Arlene Williams
U.S. Department of Labor
Occupational Safety and Health Administration

The Consultation Cooperative Agreement Application package consists of the following:

- A. Consultation Annual Project Plan (CAPP). The CAPP describes in detail how a Consultation Project's activities will support the OSHA Strategic Management Plan (SMP) during the forthcoming year.
1. The CAPP must address each area of emphasis in the SMP that the Project Manager in consultation with the Regional representative(s) will undertake, outlining both strategies and expected results, *See Appendix E*.
 2. The CAPP must include: a) an organizational chart, b) staffing chart, c) a description of any changes in the Consultation Project's status, d) a detailed operational description identifying the year's strategies, activities and their intended outcome, e) a projected program activities chart, f) a description of strategy and targets for promoting Consultation and SHARP and g) a detailed description of any changes to a Project's Internal Quality Assurance program. *See Appendix B* for a checklist of required documents.
 3. The Consultation Project Manager should send a draft CAPP to the Region to facilitate a preliminary discussion, which should take place in the third quarter of this year. Further discussions or negotiations regarding the content of the CAPP must be managed to ensure consensus and submission of the CAPP on or before the designated deadline.
- B. Financial Documents. The Cooperative Agreement (Form OSHA-110) and the Application for Federal Assistance and Budget Information Non-Construction Programs (SF-424 and SF-424A) must be prepared using the FY 2005 final base award level. If the state does not have the required matching funds for this award level, it should complete the application to reflect the level for which it can match. Any change in FY 2006 funding for Consultation will be processed through a Cooperative Agreement amendment. Additionally, the SF-424 must include a Dun and Bradstreet Data Universal Numbering System (DUNS) number for the Agreement application to be considered complete.

The Application for Federal Financial Assistance and Budget Information Non-Construction Programs are available at:

http://www.whitehouse.gov/omb/grants/grants_forms.html

The Cooperative Agreement form OSHA 110 is available at the Consultation Limited Access Page.

Each Consultation Project Manager must submit two copies of the Cooperative Agreement application package with original signatures on both copies of: 1) the Cooperative Agreement, 2) Assurances and Certifications; Lobbying Certification and OSHA Restrictions and Conditions, and 3) the Application for Federal

Financial Assistance to the National Office. Accuracy of the financial documents is critical to the timely approval of the Cooperative Agreement. Applications containing significant deficiencies will not be approved. Any application, which is not in substantial accord with this Notice, will be returned for corrections.

1. Administrative Cap. OSHA will continue the current 25 percent ceiling restriction on administrative costs. This requires that no more than 25 percent of the total funding amount may be budgeted toward administrative costs. Any deviation from this restriction must receive prior approval from the Director of DCSP.
2. Salary Target. Each project must devote a minimum of 50 percent of the grant amount (90/10 total) toward consultant salaries and fringe benefits. Project Managers unable to meet this target must provide a written explanation of why they cannot meet this goal and receive prior approval from the Director of DCSP.
3. Computer Purchases. Projects must consult with the Directorate of Information Technology (DIT) prior to purchasing computers using 21(d) funds. Computers must conform to certain OSHA hardware and software specifications. It is the responsibility of the Consultation Project Manager to contact the Directorate of Information Technology (DIT) sixty or more days in advance of the purchase of new computer equipment for the latest specifications or search the consultation Limited Access Page for up-to-date specifications.
4. Minimum Staffing. At least four professional, full time equivalents (FTEs)—two full-time safety specialists and two full-time industrial hygienists or their equivalents—must be included in each Project's personnel plan. All of the Project's consultants must be employed at least 50 percent of their time in the Consultation Program and must spend at least 50 percent of their time engaged in consultation activity. Any deviation from this minimum must receive prior approval from the Director of DCSP.
5. OSHA Restrictions and Conditions. Only State officials with signature authority may sign the assurances and certifications, lobbying restrictions, and OSHA specific restrictions and conditions.

XI. Regional Administrator's Responsibilities. The Regional Administrator (RA) is responsible for conducting a joint review of the CAPP with the National Office. After the review is complete, the RA must transmit a memorandum containing an assessment of the Cooperative Agreement application to Paula O. White, Attn: Jay Arnoldus with a courtesy copy furnished to Arlene Williams.

In reviewing the application, the RA should pay particular attention to the following components:

A. Consultation Annual Project Plan (CAPP)

1. The RA should review the CAPP to ensure that the plan submitted by the Project Manager conforms to the previously agreed upon plan elements. The RA should be particularly sensitive to issues that have been discussed during the quarterly meetings and ensure that they are addressed satisfactorily.
2. The RA should encourage and support the Project Manager in the marketing of the Consultation Program by combining resources, where possible, to ensure that employers in the state are familiar with services provided by the Consultation Program.
3. The RA should include a statement of concurrence with the CAPP in the Region's cover memorandum.

B. Financial Documents

1. The RA should ensure that the Project has budgeted for the personnel requirements of two safety specialists and two industrial hygienists or four full-time professional positions and that all safety and health staff spend a minimum of 50 percent of their time working on consultation activities. A transmittal memorandum with detailed explanation(s) and copy of DCSP approval of deviation must be provided if the Project budget does not meet personnel and staffing requirements.
2. The RA should ensure that the appropriate State official has signed the Cooperative Agreement Form OSHA 110, Application for Federal Assistance SF 424, Budget Information Non-Construction Programs, assurances and certifications, lobbying restrictions and OSHA specific restrictions and conditions.
3. The RA should include a statement of concurrence with financial documents in the Region's cover memorandum.

