New Compliance Assistance Resources:
OSHA, Harwood Grantee, Alliance Program, and NIOSH
(FY 2016 Q1: Oct. 1 to Dec. 31, 2015)

I. OSHA Compliance Assistance Products ................................................1
II. Harwood Grant Materials ........................................................................6
III. Alliance Program Materials ....................................................................7
IV. NIOSH Resources ......................................................................................8

I. OSHA Compliance Assistance Products

OSHA issued the following new or updated compliance assistance products in the first quarter of FY 2016. For a listing of all new compliance assistance products issued by OSHA, see OSHA’s New Compliance Assistance Products Web page.

OSHA Web Resources

Reporting a Fatality or Severe Injury (updated 2015, December)

This page summarizes how employers can meet the requirement to notify OSHA when an employee is killed on the job or suffers a work-related hospitalization, amputation, or loss of an eye. The page now allows employers to submit reports online.
## 2016 National Safety Stand-Down to Prevent Falls in Construction (2015, December)

OSHA, NIOSH, and the Center for Construction Research and Training will hold the third annual National Safety Stand-Down on May 2-6, 2016. Falls are the leading cause of death in the construction industry, and lack of proper fall protection remains the most frequently cited violation by OSHA. This year, the stand-down will highlight ladder safety and encourage employers to pause during their workday for topic talks, demonstrations, and training.

### Hazard Communication (updated 2015, October)

This updated web page incorporates drop-down tabs to all topics related to the revised standard, including access to letters of interpretation, the standard, guidance documents and frequently asked questions.

### Preventing Workplace Violence in Healthcare (2015, November)

This new web page addresses workplace violence prevention in healthcare settings. It contains tools to help healthcare facilities design a violence prevention program. The page also provides real-life examples from healthcare facilities that have integrated successful workplace violence prevention programs.
Featured OSHA Publications

Draft OSHA Safety and Health Program Management Guidelines (2015, November)

OSHA has issued a draft updated version of its voluntary Safety and Health Program Management Guidelines, first published in 1989. The guidelines are intended to help employers establish safety and health plans at their workplaces. OSHA is accepting public comments until Feb. 15, 2016.

Trenching and Excavation Safety. OSHA Publication 2226 (updated 2015, October)

This updated booklet highlights key elements of the applicable workplace standards and describes safe practices that employers can follow to protect workers from cave-ins and other hazards.

**OSHA Videos**

---

**Temporary Worker Safety and Health** *(2015, November)*

In this video, OSHA Assistant Secretary Dr. David Michaels emphasizes the shared responsibility of staffing firms and host employers in ensuring the safety and health of temporary workers. Dr. Michaels is joined in the video by Stephen Dwyer, general counsel of the American Staffing Association, an OSHA Alliance participant.

---

**2016 Step Up for Safety in the Upstream Oil and Gas Industry** *(2015, December)*

Dr. David Michaels of OSHA and Dr. John Howard of NIOSH thank participants in the 2016 Step Up for Safety in the Upstream Oil and Gas Industry. The initiative consists of safety stand-down events for the oil and gas industry organized through an Alliance between OSHA, NIOSH and the National Service, Transmission, Exploration & Production Safety (STEPS) Network.
Compliance Assistance Specialists (CASs) and other OSHA staff conduct outreach activities around the country. The following highlights some recent outreach activities.

**OSHA’s Little Rock, Arkansas Area Office Holds Stand-Down to Prevent Amputations.** (2015, October).

In response to a high number of workplace amputations in Arkansas, OSHA’s Little Rock, Arkansas Area Office worked with the Arkansas Consultation Program and other organizations to hold a stand-down event in September 2015 to raise awareness of amputation hazards. As a result of the stand-down, 16,451 participants received amputation awareness training, 2,723 self-audits were conducted, 3,380 hazards were identified, and 7,416 workers were removed from identified amputation hazards.

No new materials developed by grantees under OSHA’s Susan Harwood Training Grant Program were posted on the OSHA Web site in the first quarter of FY 2016. See the [OSHA Web site](http://www.osha.gov) for a complete list of materials developed by Harwood grantees. These materials do not necessarily reflect the official views of OSHA.
The following products were issued by OSHA’s Alliance Program participants as part of the Alliance Program in the first quarter of FY 2016. These products do not necessarily reflect the official views of OSHA. For a complete listing of Alliance products, see the Alliance Program Participants Developed Products page.

### Cold Illness Identification Toolbox Talk (2015, November)

Through the OSHA and Airline Ground Safety Panel (AGSP) Alliance, the AGSP developed a toolbox talk that identifies the symptoms and appropriate responses to cold stress and how to prevent it.

### Protecting Patients and Staff from Infection Risks: Cleaning and Disinfecting Environmental Surfaces (2015, October)

Through the OSHA and Joint Commission/Joint Commission Resources Alliance, the Joint Commission developed this article on preventing infections at health care facilities while protecting workers from health hazards associated with cleaning products.
The NIOSH Fatality Assessment and Control Evaluation (FACE) Program conducts investigations on workplace fatalities to identify the factors that contributed to these fatal injuries. This information is used to develop comprehensive recommendations for preventing similar deaths. The NIOSH Fatality Assessment and Control Evaluation (FACE) Program issued the following reports and products in the first quarter of FY 2016.

**Featured FACE Reports and Products**

**New Jersey FACE Infographic: Hispanic Workplace Fatalities in New Jersey** (2015, November)

This infographic highlights statistics on workplace fatalities of Hispanics in New Jersey from 1990 to 2013. The infographic is also available in Spanish.

**New York FACE Video: Plumber Killed in a Catastrophic Trench Collapse** (2015, November)

This video reviews a FACE report about a plumber who was killed in a trench collapse in New York.

### NIOSH Workplace Solutions

The **NIOSH Workplace Solutions series** offers easy-to-understand recommendations that turn the results of NIOSH research into occupational safety and health practice. NIOSH issued the following Workplace solutions in the first quarter of FY 2016:

- **Preventing Hazardous Noise and Hearing Loss during Project Design and Operation** (2015, November)
Safety Matters, NIOSH and the American Industrial Hygiene Association (AIHA) (Nov. 2015)

NIOSH and AIHA developed this program to raise awareness among young people about workplace safety and health. *Safety Matters* is a one-hour interactive teaching module and PowerPoint presentation targeted to students in grades 7 through 12. It can be used by safety professionals to equip young people with the skills and knowledge they need to participate in safe and healthy work environments throughout their working lives. See the NIOSH Science Blog for more information.
