JUDICIAL CONFERENCE OF THE UNITED STATES

Meeting of the Judicial Conference Advisory Committee on Rules of Bankruptcy Procedure,

AGENCY: Advisory Committee on Rules of Bankruptcy Procedure, Judicial Conference of the United States.

ACTION: Notice of open meeting.

SUMMARY: The Advisory Committee on Rules of Bankruptcy Procedure will hold a two day meeting. The meeting will be open to public observation but not participation.

DATES: September 6-7, 2007.

Time: 8:30 a.m. to 5 p.m.

ADDRESSES: Teton Mountain Lodge, 3385 West Village Drive, P.O. Box 564, Teton Village, WY 83025.

FOR FURTHER INFORMATION CONTACT: John K. Rabiej, Chief, Rules Committee Support Office, Administrative Office of the United States Courts, Washington, DC 20544, telephone (202) 502-1820.

Dated: February 27, 2007.

BILLING CODE 2210-55-M

DEPARTMENT OF JUSTICE

Office of Justice Programs

[OMB Number 1121-0234]

National Institute of Justice; Agency Information Collection Activities, Proposed Collection; Comment Requested

ACTION: 60-Day Notice of Information Collection Under Review: Extension of a Currently Approved Collection. Requirements Data Collection Application for the Juvenile

Accountability Incentive. Block Grants Program.

The Department of Justice, Office of Justice Programs has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed information collection is published to obtain comments from the public and affected agencies. Comments are encouraged and will be accepted for "sixty days" until May 7, 2007. This process is conducted in accordance with 5 CFR 1320.10.

If you have comments, especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Tom Murphy, Office of Justice Programs, The Office of Juvenile Justice and Delinquency Prevention, (202) 353-8734.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agencies' estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

Overview of This Information Collection

Type of Information Collection

(1) Extension of a Currently Approved Collection.

(2) *Title of the Forms/Collection:*

Requirements Data Collection Application for the Juvenile Accountability Incentive Block Grants Program.

(3) *The agency form number, if any, and the applicable component of the Department sponsoring the collection:*

(4) *Affected public who will be asked or required to respond are:* Prosecutors, Law Enforcement Officials, and Forensic Laboratory personnel from agencies within the jurisdiction represented by the grantees.

The National Institute of Justice uses this information to assess the impacts and cost-effectiveness of the Forensic Casework DNA Backlog Programs over time and to diagnose performance problems in current casework programs. This evaluation will help decision makers be better informed to not only diagnose program performance problems, but also to better understand whether the benefits of DNA collection and testing is in fact an effective public safety and crime control practice.

(1) *An estimate of the total number of respondents and the amount of time needed for an average respondent to respond is broken down as follows:*

Law Enforcement—200 respondents, average burden time 120 minutes—400 hours total.

Prosecutors—200 respondents, average burden time 90 minutes—300 hours total.

Lab personnel—135 respondents average burden 120 minutes—270 hours total.

(2) *An estimate of the total public burden (in hours) associated with the collection:* The estimated total public burden associated with this collection is 970 hours.

If additional information is required, contact Lynn Bryant, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Patrick Henry Building, Suite 1600, 601 D Street, NW., Washington, DC 20530.

Dated: March 1, 2007.

Lynn Bryant,

Department Clearance Officer, PRA, Department of Justice.

BILLING CODE 4410-18-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2006-0042]

Canadian Standards Association; Expansion of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: This notice announces the Occupational Safety and Health Administration's final decision expanding the recognition of the Canadian Standards Association (CSA) as a Nationally Recognized Testing Laboratory under 29 CFR 1910.7.

DATES: The expansion of recognition becomes effective on March 7, 2007.

FOR FURTHER INFORMATION CONTACT: MaryAnn Garrahan, Director, Office of Technical Programs and Coordination Activities, NRTL Program, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N-3655, Washington, DC 20210, or phone (202) 693-2110.

