(h) Staff are well trained in the handling and restraint of prisoners, including the proper use of firearms and other restraint devices, and have received specialized training in the area of sexual harassment.

§ 97.22 Pre-emption of federal, State, or local laws or regulations.

The regulations in this part implement the Act and do not pre-empt any applicable federal, State, or local law that may impose additional obligations on private prisoner transport companies or otherwise regulate the transportation of violent prisoners. All federal laws and regulations governing interstate commerce (e.g., federal laws regulating the possession of weapons and Federal Aviation Administration rules and regulations governing travel on commercial aircraft) will continue to apply to private prisoner transport companies. The regulations in this part in no way pre-empt, displace, or affect the authority of States, local governments, or other federal agencies to address these issues.

§ 97.24 No civil defense created.

The regulations in this part on private prisoner transport companies are not intended to create a defense to any civil action, whether initiated by a unit of government or any other party. Compliance with the regulations in this part is not intended to and does not establish a defense against an allegation of negligence or breach of contract. Regardless of whether a contractual agreement establishes minimum precautions, the companies affected by the regulations in this part will remain subject to the standards of care that are imposed by constitutional, statutory and common law upon their activities (or other activities of a similarly hazardous nature).

§ 97.30 Enforcement.

Any person who is found in violation of the regulations in this part will:
(a) Be liable to the United States for a civil penalty in an amount not to exceed $10,000 for each violation;
(b) Be liable to the United States for the costs of prosecution; and
(c) Make restitution to any entity of the United States, of a State, or of an inferior political subdivision of a State, that expends funds for the purpose of apprehending any violent prisoner who escapes from a prisoner transport company as the result, in whole or in part, of a violation of the regulations in this part promulgated pursuant to the Act.

DEPARTMENT OF LABOR
Occupational Safety and Health Administration
29 CFR Parts 1910, 1915, 1926 and 1928
[Docket Number H-122A]
RIN 1218-AB37
Indoor Air Quality
AGENCY: Occupational Safety and Health Administration (OSHA), Labor.
ACTION: Withdrawal of proposal.
SUMMARY: OSHA is withdrawing its Indoor Air Quality proposal and terminating the rulemaking proceeding. In the years since the proposal was issued, a great many state and local governments and private employers have taken action to curtail smoking in public areas and in workplaces. In addition, the portion of the proposal not related to environmental tobacco smoke (ETS) received little attention during the rulemaking proceedings, and much of that consisted of commenters calling into question significant portions of the proposal. As a result, record evidence supporting the non-ETS portion of the proposal is sparse. Withdrawal of this proposal will also allow the Agency to devote its resources to other projects. The Agency’s current regulatory priorities, as set forth in the Regulatory Agenda, include a number of important occupational safety and health standards. This document does not preclude any agency action that OSHA may find to be appropriate in the future.
DATES: The withdrawal is made on December 17, 2001.
FOR FURTHER INFORMATION CONTACT: Cathy Carpino, Attorney Advisor, Policy and Program Planning Division, Common Carrier Bureau, (202) 418-1580.
SUPPLEMENTARY INFORMATION:
1. On November 19, 2001, the Commission released a Notice of Proposed Rulemaking (66 FR 59759 (November 30, 2001)) establishing the pleading cycle for comments and reply comments in the above-captioned docket. The deadline for comments was extended to December 31, 2001, and January 22, 2002 for reply comments.
2. On December 3, 2001, the United States Telecom Association (USTA) filed a Motion for Extension of Time to extend the date for comments and reply comments by 30 days. According to USTA, it seeks this extension to permit its membership the opportunity “to undertake the dialogue necessary to pursue an industry wide solution” to unbundled network element (UNE) performance standards in response to the UNE Measurements and Standards Notice. USTA argues that the current comment schedule, which, it notes, falls within the upcoming holiday season, would not provide USTA’s members an
