**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to

reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The HAZWOPER Standard specifies a number of collection of information (paperwork) requirements. Employers can use the information collected under the HAZWOPER rule to develop the various programs the Standard requires and to ensure that their workers are trained properly about the safety and health hazards associated with hazardous waste operations and emergency response to hazardous waste releases. OSHA will use the records developed in response to this Standard to determine adequate compliance with the Standard's safety and health provisions. The employer's failure to collect and distribute the information required in this Standard will affect significantly OSHA's effort to control and reduce injuries and fatalities. Such failure would also be contrary to the direction Congress provided in the Superfund Amendments and Reauthorization Act (SARA).

**II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

**III. Proposed Actions**

The Agency is requesting an adjustment in the burden hours of 1,381 hours from 1,199,954 to 1,198,573 hours. The adjustment in burden hours is primarily due to a decrease in the number of sites covered by the Standard.

The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements contained in the Standard.

*Type of Review:* Extension of a currently approved collection.

*Title:* Hazardous Waste Operations and Emergency Response (HAZWOPER) Standard (29 CFR 1910.120).

*OMB Control Number:* 1218-0202.

*Affected Public:* Business or other for-profits; Not-for-profit organizations; Federal Government; State, Local, or Tribal Government.

*Number of Respondents:* 30,125.

*Total Responses:* 1,205,700.

*Frequency:* On occasion.

*Average Time per Response:* Varies from one minute (.02 hour) to maintain a certification record to 24 hours for initial employee training.

*Estimated Total Burden Hours:* 1,198,573.

*Estimated Cost (Operation and Maintenance):* \$3,059,864.

#### MERIT SYSTEMS PROTECTION BOARD

##### Agency Information Collection Activities; Proposed Collection

**AGENCY:** Merit Systems Protection Board.

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (PRA), the U.S. Merit Systems Protection Board (MSPB) announces that it is planning to submit a request for a three-year extension of an Information Collection Request (ICR) to the Office of Management and Budget (OMB). Before submitting this ICR to OMB for review and approval, MSPB is soliciting comments on specific aspects of the proposed information collection as described below.

**DATES:** Written comments must be received on or before June 29, 2012.

**ADDRESSES:** Submit written comments on the collection of information to William D. Spencer, Merit Systems Protection Board, 1615 M Street NW., Washington, DC 20419.

#### FOR FURTHER INFORMATION CONTACT:

Requests for additional information should be directed to Dr. DeeAnn Batten at (202) 254–4495 or [deeann.batten@mspb.gov](mailto:deeann.batten@mspb.gov).

**SUPPLEMENTARY INFORMATION:** Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. The MSPB intends to ask for a three-year renewal of its Generic Clearance Request for Voluntary Customer Surveys, OMB Control No. 3124–0012. Executive Order 12862, "Setting Customer Service Standards," mandates that agencies identify their customers and survey them to determine the kind and quality of services they want and their level of satisfaction with existing services and products.

In this regard, we are soliciting comments on the public reporting burden. The reporting burden for the collection of information on this request is estimated to vary from 5 minutes to 45 minutes, with an average of 30 minutes, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. In the estimated annual reporting burden listed below, the reason that the annual number of respondents differs from the number of total annual responses is that our experience shows that only about 50% of those invited to participate in our voluntary customer surveys avail themselves of that opportunity.

In addition, the MSPB invites comments on (1) Whether the proposed collection of information is necessary for the proper performance of MSPB's functions, including whether the information will have practical utility; (2) the accuracy of MSPB's estimate of burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
