Part XII

Department of Labor

Semiannual Regulatory Agenda
DEPARTMENT OF LABOR (DOL)

DEPARTMENT OF LABOR
Office of the Secretary
20 CFR Chs. I, IV, V, VI, VII, and IX
29 CFR Subtitle A and Chs. II, IV, V, XVII, and XXV
30 CFR Ch. I
41 CFR Ch. 60
48 CFR Ch. 29

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Internet has become the means for disseminating the entirety of the Department of Labor’s semiannual regulatory agenda. However, the Regulatory Flexibility Act requires publication of a regulatory flexibility agenda in the Federal Register. This Notice contains the regulatory flexibility agenda. In addition, the Department’s Regulatory Plan, a subset of the Department’s regulatory agenda, is being published in the Federal Register. The Regulatory Plan contains a statement of the Department’s regulatory priorities and the regulatory actions the Department wants to highlight as its most important and significant.

FOR FURTHER INFORMATION CONTACT: Kathleen Franks, Director, Office of Regulatory Policy, Office of the Assistant Secretary for Policy, U.S. Department of Labor, 200 Constitution Avenue NW., Room S-2312, Washington, DC 20210; (202) 693-5959.

NOTE: Information pertaining to a specific regulation can be obtained from the agency contact listed for that particular regulation.

SUPPLEMENTARY INFORMATION: Executive Order 12866 requires the semiannual publication of an agenda of regulations that contains a listing of all the regulations the Department of Labor expects to have under active consideration for promulgation, proposal, or review during the coming one-year period. The entirety of the Department’s semiannual agenda is available online at www.reginfo.gov.

The Regulatory Flexibility Act (5 U.S.C. 602) requires DOL to publish in the Federal Register a regulatory flexibility agenda. The Department’s Regulatory Flexibility Agenda published with this notice, includes only those rules on its semiannual agenda that are likely to have a significant economic impact on a substantial number of small entities; and those rules identified for periodic review in keeping with the requirements of section 610 of the Regulatory Flexibility Act. Thus, the regulatory flexibility agenda is a subset of the Department’s semiannual regulatory agenda. At this time, there is only one item, listed below, on the Department’s Regulatory Flexibility Agenda.

Occupational Safety and Health Administration

Bloodborne Pathogens (RIN 1218-AC34)

In addition, the Department’s Regulatory Plan, also a subset of the Department’s regulatory agenda, is being published in the Federal Register. The Regulatory Plan contains a statement of the Department’s regulatory priorities and the regulatory actions the Department wants to highlight as its most important and significant.

All interested members of the public are invited and encouraged to let departmental officials know how our regulatory efforts can be improved, and are invited to participate in and comment on the review or development of the regulations listed on the Department’s agenda.

Hilda L. Solis,
Secretary of Labor.

#### 395. PERSUADER AGREEMENTS: EMPLOYER AND LABOR RELATIONS CONSULTANT REPORTING UNDER THE LMRDA

**Regulatory Plan:** This entry is Seq. No. 95 in part II of this issue of the *Federal Register*.

**RIN:** 1245–AA03

**Abstract:** The Department intends to publish a notice and comment rulemaking seeking consideration of the Form LM-21, Receipts and Disbursements Report, which is required pursuant to section 203(b) of the Labor-Management Reporting and Disclosure Act (LMRDA). The rulemaking will propose mandatory electronic filing for Form LM-21 filers, and it will review the layout of the Form LM-21 and its instructions, including the detail required to be reported.

- **397. NOTIFICATION OF EMPLOYEE RIGHTS UNDER FEDERAL LABOR LAWS**
  - **Legal Authority:** EO 13496
  - **Abstract:** Pursuant to Executive Order 13496 of January 30, 2009, the Department of Labor proposes to prescribe the size, form, and content of the notice to be posted by a contractor under paragraph 1 of the contract clause described in section 2 of the order. Such notice shall describe the rights of employees under Federal labor laws, consistent with the policy set forth in section 1 of the order.
  - **Regulatory Flexibility Analysis Required:** Yes
  - **Agency Contact:** Andrew R. Davis, Chief, Division of Interpretations and Standards, Office of Labor–Management Standards, Room N–5609, FP Building, 200 Constitution Avenue NW., Washington, DC 20210

