I. EXECUTIVE SUMMARY

The U.S. Department of Labor (DOL), Occupational Safety and Health Administration (OSHA) is soliciting applications from nonprofit organizations for grants to provide training and educational programs for workers and/or employers. Nonprofit organizations, including qualifying labor unions, community-based and faith-based organizations, and employer associations, that are not an agency of a state or local government, are eligible to apply. Indian tribes, tribal organizations, Alaska Native entities, Indian-controlled organizations serving Indians, and Native Hawaiian organizations are eligible to apply in accordance with Executive Order 13175. Additionally, state or local government-supported institutions of higher education are eligible to apply in accordance with OMB 2 CFR 200 and DOL exceptions in 2 CFR 2900. Grants are awarded under Section 21 of the Occupational Safety and Health Act (OSH Act) to provide training and education programs for workers and employers on the recognition, abatement, and prevention of safety and health hazards in the workplace, and to inform workers of their rights and employers of their responsibilities under the OSH Act.

OSHA announces the availability of approximately \$4.5 million for Susan Harwood Training Grant Program grants in FY 2016 and expects to award multiple grants. Two funding Opportunity Announcement (FOA) offers not-for-profit organizations the opportunity apply for funding. This announcement offers two types for training grants:

- Targeted Topic Training
- Targeted Topic Training and Educational Materials Development grants

For a full description of each of these grant categories and their respective application components see Section II.B. Applications for Capacity Building Developmental grants must be submitted under FOA SHTG-FY-16-02.

All information and forms needed to apply for this funding opportunity announcement are published on the <http://www.grants.gov> Web site (hereinafter “Grants.gov”).

Registration must be accurate and up-to-date in Grants.gov and with the System for Award Management (SAM) prior to submitting an application if the applicant has prior experience using Grants.gov. To remain registered in the SAM database, an applicant is required to review and update registration information at least every 12 months from the date of initial registration. Inaccurate or expired information could result in delays or rejection of the grant application.

For applicants using Grants.gov for the first time, it is strongly recommended that the organization immediately follow steps to “Register as an Organization” with Grants.gov at <http://www.grants.gov/web/grants/applicants/organization-registration.html>. The registration process generally takes between three to five business days but may be as long as four weeks if not all the steps are completed in a timely manner. This process must be factored into the applicant’s plans for electronic application submission to avoid delays that could result in the rejection of the application. Organizations new to SAM will need to allot an additional 14 days for registration in order to receive a Commercial and Government Entity (CAGE) code through the Department of Defense’s Defense Logistics Agency.

DATES: Grant applications must be received electronically by the Grants.gov Web site no later than 11:59 p.m., ET, on Tuesday, June 28, 2016, the application deadline date.

OSHA strongly encourages organizations to submit the grant application in sufficient time to ensure that the application has been received and successfully validated by Grants.gov by the application deadline.

OSHA will offer a pre-recorded, pre-application webinar for all parties interested in applying for this grant opportunity. This pre-application webinar is intended to provide prospective applicants with an overview of this program announcement. The pre-application webinar will be posted on the OSHA Web site at <http://www.osha.gov/dte/sharwood/index.html>.

SUBMITTAL INFORMATION: Applications for grants submitted under this competition must be submitted electronically using the government-wide Grants.gov Web site at: <http://www.grants.gov>. If applying online poses a hardship, applicants must contact the OSHA Directorate of Training and Education office listed in this announcement at least four weeks prior to the application deadline date, 11:59 p.m., ET, on Tuesday, June 28, 2016, to speak to a representative who may provide assistance to ensure that applications are submitted online by the closing date. Requests for extensions to this deadline will not be granted. Further information regarding submitting a grant application electronically may be found in Section VI.J.2.

FOR FURTHER INFORMATION CONTACT: Questions regarding this funding opportunity announcement should be emailed to HarwoodGrants@dol.gov or directed to Donna Robertson, Program Analyst, or Bob Murphy, Director, Office of Training Programs and Administration, at 847-759-7700 (note this is not a toll-free number). Personnel will not be available after 5:00 p.m., ET, on the application deadline date, to answer questions. To obtain further information on the Susan Harwood Training Grant Program, visit the OSHA Web site at <http://www.osha.gov/dte/sharwood/index.html>.

Questions regarding Grants.gov should be emailed to Support@grants.gov or directed to the Grants.gov Contact Center, at 1-800-518-4726 (toll free number). The Contact Center is available 24 hours a day, 7 days a week. The Contact Center is closed on federal holidays.

II. FUNDING OPPORTUNITY DESCRIPTION

A. Overview of the Susan Harwood Training Grant Program

The Susan Harwood Training Grant Program provides funds for non-profit organizations to develop training materials and train workers and/or employers to recognize, abate, and prevent safety and health hazards in their workplaces and provide related assistance. The program emphasizes seven areas:

1. Training workers and/or employers on identifying and means of preventing serious safety and health hazards identified by OSHA through the DOL's

Strategic Plan, as part of an OSHA special emphasis program, or other OSHA priorities. (see www.osha.gov)

2. Educating workers on their rights and educating employers on their responsibilities under the OSH Act
3. Educating workers and/or employers in small businesses (for purposes of this grant program, a small business is one with 250 or fewer employees)
4. Training workers and/or employers about new OSHA standards
5. Training at-risk and/or low-literacy worker populations, including temporary and warehouse workers
6. Providing technical assistance to employers and workers
7. Developing and disseminating materials to train and educate workers

B. Grants Being Announced Under this Funding Opportunity Announcement

Under this funding opportunity announcement, OSHA will accept applications for Targeted Topic grants. Two grant categories are being announced under this funding opportunity.

1. Targeted Topic Training

The emphasis for applications submitted for Targeted Topic Training grants should be on developing and conducting quality training for multiple employers and/or their workers, and the development of quality safety and health training and educational materials addressing safety and health hazards associated with one of the OSHA selected training topics listed in Section VI.G.1.c). Technical assistance may be proposed in addition to the training.

2. Targeted Topic Training and Educational Materials Development

Applicants for the Targeted Topic Training and Educational Materials Development grant category are expected to develop, evaluate, and validate classroom quality training and educational materials for one of the audiences listed in Section II.C. and on an OSHA-selected training topic, as listed in Section VI.G.1.c). The purpose is to produce quality training materials and educational materials that fill an unmet need and that have broad applicability. OSHA requires training materials to be pilot-tested for evaluation and validation purposes. To that extent, Targeted Topic Training and Educational Materials Development grantees must propose to conduct limited training in the work plan, but it should not be a significant element.

C. Target Audience and Language

1. Training materials developed and/or training conducted must serve multiple employers.

2. Training materials developed and/or training conducted must serve multiple small business employers with less than 250 employees and workers in one or more of the following target audiences:
 - new small businesses (less than 250 employees)
 - new businesses
 - limited English proficiency workers
 - non-literate and low literacy workers
 - young workers
 - temporary workers
 - warehouse workers
 - minority and other hard-to-reach workers
 - workers in high-hazard industries and industries with high fatality rates
3. Training must be conducted in both a language and vocabulary that the participants can understand.
4. Special consideration will be given to grant proposals that include training materials and training programs for limited English proficiency workers, including Spanish, and Asian American and Pacific Islander languages.

III. PROJECT PERIOD AND MAXIMUM FUNDING LEVEL PER GRANT CATEGORY

A. Length of Project Period

All grants in this funding opportunity announcement will be awarded for a 12-month project performance period. The 12-month project period for these grants begins no later than September 30, 2016. There is approximately \$4.5 million in funding that will be available for FY 2016 Susan Harwood Training Grants.

B. Targeted Topic Training

The maximum funding level may not exceed \$140,000 for the 12-month project performance period. Applicants are strongly encouraged to submit proposals that do not exceed the maximum funding level. Based on satisfactory performance, Targeted Topic Training grants may be eligible for one additional 12-month follow-on grant.

C. Targeted Topic Training and Educational Materials Development

The maximum funding level may not exceed \$50,000 for a 12-month project performance period. Applicants are strongly encouraged to submit proposals that do not exceed the maximum funding level. Targeted Topic Training and Educational Materials Development grants will not be eligible for an additional 12-month follow-on grant.

IV. PROGRAM COMPONENTS

The two grant types announced in this funding opportunity have different application requirements, as outlined in Section VI. Applicants should only propose activities specific to the grant category for which they are applying.

V. ELIGIBILITY INFORMATION

A. Eligible Applicants

Nonprofit organizations, including qualifying labor unions, community-based and faith-based organizations, and employer associations, that are not an agency of a state or local government are eligible to apply. Indian tribes, tribal organizations, Alaska Native entities, Indian-controlled organizations serving Indians, and Native Hawaiian organizations are eligible to apply in accordance with Executive Order 13175. State or local government supported institutions of higher education are eligible to apply in accordance with OMB 2 CFR 200 and DOL exceptions in 2 CFR 2900.

Eligible organizations may apply independently for funding. For partnerships, each separate organization will be considered a prime grantee, but one organization must be designated as the lead organization for purposes of liaison with DOL and for receiving and disbursing funds. Sub-awards are not authorized. Subcontracts, if any, must be awarded in accordance with OMB 2 CFR 200, which require full and open competition for procurement transactions to the maximum extent practicable.

A 501(c)(4) nonprofit organization, as described in 26 U.S.C. 501(c)(4), that engages in lobbying activities will not be eligible for the receipt of federal funds constituting an award, grant or loan. See 2 U.S.C. 1611.

Applicants other than state or local government supported institutions of higher education will be required to submit evidence of nonprofit status, as outlined in Section VII.5.

B. Cost Sharing or Matching

Applicants are not required to contribute non-federal resources.

C. Transparency

DOL is committed to conducting a transparent grant award process and publicizing information about program outcomes. Posting grant applications on public Web sites is a means of promoting and sharing innovative ideas. For this grant competition, DOL will publish the Program Abstract required by Section VI.F. and selected information from the SF-424, Application for Federal Assistance, for all applications on the Department's public Web site, <http://www.dol.gov/dol/grants/>. Additionally, DOL will publish a version of the Technical Proposal required by Section VI.G. on the Department's Web site, <http://www.dol.gov/dol/grants/> for all those applications that are awarded grants. Except for the Program Abstract, none of the Attachments to the Technical Proposal will be published. The Technical Proposals and Program Abstracts will not be published until after the grants are awarded. In addition, information about grant progress and results may also be made publicly available.

DOL recognizes that grant applications sometimes contain information that an applicant may consider proprietary or business confidential information, or may contain personally identifiable information. Proprietary or business confidential information is information that is not usually disclosed outside an organization and disclosing this information is likely to cause the organization substantial competitive harm.

Personally identifiable information is any information that may be used to distinguish or trace an individual's identity, such as name, Social Security Number, date and place of birth, mother's maiden name, or biometric records; and any other information that is linked or linkable to an individual, such as medical, educational, financial, and employment information.¹

Program Abstracts will be published in the form originally submitted, without any redactions. Applicants should not include any proprietary or confidential business information or personally identifiable information in this summary. In the event that an applicant submits proprietary or confidential business information or personally identifiable information, DOL is not liable for the posting of this information contained in the Program Abstract. The submission of the grant application constitutes a waiver of the applicant's objection to the posting of any proprietary or confidential business information contained in the Program Abstract. Additionally, the applicant is responsible for obtaining all authorizations from relevant parties for publishing all personally identifiable information contained within the Program Abstract. In the event the Program Abstract contains proprietary or confidential business or personally identifiable information, the applicant is presumed to have obtained all necessary authorizations to provide this information and may be liable for any improper release of this information.

By submission of this grant application, the applicant agrees to indemnify and hold harmless the United States, the U.S. Department of Labor, its officers, employees, and agents against any liability or for any loss or damages arising from this application. By such submission of this grant application, the applicant further acknowledges having the authority to execute this release of liability.

