. This is requiring employees to put their health and the health of their loved ones at risk several days out of the week. Employees have also been asked to work over the weekend to accomplish this task and some have been threatened to be sent home without pay if they are to report to work and not feel comfortable interacting with large amounts of people. One member of the hiring staff has already been sent to the hospital after fainting in the subway on her way to work.	1/ 1

There is someone off work on FMLA because he may very well have the coronavirus and out employers are doing absolutely nothing to sterilize the building. This is a global pandemic and they are playing with not only our lives but also risk spreading this even further. They claim we make paint for hospital beds, but we aren't even making that product and the ones we make it for are shut down. They are placing profits over lives.	/

01-550-10	C-1559727	DAN & WHIT'S GENERAL STORE 319 Main St, NORWICH, VERMONT, 05055	WINDSOR	445120 / 445120	3/26/2020	Email	Formal		N-16- COVID- 19:	We are still open as business to allow customers in. We don't fall under the essential business. We are also doing curbside pick ups and deliveries. Concern is that the store is not being sanitized and wiped down daily for public health , work stations where customers come in at register areas and pin pads and cashiers are less than 2ft face to face with customers. There is no way to social distance 6ft in the store it's not even wide enough for a wheel chair in some aisles. We have so far lost 6 teenage kids from working due to parents keeping them home. The work load is being now stretched even farther, long shifts without breaks scheduled or taken. Not adequate staffing to handle work load and customers in volume. Hazard Location: The entire store for sanitation not being wiped down daily and cleaned thoroughly for public safety during COVID 19.	/
01-550-10	C-1559870	BAART BEHAVIORAL HEALTH SERVICES DBA BAART PROGRAMS NEWPORT 475 Union Street, NEWPORT, VERMONT, 05855	ORLEANS	621420 / 621420	3/26/2020	Online	Formal		N-16- COVID- 19:	Location: Facility in Newport, Vermont. COVID-19 concerns regarding the following: Employer not providing appropriate Personal Protective Equipment. Staff being asked to clean with lack of cleaning supplies and no gloves provided. Area where clients pick up medication is not cleaned. Clients not being checked for COVID-19 symptoms/no protocols put in place for public entering the building. Employees permitted to show up to work sick. Required to conduct observed Urine Analysis of clients within 3 feet of them instead of the recommended 6 feet. Concerns regarding implementation of 6 foot social distancing guidance. Other Hazards: Concerns regarding mold in bathrooms and in garage. Walkways to employee entrances are not properly cleared and there is not sufficient lighting when employees show up to work in morning at 6 AM.	/

Employees have to beg for PPE such as gloves for cleaning the bathroom & protecting their hands from the harsh cleaning materials such as bleach. Management & owners have discouraged the use of PPE due to costs & employees are asked to use the same pair of soiled gloves for each room. Management states that the owners of the hotel don't provide their other hotels with PPE so the employees here at Quality Inn should be grateful for what they get, even though it took two employees threatening to contact OSHA for gloves to even be provided. Management was not concerned up until this point about even providing gloves for those preparing breakfast. PPE don't properly fit some of the employees. We've also been told it could be April before new PPE is provided but are still required to clean rooms that infected guests could have been in. The Houseman who cleans the public areas has had his hours cut even though it means he cannot properly sanitize surfaces. Not all employees are provided gloves. Housekeepers are given too many rooms to properly clean to prevent spread of any contamination. Bed bugs are constantly a problem in specific rooms, even when calling an exterminator. With the outbreak of the coronavirus the common areas are not being properly sanitized - desks, doorknobs, elevator buttons, etc. Hazard Location: The entire main building at the hotel	2/ 10

