devices. The petitioner states that no such catch or device is available for the conditions present. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

**Regulation Affected:** 30 CFR 75.1909(b)(6) (Non-permissible diesel-powered equipment; design and performance requirements).

**Modification Request:** The petitioner requests a modification of the existing standard to permit the use of the Getman Roadbuilder, Model RDG–1504S, serial number 6940, without front brakes as it was originally designed. The existing standard requires that service brakes on self-propelled non-permissible diesel-powered equipment act on each wheel and are designed such that a failure on one component will not result in a complete loss of braking capability. The petitioner states that: (1) The Roadbuilder has six wheels with dual brake systems on the four rear wheels, and is designed to prevent loss of braking due to a single component failure; (2) seventy-four percent of the machines total weight is over the four rear wheels; (3) brakes on the rear of the Roadbuilder are sufficient to safely stop the machine; (4) training will be provided for grador operators to lower the moldboard for additional stopping capability in emergency situations; (5) operators will be trained to recognize the appropriate speeds to use on different roadway conditions; and (6) operators will be trained to limit the maximum speed to ten miles per hour. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

**Docket Number:** M–2007–036–C. **Petitioner:** KMMC, LLC, (dba) Vision Mining, P.O. Box 99, Sibree, Kentucky 42455. **Mine:** Vision No. 9 Mine, (MSHA I.D. No. 15–17044), located in Webster County, Kentucky.

**Regulation Affected:** 30 CFR 75.1101–1(b) (Deluge water spray systems).

**Modification Request:** The petitioner requests a modification of the existing standard to permit the use of deluge-type water spray systems installed at belt conveyor drives in lieu of using blow off dust covers. The petitioner proposes to have a person who is trained in the testing procedure specific to the deluge-type water spray fire suppression systems conduct examinations and tests on a weekly basis as follows: (1) Conduct a visual examination of each deluge-type water spray fire suppression system; (2) conduct a functional test of each deluge-type water spray fire suppression system and observe its performance; and (3) record the results of the examination and test in a book maintained on the surface which would be retained and made available to the authorized representative of the Secretary. The petitioner states that if any malfunction or clogged nozzle is detected as a result of the weekly examination or functional test, corrections will be made immediately. The petitioner asserts that the proposed alternative method will at all times guarantee no less than the same measure of protection to all miners as would be provided by the mandatory safety standard.

**Dated:** June 25, 2007. **Jack Powasnik,** Acting Director, Office of Standards, Regulations, and Variances.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA–2007–0054]

**Material Hoists, Personnel Hoists, and Elevators; Extension of the Office of Management and Budget’s (OMB) Approval of Information Collection (Paperwork) Requirements**

**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.

**ACTION:** Request for public comment.

**SUMMARY:** OSHA solicits public comment concerning its proposal to extend OMB approval of the information collection requirements specified in the Material Hoists, Personnel Hoists, and Elevators Standard (29 CFR 1926.552). The Standard is designed to protect employees who operate and work around personnel hoists.

**DATES:** Comments must be submitted (postmarked, sent, or received) by August 31, 2007.

**ADDRESSES:**

- **Electronically:** You may submit comments and attachments electronically at http://www.regulations.gov, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.
- **Facsimile:** If your comments, including attachments, are not longer than 10 pages, you may fax them to the OSHA Docket Office at (202) 693–1648.
- **Mail, hand delivery, express mail, messenger, or courier service:** When using this method, you must submit three copies of your comments and attachments to the OSHA Docket Office, Docket No. OSHA–2007–0054, U.S. Department of Labor, Occupational Safety and Health Administration, Room N–2625, 200 Constitution Avenue, NW., Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the Department of Labor’s and Docket Office’s normal business hours, 8:15 a.m. to 4:45 p.m., e.t.

**Instructions:** All submissions must include the Agency name and OSHA docket number for the ICR (OSHA–2007–0054). All comments, including any personal information you provide, are placed in the public docket without change, and may be made available online at http://www.regulations.gov. For further information on submitting comments see the “Public Participation” heading in the section of this notice titled **SUPPLEMENTARY INFORMATION.**

**Docket:** To read or download comments or other material in the docket, go to http://www.regulations.gov or the OSHA Docket Office at the address above. All documents in the docket (including this Federal Register notice) are listed in the http://www.regulations.gov index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. You may also contact Stewart Burkhammer at the address below to obtain a copy of the ICR.

**FURTHER INFORMATION CONTACT:** Stewart Burkhammer, Directorate of Construction, OSHA, U.S. Department of Labor, Room N–3468, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693–2020.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts an ongoing initiative to provide the public with an opportunity to comment on proposed
and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The following section describes who uses the information collection requirements contained in the Material Hoists, Personnel Hoists, and Elevators Standard.

Posting Requirements

Paragraph (a)(2) requires that the rated load capacities, recommended operating speeds, and special hazard warnings or instructions be posted on cars and platforms.

Paragraph (b)(1)(i) requires that operating rules for material hoists be established and posted at the operator’s station of the hoist. These rules shall include signal system and allowable line speed for various loads.

Paragraph (c)(10) requires that cars be provided with a capacity and data plate secured in a conspicuous place on the car or crosshead.

These posting requirements are used by the operator and crew of the material and personnel hoists to determine how to use the specific machine and how much it will be able to lift as assembled in one or a number of particular configurations. If not properly used, the machine would be subject to failures, endangering the employees in the immediate vicinity.

