SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., the State Plans) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA–95) (44 U.S.C. 3506(c)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimized, collection instruments are understandable, and OSHA’s estimate of the information collection burden is accurate. Currently, OSHA is soliciting comments concerning the extension of the information collection requirements contained in the series of regulations establishing requirements for the submission, initial approval, continuing approval, final approval, monitoring, and evaluation of OSHA-approved State Plans:

• 29 CFR part 1902, State Plans for the Development and Enforcement of State Standards;
• 29 CFR part 1953, Changes to State Plans for the Development and Enforcement of State Standards;
• 29 CFR part 1954, Procedures for the Evaluation and Monitoring of Approved State Plans; and

Section 18 of the Occupational Safety and Health Act (29 U.S.C. 667) offers an opportunity to the states to assume responsibility for the development and enforcement of state standards through the mechanism of an OSHA-approved State Plan. Absent an approved plan, states are precluded from enforcing occupational safety and health standards in the private sector with respect to any issue for which Federal OSHA has promulgated a standard. Once approved and operational, the state adopts standards and provides most occupational safety and health enforcement and compliance assistance in the state under the authority of its plan, instead of Federal OSHA. States also must extend their jurisdiction to cover state and local government employees and may obtain approval of State Plans limited in scope to these workers. To obtain and maintain State Plan approval, a state must submit various documents to OSHA describing its program structure and operation, including any modifications thereto as they occur, in accordance with the identified regulations. OSHA funds 50 percent of the costs required to be incurred by an approved State Plan, with the state at least matching and providing additional funding at its discretion.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

• Whether the proposed information collection requirements are necessary for the proper performance of the
Agency’s functions, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on participating states who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the collection of information requirements associated with its State Plan regulations. The Agency is requesting an adjustment increase to adjust the number of burden hours associated with the developmental steps necessary for states in the developmental process, including Maine, Illinois and the Virgin Islands. Maine received initial approval on August 5, 2015 and has been moved to the developmental category. As a result, the total burden hours have increased slightly from 11,369 to 11,519 burden hours (an increase of 150 burden hours).

The Agency will summarize the comments submitted in response to this notice and will include this summary in its request to OMB.

Type of Review: Extension of a currently approved collection.
Title: Occupational Safety and Health State Plans.
OMB Control Number: 1218–0247.
Affected Public: Designated state government agencies that are seeking or have submitted and obtained approval for State Plans for the development and enforcement of occupational safety and health standards.
Number of Respondents: 28.
Frequency of Response: On occasion; quarterly; annually.
Total Responses: 1,309.
Average Time per Response: Varies from 30 minutes (.5 hour) to respond to an information inquiry to 80 hours to document state annual performance goals.
Estimated Total Burden Hours: 11,519.
Estimated Cost (Operation and Maintenance): $0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:
- Electronically at http://www.regulations.gov, which is the Federal eRulemaking Portal;
- by facsimile (fax); or
- by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA–2011–0197). You may submit electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled ADDRESSES). The additional materials must clearly identify your electronic comments by your name, date, and the OSHA docket number, so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693–2350, (TTY) (877) 889–5627.

Comments and submissions are posted without change at http://www.regulations.gov. Therefore, OSHA cautions commenters about submitting personal information, such as their social security number and date of birth. Although all submissions are listed in the http://www.regulations.gov index, some information (e.g., copyrighted material) is not publicly available to read or download from this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the http://www.regulations.gov Web site to submit comments and access the docket is available at the Web site’s “User Tips” link. Contact the OSHA Docket Office for information about materials not available from the Web site and for assistance in using the Internet to locate docket submissions.

OFFICE OF MANAGEMENT AND BUDGET

AGENCY: Office of Management and Budget, Executive Office of the President.
ACTION: Notice of availability.

SUMMARY: The Office of Management and Budget (OMB) has revised Circular A–119, “Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities,” in light of changes that have taken place in the world of regulation, standards, and conformity assessment since the Circular was last revised in 1998. The revised Circular is available at http://www.whitehouse.gov/omb/inforeg_infopoltech.

DATES: Effective upon publication as of January 27, 2016, OMB is making revised Circular A–119 available to the public.

FOR FURTHER INFORMATION CONTACT: Jasmeet Seehra, Office of Management and Budget, Office of Information and Regulatory Affairs, at CircularA-119@omb.eop.gov.

SUPPLEMENTARY INFORMATION: Public Law 104–113, the “National Technology Transfer and Advancement Act of 1995,” codified the existing policies in A–119, “Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities,” established reporting requirements, and authorized the National Institute of Standards and Technology to coordinate conformity assessment activities of the agencies. In 1998, OMB revised the Circular in order to make the terminology of the Circular consistent with the National Technology Transfer and Advancement Act of 1995, to issue guidance to the agencies on making their reports to OMB, to direct the Secretary of Commerce to issue policy guidance for conformity assessment, and to make changes for clarity.

OMB has issued a revision of Circular A–119 in light of changes that have taken place in the world of regulation, standards, and conformity assessment since the Circular was last revised in 1998. The revised Circular is available at http://www.whitehouse.gov/omb/inforeg_infopoltech. OMB’s revisions are meant to provide more detailed guidance to agencies to take into