05-518-00	C-1567525	Polycon Industries Inc 8919 Colorado St, MERRILLVILLE, INDIANA, 46410	LAKE	326199 / 326199	3/26/2020	Email	Formal		N-16- COVID- 19:	The company is not taking the proper prevention steps of the corona virus. They sent an employee home today because heir spouse tested positive fo the virus. They told all supervisors to keep quiet and just send them home. They also point employees for calling of sick or with symptoms of the virus. This company is putting families and children at risk. All employees should have been no ified. There should be a deep cleaning. Employees shouldn't come to work if they are sick and have symptoms because they are afraid of points and losing their job. Employees need to know who they are working around and the job should take all measures to keep the employees safe.	/
05-518-00	C-1571383	The Behavior Analysis Center for Autism 11902 Lakeside Dr, FISHERS, INDIANA, 46038	HAMILTON	541720 / 541720	3/26/2020	Email	Formal		N-16- COVID- 19:	4 children have been told to quarantine due to potential COVID-19 cases. These cases are not confirmed due to lack of testing. These children were in the building on Friday (3/20). The building was closed on Monday and Tuesday for cleaning and opened back up on Wednesday. Even though the building was disinfected, many employees have not wanted to return to work and have self-quarantined. We all have the same question, if we were all potentially exposed, why is it safe for us to come into the center and be around these vulnerable children? Many of us are much less concerned about ourselves becoming infected than we are with the children. It is common in children wi h autism to have underlying medical conditions and/or a weakened immune systems. I believe that we fall in a very grey area when it comes to essential versus non essential businesses. Yes, we provide therapy, but at the same time if I were to go to a therapist, I would not sit in heir lap, lick my hands and then touch their face, sneeze on them, etc. Social distancing is not at all possible for what we do because they are kids, they have autism, and they do not know any better. Many employees feel as though the guidelines we are given have not been 100% accurate when compared with the guidelines given by the government and the CDC. The people making these decisions are not with the kids very often. They spend most of their time working from home or in an office. I do know that some Applied Behavior Analysis Centers in the Indianapolis area have closed during this time. However, I am not sure of specific numbers. Many employees at the Behavior Analysis Center for Autism feel that the people making these decisions are more focused on money and not on the health and safety of their employees, and more importantly, the children that we love and serve everyday.	/

He has two types of workers: job site and office. They share common areas like kitchen and restrooms. The office workers are in cubicles that are not within social distancing guidelines. He refuses to let the office staff work from home even though the corporate headquarters of Servpro are doing so. He said it wouldn't be fair to the job site workers if the office workers got to work from home. He has total disregard for his families.	/
05-518-00	C-1573806	Avery Dennison 270 Westmeadow, LOWELL, INDIANA, 46356	LAKE	322222 / 322222	3/26/2020	Email	Formal		N-16- COVID- 19:	Covid-19 has been confirmed in our plant. They did not immediately tell us about it. They let us continue to work in the environment with out disinfecting or deep cleaning the facility. The employee was at the facility all last week sick from my understanding. Then he asked if he could go home cause he wasn't feeling well. He went to get tested, and tested positive for the Covid-19. I do believe he went Thursday or Friday to get tested 3/19-3/20. The plant manager called me last night 3/25/20 at 8:31pm ct. to notify me that there had been a case of covid-19 in our facility. They were shutting down the facility Thursday, and Friday to have a cleaning crew to come in and clean. They now had to other employees quarantine for 9 days starting yesterday 3/25. They worked directly wi h the infected employee. But we have had many people most likely interact with his employee than just the 2. Over half our work force is 50 years old or above. Some with underlying conditions. Now we have a entire facility scared of what's to come.	/

03-551-23	C-1557350	Johnstone Supply 817 Connecticut Ave, ROANOKE, VIRGINIA, 24012	ROANOKE CITY	423730 / 423730	3/23/2020	Email	Nonformal		N-16- COVID- 19:	With the current Coronavirus outbreak, the owners, and upper management will not let us change business practices. Other companies in the supply industry have initiated drastic measures to ensure the safety and well being of their employees. Other companies have instituted policies that do not allow customers in the showrooms and instead have went to a curbside style delivery system. Customers can call or email their orders and the orders will be picked and left on a secure place outside. This eliminates the risk of a sick person spreading the virus to the employees. With this being said, Johnstone Supply will not let us switch to a curbside pickup and they insist on the customers being able to be served at the counters. With this practice of employees having to directly interact with a potentially infected person, there is a total disregard and neglect of the employees well being. All inside and outside sales staff are being permitted to work from home and not have any personal contact with customers. The counter personnel and warehouse personnel are not being afforded the same safety practices as the sales staff and upper management. We have been instructed to use our PTO or take unpaid leave if we don't feel safe. When you have customers coming in from all different regions that have been interacting with numerous other people on a daily basis, how could you feel safe.	1/ 2

