Yes

Signed certification that the information contained in the application is accurate and true to the best of the applicant's knowledge.

Appropriateness of the Variance Application

A "Yes" response to any of the items below indicates that the application may not be appropriate:

Yes No The variance the applicant is requesting is from a "performance" standard, which is one that does not specify methods or actions that the employer must implement to meet the requirements of the standard.

Yes No The variance the applicant is requesting is from a "definition" in a standard. Definitions are not enforceable portions of a standard since they do not specify means, methods, or actions the employer must implement for meeting the requirements of the standard.

No The application requests an exemption or waiver from the requirements of the standard.

Yes No The variance is a request for review and approval of a design or product developed for manufacture and commercial use.

¹The following are states and territories with approved state plans: AK, AZ, CA, CT,* HI, IA, IL,* IN, KY, MD, MI, MN, NC, NJ,* NM, NV, NY,* OR, PR, SC, TN, UT, VA, VT, VI,* WA, and WY. *Plans cover public-sector employees only; the remaining states cover both public- and private-sector employees.

²If the state standard(s) is/are not identical to the OSHA standard(s), the applicant must apply to the state for an experimental variance.

Yes No	There exists an OSHA letter of interpretation that governs the acceptability of the requested alternative.
Yes No	There is an updated edition of the nationally recognized consensus standard upon which OSHA based the standard that is the subject of the variance request, and the updated consensus standard permits the requested alternative (and that protects employees at least as effectively as the OSHA standard).
Yes No	The application involves workplace locations that are solely in State Plan states.
