SUPPLEMENTARY INFORMATION:

A. Regulatory Process

The Cost Accounting Standards Board's rules, regulations and Standards are codified at 48 CFR Chapter 99. Section 26(g)(1) of the Office of Federal Procurement Policy Act, 41 U.S.C. 422(g), requires that the Board, prior to the establishment of any new or revised Cost Accounting Standard, complete a prescribed rulemaking process. The process generally consists of the following four steps:

1. Consult with interested persons concerning the advantages, disadvantages and improvements anticipated in the pricing and administration of Government contracts as a result of the adoption of a proposed Standard.
 2. Promulgate an Advance Notice of Proposed Rulemaking.
 3. Promulgate a Notice of Proposed Rulemaking.
 4. Promulgate a Final Rule.
- This proposal is step one of the four-step process.

B. Background and Summary

In response to the Cost Accounting Standards (CAS) Board's continuing research, a number of commenters have identified accounting for the cost of employee stock ownership plans under government contracts as an issue requiring Board consideration. The primary concern raised is the lack of guidance concerning this matter in applicable government contracting regulations, and the attempt by the contracting parties, in certain cases, to apply various provisions of the CAS to

accounting for the costs of ESOPs, when such CAS provisions do not explicitly address or even mention ESOPs. More specifically, issues have arisen in which the accounting for the cost of ESOPs have caused substantial controversies.

This Staff Discussion Paper represents the results of research performed by the staff of the Cost Accounting Standards Board, and is issued by the Board in accordance with the requirements of 41 U.S.C. 422(g)(1)(A). The statements contained herein do not necessarily represent the position of the Cost Accounting Standards Board.

C. Public Comments

Interested persons are invited to participate by submitting data, views or arguments with respect to this Staff Discussion Paper. All comments must be in writing and submitted to the address indicated in the **ADDRESSES** section.

Nelson F. Gibbs,

Executive Director, Cost Accounting Standards Board.

Cost Accounting Standards Board Staff Discussion Paper—Issues Relating to Employee Stock Ownership Plans (ESOPs)

The Cost Accounting Standards (CAS) Board is examining the accounting issues related to the measurement, assignment and allocation of costs associated with Employee Stock Ownership Plans (ESOPs) to government contracts. This Staff Discussion Paper (SDP) is part of the Board's deliberative process that may lead to a pronouncement by the Board on this topic. The purpose of this SDP is to solicit comments on the relevant issues.

Background

The initial purpose of ESOPs was to encourage employee stock ownership of American industry. Such encouragement was contained in the Employee Retirement Income Security Act of 1974 (ERISA) and corresponding changes to the Internal Revenue Code. Congress has also commented on ESOP
