

the performance standards and reporting system for this program in an effort to enhance program accountability and improve reporting. As a result, future changes to the reporting format and instructions may be necessary. However, for the purpose of this approval, only minor modifications have been made in reporting due to cross-program changes in the **Federal Register** Notice to the definition of Race/Ethnicity and all references from AFDC to TANF.

II. Current Actions

The proposed ICR will be a continuation of an existing system currently in place and used by all Section 402 grantees as the primary reporting vehicle for individuals enrolled and terminated from the program, their demographic characteristics, training and services provided and outcomes including job placement and employability enhancements. This is a request for an extension of an existing collection from a previously approved ICR.

Type of Review: Extension.

Agency: Employment & Training Administration.

Title: Standardized Participant Information Reporting system for the JTPA Section 402 Migrant and Seasonal Farmworker Programs OMB Number: 1205-0350.

Recordkeeping: Grantees shall retain supporting and other documents necessary for the compilation and submission of the SPIR for three consecutive years.

Affected Public: Not-for-profit organizations.

Cite/Reference/Form/etc: The collection instrument is the Standardized Participant Information Record (SPIR) and Instructions. A SPIR Form is provided for optional use in gathering information at the grantee field office level. The SPIR itself is a computer file in a specified form which is submitted by grantees via diskette, modem or INTERNET.

Total Respondents: 53.

Frequency: Quarterly and One-Time Report.

Total Responses: 265 (53 times 5) (There are four quarterly submissions per year plus a fifth submission which includes the 13-week follow-up data obtained for individuals terminating in the last quarter of the program year.)

Average Time per Response: 3.6 additional burden hours. The average time per response varies widely depending on the degree of automation attained by individual grantees. Grantees also vary according to the numbers of individuals served in each

program year. If the grantee has a fully developed MIS, the response time is limited to one-time programming plus processing time for each response. All efforts are being directed towards this end, so that response time for reporting will eventually sift down to an irreducible minimum with little human intervention. Currently, it is estimated at 3.6 hours per response.

Estimated Total Burden Hours: 954 hours. (53 respondents times 5 submissions times 3.6 hours each = 954 total hours)

Total Burden Cost (capital/startup): No additional Burden Cost for capital/startup as all grantees are currently reporting using the SPIR.

Total Burden Cost (operating/maintaining): DOL's estimated annual burden cost for maintaining a centralized SPIR database system for JTPA Title IV-B programs is \$265,000 (53 grantees times \$5,000). The cost for programs who maintain and operate their own data systems will vary widely among grantees, from nearly no additional cost to some higher figure depending on the state of automation attained by each grantee. However, the majority of grantees use DOL's statistical support contractor SPR Associates for data management. Therefore, there is no extra burden cost to grantees unless they purchase new automated equipment.

Comments submitted in response to this comment request will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: March 18, 1998.

Anna Goddard,

Director, Office of National Programs.