To ensure that proprietary or confidential business information or personally identifiable information is properly protected from disclosure when DOL posts the winning Technical Proposals, applicants whose Technical Proposals will be posted will be asked to submit a second redacted version of the Technical Proposals, with any proprietary or confidential business information and personally identifiable information redacted. All non-public information about the applicant's and consortium members' staff (if applicable) should be removed as well. The Department will contact the applicants whose Technical Proposals will be published by letter or email and provide further directions about how and when to submit the redacted version of the Technical Proposal.

¹ OMB Memorandum 07-16 and 06-19. GAO Report 08-536, *Privacy: Alternatives Exist for Enhancing Protection of Personally Identifiable Information*, May 2008, <http://www.gao.gov/new.items/d08536.pdf>.

Submission of a redacted version of the Technical Proposal will constitute permission by the applicant for DOL to make the redacted version publicly available. DOL will also assume that by submitting the redacted version of the Technical Proposal, the applicant has obtained the agreement to the applicant's decision about what material to redact of all persons and entities whose proprietary, confidential business information or personally identifiable information is contained in the Technical Proposal. If an applicant fails to provide a redacted version of the Technical Proposal by the date requested in the instruction letter or email, DOL will publish the original Technical Proposal in full, after redacting only personally identifiable information. The application's original version of the Technical Proposal will remain part of the complete application package, including an applicant's proprietary and confidential business information and any personally identifiable information.)

Applicants are encouraged to maximize the grant application information that will be publicly disclosed, and to exercise restraint and redact only information that clearly is proprietary, confidential commercial/business information, or capable of identifying a person. The redaction of entire pages or sections of the Technical Proposal is not appropriate and will not be allowed, unless the entire portion merits such protection. Should a dispute arise about whether redactions are appropriate, DOL will follow the procedures outlined in the Department's Freedom of Information Act (FOIA) regulations (29 CFR Part 70).

D. Freedom of Information Act Request (FOIA)

Redacted information in grant applications will be protected by DOL from public disclosure in accordance with federal law, including the Trade Secrets Act (18 U.S.C. § 1905), FOIA, and the Privacy Act of 1974 (5 U.S.C. § 552a). If DOL receives a FOIA request for an application, the procedures in DOL's FOIA regulations for responding to requests for commercial/business information submitted to the government will be followed, as well as all FOIA exemptions and procedures, 29 CFR § 70.26. Consequently, in response to a FOIA request the application of FOIA rules may result in the release of information that an applicant redacted in its redacted copy.

E. Non-Viable Applications

Applications that fail to satisfy the requirements stated below may be considered non-viable and not be given further consideration.

- Applications must be submitted electronically through Grants.gov as specified in Section VI.J.2. Applications not submitted electronically through Grants.gov will not be considered.
- Applications must be submitted on or before 11:59 p.m., ET, on the due date as specified in Section VI.J.1. Applications that do not receive a date/time-stamp email indicating application submission on or before 11:59 p.m., ET, on the due date, will be considered non-viable and will not be given further consideration.
- Applications must be validated successfully by Grants.gov as specified in Section VI.J.3.b). Applications that are not successfully validated by Grants.gov because

the submission was not approved by the Authorized Organization Representative (AOR), or the organization does not have a current registration with the System for Award Management (SAM) at the time of application submission, will be considered non-viable and will not be given further consideration.

Organizations new to SAM will need to allot an additional 14 days for registration in order to receive a Commercial and Government Entity (CAGE) code through the Department of Defense’s Defense Logistics Agency.

- Applications must provide current proof of nonprofit status as outlined in Section VI.I.5., with the exception of institutions of higher education. Applications that do not provide proof of nonprofit status may be considered non-viable and may not be given further consideration.
- Applications must contain all of the required forms and documents identified in Section VI.C., Application Checklist. Applications that do not contain all of the required forms and documents may be considered non-viable and may not be given further consideration.
- Applications must propose only training based on one of the identified OSHA selected topics in this funding opportunity announcement as outlined in Section VI.G.1.c). Applications that propose training that does not align with one of the identified OSHA selected topics will be considered non-viable and will not be given further consideration.

F. Other Eligibility Requirements

All grantees must comply with legal rules pertaining to inherently religious activities by organizations that receive federal financial assistance. The U.S. Government is generally prohibited from providing direct financial assistance for inherently religious activities. In this context, the term direct financial assistance means financial assistance that is provided directly by a government entity or an intermediate organization, as opposed to financial assistance that an organization receives as the result of the genuine and independent private choice of a beneficiary. In other contexts, the term “direct financial assistance” may be used to refer to financial assistance that an organization receives directly from the federal government (also known as “discretionary” assistance), as opposed to assistance that it receives from a state or local government (also known as “indirect” or “block” grant assistance). The term “direct” has the former meaning throughout this funding opportunity announcement.

The grantee may be a faith-based organization or work with a partner with religious institutions; however, “direct” federal assistance provided under grants with the U.S. DOL must not be used for religious instruction, worship, prayer, proselytizing, or other inherently religious practices. 29 CFR Part 2, Subpart D governs the treatment in DOL government programs of religious organizations and religious activities; the grantee and any sub-contractors are expected to be aware of and observe the regulations in this subpart.

G. Special Program Requirements

DOL may require that the program or project participate in an evaluation of overall performance of the Harwood grants and/or impacts on participants. Therefore, as a condition of award, the grantee is required to cooperate with any evaluation of the program DOL may undertake. This cooperation may include but is not limited to site visits, collection of programmatic administrative and performance data, and interviews with grant program personnel and program participants.

VI. APPLICATION AND SUBMISSION INFORMATION

All information needed to apply for this funding opportunity is referenced as part of this announcement, and all forms are available on the Grants.gov Web site. Applicants may submit only one application per announcement. Therefore, organizations may apply for either a Targeted Topic Training or a Targeted Topic Training and Educational Materials Development grant under this funding opportunity. A different funding opportunity must be used to apply for a Capacity Building Developmental, or Capacity Building Pilot grant. An organization may operate only one Susan Harwood grant in any given fiscal year, including follow-on grants. A new proposal under this announcement will not be considered if a current grantee is awarded more than a three-month no-cost time extension on an active grant.

OSHA encourages the training of different workers each year. If an organization is awarded a grant for consecutive years to provide training on the same topic to a target population, the organization must show in its work plan a process to ensure that different workers will be trained, than received training in the previous year.

A. Required Content and Submission Format

A grant application must be submitted electronically through the <http://www.grants.gov> Web site. The application must contain all of the required information as outlined in Section VI.C., Application Checklist, to be considered responsive to this funding opportunity announcement. The application must be divided into clearly identified major sections and sub-sections. Forms are available through <http://www.grants.gov> and must be submitted electronically as a part of the grant application. Each Grants.gov application package has a cover sheet that contains instructions on how to open and use the forms in the application package. The Susan Harwood grant application package at <http://www.grants.gov> contains a menu of “Mandatory Documents” which must be completed and submitted online. The menu of “Mandatory Documents” can only be located after opening the grant package. A description of the application evaluation process is provided in Section VII.

All applicants for federal grants and funding opportunities are required to have a Data Universal Number System (DUNS) number, and must supply the DUNS number on the SF-424. The DUNS number is a nine-digit identification number that uniquely identifies business entities. To obtain a DUNS number, or access additional information, visit the Web site <http://fedgov.dnb.com/webform/>.

Registration information with Grants.gov and System for Award Management (SAM) must be accurate and up-to-date prior to submitting an application. For applicants using Grants.gov for the first time, it is strongly recommended that the organization immediately follow steps to “Registering as an Organization” with Grants.gov at <http://www.grants.gov/web/grants/applicants/organization-registration.html>. The registration process generally takes between three to five business days but may be as long as four weeks if not all steps are completed in a timely manner. This process must be factored into the applicant’s plans for electronic application submission to avoid delays that could result in rejection of the application.

Instructions for registering with SAM may be found at <https://www.sam.gov>. A recipient must maintain an active SAM registration with current information at all times during which it has an active federal award or an application under consideration. To remain registered in the SAM database, an applicant is required to review and update registration information at least every 12 months from the date of initial registration. Inaccurate or expired information could result in delays or rejection of the grant application. Organizations new to SAM will need to allot an additional 14 days for registration in order to receive a Commercial and Government Entity (CAGE) code through the Department of Defense’s Defense Logistics Agency.

B. Formatting Requirements

All text documents, including the application summaries, abstracts, technical proposals, etc., must be submitted electronically in Grants.gov using 8 ½” x 11” white paper with one-inch margins, double-spaced, 12-point font in Microsoft Office format. Forms, assurances, and certifications should be attached in Adobe Reader (PDF) format. Files may not be locked or password protected.

If an application exceeds the cited page limitation for double-spaced pages in the technical proposal, the extra pages will not be reviewed. In addition, if a technical proposal is single-spaced and/or one-and-a-half spaced (in whole or in part) the total number of these lines will be doubled. This adjustment may result in an increased total number of pages. The extra pages will not be reviewed. Only graphs and numerical tables as part of the technical proposal may be single-spaced.

Attachments should be submitted in the order specified in Section VI.C., Application Checklist. Please use the file naming nomenclature where indicated, and the checklist title if it is not indicated. File attachment names should be no longer than 50 characters to avoid submission and processing errors. Applicants are limited to using the following characters in all attachment file names: A-Z, a-z, 0-9, underscore (_), hyphen (-), parenthesis (), curly brackets ({}), square brackets ([]), tilde (~), exclamation point (!), comma (,), dollar sign (\$), percent sign (%), plus sign (+), equal sign (=), space, and period. While Grants.gov may accept more characters, DOL E-Grants may not accept characters other than what is listed above. Use the appropriate characters to ensure OSHA can view the file attachments.

C. Application Checklist

Applicants may use the checklist below as a guide when preparing the application package. Required documents itemized in the the Application Checklist below must be submitted by the application due date and time specified in Section VI.J.1.

When applying for a grant, the application package must be downloaded and the forms within the application package must be completed and submitted in their entirety. Note: The forms found on the Grants.gov Forms tab are for information only and cannot be submitted with the grant application package. Grants.gov sample forms are located at <http://www.grants.gov/web/grants/forms/sf-424-family.html>.

