

OSHA Information System
UPA One Liner Detail
Receipt Date From 2/24/2020 To 4/6/2020

Purpose/Description

CAUTION: If you run this report for a date range of more than a few months and attempt to save it as a CSV, the report may not download. This is due to the large amount of data being compiled. If you attempt to run it and are unable to save it as a CSV, please contact the OIS help desk with the parameters you need the report run by.

This report provides a list of Unprogrammed Activities, including Complaints, Referrals, and Fatality/Catastrophes based on the selection of several prompts. The list will contain important details on each activity including the response times for these activities. Legacy cases are excluded.

This report will sort by RID, Activity ID and then Establishment Name.

Note:

- Activity Type is indicated by F for Fatality/Catastrophe, C for Complaint, and R for Referral in the Activity ID Column.
- Fatality/Catastrophes UPAs are indicated as Closed when saved Final and Marked as Inspection = N, or Marked as Inspection = Y and related Inspection entered and saved Final.
- For each UPA, the earliest inspection (the first one entered in the system) is displayed in the report.
- * New Prompt for Hazard and Location String Search allows users to get only those records with given search string. Enclose the search string by "%" sign in beginning as well as end e.g. to search for "forklift" the prompt value should be "%forklift%". Enter the search string/s (3 maximum) in lowercase only

Prompts	Selected Values
RID	All

/	/			<p>With the current Coronavirus outbreak, the owners, and upper management will not let us change business practices. Other companies in the supply industry have initiated drastic measures to ensure the safety and well being of their employees. Other companies have instituted policies that do not allow customers in the showrooms and instead have went to a curbside style delivery system. Customers can call or email their orders and the orders will be picked and left on a secure place outside. This eliminates the risk of a sick person spreading the virus to the employees. With this being said, Johnstone Supply will not let us switch to a curbside pickup and they insist on the customers being able to be served at the counters. With this practice of employees having to directly interact with a potentially infected person, there is a total disregard and neglect of the employees well being. All inside and outside sales staff are being permitted to work from home and not have any personal contact with customers. The counter personnel and warehouse personnel are not being afforded the same safety practices as the sales staff and upper management. We have been instructed to use our PTO or take unpaid leave if we dont feel safe. When you have customers coming in from all different regions that have been interacting with numerous other people on a daily basis, how could you feel safe.</p>	1/2	-
/	/			<ol style="list-style-type: none"> 1. No PPE for COVID 19 protection 2. Timeclock has no wipes or hand sanitizer nearby 3. Workers continue to work with sick symptoms and not enforced to go home <p>Updated 3/25/20 Also include the 100 Smorgon Way, Troutville, VA 24175 site</p>	3/1	-

/	/			The dining manager has changed the serving protocol, bring food service employees more in contact with the general public and denying staff the opportunity to use protective face masks. It is the complainant's belief that leadership at the University of Michigan is putting their workers and the general health of the community at risk by refusing to allow employees to protect themselves and others from potentially spreading the coronavirus.	/	-
/	/			1. A general manager and a shift manager are refusing to follow guidelines set out to prevent covid-19 from spreading. 2. The shift manager claims to have a sick sibling with covid-19 and is still attending work.	/	-
/	/			Personal Protective Equipment (PPE) protocols, appropriate attire and training for coronavirus situations are inadequate.	/	-
/	/			1. Our office is to remain open and to see the same high volume of patients. 2. The office is an open operatory, so there is not social distancing between staff and/or staff and patients. 3. We do not wear scrubs, lab coats, or disposable gowns. 4. We were told to report to work unless we have a fever of over 100.4F. 5. Told to come to work unless family members have a temperature over 100.4F. If their temperature is less than 100.4F we are to find someone to watch the kids and report to work. 6. We were told to self-quarantine for 10 days not 14 days. 7. It was recommended that we self-isolate outside of work, so that we can stay well to work. 8. We were told that we are not covered under the government bailout. 9. We were told that we would see 'sick' patients for emergencies. We would either go out to their car or the patient would be given a mask to wear in the building. The mask would have to be removed to work on the sick patient.	1/ 1	-

/	/			Complainant alleges employer is putting employees at increased risk for contracting coronavirus due to the policy of no assigned seating, therefore having to share desks, keyboards and headsets.	/	-
/	/			Call center employer is requiring employees to utilize the fire exit as a sole entry/exit door. There is no secondary exit for approximately 100 people. There is no lighting for the exterior. Additionally, employees work within 5 feet of each other and supervisors have to wear and use the same headsets as employees for specific customer situations, risking spread of COVID-19.	/	-
/	/			The complainant believes the refinery is not taking measures to address the hazards of COVID-19. The complainant wants the refinery to delay a scheduled maintenance period, which involves employees from overseas, by a month. The complainant believes that the refinery is not providing protective equipment for employees such as gloves, hand sanitizer, and masks. The refinery sent half of its office staff to work from home, and the complainant believes this means the refinery is abandoning the employees it is keeping in the office.	/	-
/	/			Employees with asthma and other medical issues having brought up issues, regarding concerns with coronavirus, have been told if they leave they will be terminated. Business has continued as normal with no new safety precautions.	/	-

