The following procedures shall be followed when scheduling and inspecting work sites under this program.

A. Scheduling.

- 1. The Assistant Regional Administrator for Enforcement Programs shall obtain from the Office of Federal Agency Programs a list of all federal agencies with establishments in Region IV jurisdiction. Accompanying the list will be a log of lost workday incidents for the previous fiscal year. The lists will be forwarded to the Area Offices.
- 2. The Area Office will rank the work sites by frequency of lost time cases. Other factors such as local knowledge, complaint rate, occurrence of fatalities, and nationwide history, may also be used to adjust the rankings of installations.
- 3. Based upon both ranking and resource availability, the area director will designate the order in which specific locations will be inspected.
- 4. The number of inspections under this LEP will be specified in each year's performance plan, and it is expected that the planned number of inspections will be completed in each fiscal year. Any inspections not completed will be added to the next year's list.
- 5. Follow-up and/or monitoring inspections shall be conducted according to criteria established in the FOM.

B. Inspection.

- 1. Inspections may be safety, health, or joint safety and health inspections.
- 2. In accordance with OSHA policy, advance notice will be given to agencies with Certified Safety and Health Committees.

3. Press releases shall be issued for significant cases, or cases with willful or high-gravity serious, repeat or failure-to-abate violations, in accordance with regional procedures.

XI. Recording in OIS.

Current instructions for completing OIS Forms (Inspection Report, Unprogrammed Inspection Activity (Complaints, Referrals, etc.), etc.) shall be applied when recording inspections under this LEP. The Inspection forms for all inspections conducted in establishments that are covered by this LEP shall be coded as local emphasis program inspections and marked "FEDSAFE".

XII. Evaluation.

An evaluation of the program will be conducted midway through and at the completion of the effective period that includes:

- A. The goal of the program.
- B. Data and information used to support the continuation or cancellation of the program. Data may include enforcement statistics, serious hazards identified and abated, the number of employees removed from hazards, and any impact on covered, non-inspected employers.
- C. Statement and rationale of whether the program should be continued.
- D. Description of any legal issues that arose which would necessitate a review by the Solicitor before renewal of the program.
- E. Any other comments or recommendations, including findings, which might have an impact on how the industry conducts business.
- F. Data associated with outreach sessions in which this emphasis program is addressed.
- G. At the time of the evaluation, the Area Director will determine if there are sites that need to be added and/or deleted and revise the appendices.

XIII. Outreach.

The Assistant Regional Administrator for Cooperative and State Programs and the Assistant Regional Administrator for Enforcement Programs will ensure the Area Directors and all Outreach staff are familiar with this directive and actively promote the LEP when conducting outreach sessions and meetings. A copy of this LEP will be provided to interested parties upon request.