Table 1. Application Checklist

✓	What to Submit	Where to Reference	How to Submit
	SF-424 – Application for Federal Assistance	Referenced in Section VI.D.1., and found at Grants.gov Forms Repository	This is a required form. Complete in the downloaded application package at Grants.gov.
	SF-424A – Budget Information – Non-Construction Programs	Referenced in Section VI.D.2., and found at Grants.gov Forms Repository.	This is a required form. Complete in the downloaded application package at Grants.gov. Note: Allocated costs must match the detailed budget support narrative.
	SF-424B – Assurances – Non-Construction Programs	Referenced in Section VI.D.3., and found at Grants.gov Forms Repository	This is a required form. Complete in the downloaded application package at Grants.gov.
	Combined Assurance Form (ED 80-0013)	Referenced in Section VI.D.4., and found at Grants.gov Forms Repository	This is a required form. Complete in the downloaded application package at Grants.gov.
	Project/Performance Site Location(s)	Referenced in Section VI.D.15., and found at Grants.gov Forms Repository	This is a required form. Complete in the downloaded application package at Grants.gov.
	SF-LLL – Disclosure of Lobbying Activities	Referenced in Section VI.D.6., and found at Grants.gov Forms Repository	This form is required only when the applicant meets the requirements in the Combined Assurance Form. If required, complete in the downloaded application package at Grants.gov.
	Application Summary	Referenced in Section VI.E. of the announcement under “Application Summary.”	The application summary is a required document created by the applicant and uploads it as an attachment to the grant application.
	Program Abstract	Referenced in Section VI.F. of the announcement under “Program Abstract.”	The program abstract is a required document created by the applicant and uploads it as an attachment to the grant application.
	Technical Proposal	Referenced in Section VI.G. of	The technical proposal is a

	the announcement under “Technical Proposal.”	required document created by the applicant and uploads it as an attachment to the grant application.
Organizational Chart	Referenced in Section VI.G.2.h) of the announcement under “Organizational Chart.”	An organizational chart is a required document created by the applicant and uploads it as an attachment to the grant application.
Detailed Project Budget Summary and Narrative	Referenced in Section VI.I.2. of the announcement under “Detailed Project Budget.”	The detailed project budget summary and narrative is a required document created by the applicant and uploads it as an attachment to the grant application. It must support the costs allocated on the SF-424A.
Indirect Cost Allocation Agreement	Referenced in Section VI.I.3. of the announcement under “Indirect Cost Allocation Agreement.”	An indirect cost allocation agreement is required when an applicant includes indirect charges to the budget. If required, a copy of the agreement must be uploaded as part of the grant application.
Evidence of Non-Profit Status	Referenced in Section VI.I.5. of the announcement under “Evidence of Non-Profit Status.”	Evidence of Non-Profit Status is required as an attachment to the grant application. Applicants must submit one of the documents specified in Section VI.I.5. as current evidence of non-profit status. This does not apply to state and local government-supported institutions of higher education.
Non-federal Resource Contribution	Referenced in Section VI.I.4. of the announcement under “Non-federal Resource Contribution.”	This document is required when the applicant includes non-federal resource contribution as part of the grant application. The applicant develops the non-federal resource contribution document and uploads it as an attachment to the grant application.
Other Attachments	Referenced in Section VI.H. of the announcement under “Other Attachments.”	Applicants may submit additional attachments that are not required as part of the grant application. Attachments may not exceed 20

		pages. These documents may be uploaded as an attachment to the grant application.
--	--	---

D. Forms, Assurances, and Certifications

Applicants seeking financial assistance under this funding opportunity announcement must submit the first five forms listed and described below. The sixth form, which relates to the disclosure of lobbying activities, may also be required as described below. All of the following forms are part of the Grants.gov application package:

- (1) SF-424 Application for Federal Assistance;
- (2) SF-424A Budget Information – Non-Construction Programs;
- (3) SF-424B Assurances – Non-Construction Programs;
- (4) Combined Assurances Form (ED-80-0013);
- (5) Project/Performance Site Location; and
- (6) SF-LLL – Disclosure of Lobbying Activities.

1. SF-424 Application for Federal Assistance

The SF-424 Application for Federal assistance must clearly identify the applicant and must be signed by the individual with the authority to enter into the grant agreement. The government may elect to award the grant(s) with or without negotiations with the applicant. Should a grant be awarded without negotiations, the award will be based on the applicant’s signature on the SF-424, including electronic signature via E-Authentication on <http://www.grants.gov>, which constitutes a binding offer by the applicant. As stated in block 21 of the SF-424 Form, signature of the Authorized Representative on the SF-424 certifies to the statements contained in the certifications, the required assurances are provided, and the organization agrees to comply with any resulting terms if an award is accepted.

2. SF-424A Budget Information – Non-Construction Programs

The budget must provide information on the 12-month project performance period, allocated into the itemized cost categories and shown as either a program or administrative cost (described in Appendix A.)

3. SF-424B Assurances – Non-Construction Programs

Electronic signature on the Grants.gov application provides assurances to comply with federal laws, executive orders, regulations, and policies governing this program.

4. Combined Assurances Form (ED-80-0013)

This form covers the lobbying certificate as required by 31 U.S.C. § 1352, and implemented at 34 CFR Part 82, for persons entering into a grant or cooperative agreement over \$100,000, as defined at 34 CFR Part 82, Sections 82.105 and 82.110; the debarment, suspension and other responsibility matters certification as required by Executive Order 12549, Debarment and Suspension, and implemented at 34 CFR Part 85, for prospective participants in primary covered transactions, as defined at 34 CFR Part 85, Sections 85.105 and 85.110; and drug-free workplace certification as

required by the Drug-Free Workplace Act of 1988, and implemented at 34 CFR Part 85, Subpart F, for grantees, as defined at 34 CFR Part 85, Sections 85.605 and 85.610.

5. Project/Performance Site Location

Applicants should include as many site locations as known at the time of application. Please note that this standard form is used for many programs and has a check box for applying as an individual. Disregard this box since individuals are not eligible to apply to this announcement.

6. SF-LLL – Disclosure of Lobbying Activities

This disclosure form is only required when an organization makes payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action.

E. Application Summary

The Application Summary must be submitted electronically in Grants.gov and may not exceed **two** double-spaced typed pages on 8 ½” x 11” white paper with one-inch margins, 12-point font in Microsoft Office format. Files may not be locked or password protected. The file name of the document should mimic the following nomenclature:

Organization Name Application Summary.doc

or

Organization Name Application Summary.docx

The Application Summary must include the following sections:

1. Applicant organization’s full legal name as listed on the Application for Federal Assistance (SF-424) in Section 8a.
2. Project Director’s name, title, street address for overnight delivery service, and mailing address if it is different from the street address, telephone and fax numbers, and email address. The Project Director is the person who will be responsible for the day-to-day operation and administration of the program. Note: *The Project Director’s name must be the same name listed on the Application for Federal Assistance Form (SF-424) in Section 8f: name and contact information of person to be contacted on matters involving this application.*
3. Authorized Representative/Certifying Representative’s name, title, street address for overnight delivery service, mailing address if it is different from the street address, telephone and fax numbers, and email address. An Authorized Representative/Certifying Representative is the official in the organization authorized to enter into grant agreements. Note: *The Authorized Representative/Certifying Representative’s name must be the same name listed on*

the Application for Federal Assistance Form (SF-424) in Section 21 for Authorized Representative.

4. Financial Certifying Representative's name, title, street address for overnight delivery service, mailing address if it is different from the street address, telephone and fax numbers, and email address. The Financial Certifying Representative will be authorized by the organization to submit and sign off on the Federal Financial Report Form (SF-425), which is submitted quarterly during the grant period, as per Section VI.G.4.b)(5)(b)(ii).
5. Funding Amount. List the amount of federal funding being requested to perform work plan and administrative activities for the 12-month project performance period. Section III. describes the maximum funding limits for each grant category. If the organization is contributing non-federal resources, list the amount and source of non-federal funds. These amounts should be consistent with the amounts listed on the Application for Federal Assistance Form (SF-424) Section 18.
6. Grant Category. All applicants must identify the grant category (Section II.B.) for which the organization is applying: Targeted Topic Training, or Targeted Topic Training and Educational Materials Development.
7. Grant Topic. List occupational safety and health training topic(s) to be addressed by the grant. Targeted Topic Training and Targeted Topic Training and Educational Materials Development applicants should select an OSHA topic from Section VI.G.1.c).
8. Target Audience. Specify the target audiences to be served, as listed in Section II.C.
9. Affiliations. Please list the organization's relationship to a parent organization, if applicable, and any affiliations with other organizations that are included in the application.
10. Congressional Districts. Please include the Congressional District in which the organization resides. If possible, please include those in which training is proposed and/or materials will be disseminated. The Congressional Districts must be the same as those listed on the Application for Federal Assistance Form (SF-424) in Section 16 for Congressional Districts.

F. Program Abstract

Provide a brief abstract of the proposed grant. The Program Abstract must be submitted electronically in Grants.gov and may not exceed **one** double-spaced typed page using 8 ½" x 11" white paper with one-inch margins, 12-point font in Microsoft Office format. Files may not be locked or password protected. The file name of the document should mimic one of the following nomenclature:

Organization Name Program Abstract.doc

Organization Name Program Abstract.docx

The abstract should include the organization's name, grant category, target audience, proposed occupational safety and health training topic(s), key grant activities, and geographical areas impacted by the training.

G. Technical Proposal

The Technical Proposal must be submitted electronically in Grants.gov and may not exceed **twenty** double-spaced typed pages using 8 ½" x 11" white paper with one-inch margins, 12-point font in Microsoft Office format. Files may not be locked or password protected. The file name of the document should mimic one of the following nomenclature:

Organization Name Technical Proposal.doc

Organization Name Technical Proposal.docx

The technical proposal must address each section listed below as it applies to the applicants grant category.

1. Problem Statement/Need for Funds

A problem statement, including the need for funding, should be included in each grant application. Clearly describe the following in the problem statement.

a) Grant Category

Please identify the grant category for which the organization is applying: Targeted Topic Training or Targeted Topic Training and Educational Materials Development.

b) Target Population

Describe the target population (Section II.C.), the target population's geographic location(s), including state(s), and the barriers that have prevented this population from receiving adequate training.

c) Topic

Targeted Topic Training and Targeted Topic Training and Educational Materials Development applicants are required to address one of the sixteen OSHA selected topics listed below. In addition, all training sessions must include information regarding employer responsibilities and worker rights under the OSH Act, including the right to raise health and safety concerns free from retaliation. All applicants must provide training on the anti-retaliation provisions under Section 11(c) of the OSH Act, including employee rights and employer responsibilities, additional whistleblower laws enforced by OSHA as applicable, and whistleblower complaint procedures (including required time constraints). Applicants proposing to address multiple target audiences (Section II.C.) in a high hazard or high fatality occupation, including temporary workers and warehouse workers, may receive special consideration.

The Agency may award grants for some or all of the listed topics.

- (1) **Agricultural Safety and Health, including Grain Handling Operations**, covering, for example, safety and health hazards facing farmworkers and dairy workers, hazards and preventive measures for bin entry, combustible dust, and preventing dust explosions
- (2) **Chemical Hazards and/or Hazard Communication** with an emphasis in silica, covering chemical exposures such as solvents, metals, and isocyanates including hazard identification and means of prevention; Process Safety Management; and new requirements in the Hazard Communication Standard that align it with the Globally Harmonized System of classification and Labeling of Chemicals (GHS)
- (3) **Confined Space**, covering hazards and controls in the Construction Industry
- (4) **Construction Focus Four**, covering,
 - Falls;
 - Caught-in or -between (including trenching hazards/protections);
 - Struck-By (including road work zones); and
 - Electrocution
- (5) **Construction Road Zones**, covering, for example, heavy vehicles, vehicle accidents, backing operations, and struck-by/caught-in/caught-between
- (6) **Ergonomic Hazards**, covering, for example, best practices for preventing musculoskeletal disorders (MSD) in safe patient handling, materials handling, meatpacking, hotels, poultry processing, retail grocery stores, masonry construction, or solid waste removal
- (7) **Fall Prevention in Construction**, covering, for example, ladders; roofs; scaffolds; handling, installing, and bracing trusses; steel erection; and residential construction
- (8) **Walking Working Surfaces in General Industry**, covering fall prevention and controls including slip, trips, and falls.
- (9) **Hair and Nail Salon Hazards**, covering, for example, chemicals used in salons, ergonomics, and biological hazards
- (10) **Heat Illness Prevention**, covering, for example, training on prevention of heat related illness and fatalities, including the need for acclimatization of new and returning workers
- (11) **Hospitals, Nursing Homes, and Residential Care Facilities**, covering, for example, safe patient handling and ergonomic hazards, bloodborne pathogens and biological hazards, chemical and drug exposures, waste anesthetic gas exposures, respiratory hazards, workplace violence, and radioactive material and x-ray hazards
- (12) **Oil and Gas Production**, covering, for example, worker protection in hydraulic fracturing, vehicle crashes, struck-by/caught-in/caught-between, explosions and fires, falls, confined spaces, and chemical exposures

- (13) **Silica Exposure in General and Construction Industries**, covering the identification, evaluation and control of the hazard
- (14) **Tree Care/Landscaping**, covering, for example, falls from trees, aerial lifts, and ladders; struck-by buckets; electrocution; chipper safety; chainsaw safety; rollover protection; and traffic safety
- (15) **Warehouse Worker Hazards**, covering, for example, powered industrial trucks, identifying and best practices for preventing musculoskeletal disorders (MSD), working on or around forklifts, lockout/tagout, respiratory protection, electrical safety, and hazard communication
- (16) **Workplace Violence**, covering, for example, acts or threats of physical violence, harassment, intimidation, or other threatening disruptive behavior that occurs in the health care, prison, or retail industries
- (17) **Multiple Topics**

Applicants who choose to address more than one topic must:

- Include a detailed justification narrative explaining how multiple topics have been selected.
- Describe how the topics complement each other and benefit the proposed target audience.
- Describe how the combination of topics will add greater value to the training materials being developed and/or training conducted for the proposed target audience than if it was a single topic.