Test and Inspection and Certification Records

Paragraph (c)(15) requires that a test and inspection of all functions and safety devices be made following assembly and erection of hoists. The test and inspection are to be conducted under the supervision of a competent person. A similar inspection and test is required following major alteration of an existing installation. All hoists shall be inspected and tested at three-month intervals. A certification record (the most recent) of the test and inspection is required to be kept on file, including the date the test and inspection was completed, the identification of the equipment and the signature of the person who performed the test and inspection. This certification ensures that the equipment has been tested and is in safe operating condition.

Disclosure of Test and Inspection Certification Records

The most recent certification record will be disclosed to a CSHO during an OSHA inspection. Disclosing the certification record to the CSHO demonstrates the employer’s compliance with this provision.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

• Whether the proposed information collection requirements are necessary for the proper performance of the Agency’s functions, including whether the information is useful;

• The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;

• The quality, utility, and clarity of the information collected; and

• Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Material Hoists, Personnel Hoists, and Elevators Standard (29 CFR 1926.552). The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of currently approved information collection requirements.

Title: Material Hoists, Personnel Hoists, and Elevators (29 CFR 1926.552).

OMB Number: 1218–0231.

Affected Public: Business or other for-profit.

Number of Respondents: 26,547.

Frequency: On occasion; weekly; monthly; quarterly.

Average Time per Response: Varies from 2 minutes (.03 hour) for a supervisor to disclose test and inspection certification records to 30 minutes (.50 hour) for a construction worker to obtain and post information for hoists.

Estimated Total Burden Hours: 30,282.

Estimated Cost (Operation and Maintenance): S-0-.

IV. Public Participation—Submission of Comments on this Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

1. Electronically at http://www.regulations.gov, which is the Federal eRulemaking Portal; (2) by facsimile (FAX); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA–2007–0054).

You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled ADDRESSES). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693–2350 (TTY (877) 889–5627).

Comments and submissions are posted without change at http://www.regulations.gov. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the http://www.regulations.gov index, some information (e.g., copyrighted material) is not publicly available to read or download through this Web site.

All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the http://www.regulations.gov Web site to submit comments and access the docket is available at the Web site’s “User Tips” link. Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.
V. Authority and Signature
Edwin G. Foulke, Jr., Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 et seq.) and Secretary of Labor’s Order No. 5–2002 (67 FR 65008).

Edwin G. Foulke, Jr., Assistant Secretary of Labor for Occupational Safety and Health.

DEPARTMENT OF LABOR
Occupational Safety and Health Administration

[Docket No. OSHA–2007–0052]

Portable Fire Extinguishers (Annual Maintenance Certification Record); Extension of the Office of Management and Budget’s (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comment.

SUMMARY: OSHA solicits public comment concerning its proposal to extend OMB approval of the information collection requirements specified in the Standard on Portable Fire Extinguishers (Annual Maintenance Certification Record) (29 CFR 1910.157(e)(3)).

Paragrapĥ (e)(3) of the Standard requires employers to: Inspect portable fire extinguishers annually for normal operation; record the maintenance date; retain the maintenance record for one year after the last entry or for the life of the shell, whichever is less; and make the record available to an OSHA compliance officer upon request. The annual maintenance inspection ensures that portable fire extinguishers are in safe operating condition in case of a fire, while the maintenance record provides evidence to employees and Agency compliance officers that employers performed the required inspections.

DATES: Comments must be submitted (postmarked, sent, or received) by August 31, 2007.

ADDRESSES: Electronically: You may submit comments and attachments electronically at http://www.regulations.gov, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Facsimile: If your comments, including attachments, are not longer than 10 pages, you may fax them to the OSHA Docket Office at (202) 693–1648.

Mail, hand delivery, express mail, messenger, or courier service: When using this method, you must submit three copies of your comments and attachments to the OSHA Docket Office, Docket No. OSHA–2007–0052, U.S. Department of Labor, Occupational Safety and Health Administration, Room N–2625, 200 Constitution Avenue, NW., Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the Department of Labor’s and Docket Office’s normal business hours, 8:15 a.m. to 4:45 p.m., e.t.

Instructions: All submissions must include the Agency name and OSHA docket number for the ICR (OSHA–2007–0052). All comments, including any personal information you provide, are placed in the public docket without change, and may be made available online at http://www.regulations.gov.

For further information on submitting comments see the “Public Participation” heading in the section of this notice titled SUPPLEMENTARY INFORMATION.

Docket: To read or download comments or other material in the docket, go to http://www.regulations.gov or the OSHA Docket Office at the address above. All documents in the docket (including this Federal Register notice) are listed in the http://www.regulations.gov index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. You may also contact Theda Kenney at the address below to obtain a copy of the ICR.

FOR FURTHER INFORMATION CONTACT:
Theda Kenney or Todd Owen, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, Room N–3609, 200 Constitution Avenue, NW., Washington, DC 20210; telephone (202) 693–2222.

SUPPLEMENTARY INFORMATION:

I. Background
The Department of Labor, as part of its ongoing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

Section 1910.157(e)(3) specifies that employers must subject each portable fire extinguisher to an annual maintenance inspection and record the date of the inspection. In addition, this provision requires employers to retain the inspection record for one year after the last entry or for the life of the shell, whichever is less, and to make the record available to OSHA on request. This recordkeeping requirement assures employees and Agency compliance officers that portable fire extinguishers located in the workplace will operate normally in case of fire; in addition, this requirement provides evidence of the required extinguisher inspections to OSHA compliance officers during a workplace inspection.

II. Special Issues for Comment
OSHA has a particular interest in comments on the following issues:

• Whether the proposed information collection requirements are necessary for the proper performance of the Agency’s functions, including whether the information is useful;

• The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;

• The quality, utility, and clarity of the information collected; and

• Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.
