polygraph testing to 30 minutes for ongoing investigations.

Total Burden Hours: 82,406.

Total Annualized Capital/Startup Costs: $0.

Total Annualized Costs (operating/maintaining systems or purchasing services): $0.

Description: The Employee Polygraph Protection Act of 1998 (EPPA) was signed into law June 27, 1988, and became effective December 27, 1988. EPPA prohibits most private employers (Federal, State and local government employers are exempted from the Act) from using any lie detector tests either for pre-employment screening or during the course of employment. The law contains several limited exemptions which authorize polygraph tests under certain conditions, including: (1) The testing of employees who are reasonably suspected of involvement in a workplace incident that results in economic loss or injury to the employer; (2) the testing by the Federal Government of experts, consultants, or employees of Federal contractors engaged in national security intelligence or counterintelligence functions; (3) the testing of some prospective employees of private armored car, security alarm, and security guard firms; and (4) the testing of some current and prospective employees in firms authorized to manufacture, distribute, or dispense controlled substances. Employers who violate any of the Act’s provisions may be assessed civil money penalties up to $10,000. The information collections contained in these regulations are necessary to insure that individuals subjected to polygraph testing are afforded the rights and protections contained in the EPPA. Failure to collect the information would make it extremely difficult for the Wage and Hour Division of the Department of Labor to enforce the provisions of the Act.

Office of the Secretary

Submission for OMB Review; Comment Request

August 26, 2002.

The Department of Labor (DOL) has submitted the following public information collection requests (ICRs) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. Chapter 35). A copy of each ICR, with applicable supporting documentation, may be obtained by calling the Department of Labor. To obtain documentation contact Darrin King on (202) 693–4129 to e-mail: King-Darrin@dol.gov.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for OSHA, Office of Management and Budget, Room 10235, Washington, DC 20503 ((202) 395–7316), within 30 days from the date of this publication in the Federal Register.

The OMB is particularly interested in comments which:

* Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

* Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

* Enhance the quality, utility, and clarity of the information to be collected; and

* Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Occupational Safety and Health Administration (OSHA).

Title: Blasting Operations.

Type of Review: Extension.

OMB Number: 1218–0217.

Frequency: On occasion.

Affected Public: Business or other for-profit; Federal Government, and State, Local or Tribal Government.

Number of Respondents: 160.

Number of Annual Responses: 160.

Estimated Time Per Response: 8 hours.

Total Burden Hours: 1,280 hours.

Total Annualized capital/startup costs: $0.

Total annual costs (operating/maintaining systems or purchasing services): $1,704,000.

Description: 29 CFR 1926.900(k)(3)(i) requires a prominent display of adequate warning signs against the use of mobile radio transmitters. If the signs are infeasible, an alternative method needs to be developed to prevent the premature detonation of electric blasting caps by mobile radio transmitters.

Agency: occupational Safety and Health Administration (OSHA).

Title: Vehicle-Mounted Elevating and Rotating Work Platforms (Aerial Lifts).

Type of Review: Extension.

OMB Number: 1218–0230.

Frequency: On occasion.

Type of Response: Recordkeeping and Third-party disclosure.

Affected Public: Business or other for-profit; Not-for-profit institutions; Federal Government; and State, Local, or Tribal Government.

Number of Respondents: 900.

Number of Annual Responses: 900.

Estimated Time Per Response: 3 minutes.

Total Burden Hours: 45.

Total Annualized capital/startup costs: $0.

Total annual costs (operating/maintaining systems or purchasing services): $0.

Description: 29 CFR 1910.167(b)(2) requires that when aerial lifts are “field modified” for uses other than those intended by the manufacturer, the manufacturer or other equivalent entity, such as a nationally recognized testing laboratory, must certify in writing that the modification is in conformity with all applicable provisions of ANSI A92.2–1969 and the OSHA standard and that the modified aerial lift is at least as safe as the equipment was before modifications. Employers are to maintain the certification record and make it available to OSHA compliance officers. This record provides assurance to employers, employees, and compliance officers that the modified aerial lift was inspected and/or tested after the modification and that the aerial lift is safe for use, thereby, preventing failure while employees are being elevated.