For grants with multiple topics, a student may be counted towards the training numbers only after they have completed the course of multiple topics. Students may not be counted under each separate topic.

d) Training and Educational Materials

Describe the types of training and educational materials to be developed and/or obtained as required by the applicant's grant category. The statement should address how the proposed training and educational materials fill an unmet need and have a broad applicability. Applicants should not propose the development of training or educational materials that duplicate existing material. A detailed description of the training materials, including training objectives, training topics, and source of training materials (if obtaining) should be included as part of Section VI.G.4.b)(1). Existing Susan Harwood training materials may be accessed at http://www.osha.gov/dte/grant_materials/index.html. Materials feature various topics and languages, and include items such as PowerPoint presentations, instructor guides, student manuals, student exercises, and tests.

2. Administrative and Program Capability of the Organization

Briefly describe the organization's functions and activities. Relate this description of functions to the organizational chart included in the application, as discussed below.

a) Organizational Experience

The applicant must describe its current organization and experience with the target audience.

b) Occupational Safety and Health Experience

Describe the occupational safety and health experience of the organization. Organizations, including community- and faith-based organizations, that do not have prior experience in safety and health may partner with an established safety and health organization to demonstrate safety and health expertise.

c) Grant Experience

If the organization is conducting, or has conducted any other government (federal, state, or local) grant programs, within the last five years, include an attachment listing information on previous grants, including the organization for which the work was done, and the dollar value of the grant. If the organization has no previous grant experience, it may partner with an organization that has grant experience to manage the grant. If using this approach, the management organization must be identified and its grant program experience discussed. While grant experience is not required for application submission, it is highly desirable. If the applicant is a prior Susan Harwood grant awardee, special consideration will be given to those past grant awardees that completed work plans in a satisfactory and timely manner.

d) Distribution Network

Describe the organization's current relationships with the target audience. Show how the distribution network will be used to disseminate materials and/or provide training to the target audience. If the organization has no relationships with the target audience, describe how those relationships will be developed. Please note a recruiting plan should be described as described under Section VI.G.4.b)(2).

e) Program Experience of the Organization

Describe the organization's experience conducting the proposed type of training program. Include program specifics such as program titles, the type(s) of training materials developed, the number of trainee contact hours provided, and the numbers trained. Experience includes safety and health experience, training experience with adults or young workers, and programs operated specifically for the selected target population(s).

f) Evaluation of Training Activities Experience

Describe the organization's experience conducting evaluations of training activities and the levels of training evaluations conducted as it relates to the evaluations described in Section VI.G.4.b)(4).

g) Management and Internal Control Systems

The applicant organization must demonstrate it has sufficient financial management processes and internal control systems. Describe the organization's financial management process and internal systems of control.

h) Organizational Chart

The applicant must include an organizational chart of the staff that will be working on the grant and their position within the applicant organization.

3. Staff Experience

a) Occupational Safety and Health Experience

Describe the occupational safety and health qualifications and relevant project experience of the professional staff as it pertains to the work activities proposed in the application, including resumes. If some positions are vacant or being proposed, include position descriptions and/or minimum hiring qualifications instead of resumes.

b) Training Experience

Describe the experience the project staff has in training and/or developing materials for adult learners within the proposed target population.

4. Work Plan

Develop a 12-month work plan that is broken out by federal calendar year quarters as shown in Table 2.

Table 2. Federal Quarters

Federal Quarter	Activity Period	Projected Number Trainees	Projected Contact Hours
Quarter 1	October 1 to December 31		
Quarter 2	January 1 to March 31		
Quarter 3	April 1 to June 30		
Quarter 4	July 1 to September 30		

Specific items required in the work plan are outlined below.

a) Work Plan Overview

The work plan must describe the plan for grant activities and the anticipated outcomes for the 12-month project period. The overall work plan must describe planned project components, such as the development of training materials or the plan to use existing training materials, the training content, the number of trainees and the number of contact hours per trainee for each training program being proposed, recruiting of trainees, where or how training will take place, and the anticipated benefits to workers and/or employers receiving. Also, describe

planned activities relating to conducting Level 1 and 2 training evaluations as described in Section VI.G.4.b)(4).

b) Work Plan Activities

The overall plan should be broken down into activities or tasks. For each activity, explain what will be done, who will do it, when it will be done, including the planned results of the activity.

(1) Training and Educational Materials

Describe all training and educational materials to be produced under the grant, if proposed, and provide a timetable for developing and producing the materials. The statement should address how the proposed training and educational materials fill an unmet need and that they have broad applicability. Applicants should not propose the development of training or educational materials that duplicate existing training materials. OSHA posts training materials developed by previous grantees on its public Web site. These materials feature various topics and languages, and include items such as PowerPoint presentations, instructor guides, student manuals, student exercises and tests. Existing Susan Harwood training materials may be accessed at http://www.osha.gov/dte/grant_materials/index.html. Grantees must follow all copyright laws and provide written certification that materials are free from copyright infringements.

Grantees are expected to follow the guidance provided in the OSHA publication entitled “Best Practices for the Development, Delivery, and Evaluation of Harwood Training Grants” [OSHA 3686-09 2010]. The document addresses needs assessments, proven adult learning techniques, effective models for worker training, and training evaluation documentation. A copy of the publication is available at <http://www.osha.gov/dte/sharwood/best-practices.html>.

a.) Develop New Training and Educational Materials

All applicants that develop training and educational materials are expected to submit classroom quality products that follow the commonly accepted Instructional Systems Design (ISD) process that OSHA has adopted as a quality measure for all of its education and training products. The five ISD steps are analysis, design, development, implementation, and evaluation. Provide a timetable for developing, evaluating, validating and producing the material. Validation should include at least one training session to assess content feedback and the need for content revision. View more information on the ISD process at <http://www.nwlink.com/~donclark/hrd/sat.html>.

Any applicant may propose to develop training materials. Only Targeted Topic Training and Educational Materials Development applicants will be required to develop training materials.

b.) Obtain or Revise Existing Training and Educational Materials

Obtained materials should have been developed under commonly accepted instructional design processes. Targeted Topic Training applicants may revise existing Susan Harwood grant materials or obtain training materials from a third party. Existing Susan Harwood grant materials are available at http://www.osha.gov/dte/grant_materials/index.html.

c.) Required Training Material Content

The training materials must address the recognition, abatement, and prevention of safety and health hazards. Training materials (obtained or developed) must include information regarding worker rights under OSHA law, including the right to file a complaint free from discrimination and the elements for a valid complaint. If an organization plans to develop training materials for training workers or employers or to train workers or employers in any of the 27 states operating OSHA-approved State Plans, state OSHA requirements for that state must be included in the training materials.

The training materials must include information on the whistleblower protection provisions that OSHA administers under Section 11(c) of the OSH Act. Training materials should cover employer and employee rights and responsibilities, whistleblower laws enforced by OSHA, and OSHA's Complaint Investigation Procedures. See <http://www.whistleblowers.gov/> for additional information.

d.) Grant Training and Educational Materials Developed in a Language Other Than English

Organizations proposing to develop materials and/or deliver training in languages other than English must provide an English version of the materials. The English version of the materials must be approved by OSHA prior to translation. Organizations proposing to develop Spanish-language training materials must utilize the OSHA Dictionaries (English-to-Spanish and Spanish-to-English) for terminology. The dictionaries are available on the OSHA Web site at http://www.osha.gov/dcsp/compliance_assistance/spanish_dictionaries.html.

e.) OSHA Material Review

All training materials must be reviewed and approved by OSHA (e.g., promotional flyers, advertising, training materials, evaluation instruments) for technical accuracy and suitability of content before the materials may be used. Therefore, the timetable must include provisions for an OSHA review of both draft and final products. Allow two to three weeks for an OSHA review of draft materials. Any changes to the training and educational materials, at any time during the grant period, must be reviewed and approved by OSHA before use.

All training and educational materials developed or used by grantees will be required to be updated to reflect any changes to OSHA standards and policies that occur during the performance period. This includes any materials that may have been previously approved by OSHA. Any training materials created under a prior-year grant and subsequently updated must be reviewed and approved by OSHA (all changes to the materials should be highlighted). Any changes to the training and educational materials, at any time during the grant period, must be reviewed and approved by OSHA before use. If no changes to OSHA standards or policies occurred since the educational materials were last approved by OSHA, and no other changes were made by the grantee, the materials do not need to be reviewed.

f.) Submittal and Internet Posting Requirements for Final Materials

Two (2) electronic and two (2) hard copies of the final training materials are to be submitted to OSHA prior to or along with the closeout report. Electronic copies should be submitted per the Grant-Funded Material Submittal Procedures outlined in Appendix B.

Targeted Topic Training and Educational Materials Development grantees will be required to post all final training materials on its Web site in a free downloadable format for three years. Electronic copies provided to OSHA should include a copy of what will be posted on the grantees' Web sites, including videos. Grantees must provide OSHA with the URL addresses of all final materials posted. OSHA may list the grantees' URL addresses to access these materials or directly link to the materials on the grantees' Web sites from the OSHA Web site.

Any applicant proposing online training or posting materials on the Web must produce training materials that are compliant with Section 508 of the Rehabilitation Act of 1973, as amended <http://www.section508.gov/Section-508-Of-The-Rehabilitation-Act>. Specific compliance checklists may be found at <http://www.hhs.gov/web/508/checklists/index.html>.

g.) Acknowledgment of DOL Funding

In all circumstances, all approved grant-funded materials developed by a grantee shall contain the following disclaimer:

This material was produced under grant number _____ from the Occupational Safety and Health Administration, U.S. Department of Labor. It does not necessarily reflect the views or policies of the U.S. Department of Labor, nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. Government.

Applicants using previously approved Susan Harwood training materials should retain the original grant number in the disclaimer. If revisions are made to the materials, OSHA must approve the revisions. Once OSHA

approves the revisions, the applicant may add a sentence after the disclaimer stating that the materials were revised under the applicant's grant number.

(2) Recruiting Plan

The recruiting plan should include what methods the applicant plans to utilize to recruit workers from the target audience for the proposed training. Past success in reaching the target audience as well as any plans to work with other organizations during the recruiting efforts should be described in detail. All materials developed for recruiting must be reviewed and approved by OSHA.

(3) Training for Workers and Employers

When describing the proposed occupational safety and health training, include the topics to be taught, the projected number of trainees, and the number of contact hours per trainee for each proposed training course, the proposed training sites (classroom, worksites), and their geographical locations. OSHA encourages the training of different workers each year. If an organization is awarded a grant for consecutive years to provide training on the same topic to a target population, the organization must show in its work plan a process to ensure that different workers will be trained, than received training in the previous year.

a) Cost per Trainee and Training Hour

The cost per trainee must be less than \$500 and the cost per training hour must not exceed \$125. Estimates for cost per trainee and cost per training hour should be clearly identified in the grant application. Calculations should be based on the total projected number trained and total contact hours as presented in the applicant's work plan (Section VI.G.4.b)(3)(g)). Note: This restriction does not apply to Targeted Topic Training and Educational Materials Development grants.

