Citation and Notification of Penalty

To:

Fraser Shipyards, Inc.
and its successors
1 Clough Avenue
Superior, WI 54880

Inspection Number: 1125468

Inspection Date(s): 02/10/2016 - 07/25/2016

Issuance Date: 07/29/2016

Inspection Site:

1 Clough Avenue
Superior, WI 54880

The violation(s) described in this Citation and Notification of Penalty is (are) alleged to have occurred on or about the day(s) the inspection was made unless otherwise indicated within the description given below.

This Citation and Notification of Penalty (this Citation) describes violations of the Occupational Safety and Health Act of 1970. The penalty(ies) listed herein is (are) based on these violations. You must abate the violations referred to in this Citation by the dates listed and pay the penalties proposed, unless within 15 working days (excluding weekends and Federal holidays) from your receipt of this Citation and Notification of Penalty **you either call to schedule an informal conference (see paragraph below) or** you mail a notice of contest to the U.S. Department of Labor Area Office at the address shown above. Please refer to the enclosed booklet (OSHA 3000) which outlines your rights and responsibilities and which should be read in conjunction with this form. Issuance of this Citation does not constitute a finding that a violation of the Act has occurred unless there is a failure to contest as provided for in the Act or, if contested, unless this Citation is affirmed by the Review Commission or a court.

Posting - The law requires that a copy of this Citation and Notification of Penalty be posted immediately in a prominent place at or near the location of the violation(s) cited herein, or, if it is not practicable because of the nature of the employer's operations, where it will be readily observable by all affected employees. This Citation must remain posted until the violation(s) cited herein has (have) been abated, or for 3 working days (excluding weekends and Federal holidays), whichever is longer.

Informal Conference - An informal conference is not required. However, if you wish to have such a conference you may request one with the Area Director during the 15 working day contest period. During such an informal conference you may present any evidence or views which you believe would support an adjustment to the citation(s) and/or penalty(ies).

If you are considering a request for an informal conference to discuss any issues related to this Citation and Notification of Penalty, you must take care to schedule it early enough to allow time to contest after the informal conference, should you decide to do so. Please keep in mind that a written letter of intent to contest must be submitted to the Area Director within 15 working days of your receipt of this Citation. The running of this contest period is not interrupted by an informal conference.

If you decide to request an informal conference, please complete, remove and post the Notice to Employees next to this Citation and Notification of Penalty as soon as the time, date, and place of the informal conference have been determined. Be sure to bring to the conference any and all supporting documentation of existing conditions as well as any abatement steps taken thus far. If conditions warrant, we can enter into an informal settlement agreement which amicably resolves this matter without litigation or contest.

Right to Contest – You have the right to contest this Citation and Notification of Penalty. You may contest all citation items or only individual items. You may also contest proposed penalties and/or abatement dates without contesting the underlying violations. **Unless you inform the Area Director in writing that you intend to contest the citation(s) and/or proposed penalty(ies) within 15 working days after receipt, the citation(s) and the proposed penalty(ies) will become a final order of the Occupational Safety and Health Review Commission and may not be reviewed by any court or agency.**

Penalty Payment – Penalties are due within 15 working days of receipt of this notification unless contested. (See the enclosed booklet and the additional information provided related to the Debt Collection Act of 1982.) Make your check or money order payable to “DOL-OSHA”. Please indicate the Inspection Number on the remittance. You can also make your payment electronically on www.pay.gov. On the left side of the pay.gov homepage, you will see an option to Search Public Forms. Type “OSHA” and click Go. From the results, click on **OSHA Penalty Payment Form**. The direct link is:

<https://www.pay.gov/paygov/forms/formInstance.html?agencyFormId=53090334>.

You will be required to enter your inspection number when making the payment. Payments can be made by credit card or Automated Clearing House (ACH) using your banking information. Payments of \$25,000 or more require a Transaction ID, and also must be paid using ACH. If you require a Transaction ID, please contact the OSHA Debt Collection Team at (202) 693-2170.

OSHA does not agree to any restrictions or conditions or endorsements put on any check, money order, or electronic payment for less than the full amount due, and will process the payments as if these restrictions or conditions do not exist.