XII. National Office Responsibilities

- A. Directorate of Cooperative and State Programs. OSBA staff will review and discuss any deficiencies in each CAPP with the Regional Consultation Officer. Additionally, the Director of DCSP will have approval authority relating to deviations from the Cooperative Agreement.
- B. Directorate of Administrative Programs (DAP). Financial Management staff will review and discuss any financial deficiencies, with Regional financial staff. Additionally, DAP will post funding award levels in the Payment Management System and administer the financial aspects of the Cooperative Agreement.

The **Supporting Details of Anticipated Costs** that itemizes the costs by category (Consultation and Administration) and object class shall be submitted with the application (a sample outline is provided at Appendixes N and O of this Notice). The Supporting Details of Anticipated Costs should correspond to the information on the Application for Federal Assistance and Budget Information—Non-construction Programs (SF424 and SF-424A). CONSULTATION PROJECT PLAN PILOT for REGIONS I and V

I. Beginning in FY 2006, States within Regions I and V will submit a two year consultation project plan identifying goals and activities for FY 2006 and FY 2007. States will then submit a streamlined application in FY 2007 that will include financial documents, an assessment of the progress made towards FY 2006 goals, activities, any updates and/ or amendments to FY 2007 goals.

II. Content and Organization of the Two Year Consultation Project Plan. Each Consultation Project Manager must develop a project plan that covers a period of two fiscal years and identify activities to be performed in support of the Federal Strategic Management Plan, **See Appendix Q.** Each plan must include the following elements:

A. Overview of the Consultation Project

1. Organizational Chart. An organizational chart must be included within the plan. The chart should identify the signatory of the grant, along with the hierarchical structure of the organization. In addition, the chart should depict the organizational unit that houses the Consultation Program.

2. Staffing Chart. The staffing chart must contain the number of full and part-time staff employed by the Consultation Project, expressed in full-time equivalents (FTEs), for each category of staff. At a minimum, all projects must have the equivalent of two safety and two health professionals, in addition to managerial and support personnel.

Staffing Definitions:

Managerial Staff. Those FTEs included in the Cooperative Agreement whose function is to supervise Consultants or direct the Consultation Program. Include those FTEs who are in either the Administration or Consultation sections of the Agreement.

Consultant. Those Consultants included in the Cooperative Agreement who perform on-site visits and whose salaries are paid by the Agreement.

100% State-funded Consultant. Include consultants in the Cooperative Agreement who conduct on-site visits and whose salaries are 100% paid by the State.

Clerical/Data Support. Administrative personnel who support the Consultation Program, within the "Administration" or "Consultation" section of the Cooperative Agreement.

Marketing Staff. Persons, who do not perform on-site visits, but generate requests through outreach activities and program promotion.

Trainers. Include professional trainers or consultants used as trainers in the Cooperative Agreement who conduct formal training either on or off site. The primary purpose of the training would be to convey hazard information, not program promotion.

3. **Project Status Exceptions.** Any changes in the status of the Project, such as the organizational unit within which the Consultation Project is located or the structure of the unit or organization must be provided. Any deviations from minimum staffing requirements must receive prior approval from the Director of Cooperative and State Programs.

B. Projected Activities Plan.

1. Projects must use the Template provided below to indicate the number of projected activities for the next two years and the strategy of how it will accomplish the activities.

2. Within the template there are two sections devoted to each area of emphasis.

a. The first line projects the total number of visits that the Project anticipates it will conduct. These activities will be included as part of the Federal effort and will be tracked as part of the Federal Strategic Plan. Although not required to be listed in the Consultation Project Plan, Projects should consider all types of visits (Initial, Training and Assistance, and Follow-up) it intends to make for each area of emphasis.

Note: THE BREAKDOWN OF SAFETY AND HEALTH IS BASED UPON THE PRIMARY DESIGNATION OF THE VISIT BY THE CONSULTANT RATHER THAN THE IMIS INFORMATION FROM THE VISIT FORM.

b. The second line includes the Project's strategy of how it plans to solicit requests for this area of emphasis. The detail should be sufficient to assure that a good faith effort will be made to achieve the goals listed in the first line. All Project specific outreach efforts to support these goals should be listed. In addition, where applicable, partnerships with Federal offices, Alliances, and other cooperative programs involving the Project with this area of emphasis should be explained.

Note: Although not required, an EXCEL spreadsheet version of the Consultation Project Plan Pilot Template is located on the Consultation Limited Access Page and can be used in lieu of the Template.

III.

Adjustments to the Consultation Project Plan. Once a Two Year Consultation Project Plan is approved, formal revisions to the first year of the cycle will not be made. However, modifications to the second year of the plan must be discussed in quarterly discussions and documented in the Regional Annual Consultation Evaluation Report.

Prior to the second year cycle of the two year Consultation Project Plan process, Consultation projects will be allowed to modify projections and targeted areas in order to make meaningful adjustments. Modifications must be negotiated with the Regional Office and submitted in writing as part of the FY 2007 Cooperative Agreement application, *See Appendix R.*