### Department of Labor (DOL)
#### Occupational Safety and Health Administration (OSHA)

- **400. OCCUPATIONAL EXPOSURE TO BERYLLIUM**
  - **Legal Authority:** 29 USC 655(b); 29 USC 657
  - **Abstract:** In 1999 and 2001, OSHA was petitioned to issue an emergency temporary standard by the United Steel Workers (formerly the Paper Allied-Industrial, Chemical, and Energy Workers Union), Public Citizen Health Research Group, and others. The Agency denied the petitions but stated its intent to begin data gathering to collect needed information on beryllium’s toxicity, risks, and patterns of usage.
  - **Prerule Stage**
  - On November 26, 2002, OSHA published a Request for Information
(RFI) (67 FR 70707) to solicit information pertinent to occupational exposure to beryllium including: current exposures to beryllium; the relationship between exposure to beryllium and the development of adverse health effects; exposure assessment and monitoring methods; exposure control methods; and medical surveillance. In addition, the Agency conducted field surveys of selected work sites to assess current exposures and control methods being used to reduce employee exposures to beryllium. OSHA convened a Small Business Advocacy Review Panel under the Small Business Regulatory Enforcement Fairness Act (SBREFA) and completed the SBREFA Report in January 2008. OSHA is currently conducting a scientific peer review of its draft risk assessment, which is scheduled to be completed in November 2010. Additionally, an economic peer review is scheduled to be completed in May 2011.

**RIN:** 1218–AB76

**401. OCCUPATIONAL EXPOSURE TO FOOD FLAVORINGS CONTAINING DIACETYL AND DIACETYL SUBSTITUTES**

**Legal Authority:** 29 USC 655(b); 29 USC 657

**Abstract:** On July 26, 2006, the United Food and Commercial Workers International Union (UFCW) and the International Brotherhood of Teamsters (IBT) petitioned DOL for an Emergency Temporary Standard (ETS) for all employees exposed to diacetyl, a major component in artificial butter flavoring. Diacetyl and a number of other volatile organic compounds are used to manufacture artificial butter food flavorings. These food flavorings are used by various food manufacturers in a multitude of food products including microwave popcorn, certain bakery goods, and some snack foods. OSHA withdrew the petition on December 25, 2007, but has initiated 6(b) rulemaking.

Evidence from NIOSH and other sources indicated that employee exposure to diacetyl and food flavorings containing diacetyl is associated with bronchiolitis obliterans, a debilitating and potentially fatal disease of the small airways in the lung. Severe obstructive airway disease has been observed in the microwave popcorn industry and in food flavoring manufacturing plants. Experimental evidence has shown that inhalation exposure to artificial butter flavoring vapors and diacetyl damaged tissue lining the nose and airways of rats and mice. OSHA published an Advanced Notice of Proposed Rulemaking (ANPRM) on January 21, 2009, but withdrew the ANPRM on March 17, 2009, in order to facilitate timely development of a standard. The Agency subsequently initiated review of the draft proposed standard in accordance with the Small Business Regulatory Enforcement Fairness Act (SBREFA). The SBREFA Panel Report was completed on July 2, 2009.

The occurrence of severe lung disease among workers in workplaces where diacetyl is manufactured and used has led some manufacturers to reduce or eliminate the amount of diacetyl in some kinds of flavorings, foods, and beverages. They have begun to use substitutes such as 2,3-pentanedione. These substitutes, some of which are structurally similar to diacetyl, have not been well-studied and there is growing concern that they also pose health risks for workers. Research on 2,3-pentanedione conducted by NIOSH and NIEHS suggests that, in rats, 2,3-pentanedione causes airway damage similar to that produced by diacetyl. NIOSH is currently developing a criteria document on occupational exposure to diacetyl. The criteria document will also address exposure to 2,3-pentanedione. It will include an assessment of the effects of exposure as well as quantitative risk assessment. OSHA intends to rely on these portions of the criteria document for the health effects analysis and quantitative risk assessment for the Agency’s diacetyl rulemaking. NIOSH will initiate public peer review of the criteria document in April, 2011.