Notification of Corrective Action – For each violation which you do not contest, you must provide ***abatement certification*** to the Area Director of the OSHA office issuing the citation and identified above. This abatement certification is to be provided by letter within 10 calendar days after each abatement date. Abatement certification includes the date and method of abatement. If the citation indicates that the violation was corrected during the inspection, no abatement certification is required for that item. The abatement certification letter must be posted at the location where the violation appeared and the corrective action took place or employees must otherwise be effectively informed about abatement activities. A sample abatement certification letter is enclosed with this Citation. In addition, where the citation indicates that ***abatement documentation*** is necessary, evidence of the purchase or repair of equipment, photographs or video, receipts, training records, etc., verifying that abatement has occurred is required to be provided to the Area Director.

Employer Discrimination Unlawful – The law prohibits discrimination by an employer against an employee for filing a complaint or for exercising any rights under this Act. An employee who believes that he/she has been discriminated against may file a complaint no later than 30 days after the discrimination occurred with the U.S. Department of Labor Area Office at the address shown above.

Employer Rights and Responsibilities – The enclosed booklet (OSHA 3000) outlines additional employer rights and responsibilities and should be read in conjunction with this notification.

Notice to Employees – The law gives an employee or his/her representative the opportunity to object to any abatement date set for a violation if he/she believes the date to be unreasonable. The contest must be mailed to the U.S. Department of Labor Area Office at the address shown above and postmarked within 15 working days (excluding weekends and Federal holidays) of the receipt by the employer of this Citation and Notification of Penalty.

Inspection Activity Data – You should be aware that OSHA publishes information on its inspection and citation activity on the Internet under the provisions of the Electronic Freedom of Information Act. The information related to these alleged violations will be posted when our system indicates that you have received this citation. You are encouraged to review the information concerning your establishment at www.osha.gov. If you have any dispute with the accuracy of the information displayed, please contact this office.

NOTICE TO EMPLOYEES OF INFORMAL CONFERENCE

An informal conference has been scheduled with OSHA to discuss the citation(s) issued on 07/29/2016. The conference will be held by telephone or at the OSHA office located at 1310 W. Clairemont Avenue, Eau Claire, WI 54701 on _____ at _____.

Employees and/or representatives of employees have a right to attend an informal conference.

CERTIFICATION OF CORRECTIVE ACTION WORKSHEET

Inspection Number: 1125468

Company Name: Fraser Shipyards, Inc.
Inspection Site: 1 Clough Avenue, Superior, WI 54880
Issuance Date: 07/29/2016

List the specific method of correction for each item on this citation in this package that does not read "Corrected During Inspection" and return to: **U.S. Department of Labor – Occupational Safety and Health Administration, 1310 W. Clairemont Avenue, Eau Claire, WI 54701**

Citation Number _____ and Item Number _____ was corrected on _____
By (Method of Abatement): _____

POSTING: A copy of completed Corrective Action Worksheet should be posted for employee review

Citation and Notification of Penalty

Company Name: Fraser Shipyards, Inc.
Inspection Site: 1 Clough Avenue, Superior, WI 54880

The alleged violations below have been grouped because they involve similar or related hazards that may increase the potential for injury or illness.

Citation 1 Item 1 a Type of Violation: **Serious**

29 CFR 1910.134(d)(1)(i): Selection of appropriate respirators was not based on the respiratory hazard(s) to which the worker was exposed and user factors that affect respirator performance and reliability:

- (a) Herbert C. Jackson; The employer did not select appropriate respirators for employees performing demolition, installation, and fabrication tasks aboard the vessel. Employees wearing half mask elastomeric respirators experienced exposures greater than the respirators designated assigned protection factor of 10.