The specific methodology for projecting trainee numbers must be described. Please use the following formulas to calculate these costs:

$$\text{Cost per trainee} = \frac{\text{total grant cost (include federal and non-federal)}}{\text{the total projected number trained}}$$

$$\text{Cost per training hour} = \frac{\text{total grant cost (include federal and non-federal)}}{\text{the total projected number of contact hours for all training}}$$

b) Required Training Content

Training must include training on the required training and educational material content as indicated in Section VI.G.4.b)(1)c.).

c) Training Contact Hours

The Susan Harwood Training Grant Program’s primary focus is worker-level training. Training should be designed as a minimum of 1/2 hour and a maximum of 7 1/2 contact hours per day, for every day of training.

Contact hours include instructor-led contact minutes used to train on the training learning objectives. Instructor-led minutes used for administrative activities such as presenting training certificates may not be counted toward the contact hours. Break time and lunchtime may not be counted toward the contact hours.

d) Eligible Trainees

Training should be limited to eligible trainees. Only eligible trainees may be counted toward the training numbers and contact hours under this award. Eligible trainees are those workers that are currently covered under the OSH Act of 1970, SEC. 4, codified at 29 U.S.C. 653.

OSH Act of 1970, SEC. 4. Applicability of This Act

(a) This Act shall apply with respect to employment performed in a workplace in a State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, Guam, the Trust Territory of the Pacific Islands, Wake Island, Outer Continental Shelf Lands defined in the Outer Continental Shelf Lands Act, Johnston Island, and the Canal Zone. The Secretary of the Interior shall, by regulation, provide for judicial enforcement of this Act by the courts established for areas in which there are no United States district courts having jurisdiction.

(b) (1) Nothing in this Act shall apply to working conditions of employees with respect to which other Federal agencies, and State agencies acting under section 274 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2021), exercise statutory authority to prescribe or enforce standards or regulations affecting occupational safety or health.

In addition, currently unemployed persons that plan to return to or are about to enter the workforce in a position that is covered by the OSH Act may be trained. Some state and local governments are not covered under the OSH Act.

e) Training class size

To facilitate participatory learning, the recommended class size is from 10 to 30 trainees. The recommended minimum and maximum limits are from three to 40 trainees per training.

f) Training for Workers and Employers

All training should be participatory in nature and actively involve workers in the training. Specific details on how participatory learning will be achieved should be included. Applicants are encouraged to use the methods described in OSHA’s document entitled “Best Practices for the

Development, Delivery, and Evaluation of Susan Harwood Training Grants” [OSHA 3686-09 2010]. A copy of the publication may be downloaded at <http://www.osha.gov/dte/sharwood/best-practices.html>.

g) Train-the-Trainer

Train-the-trainer training may be proposed under this grant announcement, but is not required. As a train-the-trainer component may lead to wider distribution of the training to workers, the applicant will receive additional consideration for inclusion of a train-the-trainer component. To ensure that training provided to trainers is subsequently used to train workers (second tier training), a plan to conduct second tier training directly to workers must be included as outlined below.

- (i) Only one level of train-the-trainer training may be proposed. In other words, the trainers trained as part of these grant activities may only train workers (second tier training); not additional levels of trainers.
- (ii) If the proposal contains a train-the-trainer component, the following information must be provided:
 - (a) Specify the type of ongoing support the grantee will provide to new trainers.
 - (b) Specify the worker population that the new trainers will train.
 - (c) If the newly trained trainers will provide training to workers under the work plan for this grant period, estimate the number of courses to be conducted for **workers** by the new trainers during the grant period.
 - (d) The applicant must include a description of how the organization will obtain data, via a reporting system, from the new trainers to document the second tier training during the grant period. The description should include a system whereby training documentation (sign-in sheets, training agenda, course evaluations, etc.) and trainee numbers are submitted to the applying organization within a short time after the completed training.
- (iii) All of the above information must be included in the application for the train-the-trainer component to be evaluated.

h) Training Projections

Describe the training to be conducted and quantify the projected total number trained and projected total contact hours. Include the following items:

- (i) Describe the target audience(s) (Section II.C.) for each proposed type of training.
- (ii) Identify the type(s) of training that will be conducted: worker, train-the-trainer, or employer.

- (iii) Describe how each type of training will reach multiple employers and/or their workers.
- (iv) Indicate the projected number trained (workers and/or employers) per type of training and target audience (Section VI.G.4.b)(3)).
- (v) Indicate the number of contact hours for each type of training (workers, train-the-trainer, and/or employer) and target audience (Section II.C.). Training contact hours are defined in Section VI.G.4.b)(3)c). See Table 2 as an example.
- (vi) Substantiate the methodology used to develop the projections for total number trained and total contact hours for each type of training (train-the-trainer, worker, or employer).

Table 3. Example of Total Number Trained and Contact Hour Projections

Audience	Type of Training	Length of training (contact hours)	Projected Number Trained	Total Contact hours per training*
Temporary Worker	Worker	4	500	2,000
Hard-to-Reach Worker Limited English Proficiency/ Low-Literacy	Worker	2	300	600
Hard-to-Reach Worker Limited English Proficiency/ Low-Literacy	Train-the Trainer	8	10	80
Small Business	Employer	5	30	150
Total			840	2,830

*Total contact hours per training = (length of training x projected number trained)

i) Constitution Day and Citizenship Day Training

Constitution Day and Citizenship Day is required of educational institutions only. These activities should be addressed in the work plan. Section 111 of Division J of Public Law 108-447, the “Consolidated Appropriations Act, 2005,” December 8, 2004; 118 Stat. 2809, 3344-45, requires “educational institutions” that receive federal funds to hold an educational program on the United States Constitution on September 17 (“Constitution Day and Citizenship Day”) of each fiscal year for which the institution receives funds. The Office of Personnel Management has placed relevant materials on its Web site at the following address:

http://archive.opm.gov/constitution_initiative/. The U.S. Department of Education's Federal Register Notice of the Implementation of Constitution Day and Citizenship Day on September 17 of Each Year, published on May 24, 2005, may be found at <http://www.gpo.gov/fdsys/pkg/FR-2005-05-24/pdf/05-10355.pdf>. Please note that this Web site primarily addresses educational institutions that receive funds from the U.S. Department of Education. However, it also discusses other materials that may be helpful.

(4) Training Evaluation

All Targeted Topic Training and Targeted Topic Training and Educational Materials Development grantees shall perform Level 1 and 2 training evaluations. Additional guidance on developing and implementing evaluations, and reporting evaluation results will be provided at the Orientation Meeting.

The types of training evaluations are described below:

- Level 1 – Training Session Reaction Evaluation

Training session reaction evaluations measure how trainees in a training session react to the training including trainees' perceptions of the quality and usefulness of the training. The results should be used for the improvement of the training program. This assessment may be accomplished through trainee satisfaction surveys, in written or oral format, regarding both the relevancy of the information taught and the teaching style of the instructor. This type of evaluation should be conducted for all training and as part of the training materials development validation process.

- Level 2 – Learning Evaluation

Learning evaluations measure the skills, knowledge, or attitude that the trainee retains because of the training. This evaluation could be accomplished for example through pre- and post-assessments, in written or oral format, administered in the training. Alternatively, trainees could be required to perform a new task or complete interactive activities that were taught during the training and the result assessed. This type of evaluation should be conducted for all training, and as part of the training materials development validation process.

In addition to the evaluation activities grantees will conduct, the Department of Labor may conduct a separate evaluation of the impacts of training. In accepting grant funding under this program, grantees agree to fully cooperate with and provide any data needed by federally sponsored evaluation(s) of the training.

(5) Meetings, Reporting, and Documentation

Meetings, reporting, and support documentation will be required of grant awardees and should be included as grant activities and included as a program cost in the budget. Additional information on the reporting requirements may be found in Administering OSHA Discretionary Grant Programs (TED 03-00-002) http://www.osha.gov/dte/sharwood/grant_requirements.html.

a) Mandatory Meetings

(i) Orientation Meeting

A mandatory two-day grantee orientation meeting will be conducted in Washington, D.C. All grantees should budget for two staff members, one program and one financial, to attend this meeting.

(ii) Grantee Exchange

Following the mandatory two-day grantee orientation meeting, a Grantee Exchange will be open to the awardee program representatives. The program representatives may attend the Grantee Exchange, and the awardees may send a trainer to attend the Grantee Exchange only. The financial representatives are not expected to attend the Grantee Exchange. These meetings are considered administrative and costs should be allocated to the budget accordingly.

b) Quarterly Reports

(i) Program Reports

A grantee is required to submit a quarterly progress report to their OSHA Regional Office within 30 days following the end of each fiscal quarter. The report includes a completed OSHA Form 171 Progress Report and an accompanying narrative of all grant activities conducted during the quarter.

OSHA Form 171 is a one page fillable spreadsheet used to document training sessions. Conferences do not count as training sessions. Training sessions for the same group of trainees that are conducted on more than one day may not be reported until the training is completed. Reminder for grants with multiple topics, a student may be counted towards the training numbers only once after they have completed the course of multiple topics. Students may not be counted under each separate topic. Sessions are to be reported in the quarter in which they end. A separate OSHA Form 171 is required to be submitted for each type (or tier) of training conducted in a quarter.

Each quarterly progress report should contain information on all work performed during the quarter. The purpose of evaluating progress made on work plan activities is to assess how well program

activity goals are being met. It involves collecting, analyzing, and using information to determine whether program benchmarks for the quarter were achieved, and to identify areas of improvement. The Progress Report Narrative should address the following areas:

- An evaluation of progress towards meeting the quarter's work plan activities, identifying successes, challenges, and if needed present a plans to rectify deficiencies in achieving the work plan goals
- Training materials development
- Recruiting activities
- Training conducted
- Training evaluation summary presented as an aggregate for the type of training conducted and the type of evaluation completed during the quarter
- Technical assistance activities, as applicable
- Targeted Topic Training and Educational Materials
Development grants must report the total number of unique Web site hits for published training materials

Continuous program activity progress monitoring is recommended. Describe the plan to evaluate the progress in accomplishing grant work activities listed in the application including comparing planned vs. actual accomplishments. Discuss who in the organization is responsible for taking corrective action if plans are not being met.

Training program evaluation (Level 1 and 2) activities shall include a description of the instructor(s) effectiveness, trainee retention of knowledge and skills, and positive impacts of training activities on work practices. To the extent possible, such evaluations shall include quantitative as well as qualitative results.

(ii) Financial Reports

A grantee is required to submit an electronic quarterly financial report through DOL E-Grants within 30 days following the end of each fiscal quarter (December 31, March 31, June 30, or September 30). The Standard Form (SF-425), Federal Financial Reports (FFR) are due within 30 days of the end of the reporting period are not later than January 30, April 30, July 30, and October 30.

c) Closeout Reports

(i) Program Closeout Report

A program closeout report is required to be submitted within 90-days after the end of the grant performance period. The cumulative report must summarize all activities conducted under the grant, explain how these activities enabled the grantee to accomplish the goals of

the grant, discuss successes and problems encountered, and provide the results of the evaluations. Results and findings from Level 1 and 2 evaluations must be summarized and submitted as a part of the program closeout report. Further guidance for preparing a program closeout report will be provided after receipt of a grant award.

As part of the program closeout report, all applicants are required to include the following:

- (i) A written self-certification that grant-funded programs and materials were not provided to ineligible audiences
- (ii) A written self-certification that any materials developed with grant funds are free from copyright infringements
- (ii) Financial Closeout Report

A financial closeout report, SF-425, shall be submitted electronically through DOL E-Grants no later than 90 days following completion of the grant period. For the grant ending on September 30, 2017, the electronic closeout report must be submitted no later than December 29, 2017.

d) Documentation

Additional documentation of grant activities may be requested throughout the grant cycle. Documentation requested may include, but are not limited to training sign-in sheets and training evaluation results, including tier 2 training by the train-the-trainers. Grantees are required to respond to the requests within the time schedule established as part of the request.

