#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Standard Industrial Classification (SIC) system was replaced by the North American Industry Classification System (NAICS) in 1997 as the standard for industrial classification. As a result of this change, the Bureau of Labor Statistics (BLS) has been converting SIC codes to NAICS codes in the ARS. The conversion is planned to be completed with Fiscal Year 2001 ARS processing, at which time industrial classifications in the ARS will be based on the 2002 NAICS.

ARS forms used in the conversion were designed to gather respondent information necessary for converting SIC codes to NAICS codes. The BLS currently is requesting Office of Management and Budget clearance of revised ARS survey forms that will be used to verify and update existing 2002 NAICS codes. They also will be used to update employers' business names and addresses and other geographical information. The revised ARS forms have been redesigned to be easier to read and understand.