ABATEMENT DOCUMENTATION REQUIRED FOR THIS ITEM

Date By Which Violation Must be Abated:	08/26/2016
Proposed Penalty:	\$7000.00

Citation and Notification of Penalty

Company Name: Fraser Shipyards, Inc.
Inspection Site: 1 Clough Avenue, Superior, WI 54880

Citation 1 Item 1 b Type of Violation: **Serious**

29 CFR 1910.134(d)(3)(i)(A): The employer did not select a respirator that meets or exceeds the required level of employee protection:

- (a) Herbert C. Jackson; The employer did not select appropriate respirators for employees torching and welding in the tunnel areas. An employee was wearing a half mask elastomeric respirator with an assigned protection factor of 10 and was exposed 20.79 times the permissible exposure limit.
- (b) Herbert C. Jackson; The employer did not select appropriate respirators for employees torching and welding in the engine room areas. An employee was wearing a half mask elastomeric respirator with an assigned protection factor of 10 and was exposed 14.21 times the permissible exposure limit.
- (c) Herbert C. Jackson; The employer did not select appropriate respirators for employees torching and welding in the ballast tank areas. An employee was wearing a half mask elastomeric respirator with an assigned protection factor of 10 and was exposed 11.66 times the permissible exposure limit.

The alleged violations below have been grouped because they involve similar or related hazards that may increase the potential for injury or illness.

Citation 1 Item 9 a Type of Violation: **Serious**

29 CFR 1915.1000(a)(2):Employee(s) were exposed to airborne concentrations of iron oxide listed in Table Z, in excess of the 8-hour time weighted average (TWA) concentration of 10 milligrams per cubic meter (mg/m3):

- (a) Herbert C. Jackson; The employer did not ensure that employee(s) exposure to iron oxide did not exceed 10 milligrams per cubic meter (mg/m3) of air, as an 8-hour time weighted average (TWA). This violation occurred on March 23, 2016 where the employee was welding/torching/grinding in the tunnel entrance installing a door; the employee was exposed to iron oxide at an 8-hour TWA of 22.16 mg/m3 of air, approximately 2.22 times the permissible exposure limit of 10 mg/m3. Sampling was performed for 474 minutes during one shift. Zero exposure was assumed for the 6 minute period not sampled.
- (b) Herbert C. Jackson; The employer did not ensure that employee(s) exposure to iron oxide did not exceed 10 milligrams per cubic meter (mg/m3) of air, as an 8-hour time weighted average (TWA). This violation occurred on February 10, 2016 where the employee was welding in ballast tank #5; the employee was exposed to iron oxide at an 8-hour TWA of 13.75 mg/m3 of air, approximately 1.38 times the permissible exposure limit of 10 mg/m3. Sampling was performed for 329 minutes during one shift. Zero exposure was assumed for the 151 minute period not sampled.
- (c) Herbert C. Jackson; The employer did not ensure that employee(s) exposure to iron oxide did not exceed 10 milligrams per cubic meter (mg/m3) of air, as an 8-hour time weighted average (TWA). This violation occurred on February 11, 2016 where the employee was welding in ballast tank #5; the employee was exposed to iron oxide at an 8-hour TWA of 12.56 mg/m3 of air, approximately 1.26 times the permissible exposure limit of 10 mg/m3. Sampling was performed for 466 minutes during one shift. Zero exposure was assumed for the 14 minute period not sampled.

Citation and Notification of Penalty

Company Name: Fraser Shipyards, Inc.

Inspection Site: 1 Clough Avenue, Superior, WI 54880

Citation 1 Item 9 b Type of Violation: **Serious**

29 CFR 1915.1000(d)(1)(i): When determined by the computational formula specified in 29 CFR 1915.1000(d)(2)(i), employees were exposed to concentrations of more than one substance for which 8-hour time weighted averages are listed in Subparts Z of 29 CFR part 1910 in excess of the permissible exposure for the mixture:

- (a) Herbert C. Jackson; The employer did not ensure that employee exposure to concentrations of more than one substance does not exceed the permissible exposure for the mixture of heavy metals to include iron oxide fume, copper fume, and inorganic lead. The mixture has additive toxic effects on the central nervous system, respiratory system, and the eyes. This violation occurred on February 10, 2016 where the employee was welding in the Engine Room. The employee was exposed to iron oxide fume at an 8-hour time weighted average (TWA) of 1.7864 milligrams per cubic meter (mg/m³) of air, approximately 0.18 times the permissible exposure limit (PEL) of 10 mg/m³; copper fume at an 8-hour TWA of 0.0055 mg/m³ of air, approximately 0.055 times the PEL of 0.1 mg/m³; and lead at an 8-hour TWA of 0.0476 mg/m³ of air, approximately 0.95 times the PEL of 0.05 mg/m³. The exposure concentration was approximately 1.19 times the permissible 8-hour TWA concentration for the mixture. Sampling was performed for 293 minutes. Zero exposure was assumed for the 187 minute period not sampled.
- (b) Herbert C. Jackson; The employer did not ensure that employee exposure to concentrations of more than one substance does not exceed the permissible exposure for the mixture of heavy metals to include iron oxide fume, copper fume, inorganic lead, and zinc oxide fume. The mixture has additive toxic effects on the central nervous system, respiratory system, and the eyes. This violation occurred on February 10, 2016 where the employee was welding in the conveyor tunnel. The employee was exposed to iron oxide fume at an 8-hour time weighted average (TWA) of 6.2531 milligrams per cubic meter (mg/m³) of air, approximately 0.63 times the permissible exposure limit (PEL) of 10 mg/m³; copper fume at an 8-hour TWA of 0.0104 mg/m³ of air, approximately 0.10 times the PEL of 0.1 mg/m³; lead at an 8-hour TWA of 0.0176 mg/m³ of air, approximately 0.35 times the PEL of 0.05 mg/m³, and zinc oxide fume at an 8-hour TWA of 0.0299 mg/m³ of air, approximately 0.006 times the PEL of 5.0 mg/m³. The exposure concentration was approximately 1.09 times the permissible 8-hour TWA

See pages 1 through 4 of this Citation and Notification of Penalty for information on employer and employee rights and responsibilities.

Citation and Notification of Penalty

Company Name: Fraser Shipyards, Inc.
Inspection Site: 1 Clough Avenue, Superior, WI 54880

concentration for the mixture. Sampling was performed for 324 minutes. Zero exposure was assumed for the 156 minute period not sampled.

- (c) Herbert C. Jackson; The employer did not ensure that employee exposure to concentrations of more than one substance does not exceed the permissible exposure for the mixture of heavy metals to include iron oxide fume, copper fume, inorganic lead, and zinc oxide fume. The mixture has additive toxic effects on the central nervous system, respiratory system, and the eyes. This violation occurred on February 10, 2016 where the employee was welding in the conveyor tunnel. The employee was exposed to iron oxide fume at an 8-hour time weighted average (TWA) of 6.9224 milligrams per cubic meter (mg/m³) of air, approximately 0.69 times the permissible exposure limit (PEL) of 10 mg/m³; copper fume at an 8-hour TWA of 0.0132 mg/m³ of air, approximately 0.13 times the PEL of 0.1 mg/m³; lead at an 8-hour TWA of 0.0145 mg/m³ of air, approximately 0.29 times the PEL of 0.05 mg/m³, and zinc oxide fume at an 8-hour TWA of 0.0936 mg/m³ of air, approximately 0.019 times the PEL of 5.0 mg/m³. The exposure concentration was approximately 1.13 times the permissible 8-hour TWA concentration for the mixture. Sampling was performed for 374 minutes. Zero exposure was assumed for the 106 minute period not sampled.

The alleged violations below have been grouped because they involve similar or related hazards that may increase the potential for injury or illness.

Citation 2 Item 1 a Type of Violation: **Willful**

29 CFR 1910.1025(c)(1): Employee(s) were exposed to lead for more than 8 hours during the work day in excess of the reduced permissible exposure limit:

- (a) Herbert C. Jackson; The employer did not ensure that employee(s) exposure to lead did not exceed 40 micrograms per cubic meter (ug/m³) of air, as a reduced 10-hour time weighted average (TWA) for the extended work shift. This violation occurred on February 10, 2016 when an employee welding in Ballast Tank #5 was exposed to lead at a 10-hour TWA of 466.3 ug/m³ of air, approximately 11.66 times the permissible exposure limit of 40 ug/m³. Sampling was performed for 329 minutes during one shift. Zero exposure was assumed for the 271 minute period not sampled.
- (b) Herbert C. Jackson; The employer did not ensure that employee(s) exposure to lead did not exceed 40 micrograms per cubic meter (ug/m³) of air, as a reduced 10-hour time weighted average (TWA) for the extended work shift. This violation occurred on February 11, 2016 when an employee welding in Ballast Tank #5 was exposed to lead at a 10-hour TWA of 161.9 ug/m³ of air, approximately 4.05 times the permissible exposure limit of 40 ug/m³. Sampling was performed for 466 minutes during one shift. Zero exposure was assumed for the 134 minute period not sampled.

