

provide workers with medical examinations, including initial, periodic, emergency and follow-up examinations. As part of the medical surveillance program, employers must ensure that the examining physician receives specific written information, and that they obtain from the physician a written opinion regarding the worker's medical results and exposure limitations.

The MDA standard also specifies that employers are to establish and maintain exposure monitoring and medical surveillance records for each worker who is subject to these respective requirements, make any required record available to OSHA compliance officers and the National Institute for Occupational Safety and Health (NIOSH) for examination and copying, and provide exposure monitoring and medical surveillance records to workers and their designated representatives. Finally, employers who cease to do business within the period specified for retaining exposure monitoring and medical surveillance records, and who have no successor employer, must notify NIOSH at least 90 days before disposing of the records and transmit the records to NIOSH if so requested.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The Agency is requesting an adjustment decrease in burden hours from 370 hours to 335 hours. The decrease is the result of a slight decrease in the number of impacted secondary-use plants and a reduction in workers receiving initial medical examinations, receiving exposure monitoring training, and requesting access to records. There is an overall adjustment decrease in capital costs of \$3,802 (from \$27,982 to \$24,180) resulting from a decrease in the cost to analyze a sample of airborne MDA from \$119 to \$87 each. However,

the cost of a medical exam increased from \$187 to \$207.

The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements contained in the MDA Standard.

Type of Review: Extension of a currently approved collection.

Title: 4,4'-Methylenedianiline Standard for General Industry (29 CFR 1910.1050).

OMB Control Number: 1218-0184.

Affected Public: Business or other for-profits; Not-for-profit organizations; Federal Government; State, Local, or Tribal Government.

Number of Respondents: 10.

Total Responses: 574.

Frequency: On occasion.

Average Time per Response: Varies from 5 minutes (.08 hour) for employers to provide information to the physician to 1.5 hours to review and maintain a compliance plan.

Estimated Total Burden Hours: 335.

Estimated Cost (Operation and Maintenance): \$24,180.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

- (1) electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number (Docket No. OSHA-2012-0040) for the ICR. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627). Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA

cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this Web site.

All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.

V. Authority and Signature

David Michaels, Ph.D., MP, Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 1-2012 (77 FR 3912).

Signed at Washington, DC, on March 7, 2016.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.

[FR Doc. 2016-05486 Filed 3-10-16; 8:45 am]

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2010-0020]

Additional Requirements for Special Dipping and Coating Operations (Dip Tanks); Extension of the Office of Management and Budget's (OMB) Approval of the Information Collection (Paperwork) Requirement

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning its proposal to extend The Office of Management and Budget (OMB) approval of the information collection requirement specified in its Standard on Dipping and Coating Operations (Dip Tanks) (29 CFR 1910.126(g)(4)).

DATES: Comments must be submitted (postmarked, sent, or received) by May 10, 2016.

ADDRESSES: *Electronically:* You may submit comments and attachments

electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Facsimile: If your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at (202) 693-1648.

Mail, hand delivery, express mail, messenger, or courier service: When using this method, you must submit a copy of your comments and attachments to the OSHA Docket Office, OSHA Docket No. OSHA-2010-0020, Occupational Safety and Health Administration, U.S. Department of Labor, Room N-2625, 200 Constitution Avenue NW., Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the Department of Labor's and Docket Office's normal business hours, 8:15 a.m. to 4:45 p.m., e.t.

Instructions: All submissions must include the Agency name and the OSHA docket number (OSHA-2010-0020) for the Information Collection Request (ICR). All comments, including any personal information you provide, are placed in the public docket without change, and may be made available online at <http://www.regulations.gov>. For further information on submitting comments, see the "Public Participation" heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the address above. All documents in the docket (including this **Federal Register** notice) are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download from the Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. You may also contact Theda Kenney at the address below to obtain a copy of the ICR.

FOR FURTHER INFORMATION CONTACT: Theda Kenney or Todd Owen, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, Room N-3609, 200 Constitution Avenue NW., Washington, DC 20210; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork

and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The Standard on Dipping and Coating Operations (29 CFR 1910.126(g)(4)) requires employers to post a conspicuous sign near each piece of electrostatic detearing equipment that notifies employees of the minimum safe distance they must maintain between goods undergoing electrostatic detearing and the electrodes or conductors of the equipment used in the process. Doing so reduces the likelihood of igniting the explosive chemicals used in electrostatic detearing operations.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirement is necessary for the proper performance of the Agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirement, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirement contained in the

Standard on Additional Requirements for Special Dipping and Coating Operations (Dip Tanks) (29 CFR 1910.126(g)(4)). The Agency is requesting to retain its previous burden hour estimate of one (1) hour. This provision requires the employer to determine how far away goods being electrostatically deteared should be separated from electrodes or conductors. This distance is called the "safe distance." This minimum distance must be displayed conspicuously on a sign located near the equipment.