05-518-00	C-1558673	Schlage Lock Company LLC Allegion Corporate HQ 11819 N Pennsylvania Street, CARMEL, INDIANA, 46032	HAMILTON	561621 / 561621	3/20/2020	Email	Formal		N-16- COVID- 19:	While Allegion manufactures goods to market and it is understood that such plant operations must continue, a very large percentage of its workforce is in an indirect support nature of this manufacturing and have both the tools and means to work from home to prevent the spread of COVID-19 effectively and without compromise to plant efficiency. Allegion even encourages said employees to work from home when they are unable to be physically at work and has issued laptops to most as their principle work computer for such occasions. In contrast, however, leadership has maintained a position that work from home, while technically authorized, should be discouraged during the COVID-19 outbreak. This discouragement is not a published stance, indeed language on corporate communications states that employees who feel concerned about the situation should discuss the matter with their supervisor, but supervisors appear to have been directed that unless there are extreme circumstances to instead shift the employee from a work from home position to one of internal social distancing and/or working alternate shifts. Further, some have reported rumors of unofficial threats to record which employees do not maintain station presence. Again, there is no logical reason to enforce such unwritten policies as most can and many regularly do work from home on occasion already. It seems at best irresponsible and at worst incredibly dangerous to increase the attack surface of a deadly virus when such a safer position can be maintained without overall harm to business operation.	/

07-289-00	C-1542889	Cargo Force, Inc. 1523 Hartman Ct., OMAHA, NEBRASKA, 68110	DOUGLAS	481212 / 481212	2/11/2020	Online	Nonformal		N-16- COVID- 19:	Nebraska Medical Center partnered with the CDC & Empty Airfield & brought possibly infected people to our job while we were actively working instead of shutting down operation. If these people coming here were unable to pass through a terminal at the airport due to public health & safety, why is it okay they come to our job without prior warning or even without being given the same precautionary measures. Our Hub Manager was given no prior notice about this even happening. He found out by seeing Hazmat employees cleaning in our warehouse & within this conversation with some of the workers he was then informed on why they were there & given some minor details. This was 3 days before the people being quarantined were set to arrive. Initially employees of Cargo Force were told that these people would be in our area while no one was working & that we'd have nothing to worry about. But in all actuality they were there while operation was in motion. Employees were insisted to work. The people arrived at our job Friday 02/07/2020 around 5:30PM/6PM & didn't leave until 10:30PM/11PM & our shift starts at 11PM. This was not handled appropriately or with any regard to employees health or safety. If this has been declared a National Health Emergency then why is this not being taken seriously? The health care professionals who performed these quarantine exams at our job did not dispose of the hazardous materials properly i.e. rubber gloves, facial masks, thermometer & thermometer covers etc. These hazardous materials were put in a basic black trash bag & disposed of outside of our job in the dumpster. The incubation period for this coronavirus is 2-14 days & you can pass the virus without even having symptoms yourself. There was no informed consent. Employees were blindsided & left in the dark on so many details we have a right to know. Please take this complaint seriously. As am I. With so many unknowns about this virus it is crucial that I as a mother take this seriously as I have children I have to come home to & ! risk not only myself but them being exposed to this virus that people are losing their lives to. I myself did not work Friday night when the quarantines were there due to me taken precautions & I feel it is unjust not only for employees to be exposed to this health threat without informed consent but for the ones who chose not to risk it & not show for work that night lose pay. Hazardous pay should be put in place. Our health & safety should be a priority. This whole ordeal was not handled properly & at the employees expense.	1/ 20