- (a) Herbert C. Jackson; Surfaces were not stripped of all toxic preservative coatings for a distance of at least 4 inches before hot work was performed, nor were employees required to wear air line respirators. An employee was overexposed to lead on March 23, 2016 (exposure to lead at a 10-hour TWA of 568.2 ug/m³ of air, approximately 14.21 times the permissible exposure limit of 40 ug/m³) while welding/torching in the engine room.

The alleged violations below have been grouped because they involve similar or related hazards that may increase the potential for injury or illness.

Citation 2 Item 5 a Type of Violation: **Willful**

29 CFR 1910.1025(c)(1): Employee(s) were exposed to lead for more than 8 hours during the work day in excess of the reduced permissible exposure limit:

- (a) Herbert C. Jackson; The employer did not ensure that employee(s) exposure to lead did not exceed 40 micrograms per cubic meter (ug/m3) of air, as a reduced 10-hour time weighted average (TWA) for the extended work shift. This violation occurred on March 23, 2016 when an employee welding/torching in the engine room was exposed to lead at a 10-hour TWA of 560.6 ug/m3 of air, approximately 14.02 times the permissible exposure limit of 40 ug/m3. Sampling was performed for 495 minutes during one shift. Zero exposure was assumed for the 105 minute period not sampled.

\$70000.00

Citation and Notification of Penalty

Company Name: Fraser Shipyards, Inc.
Inspection Site: 1 Clough Avenue, Superior, WI 54880

Citation 2 Item 5 b Type of Violation: **Willful**

29 CFR 1910.1025(e)(1)(ii): For any employee who is exposed to lead above the permissible exposure limit for 30 days or less per year, where the employer has implemented engineering controls to reduce exposures to 200 micrograms per cubic meter, the employer did not implement any combination of engineering, work practice and respiratory controls to reduce and maintain employee exposure to or below 50 micrograms per cubic meter or less:

- (a) Herbert C. Jackson; The employer failed to implement an effective combination of engineering, work practice, and respiratory controls to reduce and maintain employee(s) exposures to or below 40 micrograms per cubic meter or less. An employee was overexposed to lead on March 23, 2016 (exposure to lead at a 10-hour TWA of 560.6 ug/m³ of air, approximately 14.02 times the permissible exposure limit of 40 ug/m³) while welding/torching in the engine room.

29 CFR 1910.1025(e)(1)(ii): For any employee who is exposed to lead above the permissible exposure limit for 30 days or less per year, where the employer has implemented engineering controls to reduce exposures to 200 micrograms per cubic meter, the employer did not implement any combination of engineering, work practice and respiratory controls to reduce and maintain employee exposure to or below 50 micrograms per cubic meter or less:

- (a) Herbert C. Jackson; The employer failed to implement an effective combination of engineering, work practice, and respiratory controls to reduce and maintain employee(s) exposures to or below 40 micrograms per cubic meter or less. An employee was overexposed to lead on March 23, 2016 (exposure to lead at a 10-hour TWA of 136.4 ug/m³ of air, approximately 3.41 times the permissible exposure limit of 40 ug/m³) while welding/torching/grinding in the ballast tanks/cargo hold areas .

Citation 2 Item 12 c Type of Violation: **Willful**

29 CFR 1915.53(d)(1): In enclosed spaces, where surfaces covered with toxic preservatives were not stripped of all toxic coatings for a distance of at least 4 inches from the area of heat application, employees were not protected by air line respirators meeting the requirements of 1915.154:

- (a) Herbert C. Jackson; Surfaces were not stripped of all toxic preservative coatings for a distance of at least 4 inches before hot work was performed, nor were employees required to wear air line respirators. An employee was overexposed to lead on March 23, 2016 (exposure to lead at a 10-hour TWA of 136.4 ug/m³ of air, approximately 3.41 times the permissible exposure limit of 40 ug/m³) while welding/torching/grinding in the ballast tanks/cargo hold areas .

The alleged violations below have been grouped because they involve similar or related hazards that may increase the potential for injury or illness.