SUPPLEMENTARY INFORMATION:

Notice of Final Decision

The Occupational Safety and Health Administration (OSHA) hereby gives notice of the expansion of recognition of the Canadian Standards Association (CSA) as a Nationally Recognized Testing Laboratory (NRTL). CSA's expansion covers the use of additional test standards. OSHA's current scope of recognition for CSA may be found in the following informational Web page: <http://www.osha.gov/dts/otpca/nrtl/csa.html>.

OSHA recognition of an NRTL signifies that the organization has met the legal requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification.

The Agency processes applications by an NRTL for initial recognition or for expansion or renewal of this recognition following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two

notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. We maintain an informational Web page for each NRTL that details its scope of recognition. These pages can be accessed from our Web site at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

CSA submitted an application, dated July 5, 2005, (see Exhibit 34-1) to expand its recognition to include 12 additional test standards. The NRTL Program staff determined that nine of these standards are "appropriate test standards" within the meaning of 29 CFR 1910.7(c). However, one of these standards was already included in CSA's scope. Therefore, OSHA is approving eight test standards for the expansion. In connection with this request, OSHA did not perform an on-site review of CSA's NRTL testing facilities. However, NRTL Program assessment staff reviewed information pertinent to the request and recommended expansion for the eight additional test standards (see Exhibit 34-2).

The preliminary notice announcing the expansion application was published in the **Federal Register** on October 6, 2006 (71 FR 59129). Comments were requested by October 23, 2006, but no comments were received in response to this notice. OSHA is now proceeding with this final notice to grant CSA's expansion application.

The most recent application processed by OSHA specifically related to CSA's recognition granted an expansion, and the final notice for this expansion was published on August 26, 2003 (68 FR 51303).

You may obtain or review copies of all public documents pertaining to the CSA application by contacting the

Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N-2625, Washington, DC 20210. Docket No. OSHA-2006-0042 (formerly NRTL2-92) contains all materials in the record concerning CSA's recognition.

The current addresses of the CSA facilities already recognized by OSHA are:

Canadian Standards Association, 178 Rexdale Boulevard (Toronto), Etobicoke, ON M9W 1R3, Canada;

CSA International, Pointe-Claire (Montreal), 865 Ellingham Street, Pointe-Claire, PQ H9R 5E8, Canada;

CSA International, Richmond (Vancouver), 13799 Commerce Parkway, Richmond, BC V6V 2N9, Canada;

CSA International, Edmonton, 1707-94th Street, Edmonton, AB T6N 1E6, Canada;

CSA International, Irvine, 2805 Barranca Parkway, Irvine, CA 92606; and

CSA International, Cleveland, 8501 East Pleasant Valley Road, Cleveland, OH 44131.

Final Decision and Order

NRTL Program staff has examined the application, the assessor's recommendation, and other pertinent information. Based upon this examination and the assessor's recommendation, OSHA finds that CSA has met the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitation and conditions listed below. Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the recognition of CSA, subject to this limitation and these conditions.

Limitation

OSHA limits the expansion of CSA's recognition to testing and certification of products for demonstration of conformance to the following test standards, each of which OSHA has determined is an appropriate test standard, within the meaning of 29 CFR 1910.7(c):

UL 568	Nonmetallic Cable Tray Systems.
FM 3810	Electrical and Electronic Test, Measuring, and Process Control Equipment.
UL 61010A-2-010	Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Laboratory Equipment for the Heating of Materials.
UL 61010A-2-041	Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Autoclaves Using Steam for the Treatment of Medical Materials and for Laboratory Processes.
UL 61010A-2-042	Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Autoclaves and Sterilizers Using Toxic Gas for the Treatment of Medical Materials, and for Laboratory Processes.
UL 61010A-2-051	Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Laboratory Equipment for Mixing and Stirring.
UL 61010A-2-061	Electrical Equipment for Laboratory Use; Part 2: Particular Requirements for Laboratory Atomic Spectrometers with Thermal Atomization and Ionization.

