SUPPLEMENTARY INFORMATION: The Assistant Secretary of Labor for Occupational Safety and Health invites interested persons to submit nominations for membership on MACOSH.

Background. The Secretary of Labor and OSHA plan to recharter MACOSH for two years when the current charter expires on January 25, 2013. MACOSH is a Federal Advisory Committee established under the authority of the Occupational Safety and Health Act (OSH Act) (29 U.S.C. 651 *et seq.*), the Federal Advisory Committee Act (FACA) 5 U.S.C. App. 2, and regulations issued pursuant to those statutes (29 CFR part 1912, 41 CFR part 102–3). The Committee advises the Secretary of Labor on matters relating to occupational safety and health programs, enforcement, new initiatives, and standards for the maritime industries of the United States, which include longshoring, marine terminals, and shipyard employment. OSHA

invites persons interested in serving on MACOSH to submit their names for consideration for Committee membership.

MACOSH reports to the Secretary of Labor through OSHA, and functions solely as an advisory body. MACOSH provides recommendations and advice to the Department of Labor and OSHA on various policy issues pertaining to safe and healthful employment in the maritime industries. The Secretary of Labor consults with MACOSH on various subjects, including: Ways to increase the effectiveness of safety and health standards that apply to the maritime industries, injury and illness prevention, the use of stakeholder partnerships to improve training and outreach initiatives, and ways to increase the national dialogue on occupational safety and health. In addition, MACOSH provides advice on enforcement initiatives that will improve the working conditions and the safety and health of workers in the maritime industries. The Committee meets approximately 3–4 times per year. Committee members serve without compensation, but OSHA provides travel and per diem expenses.

MACOSH Membership: MACOSH consists of not more than 15 members appointed by the Secretary of Labor. The Agency seeks committed MACOSH members who have a strong interest in the safety and health of workers in the maritime industries. The U.S. Department of Labor is committed to equal opportunity in the workplace. The Secretary of Labor will appoint members to create a broad-based, balanced and diverse committee reflecting the shipyard and longshoring industries, and representing affected interests such as employers, employees, safety and health professional organizations, government organizations with interests or activities related to the maritime industry, academia, and the public.

Nominations of new members or resubmissions of former or current members will be accepted in all categories of membership. Interested persons may nominate themselves or submit the name of another person whom they believe to be interested in, and qualified to serve on, MACOSH. Nominations also may be submitted by organizations from one of the categories listed above.

Submission requirements: Nominations must include the following information:

- (1) Nominee's contact information and current employment or position;
- (2) Nominee's resume or curriculum vitae, including prior membership on

MACOSH and other relevant organizations and associations;

(3) Maritime industry interest (e.g., employer, employee, public, state safety and health agency, academia) that the nominee is qualified to represent;

(4) A summary of the background, experience, and qualifications that addresses the nominee's suitability for membership; and

(5) A statement that the nominee is aware of the nomination, is willing to regularly attend and participate in MACOSH meetings, and has no conflicts of interest that would preclude membership on MACOSH.

OSHA will conduct a basic background check of candidates before their appointment to MACOSH. The background check will involve accessing publicly available, internet-based sources.

Member selection. The Secretary of Labor will select MACOSH members on the basis of their experience, knowledge, and competence in the field of occupational safety and health, particularly in the maritime industries. Information received through this nomination process, and other relevant sources of information, will assist the Secretary of Labor in appointing members to MACOSH. In selecting MACOSH members, the Secretary of Labor will consider individuals nominated in response to this **Federal Register** notice, as well as other qualified individuals. OSHA will publish a list of MACOSH members in the **Federal Register**.

Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice under the authority granted by 29 U.S.C. 655(b)(1) and 656(b), 5 U.S.C. App. 2, Secretary of Labor's Order No. 1-2012 (77 FR 3912), and 29 CFR part 1912.

Signed at Washington, DC, on July 30, 2012.

Interim Staff Guidance on Changes to the Generic Aging Lessons Learned (GALL) Report Revision 2 AMP XI.M41, "Buried and Underground Piping and Tanks"

AGENCY: Nuclear Regulatory Commission.

ACTION: Interim staff guidance; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing the final License Renewal Interim Staff Guidance (LR-ISG), LR-ISG-2011-03, "Changes to GALL Report Revision 2 Aging Management Program (AMP) XI.M41, 'Buried and Underground Piping and Tanks'." This LR-ISG provides changes to the recommendations in GALL Report Revision 2 AMP XI.M41 based on the staff's review of several license renewal applications' buried and underground piping and tanks AMPs and stakeholder input. The LR-ISG revises NRC staff recommended AMPs in NUREG-1801, Revision 2, "Generic Aging Lessons Learned (GALL) Report," and the NRC staff's aging management review procedure and acceptance criteria contained in NUREG-1800, Revision 2, "Standard Review Plan for Review of License Renewal Applications for Nuclear Power Plants" (SRP-LR). The NRC published Revision 2 of the SRP-LR and GALL Report in December 2010, and they are available in the NRC's Agencywide Documents Access and Management System (ADAMS) under Accession Nos. ML103490041 and ML103490036, respectively.

SUPPLEMENTARY INFORMATION:

Background Information

The NRC issues LR-ISG to communicate insights and lessons learned and to address emergent issues not covered in license renewal guidance documents. In this way, the NRC staff and stakeholders may use the guidance in an LR-ISG document until it is incorporated into a formal license renewal guidance document revision. The NRC staff issues LR-ISG in accordance with the LR-ISG Process, Revision 2 (ADAMS Accession No. ML100920158), for which a notice of availability was published in the **Federal Register** on June 22, 2010 (75 FR 35510).

The NRC staff developed LR-ISG-2011-03 to (a) Include inspection recommendations for plants that will not utilize a cathodic protection system in the period of extended operation, (b) remove the recommendation to volumetrically inspect underground piping to detect internal corrosion since other AMPs such as XI.M 38 manage the aging of internal surfaces of buried and underground piping and tanks, (c) base further increased inspection sample sizes on an analysis of extent of cause and extent of condition when adverse conditions are detected in the initial and subsequent doubled sample size rather than continuing to double the sample size, (d) add a recommendation that where damage to the coating is significant and the damage was caused