OSHA has determined that where electrostatic equipment is being used, the information has already been ascertained and that the "safe distance" has been displayed on a sign in a permanent manner. The Agency does not believe that this equipment is currently being manufactured or used due to changes in technology. OSHA does not believe there is any burden associated with the information collection requirement in the provision and is, therefore, estimating zero burden hours and no cost to the employer.

The Agency will summarize the comments submitted in response to this notice, and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved information collection.

Title: Additional Requirements for Special Dipping and Coating Operations (Dip Tanks) (29 CFR 1910.126(g)(4)).

OMB Control Number: 1218-0237.

Affected Public: Business or other for-profits; Federal Government; State, Local, or Tribal Government.

Number of Respondents: 1.

Frequency of Recordkeeping: On occasion.

Total Responses: 1.

Average Time per Response: 0.

Estimated Total Burden Hours: 1.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2010-0020). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you

must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Due to security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.

V. Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 1-2012 (77 FR 3912).

Signed at Washington, DC, on March 7, 2016.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.

[Docket Nos. OSHA-2014-0025, 0026, OSHA-2015-0004, 0007, 0011, 0016, 0023]

Authorization To Open Dockets of Denied Variance Applications for Public Access

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces its intent to update the publication of the dockets of variance applications that it denied in the period from 2014 to 2015. Previously OSHA published a **Federal Register** notice announcing the denied variance application dockets for the 2010 to 2014 (79 FR 76387) period. OSHA is making this information available to the public to enhance transparency concerning the variance process, to assist the public in understanding the variance process, and to reduce errors in applying for future variances.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor, 200 Constitution Avenue NW., Room N-3647, Washington, DC 20210; telephone: (202) 693-1999; email: Meilinger.francis2@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Room N-3655, Washington, DC 20210; phone: (202) 693-2110 or email: robinson.kevin@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Background

The principal objective of the Occupational Safety and Health Act of 1970 ("the OSH Act") is "to assure so far as possible every working man and woman in the Nation safe and healthful working conditions and to preserve our human resources" (29 U.S.C. 651 *et seq.*). In fulfilling this objective, the OSH Act authorizes the implementation of "such rules and regulations as [the Assistant Secretary of Labor for Occupational Safety and Health] may deem necessary to carry out [his/her] responsibilities under this Act" (29 U.S.C. 657(g)(2)).

Under several provisions of the OSH Act, employers may apply for four different types of variances from the requirements of OSHA standards. Employers submit variance applications voluntarily to OSHA, and the applications specify alternative means of complying with the requirements of OSHA standards. The four types of variances are temporary, experimental, permanent, and national-defense variances. OSHA promulgated rules implementing these statutory provisions in 29 CFR part 1905 ("Rules of Practice for Variances, Limitations, Variations, Tolerances, and Exemptions under the William-Steiger Occupational Safety and Health Act of 1970"). The following paragraphs further describe each of these four types of variances.

*Temporary variance.*¹ This variance delays the date on which an employer must comply with requirements of a newly issued OSHA standard. The employer must submit the variance application to OSHA after OSHA issues the standard, but prior to the effective date of the standard. In the variance application, the employer must demonstrate an inability to comply with the standard by its effective date "because of unavailability of professional or technical personnel or of materials and equipment needed to come into compliance with the standard or because necessary construction or alteration of facilities cannot be completed by the effective date." Employers also must establish that they are "taking all available steps to safeguard [their] employees against the hazards covered by the standard," and that they have "an effective program for coming into compliance with the standard as quickly as practicable." (29 U.S.C. 655(b)(6)(A)).

*Experimental variance.*² OSHA may grant this variance as an alternative to complying with the requirements of a standard whenever it determines that the variance "is necessary to permit an employer to participate in an experiment . . . designed to demonstrate or validate new and improved techniques to protect the health or safety of employees." (29 U.S.C. 655(b)(6)(C)).

*Permanent variance.*³ This variance authorizes employers (or groups of employers) to use alternative means of complying with the requirements of OSHA standards when the employers demonstrate, with a preponderance of

¹ See Section 6(b)(6)(A) of the OSH Act (29 U.S.C. 655) and 29 CFR 1905.10.

² See Section 6(b)(6)(C) of the OSH Act (29 U.S.C. 655).

³ See Section 6(d) of the OSH Act (29 U.S.C. 655) and 29 CFR 1905.11.