UL 61010B-2-031	Electrical Equipment for Measurement, Control, and Laboratory Use; Part 2: Particular Requirements for Hand-Held Probe Assemblies for Electrical Measurement and Test.
-----------------------	--

The designations and titles of the above test standards were current at the time of the preparation of the preliminary notice.

OSHA's recognition of CSA, or any NRTL, for a particular test standard is limited to equipment or materials (i.e., products) for which OSHA standards require third-party testing and certification before use in the workplace. Consequently, if a test standard also covers any product(s) for which OSHA does not require such testing and certification, an NRTL's scope of recognition does not include that product(s).

Many UL test standards are approved as American National Standards by the American National Standards Institute (ANSI). However, for convenience, we use the designation of the standards developing organization for the standard as opposed to the ANSI designation. Under our procedures, any NRTL recognized for an ANSI-approved test standard may use either the latest proprietary version of the test standard or the latest ANSI version of that standard. You may contact ANSI to find out whether or not a test standard is currently ANSI-approved.

Conditions

CSA must also abide by the following conditions of the recognition, in addition to those already required by 29 CFR 1910.7:

OSHA must be allowed access to CSA's facilities and records for purposes of ascertaining continuing compliance with the terms of its recognition and to investigate as OSHA deems necessary; If CSA has reason to doubt the efficacy of any test standard it is using under this program, it must promptly inform the test standard developing organization of this fact and provide that organization with appropriate relevant information upon which its concerns are based;

CSA must not engage in or permit others to engage in any misrepresentation of the scope or conditions of its recognition. As part of this condition, CSA agrees that it will allow no representation that it is either a recognized or an accredited Nationally Recognized Testing Laboratory (NRTL) without clearly indicating the specific equipment or material to which this recognition is tied, or that its recognition is limited to certain products;

CSA must inform OSHA as soon as possible, in writing, of any change of

ownership, facilities, or key personnel, and of any major changes in its operations as an NRTL, including details;

CSA will meet all the terms of its recognition and will always comply with all OSHA policies pertaining to this recognition; and

CSA will continue to meet the requirements for recognition in all areas where it has been recognized.

Signed at Washington, DC, this 26th day of February, 2007.

Edwin G. Foulke, Jr.,

Assistant Secretary of Labor.

BILLING CODE 4510-26-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

AGENCY: National Science Foundation.

ACTION: Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by April 6, 2007. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Nadene G. Kennedy at the above address or (703) 292-7405.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for

various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

The applications received are as follows:

1. *Applicant:* Permit Application No. 2007-024.

Daniel P. Costa, Department of Biology, University of California, Santa Cruz, Santa Cruz, CA 95064.

Activity for Which Permit Is Requested

Take, Import into the U.S, and Enter an Antarctic Specially Protected Area. The applicant proposes to take up to 35 Crabeater, 10 each of Leopard and Weddell seals and 5 Ross seals per year over a 3-year period. The animals will be captured, tagged, dye marked, anesthetized, blood sampled, weighed, morphometric measurements taken, muscle and/or blubber biopsy taken, whisker taken, and instrumented with SMRU CTD SRDLs and VHR's tags. Samples collected will be used to study the foraging behavior and habitat utilization of pelagic predators. Animals will be taken from the pack ice, however if this proves to be logically infeasible, then the applicant proposes to enter the Antarctic Specially Protected Areas: Dion Islands (ASPA #107); Lagotellerie Islands (ASPA #115); Avian Islands (ASPA #117) and Rothera Point (ASPA #129) to collect the required samples.

Location

Marguerite Bay, West Antarctic Peninsula, Dion Islands (ASPA #107), Lagotellerie Islands (ASPA #115), Avian Islands (ASPA #117) and Rothera Point (ASPA #129).

Dates

April 1, 2007 to August 31, 2010.

Nadene G. Kennedy,

Permit Officer, Office of Polar Programs.
