SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and

OSHA's estimate of the information collection burden is correct.

The Occupational Safety and Health Act of 1970 (the Act) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents. (29 U.S.C. 657.) In this regard, the standard on Aerial Lifts requires that when aerial lifts are "field modified" for uses other than those intended by the manufacturer, the modification must be certified in writing by the manufacturer or by any other equivalent entity, such as a nationally recognized testing laboratory to be in conformity with all applicable provisions of ANSI A92.2-1969 and the OSHA standard, to be at least as safe as the equipment was before modification.

II. Proposed Actions

OSHA proposes to decrease its earlier estimate of 72 burden hours to 45 burden hours for the provision pertaining to the manufacturer's certification record in the standard on Aerial Lifts (29 CFR 1910.67(b)(2)).

OSHA will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB to extend the approval of the information collection requirement contained in the above standard.

Type of Review: Extension of currently approved information collection requirement.

Agency: Occupational Safety and Health Administration.

Title: Aerial Lifts, Manufacturer's Certification Record of Modification (29 CFR 1910.67(b)(2)).

OMB Number: 1218-0230.

Affected Public: business or other for-profit; not-for-profit institutions; Federal government, state, local or tribal government.

Number of Respondents: 900.

Frequency: On occasion.

Average Time per Response: 3 minutes (0.05 hour).

Estimated Total Burden Hours: 45.