(6) Work Plan Quarterly Projections

For training and other quantifiable activities, project each quarter's accomplishment. Estimate how many activities (e.g., number of advisory committee meetings, classes to be conducted, number of workers and/or employers to be trained including contact hours (*select one number, not a range of numbers, e.g. 500 rather than 300 – 600*)) are expected to occur each quarter. State the number of trainee to be trained and the associated contact hours to be provided. Include other activities such as evaluations, unique Web site hits for training materials, etc. Quarterly projections should also include all activities related to developing, evaluating, validating, translating newly developed training materials, or researching and identifying existing training materials to be used. Provide the work plan activity totals for the grant year and substantiate the methodology used to develop the projections.

Grantees are accountable for accomplishing the activities listed in the work plans and meeting quarterly projections. Any deviations from the work plan must be discussed with OSHA. Quarterly projections are used to measure actual performance against the work plan and are reported to the Secretary of

Labor at the end of each quarter. Organizations selected for funding may be asked to establish monthly milestones and submit them to the Regional Office.

If the work plan includes a train-the-trainer program, estimate the number of individuals to be trained during the grant period in second tier training by those who received the train-the-trainer training (do not provide a range of numbers to be trained), and estimate the planned trainee training contact hours. To count second tier training numbers, the organization must formally follow-up with the trainers during the grant project performance period to obtain the training documentation records.

H. Attachments

Attachments to the application include other relevant organizational experiences, information on prior government grants, resumes of key personnel and/or position descriptions, and signed letters of commitment to the project. Limit the number of attachments to essential documents only, with a maximum of 20 pages. Budget information, as required in the following section, does not count toward the attachment page total. Acceptable formats for document attachments submitted as a part of a Grants.gov grant application include Microsoft Office, or Adobe Reader (PDF) format.

I. Budget Information

Applicants must include the following required budget documents.

1. SF-424A – Budget Information – Non-Construction Programs

The program budget must provide information on the 12-month project performance period, itemized to the appropriate cost categories and shown as either a program or administrative cost. A detailed budget narrative must support costs reported on this form (see Appendix A.)

2. Detailed Project Budget Support and Narrative

A Detailed Project Budget Support and Narrative must clearly detail the costs of performing all of the requirements of this funding opportunity announcement. The detailed project budget must support the costs shown on the SF-424A, Budget Information Form and support the break out the costs for the 12-month project performance period. Applicants should plan for a funding level based on funds needed to perform work plan and administrative activities for the 12-month project performance period. If training or professional development for staff is proposed, the detailed project budget must explain the purpose of the planned training. Only staff or professional development trainings taken expressly for the purpose of providing Harwood training to workers is allowable, as outlined in Section VI.I.6.b). Applicants should not submit proposals that exceed the maximum funding levels per grant categories as specified in Section III.

The Detailed Project Budget Support and Narrative must break out administrative costs separately from programmatic costs for both federal and non-federal funds.

Administrative costs include the direct costs of personnel who support the management and administration of the project, but do not provide direct services to the program (e.g., Authorizing and Financial Representative, administrative assistants). Travel costs to attend the OSHA required meetings, supplies and materials needed to complete administrative tasks, and costs to meet the reporting and closeout requirements as described in Section VI.G.4.b)(5), are also administrative costs. Indirect costs are additional administrative costs that are allocated from a cost pool that has been approved by a federal cognizant agency and supported with a copy of a current approved Indirect Cost Rate Agreement. Total administrative costs may not exceed 25% of the total grant budget (federal and non-federal funding). Examples of administrative and program costs are identified in Appendix A, Administrative and Program Cost Information. The project budget narrative should clearly demonstrate the total amount and distribution of funds is sufficient to cover the cost of all major project activities (Section VI.G.4.) identified by the applicant in its proposal, and must comply with federal cost principles found in the Uniform Guidance, 2 CFR 200 and 2 CFR 2900.

Applicants are reminded to budget for compliance with the administrative requirements set forth. Copies of all regulations that are referenced in this funding opportunity announcement are available online at no cost at http://www.osha.gov/dte/sharwood/grant_requirements.html. This may also include activities such as a financial audit, project closeout costs, document preparation (e.g., quarterly progress reports, project documents), and ensuring compliance with procurement and property standards.

3. Indirect Cost Allocation Agreement

If indirect costs are included as part of the program budget, a current Indirect Cost Rate Agreement approved by a federal cognizant agency must be included with the application. Indirect costs shall be included under the Administration section of the budget. If the organization does not have a current approved agreement, indirect cost may be estimated on the application, but a current approved Indirect Cost Rate Agreement will be required if an organization is awarded a grant. If an effective Indirect Cost Rate Agreement cannot be obtained, indirect costs will not be allowed as a program cost.

4. Non-federal Resource Contribution

Additional consideration will be given to applicants proposing to include non-federal resource contribution as part of the grant application. To support the non-federal resource contribution, the applicant must provide a description of any voluntary non-federal resource contributions including the source of funds, estimated amount, and acknowledge that use of the funds will be consistent with the goals and objectives of the Susan Harwood Training Grant Program. Non-federal resource contributions must meet the same criteria for allowability as other costs incurred and paid with federal funds.

5. Evidence of Non-Profit Status

Applicants must be a non-profit organization at the time of application submission and include current evidence of non-profit status from the Internal Revenue Service (IRS) or state. An applicant may show it is a nonprofit organization through any of the following means:

- (1) Proof that the Internal Revenue Service currently recognizes the applicant as tax exempt under the Internal Revenue Code, 26 U.S.C. § 501(c)(3);
- (2) A statement from a State taxing body or the State Secretary of State certifying that:
 - i. The organization is a nonprofit organization operating within the State; and
 - ii. No part of its net earnings may lawfully benefit any private shareholder or individual;
- (3) A certified copy of the applicant's certificate of incorporation or similar document that clearly establishes the nonprofit status of the applicant; or
- (4) Any item described in paragraphs (1) through (3) of this section, if that item applies to a State or national parent organization, together with a statement by the State or national parent organization that the applicant is a local nonprofit affiliate of the organization.

Indian tribes and other tribal organizations may submit equivalent documentation to show evidence of non-profit status. This does not apply to state and local government-supported institutions of higher education.

6. Funding Allocations, Restrictions, and Guidelines

a) Allowable Costs

Grant funds may be spent on the following:

- Developing and/or purchasing training and educational materials for use in training.
- Conducting training.
- Conducting other activities that reach and inform workers and/or employers about workplace occupational safety and health hazards and hazard abatement.
- Conducting outreach and recruiting activities to increase the number of workers and/or employers participating in the program.

b) Funding Restrictions

Under the terms of the grant agreement, grant funds may not be used for the following activities.

- Any activity that is inconsistent with the goals and objectives of the OSH Act of 1970
- Activities for the benefit of state and local government employees unless the employees have occupational safety and health responsibilities, examples

include occupational safety and health training; safety and health program management; membership on an employer, union or joint safety and health committee; and responsibilities for abatement of unsafe and unhealthful working conditions

- Program activities predominately involving self-employed workers or workplaces that are largely precluded from enforcement action by OSHA under section 4(b)(1) of the Act, codified at 29 U.S.C. 653(b)(1)
- Training on topics that do not cover the recognition and prevention of unsafe or unhealthy working conditions, examples of unallowable costs include workers' compensation, first aid, and publication of materials prejudicial to labor or management
- Assisting workers in arbitration cases or other actions against employers, or assisting workers and/or employers in the prosecution of claims against federal, state or local governments
- Duplicating services offered by OSHA, a state under an OSHA-approved State Plan, or consultation programs provided by state designated agencies under section 21(d) of the OSH Act, codified at 29 U.S.C. 670(d)(1)
- Conducting any of the OSHA Outreach Training Program classes
- Conducting courses that are presented by the OSHA Training Institute or its OSHA Training Institute Education Centers
- Providing staff development training to grantee employees or contractors unless it is expressly for providing Harwood training to workers
- Conducting or providing training through any pre-existing, proprietary, or industry training or certification programs
- Generating membership in the grantee and/or partner's organization including activities to acquaint nonmembers with the benefits of membership, inclusion of membership appeals in materials produced with grant funds, and membership drives
- Reimbursing the cost of lost-time wages paid to trainees while attending grant-funded training
- Providing any compensation or stipends to trainees prior to, during, or after attending grant-funded training for any grant related activities
- Providing food and beverages
- Exceeding 25% of the total grant budget for direct and indirect administrative costs
- Duplicating services of other federal and/or state agencies
- Proposing training required by other federal and/or state agencies

While the activities described above may be part of an organization's regular programs, the costs of these activities may not be paid with grant funds, whether the funds are from non-federal matching resources or from the federally funded portion of the grant.

All proposed costs must be necessary, reasonable, and in accordance with federal guidelines. Determinations of allowable costs will be made in accordance with the Cost Principles found in the Uniform Guidance 2 CFR 200 and in 2 CFR 2900. Disallowed costs are those charges to a grant that the grantor agency or its representative determines not to be allowed in accordance with the applicable federal cost principles or other conditions contained in the grant.

No applicant at any time will be entitled to reimbursement of pre-award costs.

c) Funding Guidelines

(1) Cost per Trainee and Training Hour

The cost per trainee must be less than \$500 and the cost per training hour must not exceed \$125. Estimates for cost per trainee and cost per training hour should be clearly identified in the grant application. Calculations should be based on the total projected number trained and total contact hours as presented in the applicant's work plan (Section VI.G.4.b)(3h)). Please use the following formulas to calculate these costs:

Cost per trainee = total grant cost (include federal and non-federal) / the total projected number trained

Cost per training hour = total grant cost (include federal and non-federal) / the total projected number of contact hours for all training

(2) Equipment

The intent of the Susan Harwood Training Grant Program is to provide training and/or training products that support additional training. Applications should focus on the development and delivery of training and educational materials. Budgeting for equipment should be minimal and supported with a justification as to how the equipment will support the program. Capital equipment purchases will not be considered under this funding opportunity. Capital equipment has a useful life of more than one year, exceeds the threshold of \$5000, and may be depreciation for tax purposes.

d) Subcontracting Opportunities

In keeping with the policies outlined in Executive Orders 13256, 12928, 13230, and 13021 as amended, the grantee is strongly encouraged to provide subcontracting opportunities to Historically Black Colleges and Universities, Hispanic Serving Institutions, and Tribal Colleges and Universities.

J. Submission Date and Time

1. Deadline Date

The deadline date for receipt of applications is Tuesday, June 28, 2016. Applications must be received by 11:59 p.m., ET, on the closing date at <http://www.grants.gov>. Any application received after the deadline will not be accepted.

OSHA strongly encourages organizations to submit the grant application in sufficient time to ensure that the application has been received and successfully validated by Grants.gov by the application deadline.

2. Electronic Submission of Applications

Applications for Susan Harwood grants under this funding opportunity announcement must be submitted electronically using the government-wide Grants.gov Apply site at: <http://www.grants.gov>. Through this site, organizations will be able to download a copy of the application package, complete it offline, and then upload and submit the full application. Acceptable formats for document attachments submitted as a part of a Grants.gov grant application include Microsoft Office and the Adobe Reader (PDF) format. The Susan Harwood grant application package at: <http://www.grants.gov> contains a menu of “Mandatory Documents” that must be completed and submitted online. The menu of “Mandatory Documents” may only be located after opening the grant package. Applications sent by mail or other delivery services, email, telegram, or facsimile (FAX) will not be accepted. Applications that do not meet all of the conditions set forth in this notice may be considered non-viable and may not be given further consideration as specified in Section V.E.

For applicants with prior experience using Grants.gov, registration must be accurate and up-to-date in Grants.gov and with the System for Award Management (SAM) prior to submitting an application. If the organization is already registered with Grants.gov and there have been any changes to the organization users, such as the E-Biz POC or AORs, please be sure the necessary updates are made with Grants.gov to prevent a delay in submission of the electronic application. Please note that registered organizations must also renew with SAM at least every 12 months and ensure the information is kept current. This process takes a minimum of five days to complete. This additional time should be factored into an applicant’s plans for electronic application submission to avoid unexpected delays that could result in the rejection of the application.

