SUPPLEMENTARY INFORMATION:

I. Background

The Copeland Act (40 U.S.C. 3145) requires contractors and subcontractors performing work on Federally financed or assisted construction contracts to "furnish weekly a statement with respect to the wages paid each employee during the preceding week." Regulations 29 CFR 5.5(a)(3)(ii) requires contractors weekly to submit a copy of all payrolls to the Federal agency contracting for or financing the construction project. A signed "Statement of Compliance" indicating the payrolls are correct and complete and that each laborer or mechanic has been paid not less than the proper Davis-Bacon Act (DBA) prevailing wage rate for the work performed must accompany the payroll. Regulations 29 CFR 3.3(b) requires each contractor to furnish such weekly "Statements of Compliance". Regulations 29 CFR 5.5(a)(3)(i) requires the Social Security Number of each employee on such payrolls. Regulations 29 CFR 3.4 and 5.5(a)(3)(i) require contractors to maintain these records for three years after completion of the work. Contractors and subcontractors must certify their payrolls by attesting that persons performing work on Davis-Bacon and Related Acts (DBRA) covered

contracts have received the proper payment of wages and fringe benefits. Contracting officials and Wage and Hour Division staff use these certified payrolls to verify that contractors pay the required rates and as an aid in determining whether the contractors have properly classified the workers for the work they perform. The DOL has developed the optional use Form WH-347, Payroll Form, which contractors may use to meet the payroll reporting requirements. The form contains the basic payroll information that contractors must furnish each week they perform any work subject to the DBRA. This information collection is currently approved for use through March 31, 2006.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)).

This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657).

The 13 Carcinogens Standard covers the following carcinogens: 4-Nitrobiphenyl (§ 1910.1003), alpha-Naphthylamine (§ 1910.1004), Methyl chloromethyl ether (§ 1910.1006), 3,3'-

Dichlorobenzidine (and its salts) (§ 1910.1007), bis-Chloromethyl ether (§ 1910.1008), beta-Naphthylamine (§ 1910.1009), Benzidine (§ 1910.1010), 4-Aminodiphenyl (§ 1910.1011), Ethyleneimine (§ 1910.1012), beta-Propiolactone (§ 1910.1013), 2-Acetylaminofluorene (§ 1910.1014), 4-Dimethylaminoazobenzene (§ 1910.1015), and N-Nitrosodimethylamine (§ 1910.1016). For purposes of this ICR, reference to 29 CFR 1910.1003 also incorporates the 13 Carcinogens Standard for Shipyards (29 CFR 1915.1003-.1016) and Construction (29 CFR 1926.1103-1116), whose requirements are identical to those contained in § 1910.1003.

The information collection requirements specified in the 13 Carcinogens Standard protect employees from the adverse health effects that may result from exposure to any of the 13 carcinogens. The major information collection requirements of the 13 Carcinogens Standard include: establishing and implementing respiratory protection and medical surveillance programs for employees assigned to or being considered for assignment to regulated areas; maintaining complete and accurate records of the respiratory protection programs and medical surveillance; providing employees with records of all medical examination results; and posting warning signs and information. In addition, employers must retain employee medical records for specified time periods, provide these records to OSHA and the National Institute for Occupational Safety and Health (NIOSH) upon request, and transfer them to NIOSH under certain circumstances.

In 1998, the Standard's respiratory protection program requirements were revised as part of the Respiratory Protection rulemaking (63 FR 1286 (1/8/1998)). The information collection requirements pertaining to the respiratory protection requirements in the 13 Carcinogens Standard and the burden associated with those requirements were included in the Respiratory Protection final rule (63 FR 1152-54) (OMB Control Number 1218-0099 (2001 and 2004)). Accordingly, they are not included in this ICR.

Also, this ICR does not include collection of information requirements or burden hours and costs for providing operation and incident reports to OSHA. OSHA deleted these requirements in the Standards Improvement Project—Phase II final (70 FR 1112 (1/5/2005)).

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA proposes to extend the Office of Management and Budget's (OMB) approval of the information collection requirements necessitated by the 13 Carcinogens Standard. In its extension request, OSA also is proposing to increase the total burden hours for these requirements from 1,634 to 1,657 hours, a total increase of 23 hours. The burden hour increase results from increasing the estimated number of employees who will request access to their medical records. The Agency will summarize the public comments submitted in response to this notice and will include this summary in its request to OMB to extend the approval of these information collection requirements.

Type of Review: Extension of currently approved information collection requirements.

Title: 13 Carcinogens Standard.

OMB Number: 1218-0085.

Affected Public: Business or other for-profits; Federal Government; State, Local or Tribal Government; not-for-profit institutions.

Frequency: On occasion, annually.

Average Time Per Response: Time per response ranges from approximately 5 minutes (for employers to maintain records) to 2 hours for employees to receive a medical examination.

Estimated Total Burden Hours: 1,657.

Estimated Cost (Operation and Maintenance): \$86,226.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments and supporting materials in response to this notice by (1) hard copy, (2) FAX transmission (facsimile), or (3) electronically through the OSHA Web page. Because of security-related

problems, there may be a significant delay in the receipt of comments sent by regular mail. All comments, submissions and background documents are available for inspection and copying at the OSHA Docket Office at the above address. Comments and submissions posted on OSHA's Web page are available at <http://www.OSHA.gov>. Contact the OSHA docket Office for information about materials not available through the OSHA Web page and for assistance using the Web page to locate docket submissions.

Electronic copies of this **Federal Register** notice as well as other relevant documents are available on OSHA's Web page. Because submissions become public, private information such as social security numbers should not be submitted.