**402. BLOODBORNE PATHOGENS (SECTION 610 REVIEW)**

**Legal Authority:** 5 USC 533; 5 USC 610; 29 USC 655(b)

**Abstract:** OSHA will undertake a review of the Bloodborne Pathogen Standard (29 CFR 1910.1030) in accordance with the requirements of the Regulatory Flexibility Act and section 5 of Executive Order 12866. The review will consider the continued need for the rule; whether the rule overlaps, duplicates, or conflicts with other Federal, State or local regulations; and the degree to which technology, economic conditions, or other factors may have changed since the rule was evaluated.

404. CONFINED SPACES IN CONSTRUCTION

**Legal Authority:** 29 USC 655(b); 40 USC 333

**Abstract:** In January 1993, OSHA issued a general industry rule to protect employees who enter confined spaces (29 CFR 1910.146). This standard does not apply to the construction industry because of differences in the nature of the worksite in the construction industry. In discussions with the United Steel Workers of America on a settlement agreement for the general industry standard, OSHA agreed to issue a proposed rule to extend confined-space protection to construction workers appropriate to their work environment.

405. ELECTRIC POWER TRANSMISSION AND DISTRIBUTION; ELECTRICAL PROTECTIVE EQUIPMENT

**Legal Authority:** 29 USC 655(b); 40 USC 333

**Abstract:** Electrical hazards are a major cause of occupational death in the United States. The annual fatality rate for power line workers is about 50 deaths per 100,000 employees. The construction industry standard addressing the safety of these workers during the construction of electric power transmission and distribution lines is over 35 years old. OSHA has developed a revision of this standard that will prevent many of these fatalities, add flexibility to the standard, and update and streamline the standard. OSHA also intends to amend the corresponding standard for general industry so that requirements for work performed during the maintenance of electric power transmission and distribution installations are the same as those for similar work in construction. In addition, OSHA will be revising a few miscellaneous general industry requirements primarily affecting electric transmission and distribution work, including provisions on electrical protective equipment and foot protection. This rulemaking also addresses fall protection in aerial lifts for work on power generation, transmission, and distribution installations. OSHA published an NPRM on June 15, 2005. A public hearing was held from March 6 through March 14 in 2006. OSHA reopened the record to gather additional information on minimum approach distances for specific ranges of voltages. The record was reopened a second time to allow more time for comment and to gather information on minimum approach distances for all voltages and on the newly revised Institute of Electrical and Electronics Engineers consensus standard. Additionally, a public hearing was held on October 28, 2009. The posthearing comment period ended in February 2010. OSHA anticipates publishing a final rule in May 2011.

DOL—OSHA

406. CRANES AND DERRICKS IN CONSTRUCTION

Legal Authority: 29 USC 651(b); 29 USC 655(b); 40 USC 333

Abstract: A number of industry stakeholders asked OSHA to update the cranes and derricks portion of subpart N (29 CFR 1926.550), specifically requesting that negotiated rulemaking be used.

In 2002, OSHA published a notice of intent to establish a negotiated rulemaking committee. A year later, in 2003, committee members were announced and the Cranes and Derricks Negotiated Rulemaking Committee was established and held its first meeting. In July 2004, the committee reached consensus on all issues resulting in a final consensus document.

A Notice of Proposed Rulemaking (NPRM) was published on October 9, 2008. The comment period for the NPRM was extended and closed January 22, 2009. A public hearing was held on March 20, 2009. The final rule was posted and made public on July 28, 2010, and published in the Federal Register on August 9, 2010.

Timetable:

- Notice of Intent To Establish Negotiated Rulemaking: 07/16/02
- Comment Period End: 09/16/02
- Request for Comments on Proposed Committee Members: 02/27/03

407. METHYLENE CHLORIDE (COMPLETION OF A SECTION 610 REVIEW)

Legal Authority: 5 USC 553; 5 USC 610; 29 USC 655(b)

Abstract: OSHA undertook a review of the Methylene Chloride Standard (29 CFR 1910.1052) in accordance with the requirements of the Regulatory Flexibility Act and section 5 of Executive Order 12866. The review considered the continued need for the rule: whether the rule overlaps, duplicates, or conflicts with other Federal, State, or local regulations; and the degree to which technology, economic conditions, or other factors may have changed since the rule was evaluated.

Timetable:

- Notice of Intent To Establish Negotiated Rulemaking: 07/10/07