For applicants using Grants.gov for the first time, it is strongly recommended that the organization immediately register with Grants.gov at <http://www.grants.gov/web/grants/applicants/organization-registration.html>. Organizations new to SAM will need to allot an additional 14 days for registration in order to receive a Commercial and Government Entity (CAGE) code through the Department of Defense’s Defense Logistics Agency.

The five steps in registering an organization in Grants.gov are as follows:

1. Obtain a DUNS Number for the Organization. Information about obtaining a DUNS Number is available from the Grants.gov Web site

at: <http://www.grants.gov/web/grants/applicants/organization-registration/step-1-obtain-duns-number.html>.

2. Register with the System for Award Management (SAM). SAM is a government-wide application for trading partners doing business with the federal government. During this process, there will be a prompt to identify the organization's E-Business Point of Contact (E-Biz POC). It is the E-Biz POC within the organization who must register with SAM. The E-Biz POC will be responsible for authorizing members of the organization, Authorized Organization Representatives (AORs) to submit applications at Grants.gov.
3. Grants.gov Username and Password. To become an Authorized Organization Representative (AOR) a profile must be created. Subsequently, a username and password will be created. The organization's DUNS number is needed to complete this process.
4. Authorized Organization Representative (AOR) Authorization. When an AOR registers with Grants.gov, the organization's E-Biz POC will receive an email notification. The E-Biz POC must then login to Grants.gov (using the organization's DUNS number for the username and the "MPIN" password obtained in Step 2.) and approve the AOR, thereby giving permission to submit applications. This safeguards the organization from individuals who may attempt to submit grant application packages without permission. Only one E-Biz POC is assigned for each of an organization's DUNS number. If the organization only has one DUNS number, then there will be only one E-Biz POC for the organization.
5. Track AOR Status. The purpose of this step is to verify that the organization's E-Biz POC has approved an AOR. AORs can track the status at any time by clicking the Applicant Login link on the home page under "Quick Links" using the username and password (obtained in Step 3.) to check if they have been approved. Organizations cannot apply for grants without an approved AOR.

These steps require multiple days for completion. This additional time must be factored into an applicant's plans for electronic application submission to avoid unexpected delays that could result in the rejection of the application.

The Grants.gov Web site has several tools and documents available online to assist organizations with the Grants.gov process. Further information is available from the Applicant Resources section

at: <http://www.grants.gov/web/grants/applicants/applicant-resources.html>.

Applicants are strongly encouraged to review the Grants.gov user guide. The link to the guide is located under "Applicant Resources," just click on Grants.gov Applicant User Guide (pdf). An Organization Registration Checklist is also available in the Applicant Resources section.

NOTE: In some organizations, a person may serve as both an E-Biz POC and an AOR. In this case, the same individual will need to perform the step of approving themselves as an AOR. E-Biz POC's who want to submit applications through Grants.gov, will need to register with Grants.gov as an AOR, using an alternate email

than the one used in correlation with the E-Biz POC, to authorize themselves as an AOR.

An application submitted through Grants.gov constitutes a submission as an electronically signed application. The registration and account creation with Grants.gov, with E-Biz POC approval, establishes an AOR. When an application is submitted through Grants.gov, the name of the AOR on file will be inserted into the signature line of the application. **You must register the individual who is able to make legally binding commitments for your organization as the AOR; this step is often missed and it is crucial for valid submissions.**

If there are questions regarding the process for updating the organization users or submitting the application through Grants.gov, or problems are experienced with electronic submissions, contact the Grants Program Management Office via one of the methods below:

1. E-mail support@grants.gov
2. Telephone the Grants.gov Contact Center Phone: 1-800-518-4726. The Contact Center is open 24 hours a day, 7 days a week except on federal holidays.
3. When contacting the Grants Program Management Office, the following information will help expedite the inquiry:
 - Funding Opportunity Number (FON)
 - Name of Agency to which the Organization is Applying
 - Specific Area of Concern

If applying online poses a hardship, applicants must contact the OSHA Directorate of Training and Education office listed in the announcement at least four weeks prior to the application deadline date of 11:59 p.m., ET, Tuesday, May 31, 2016, to speak to a representative who can provide assistance to ensure applications are submitted online by the closing date. Requests for extensions to the grant application deadline will not be granted.

Applicants are limited to using the following characters in all attachment file names: A-Z, a-z, 0-9, underscore (_), hyphen (-), parenthesis (), curly brackets ({}), square brackets ([]), tilde (~), exclamation point (!), comma (,), dollar sign (\$), percent sign (%), plus sign (+), equal sign (=), space, and period. File attachment names should be no longer than 50 characters to avoid submission and processing errors. While Grants.gov may accept more characters, DOL E-Grants may not accept characters other than what is listed above. Use the appropriate characters to ensure OSHA can view the file attachments.

3. Confirmation of Grant Application Receipt from Grants.gov
 - a) Once the grant application has been submitted through the Grants.gov system, it will be processed. Electronically submitted applications must be received at Grants.gov by 11:59 p.m., ET, on the due date. Any application received after the deadline will not be accepted. Once the submission has been processed,

Grants.gov will send email messages advising of the progress of the application through the system. Applicants are strongly encouraged to utilize the “Track My Application” link that the Grants.gov system will provide in its email message to monitor the processing status of the grant application within the Grants.gov system.

- b) Within 24 to 48 hours of the submission, two emails should be received.
 - (1) The first email will acknowledge submission of the application by the Grants.gov system.
 - (2) The second email will indicate one of the following:
 - a) “Received by Agency” – this means that the application was successfully validated by the system prior to transmission.
 - b) “Rejected with Errors” – this means the application contained errors and was rejected by Grants.gov.
 - o Organizations, whose application was rejected due to a technical or system issue such as a file naming convention, will be given 72 hours to address the issue and resubmit the application.
 - o Organizations whose application was rejected due to an unapproved Authorized Organization Representative (AOR), or because the organization does not have a current registration with System of Award Management (SAM), will be considered non-viable and will not be given further consideration as outlined in Section V.E.
Organizations new to SAM will need to allot an additional 14 days for registration in order to receive a Commercial and Government Entity (CAGE) code through the Department of Defense’s Defense Logistics Agency.

K. Intergovernmental Review

The Susan Harwood Training Grant Program is not subject to Executive Order 12372 Intergovernmental Review of Federal Programs.

VII. APPLICATION REVIEW INFORMATION

Grant applications will be reviewed by OSHA staff. The results of the grant reviews will be presented to the Assistant Secretary of OSHA, who will make the selection of organizations to be awarded grants. OSHA may award grants for some or all of the categories and OSHA topic areas. It is anticipated that the grant awards will be announced no later than September 30, 2016.

A. Evaluation Criteria

Technical panels will review applications against the criteria, Table 4, based on 100 maximum points. Details on each required component may be found in Section VI.G.

Table 4. Evaluation Criteria Applicability and Points per Grant Category

	Targeted	Targeted Topic
--	-----------------	-----------------------

Required Component	Topic Training	Training and Educational Materials Development
1) Problem Statement/Need for Funds a) Grant Category b) Target Population c) Topic d) Training and Educational Materials	10 pts	25 pts
2) Administrative and Program Capability of the Organization a) Organizational Experience b) Occupational Safety and Health Experience c) Grant Experience d) Distribution Network e) Program Experience f) Evaluation of Training Activities Experience g) Management and Internal Control Systems h) Organizational Chart	15 pts	15 pts
3) Staff Experience a) Occupational Safety and Health Experience b) Training Experience	10 pts	25 pts
4) Work Plan a) Work Plan Overview b) Work Plan Activities i) Training and Educational Materials ii) Recruiting Plan iii) Training iv) Training Evaluation v) Meetings, Reporting, and Documentation vi) Work Plan Quarterly Projections	55 pts	25 pts
5) Budget Information a) Budget Information form (SF-424A) b) Detailed Project Budget c) Accounting System Certification d) Indirect Cost Allocation Agreement e) Non-federal Resource Contribution f) Evidence of Non-Profit Status g) Funding Allocations, Restrictions, and Guidelines	10 pts	10 pts

Total	100 pts	100 pts
-------	---------	---------

B. Review and Selection Process

OSHA will screen all applications to determine whether they were viable based on the criteria outlined in Section V.E. Applications not complying with one or more of the requirements identified in Section V.E. will be deemed non-responsive and may not be evaluated. A technical panel will objectively rate each complete application against the criteria described in Section VII.A. of this announcement. The panels’ recommendations to the Assistant Secretary are advisory in nature. The Assistant Secretary may establish a minimally acceptable rating range for selecting qualified applicants. The Assistant Secretary will make a final selection determination based on what is most advantageous to the government, considering factors such as panel findings, geographic presence of the applicants, Agency priorities, the best value to the government, cost, and other factors. The Assistant Secretary’s determination for award under this funding opportunity announcement is final.

C. Anticipated Announcement and Award Dates

Award announcements are expected to occur no later than September 30, 2016.

VIII. AWARD NOTIFICATION INFORMATION

A. Award Notification and Program Revisions

Organizations selected as grant recipients will be notified by a representative of the Assistant Secretary. An applicant whose proposal is not selected will be notified in writing.

Notice that an organization has been selected as a grant recipient does not constitute approval of the grant application as submitted. Before the actual grant award, OSHA will enter into negotiations concerning such items as program components, staffing and funding levels, and administrative systems. If the negotiations do not result in an acceptable submittal, the Assistant Secretary reserves the right to terminate the negotiation and decline to fund the proposal. All revised documents must be received no later than October 14, 2016.

The government may elect to award the grant(s) with or without negotiations with the applicant. Should a grant be awarded without negotiations, the award will be based on Authorized Representative’s signature on the SF-424, Section 21, including electronic signature via E-Authentication on <http://www.grants.gov>, which constitutes a binding offer by the applicant.

NOTE: Except as specifically provided, OSHA’s acceptance of a proposal and an award of federal funds to sponsor any program(s) does not provide a waiver of any grant requirement or procedures. For example, if an application identifies a specific sub-contractor to provide services, but does not provide the justification or basis to sole-source, costs associated with this cost may not be allowed.

B. Request for Application Comments

After the eventual selections are announced, applicants may request feedback comments from OSHA. The request may be sent by email or mail, but must be sent no later than March 31, 2017. To receive comments on the grant application, the organization's authorized representative as stated on the application's Program Summary page must send a written request on organization letterhead with the following information:

1. Grant Category and OSHA Topic
2. Grants.gov Tracking Number
3. Complete Mailing address, including zip + 4
4. Phone number

The authorized representative may send an email request to HarwoodGrants@dol.gov, or mail the request to the attention of the Susan Harwood Program Coordinator:

Attn: Donna Robertson
U.S. Department of Labor
Occupational Safety and Health Administration
Directorate of Training and Education
2020 S. Arlington Heights Road
Arlington Heights, IL 60005-4102

IX. POST AWARD ADMINISTRATIVE AND NATIONAL POLICY REQUIREMENTS

A. Applicable Federal Laws

All grantees, including faith-based organizations, will be subject to applicable federal laws and regulations (including provisions of appropriations law) and the applicable OMB Uniform Guidance. Grantees are required to cooperate with all federal, state, and local requirements. The grant award(s) awarded under this funding opportunity announcement will be subject to the following administrative standards and provisions, as applicable to the particular grantee:

1. 29 CFR 2, Subpart D, new equal treatment regulations
2. 29 CFR Parts 31, 32, 35 and 36 as applicable
3. 29 CFR 93, restrictions on lobbying
4. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), which covers grant requirements for nonprofit organizations, including universities and hospitals. (<http://www.gpo.gov/fdsys/pkg/FR-2013-12-26/pdf/2013-30465.pdf>)
5. 2 CFR 2900, Department of Labor exceptions to the OMB Uniform Guidance. (<http://www.gpo.gov/fdsys/pkg/FR-2014-12-19/pdf/2014-28697.pdf>)
6. General Terms and Conditions of Award – See the following link: http://www.osha.gov/dte/sharwood/grant_requirements.html

B. Reporting

Grantees are required by Departmental regulations to submit program and financial reports each calendar quarter. All quarterly reports are due no later than 30 days after the end of the fiscal quarter. In addition, grantees are required to submit grant program and financial closeout reports within 90 days after the grant termination or expiration date. Detailed information on the report requirements are included in Section VI.G.4.b)(5).

