Organix Inc to manufacture the listed basic classes of controlled substances is consistent with the public interest at this time. DEA has investigated Organix Inc to ensure that the company’s registration is consistent with the public interest. The investigation has included inspection and testing of the company’s physical security systems, verification of the company’s compliance with state and local laws, and a review of the company’s background and history. Therefore, pursuant to 21 U.S.C. 823, and in accordance with 21 CFR 1301.33, the above named company is granted registration as a bulk manufacturer of the basic classes of controlled substances listed.

Joseph T. Rannazzisi,  
Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

SUPPLEMENTARY INFORMATION:
I. Background
The Department of Labor, as part of its
continuing effort to reduce paperwork
and respondent (i.e., employer) burden,
conducts a preclearance consultation
program to provide the public with an
opportunity to comment on proposed
and continuing information collection
requirements in accordance with the
Paperwork Reduction Act of 1995 (44
U.S.C. 3506(c)(2)(A)). This program
ensures that information is in the
desired format, reporting burden (time
and cost) is minimal, collection
instruments are clearly understood, and
OSHA’s estimate of the information
collection burden is accurate. The
Occupational Safety and Health Act of
1970 (the OSH Act) (29 U.S.C. 651 et
seq.) authorizes information collection
by employers as necessary or
appropriate for enforcement of the Act
or for developing information regarding
the causes and prevention of
occupational injuries, illnesses, and
accidents (29 U.S.C. 657). The OSH Act
also requires that OSHA obtain such
information with minimum burden
upon employers, especially those
operating small businesses, and to
reduce to the maximum extent feasible
unnecessary duplication of efforts in

The Standard specifies several
paperwork requirements. The following
sections describe who uses the
information collected under each
requirement as well as how they use it.
The purpose of these requirements is to
prevent death and serious injuries
among employees by ensuring that the
derrick is not used to lift loads beyond
its rated capacity and that all the ropes
are inspected for wear and tear.

Paragraph (c)(1) requires that for
permanently installed derricks a clearly
legible rating chart be provided with
each derrick and securely affixed to the
derrick. Paragraph (c)(2) requires that
for non-permanent installations the
manufacturer provide sufficient
information from which capacity charts
can be prepared by the employer for the
particular installation. The capacity
charts must be located at the derrick or
at the jobsite office. The data on the
capacity charts provide information to
the employees to assure the derricks are
used as designed and not overloaded or
used beyond the range specified in the
charts.

Paragraph (f)(2)(i)(d) requires that
warning or out of order signs be placed
on the derrick hoist while adjustments
and repairs are being performed.

Paragraph (g)(1) requires employers to
thoroughly inspect all running rope in
use, and to do so at least once a month.
In addition, before using rope which has
been idle for at least a month, it must
be inspected as prescribed by paragraph
(g)(3) and a record prepared to certify
that the inspection was done. The
certification records must include the
inspection date, the signature of the
person conducting the inspection, and
the identifier of the rope inspected.
Employers must keep the certification
records on file and available for
inspection. The certification records
provide employers, employees, and
OSHA compliance officers with
assurance that the ropes are in good
condition.

Disclosure of Charts Under Paragraph
(c) and Inspection Certification Records
Under Paragraph (g). The Standard
requires the disclosure of charts and
inspection certification records if
requested during an OSHA inspection.

II. Special Issues for Comment
OSHA has a particular interest in
comments on the following issues:
• Whether the proposed information
collection requirements are necessary
for the proper performance of the
Agency’s functions, including whether
the information is useful;
• The accuracy of OSHA’s estimate of
the burden (time and costs) of the
information collection requirements,
including the validity of the
methodology and assumptions used;
• The quality, utility, and clarity of the
information collected; and
• Ways to minimize the burden on
employers who must comply; for
example, by using automated or other
information collection and
transmission techniques.

III. Proposed Actions
OSHA is requesting that OMB extend
its approval of the information
collection requirements contained in the
Standard on Derricks (29 CFR 1910.181). The Agency is requesting to
reduce the burden hours associated with this the Standard from 25,104 to 1,356
for a total reduction of 23,748 burden
hours. The Agency will summarize the
comments submitted in response to this
notice, and will include this summary
in the request to OMB.

Type of Review: Extension of
currently approved information
collection requirement.
Title: Derricks (29 CFR 1910.181).
OMB Number: 1218–0222.
Affected Public: Business or other
for-profit.
Number of Respondents: 3,757.
Frequency: Annually; Semi-annually;
On occasion.
Average Time per Response: Varies
from one minute (.02 hour) to maintain
rating load charts to 13 minutes (.22
hour) to inspect ropes and to develop
and maintain the inspection
certification record.
Estimated Total Burden Hours: 1,356.
Estimated Cost (Operation and
Maintenance): $0.

IV. Public Participation—Submission of
Comments on this Notice and Internet
Access to Comments and Submissions
You may submit comments in
response to this document as follows:
(1) Electronically at http://
www.regulations.gov, which is the
Federal eRulemaking Portal; (2) by
facsimile (FAX); or (3) by hard copy. All
comments, attachments, and other
material must identify the Agency name
and the OSHA docket number for the
ICR (OSHA Docket No. OSHA–2007–
0025). You may supplement electronic
submissions by uploading document
files electronically. If you wish to mail
additional materials in reference to an
electronic or facsimile submission, you
must submit them to the OSHA Docket
Office (see the section of this notice
titled ADDRESSES). The additional

BILLING CODE 6820–FN–M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–280 and 50–281]

Virginia Electric and Power Company; Surry Power Station, Unit Nos. 1 and 2; Notice of Withdrawal of Application for Amendment to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Virginia Electric and Power Company (the licensee) to withdraw its February 14, 2006, application for proposed amendment to Facility Operating License Nos. DPR–32 and DPR–37 for the Surry Power Station, Unit Nos. 1 and 2 (Surry 1 and 2), located in Surry County, Virginia.

The proposed amendments would have revised the Technical Specifications (TSs) pertaining to restricting the minimum cooling time and burnup of spent fuel assemblies that will be placed into storage in the NUHOMS HD spent fuel dry storage system at Surry 1 and 2 starting in the summer of 2006. Specifically, the proposed amendments would add Figures 5.4–2 and 5.4–4 to the TSs to ensure that the NUHOMS HD canister remains subcritical during operations in the Surry 1 and 2 spent fuel pool.

The Commission had previously issued a Notice of Consideration of Issuance of Amendments published in the Federal Register on May 16, 2006 (71 FR 28390). However, by letter dated March 12, 2007, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendments dated February 14, 2006, and the licensee’s letter dated March 12, 2007, which withdrew the application for license amendments. Documents may be examined, and/or copied for a fee, at the NRC’s Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, http://www.nrc.gov/reading-rm.html. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference Staff by telephone at 1–800–397–4209, or 301–415–4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 16th day of March 2007.