Citation 2 Item 13 a Type of Violation: **Willful**

29 CFR 1910.1025(c)(1): Employee(s) were exposed to lead for more than 8 hours during the work day in excess of the reduced permissible exposure limit:

- (a) Herbert C. Jackson; The employer did not ensure that employee(s) exposure to lead did not exceed 40 micrograms per cubic meter (ug/m³) of air, as a reduced 10-hour time weighted average (TWA) for the extended work shift. This violation occurred on March 23, 2016 when an employee welding/torching/grinding in the shell area was exposed to lead at a 10-hour TWA of 132.8 ug/m³ of air, approximately 3.32 times the permissible exposure limit of 40 ug/m³. Sampling was performed for 512 minutes during one shift. Zero exposure was assumed for the 88 minute period not sampled.

INVOICE / DEBT COLLECTION NOTICE

Company Name: Fraser Shipyards, Inc.
Inspection Site: 1 Clough Avenue, Superior, WI 54880
Issuance Date: 07/29/2016

Summary of Penalties for Inspection Number	1125468
Citation 1, Serious	\$65,000.00
Citation 2, Willful	\$1,330,000.00
TOTAL PROPOSED PENALTIES	\$1,395,000.00

To avoid additional charges, please remit payment promptly to this Area Office for the total amount of the uncontested penalties summarized above. Make your check or money order payable to: "DOL-OSHA". Please indicate OSHA's Inspection Number (indicated above) on the remittance. You can also make your payment electronically on www.pay.gov. On the left side of the pay.gov homepage, you will see an option to Search Public Forms. Type "OSHA" and click Go. From the results, click on **OSHA Penalty Payment Form**. The direct link is <https://www.pay.gov/paygov/forms/formInstance.html?agencyFormId=53090334>. You will be required to enter your inspection number when making the payment. Payments can be made by credit card or Automated Clearing House (ACH) using your banking information. Payments of \$25,000 or more require a Transaction ID, and also must be paid using ACH. If you require a Transaction ID, please contact the OSHA Debt Collection Team at (202) 693-2170.

OSHA does not agree to any restrictions or conditions or endorsements put on any check, money order, or electronic payment for less than the full amount due, and will cash the check or money order as if these restrictions or conditions do not exist.

If a personal check is issued, it will be converted into an electronic fund transfer (EFT). This means that our bank will copy your check and use the account information on it to electronically debit your account for the amount of the check. The debit from your account will then usually occur within 24 hours and will be shown on your regular account statement. You will not receive your original check back. The bank will destroy your original check, but will keep a copy of it. If the EFT cannot be completed because of insufficient funds or closed account, the bank will attempt to make the transfer up to 2 times.

Pursuant to the Debt Collection Act of 1982 (Public Law 97-365) and regulations of the U.S. Department of Labor (29 CFR Part 20), the Occupational Safety and Health Administration is required to assess interest, delinquent charges, and administrative costs for the collection of delinquent penalty debts for violations of the Occupational Safety and Health Act.

Interest: Interest charges will be assessed at an annual rate determined by the Secretary of the Treasury on all penalty debt amounts not paid within one month (30 calendar days) of the date on which the debt amount becomes due and payable (penalty due date). The current interest rate is one percent (1%). Interest will accrue from the date on which the penalty amounts (as proposed or adjusted) become a final order of the Occupational Safety and Health Review Commission (that is, 15 working days from your receipt of the Citation and Notification of Penalty), unless you file a notice of contest. Interest charges will be waived if the full amount owed is paid within 30 calendar days of the final order.

Delinquent Charges: A debt is considered delinquent if it has not been paid within one month (30 calendar days) of the penalty due date or if a satisfactory payment arrangement has not been made. If the debt remains delinquent for more than 90 calendar days, a delinquent charge of six percent (6%) per annum will be assessed accruing from the date that the debt became delinquent.

Administrative Costs: Agencies of the Department of Labor are required to assess additional charges for the recovery of delinquent debts. These additional charges are administrative costs incurred by the Agency in its attempt to collect an unpaid debt. Administrative costs will be assessed for demand letters sent in an attempt to collect the unpaid debt.

Mark Hysell

Area Director