C. Grant Produced Training Materials

OSHA has a lending program that circulates grant-produced audiovisual materials. Audiovisual materials produced by the grantee as a part of its grant program may be included in this lending program. Two copies of all final product materials produced by grantees must be provided to OSHA in bound and clearly labeled hard copies as well as two copies in a digital format (CD Rom/DVD/flash drive), per Section VI.G.4.b0(1)(f.) for possible publication on the Internet by OSHA. All final product materials must be submitted following guidelines established in Appendix B, Procedures for Submitting Electronic Copies of Grant-Funded Materials.

As stated in 2 CFR 200.315, DOL reserves a royalty-free, nonexclusive and irrevocable right to reproduce, publish, or otherwise use for federal purposes any work produced under a grant, and to authorize others to do so. Applicants should note that grantees must agree to provide DOL a paid-up, nonexclusive, and irrevocable license to reproduce, publish, or otherwise use for federal purposes all products developed, or for which ownership was purchased, under an award including, but not limited to, curricula, training models, technical assistance products, and any related materials, and to authorize the others to do so. Such uses include, but are not limited to, the right to modify and distribute such products worldwide by any means, electronic or otherwise.

D. Public Reference to Grant

When issuing statements, press releases, requests for proposals, bid solicitations, and other documents describing projects or programs funded in whole or in part with federal money, all grantees receiving federal funds must clearly state:

- the percentage of the total costs of the program or project that will be financed with federal money;
- the dollar amount of federal financial assistance for the project or program; and

- the percentage and dollar amount of the total costs of the project or program that will be financed by non-governmental sources.

Use of the DOL or OSHA Logo

Neither the DOL nor OSHA logo may be applied to any grant products developed with grant funds.

Appendix A – Administrative and Program Cost Information

As described in the funding opportunity announcement (FOA), the Detailed Project Budget Support and Narrative must break out administrative costs separately from programmatic costs for both federal and non-federal funds. Administrative costs include direct and indirect costs. Indirect costs are from the costs pool and the cost of activities, materials, meeting closeout requirements, and personnel (e.g., administrative assistants) who support the management and administration of the project, but do not provide direct services to project beneficiaries. Indirect cost charges, which are considered administrative costs, must be supported with a copy of a current approved Indirect Cost Rate Agreement form. The total direct and indirect administrative costs allocated to the program may not exceed 25% of the total grant budget (federal and non-federal funding).

All program costs must be identified as either an administrative cost or a program costs.

ADMINISTRATIVE COSTS

1. General administrative functions and coordination of functions:
 - accounting
 - audits
 - budgeting
 - financial and cash management
 - general legal services functions
 - payroll functions
 - personnel management
 - procurement
 - property management
 - purchasing
 - report preparation
 - review resolution
 - development of systems and procedures for administrative functions
2. Costs of goods and services required for administrative functions of the program, including goods and services such as:
 - advertising and outreach services targeted to the general public
 - internet services
 - office supplies
 - postage
 - rental and maintenance of office space

- rental/leasing and maintenance of equipment (copiers, printers, etc.)
 - utilities
3. Travel costs incurred for official business in carrying out administrative activities or the overall management of the grant. Travel to the OSHA Orientation Meeting and Grantee Exchange is considered administrative activities.
 4. The purchase, systems development, and operating costs of information systems related to administrative functions. For example:
 - personnel
 - procurement
 - purchasing
 - property management
 - accounting and payroll systems
 5. The portion of awards to subrecipients or vendors that is for the performance of administrative functions.

PROGRAM COSTS

1. All costs incurred directly for functions and training activities including salaries for personnel providing direct training to workers and employers.
2. The purchase, systems development, and operating costs (e.g. data entry costs) of the following information systems are charged as a program cost:
 - Tracking or monitoring of participant information including basic worker information, employer information, and other statistical information relevant to program evaluations
 - Performance and program cost information on training services and activities
3. Costs of goods and services required for direct program functions, including goods and services such as:
 - advertising and outreach services specific to recruiting the target audience to attend training
 - training supplies, including local reproduction
 - rental or purchase of training equipment
 - rental and maintenance of training space
4. Travel costs incurred for official business in carrying out training activities.
5. The portion of awards to subrecipients or vendors that is for the performance of program functions.

6. The portion of indirect costs determined as a proportionate share of the indirect costs in the indirect cost pool, which are the costs of program functions, not administrative functions (see indirect costs below).

SHARED ADMINISTRATIVE AND PROGRAM COSTS

Personnel and related non-personnel costs of staff that perform both administrative functions and programmatic services are to be allocated as administrative costs or program to the benefitting cost objectives/categories based on documented distributions of actual time worked and other equitable cost allocation methods.

INDIRECT COSTS

As specified in the Uniform Guidance 2 CFR 200, indirect costs are those that have been incurred for common or joint purpose benefitting more than one cost objective and not be readily assignable with a particular final cost objective. An indirect cost rate is required when an organization operates under more than one grant or other activity, whether federally assisted or not.

1. Indirect costs represent the expenses of doing business that are not readily identified with a particular grant, contract, project function or activity, but are necessary for the general operation of the organization and the conduct of activities it performs.
2. An indirect cost rate is a mechanism for determining fairly and conveniently within the boundaries of sound administrative principle, what proportions of organization administration costs each program should bear.
3. Indirect costs are only allowable with an approved Indirect Cost Rate Agreement (ICRA). ICRA's are negotiated and approved by the cognizant federal agency. An agreement from any federal agency is applicable to all federal grant programs. The ICRA will include a rate (percentage) and a base. The allowable amount of indirect costs is simply the rate times the base. Rates and bases depend on the size and number of cost pools, and organization structure.
4. Indirect costs are considered an administrative cost, and the total administrative and indirect costs allocated to the program may not exceed 25% of the total grant budget.

Appendix B – Procedures for Submitting Electronic Copies of Grant-Funded Materials

As described in the funding opportunity announcement (FOA), any materials (training, marketing, etc.) distributed during the grant period are required to be reviewed by OSHA. In addition, electronic and paper copies are required to be submitted by the end of the grant period. The purpose of the electronic copies is to be able to share the materials with the public via the OSHA Web site. These instructions were developed to standardize submittal procedures for the grant-funded training materials.

1. Material Requirements. When submitting grant-funded training materials make a note of the following:

- a. The word “draft” must not appear on any materials (print or electronic) submitted to OSHA as the final version. If the materials were produced in a non-English language, a final English version must also be submitted.
- b. Training materials must be generic and appropriate for all audiences. References to training of specific groups, members of a group, or individuals should not be included in the final submittal. This includes personal information such as the instructor names, addresses, cell phone numbers, email addresses, etc.
- c. Promotional materials may include the grantee organizational information including phone numbers, email addresses, etc.
- d. If a test is included, ensure that the test and test answers are provided.
- e. In all circumstances, all approved grant-funded materials developed by a grantee shall contain the following disclaimer:

This material was produced under grant number _____ from the Occupational Safety and Health Administration, U.S. Department of Labor. It does not necessarily reflect the views or policies of the U.S. Department of Labor, nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. Government.

Applicants using previously approved Susan Harwood training materials should retain the original grant number in the disclaimer. If revisions are made to the materials, OSHA must approve the revisions. Once OSHA approves the revisions, the applicant may add a sentence after the disclaimer stating that the materials were revised under the applicant’s grant number.

- f. A list of other training materials used during the grant period, including previously approved materials developed under a Susan Harwood grant. This list should include:
 - i. The title of the material.
 - ii. The author of the material.
 - iii. Information on how to acquire the material.
 - iv. The type of material and how the materials were used, i.e., instructional, recruiting, evaluating, audiovisual.

2. Required Programs: Grant-funded training materials must be provided in a format that is widely accessible to the public. Microsoft Office 2003, 2007, or 2010 formats, as indicated below, meet this requirement. Currently there is no preferred program for providing media files.
 - a. Word Files: Manuals and other print materials must be submitted as Word 2003, 2007, or 2010 documents.
 - b. PowerPoint Files:
 - i. Must be submitted as .ppt or .pptx files. “Show” format is not acceptable.
 - ii. Photographs and other images must be compressed in JPEG format.
 - iii. If the presentation includes linked or embedded audio or video files, two copies of the presentation must be provided. One copy must not contain any linked or embedded files.
 - iv. Presenter notes or a transcript of the presenter notes must be included.
 - c. Media Files (Only for online courses): Must be ADA compliant.
 - i. Images such as photographs must have descriptive captions.
 - ii. Audio files must have transcripts.
 - iii. Video files must be captioned and have transcripts.
3. Submitting Materials. All grant-funded training materials must be submitted in both print and electronic format. Review the FOA for the appropriate number of copies that are required to be submitted. Please note the following:
 - a. A list of materials being submitted by the grantee should be provided.
 - b. A list of other materials used.
 - c. Printed documents must be submitted in a bound format, for example spiral-bound or 3-ring binder.
 - d. Produced materials that are not practical for mailing, banners, etc. should be photographed and photo included with the submitted materials.
 - e. All electronic files of grant-funded materials must be test-based. Electronic files are restricted to those smaller than 15MB. This may require the grantee to split files.
 - f. The CD, DVD, or USB flash drive must be clearly labeled with the grantee’s organization and the grant number (SH-XXXXX-SHX), where XXXXX is the 5-digit grant number and the last X is the last digit of the fiscal year for which the grant was awarded.
 - g. The electronic files on the CD, DVD, or USB flash drive must be clearly labeled by type of material (examples):
 - i. Instructor Manual
 - ii. Student Manual

- iii. Pre-Test
- iv. Post-Test
- v. Evaluation Form
- h. Check the CD, DVD, or USB flash drive before sending to ensure that all of the files will open.
- i. Check the CD, DVD, or USB flash drive before sending to ensure that all grant-funded materials are included.
- j. Files should be provided in a readily usable format. Therefore, files must not be password protected, “read only” format, or encrypted.

Authority: Section 21 of the Occupational Safety and Health Act of 1970. (29 U.S.C. 670), Public Law 111-117, and Public Law 112-10.

OMB Approval No.: 1225-0086

Expiration Date: 05/31/2019

OFFICE OF MANAGEMENT AND BUDGET INFORMATION COLLECTION REQUIREMENTS

This FOA requests information from applicants. This collection of information is approved under OMB Control No. 1225-0086 (Expires 05/31/2019).

In accordance with the Paperwork Reduction Act of 1995, no person is required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for the grant application is estimated to average 56 hours per response, for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimated or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Labor-OASAM, Office of the Chief Information Officer, Attn: Departmental Information Compliance Management Program, Room N1301, 200 Constitution Avenue NW., Washington, DC 20210; or by email: DOL_PRA_PUBLIC@dol.gov. A copy of your comments may be sent electronically to the Susan Harwood Grant Coordinator at HarwoodGrants@dol.gov, or by mail to Susan Harwood Grant Coordinator, 2020 S. Arlington Heights Road, Arlington Heights, Illinois 60005.

This information is being collected for the purpose of awarding a grant. Unless otherwise specifically noted in this announcement, information submitted in the respondent’s application is not considered to be confidential.
