ACTION: Proposed rule; withdrawal.

SUMMARY: With this document, OSHA is withdrawing the proposed rule that accompanied its direct-final rule revising the Acetylene Standard for general industry.

DATES: Effective March 8, 2012, the proposed rule published December 5, 2011 (76 FR 75840), is withdrawn.

Copies of this Federal Register notice: Electronic copies of this Federal Register notice are available at http://www.regulations.gov. This Federal Register notice, as well as news releases and other relevant information, is also available at OSHA’s Web page at http://www.osha.gov.

SUPPLEMENTARY INFORMATION: On December 5, 2011, OSHA published a direct-final rule to update the incorporated references in its Acetylene Standard for general industry at 29 CFR 1910.102 (76 FR 75782). OSHA also published a companion proposed rule along with the direct-final rule (76 FR 75840). In the direct-final rule, OSHA stated that it would withdraw the companion proposed rule and confirm the effective date of the direct-final rule if it received no significant adverse comments on the direct-final rule by January 4, 2012. OSHA received one comment on the direct-final rule by that date, which it determined was not a significant adverse comment. OSHA is publishing a notice announcing this determination and confirming the effective date of the direct-final rule as March 5, 2012. Accordingly, OSHA is not proceeding with the proposed rule, and is withdrawing it from the rulemaking process.
