

objective of the review will be to gather information so that OTLA can better understand the allegations contained in the submission and to publicly report on the issues raised therein. As set out in the Procedural Guidelines, OTLA will complete the review and issue a public report to the Secretary of Labor within 180 days, unless circumstances, as determined by OTLA, require an extension of time. The public report will include a summary of the review process, as well as any findings and recommendations.

Signed at Washington, DC, on September 21, 2015.

Carol Pier,

Deputy Undersecretary for International Affairs.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing collection of information requirements in accord with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et*

seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The purpose of the Lead in General Industry Standard and its collection of information requirements is to reduce occupational lead exposure in general industry. Lead exposure can result in both acute and chronic effects and can be fatal in severe cases of lead toxicity. The standard contains the following collection of information requirements: Conducting worker exposure monitoring; notifying workers of their lead exposure levels; establishing, implementing and reviewing a written compliance program annually; labeling containers of contaminated protective clothing and equipment; providing medical surveillance to workers; providing examining physicians with specific information; notifying workers of their medical surveillance results (including medical examinations and biological monitoring) and of the option for multiple physician review; posting warning signs; establishing and maintaining exposure monitoring, medical surveillance, and medical removal records; and providing workers with access to these records. The records are used by employees, physicians, employers and OSHA to determine the effectiveness of the employer's compliance efforts.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed collection of information requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the collection of information requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The Agency is requesting an adjustment decrease of 75,092 burden hours (from 1,105,397 to 1,030,305 burden hours). The decrease in burden hours is due to an estimated overall decrease in the number of covered establishments, based on updated data and estimates. There is also an estimated decrease in operation and maintenance costs of \$50,556,032, from \$143,192,845 to \$92,636,813. The decrease in operation and maintenance costs is due to an estimated decrease in the cost of biological medical surveillance, due to the Agency's identification of a new data source which indicates a lower cost for biological monitoring tests than previously assumed.

Type of Review: Extension of a currently approved collection.

Title: Lead in General Industry Standard (29 CFR 1910.1025).

OMB Control Number: 1218-0092.

Affected Public: Businesses or other for-profits.

Number of Respondents: 53,935.

Frequency of Response: On occasion; Quarterly; Bi-monthly; Semi-annually; Annually.

Total Responses: 3,616,044.

Average Time per Response: Varies from 1 minute (.02 hour) for a clerical employee to notify employees of their right to seek a second medical opinion to 8 hours to develop a compliance plan.

Estimated Total Burden Hours: 1,030,305.

Estimated Cost (Operation and Maintenance): \$92,636,813.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

- (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal;
- (2) by facsimile; or
- (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for this ICR (Docket No. OSHA-2012-0013). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627). Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as their social security number and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.
