**SUPPLEMENTARY INFORMATION:** On July 14, 1999, at 64 FR 38078, OSHA published an Advanced Notice of Proposed Rulemaking (ANPR) titled "Safety Standards for Fall Protection in the Construction Industry." #### **Request for Comments**

The Coast Guard encourages interested persons to participate in this rulemaking by submitting written data, views, or arguments. Persons submitting comments should include their name and address, identify this rulemaking (CGD07–99–057) and the specific section of this proposal to which each comment applies, and give a reason for each comment.

The Coast Guard will consider all comments received during the comment period. It may change this proposal in the view of the comments. The Coast Guard plans no public hearing. #### **Background and Purpose**

These proposed regulations would create a regulated area offshore Fajardo, that would prohibit entry to nonparticipating vessels during the race. The participating race boats will be competing at high speeds with numerous spectator craft in the area, thus creating an extra or unusual hazard on the navigable waterways. These regulations are required to provide for the safety of life on navigable waters during the Puerto Rico International Cup, Fajardo, Puerto Rico.

#### **Regulatory Evaluation**

This proposed regulation is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(f) of that order. The Office of Management and Budget has excepted it from review under that order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979). The
