Description: Title 29 CFR 1910.266(i)(10)(i) specifies that employers engaging in logging operations must provide written certification that employees and supervisors completed certain required training, including first-aid training, while paragraph (i)(10)(ii) mandates that employers retain these certificates until replaced by more recent certificates. Establishing and maintaining this written certification of training assures the employer that the training specified by the Standard has been conducted, and at the required frequencies. In addition, these records provide the most efficient means for an OSHA compliance officer to determine whether an employer conducted the required training at the necessary and appropriate frequencies.

Acting Departmental Clearance Officer.