/	/			Hundreds of employees are working within close proximity despite coronavirus concerns. Employee feels like they are at risk due to employer forbidding employees from taking unpaid time off, which was previously and recently available for all.	/	-
/	/			Company is filling donation center to capacity with customers and full staff. Customers are sitting within 6 feet of each other. Staff are told not to sanitize beds to keep the line moving, and to reuse gloves due to reduced supply. One employee got blood on her lab coat from a patient whose nephew alleged she had coronavirus. Complainant says the company is not doing enough to mitigate the hazards of coronavirus. The company is a plasma donation center which pays donors.	/	-
/	/			Facility continues to admit new clients from all over the country without testing for coronavirus and without quarantining them at all. Facility houses 32-42 clients, and about 35 workers during most days. The facility has one hired housekeeper for all of the cabins and buildings, about 15 in total. The facility is serving food buffet-style. In the last week it has admitted 3 clients from Washington state. Clients attend groups, ranging from 8-16 people, plus facilitator in one room, throughout each day. Trash is overflowing out of most trash cans. Clients are there for mental health, so many clients are crying and dripping mucus from their nose and wiping it on their hands, without adequate disinfectants or hand washing stations.	/	-
/	/			Elective medical procedures are still being performed at all locations and personal protective equipment (PPE) is not being reserved for COVID-19, exposing employees to a potential outbreak without adequate supply of proper PPE.	/	-
/	/			No social-distancing is being practiced in this office. Employees are working unnecessarily close together, exposing them to the risk of contracting COVID-19.	/	-

/	/			<ol style="list-style-type: none"> 1. Employees potentially exposed to corona virus because of an identified co-worker as contracting the covid-19 illness. 2. Hand sanitizer is being depleted. Where it was stationed, it is no longer provided. 3. There are not enough face masks for employees working closely with co-workers. 4. Not enough time has been planned for isolation after a positive illness was identified because of a co-worker. 5. Employees who believe they need to remove themselves from the site are being pressured to return to work. 	5/100	-
/	/			<p>Employer does not provide potable drinking water. Water containers provided are not cleaned. Employer does not provide for cleaning water containers during work hours. Employer will reprimand employees for taking time during work to stop and obtain drinking water. (Work crew requires more water than a typical worker because of physical work required.)</p> <p>In preparation for summer work, drinking water is essential to prevent heat stress or heat stroke.</p>	/	-
/	/			Employees were told because of the corona virus, a change was made as to where employees could eat lunches. Some employees have been told to eat in a room with chemicals, dirty rags, mops, and trash.	1/8	-
/	/			Bleach solution is being sprayed throughout the plant including manufacturing areas and rest rooms. The overspray is resulting in employees breathing the spray. It is being applied so extensively that restroom floors are slippery. Some areas of the plant do not have good ventilation with no immediate building exhaust fans and the overspray is hanging in the air.	1/1,000	-

/	/			Co-worker with possible covid-19 illness, resulting in exposure to employees. Social distancing is not being practiced and workplace has not been cleaned and sanitized.	1/14	-
/	/			On multiple occasions within the past seven (7) days, our members have not been given access to necessary Personal Protective Equipment, including respiratory protection, that they need to do their jobs safely. This exposes them to recognized hazards, including COVID-19 that are likely to cause death or serious physical harm. 1) Employees providing medical care throughout the facility are exposed to COVID-19 in that the employer has not assessed the workplace to determine if hazards are present, or are likely to be present, which necessitates the use of personal protective equipment. 29 CFR 1910.132(d)(1) 2) Employees providing medical care throughout the facility are exposed to COVID-19 in that affected employees are not provided personal protective equipment. 29 CFR 1910.132(d)(1)(i)	1/1	-
/	2 /			March 19, 2020 Health: 1. Employees working in the emergency department are denied adequate personal protective equipment. In order to save supply the employer is limiting or denying employees access to normal personal protective equipment, without providing an alternative. Patients are presenting symptoms of COVID-19, employees are not allowed to wear gowns and N-95 filtering facepiece. The hospital is in the county with the highest tested population. The normal protection for C-diff, influenza or other required donning and doffing of gowns is not being utilized nor is the employer offering alternative, effective personal protective equipment.	1/300	-
/	/			March 24, 2020 Health: 1. Employees are instructed not to use the handrails when accessing stairway due to COVID-19 concerns.	1/300	-
