II. Findings and Certifications

Environmental Impact

This ANPR is exclusively concerned with nondiscrimination standards. Accordingly, under 24 CFR 50.19(c)(3), it is categorically excluded from environmental review under the National Environmental Policy Act (42 U.S.C. 4321–4347).

Regulatory Review—Executive Orders 12866 and 13563

Executive Order 12866 (Regulatory Planning and Review), a determination must be made whether a regulatory action is significant and therefore, subject to review by the Office of Management and Budget (OMB) in accordance with the requirements of the order. Executive Order 13563 (Improving Regulations and Regulatory Review) directs executive agencies to analyze regulations that are “outmoded, ineffective, insufficient, or excessively burdensome, and to modify, streamline, expand, or repeal them in accordance with what has been learned. Executive Order 13563 also directs that, where relevant, feasible, and consistent with regulatory objectives, and to the extent permitted by law, agencies are to identify and consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public. This ANPR was reviewed by OMB and determined to likely result in a “significant regulatory action,” as defined in section 3(f) of Executive Order 12866.

Dated: June 18, 2018.

Anna Maria Farías,
Assistant Secretary for Fair Housing and Equal Opportunity.

Information Collection Requirements:

OSHA welcomes comments on the information collection requirements contained in this rule on the same basis as for any other aspect of the rule. Interested parties may also submit comments about the information collection requirements directly to the Office of Information and Regulatory Affairs. Attn: OMB Desk Officer for DOL–OSHA (RIN 1218–AC96), Office of Management and Budget, Room 10235, 725 17th Street NW, Washington, DC 20503, Fax: (202) 395–6881 (this is not a toll-free number), email: OIRA_submission@omb.eop.gov.

Instructions: All submissions must include the agency’s name, the title of the rulemaking (Cranes and Derricks in Construction: Operator Qualification), and the docket number (OSHA–2007–0066). Absent copyright protections or other restrictions, OSHA will place comments and other material, including any personal information, in the public docket without revision, and the comments and other material will be available online at http://www.regulations.gov. Therefore, commenters should not submit statements they do not want made available to the public, or submit comments that contain personal information (either about themselves or others) such as Social Security Numbers, birth dates, and medical data.

Docket: To read or download comments or other material in the electronic docket, go to http://www.regulations.gov or to the OSHA Docket Office at the above address. Some information submitted (e.g., copyrighted material) is not available publicly to read or download through this website. All submissions, including copyrighted material, are available for inspection at the OSHA Docket Office. Contact the OSHA Docket Office for assistance in locating docket submissions.
DEPARTMENT OF THE TREASURY
31 CFR Part 34
RIN 1505–AC55

Regulations for the Gulf Coast Restoration Trust Fund

AGENCY: Office of the Fiscal Assistant Secretary, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department of the Treasury (Treasury) proposes to amend its rules to revise the method by which the statutory three percent limitation on administrative costs (referred to throughout this notice of proposed rulemaking (NPRM) as the “three percent administrative cost cap”) is applied under the Direct Component, Comprehensive Plan Component, and Spill Impact Component under the Resources and Ecosystem Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012 (RESTORE Act or Act). This proposed amendment will help ensure that the Gulf Coast states and localities have the necessary funding to efficiently and effectively oversee and manage projects and programs for ecological and economic restoration of the Gulf Coast Region while ensuring compliance with the statutory three percent administrative cost cap. It does not change the definition of “administrative costs” or the indirect cost reimbursement calculation on an individual federal grant using the negotiated indirect cost rate agreement (NICRA) or de minimis rate.

DATES: Written comments on this NPRM must be received on or before: July 20, 2018.

ADDRESSES: Treasury invites comments on the topic addressed in this NPRM. Comments may be submitted by any of the following methods:

Electronic Submission of Comments: Interested persons may submit comments electronically through the Federal eRulemaking Portal at http://www.regulations.gov. Electronic submission of comments allows the commenter maximum time to prepare and submit a comment, ensures timely receipt, and enables Treasury to make them available to the public. Comments submitted electronically through the http://www.regulations.gov website can be viewed by other commenters and interested members of the public.

Mail: Send to Department of the Treasury, Attention: Laurie McGilvray, Office of Gulf Coast Restoration, Office of the Fiscal Assistant Secretary, Room 2112; 1500 Pennsylvania Avenue NW, Washington, DC 20220.

In general, Treasury will post all comments to http://www.regulations.gov without change, including any business or personal information provided, such as names, addresses, email addresses, or telephone numbers. All comments received, including attachments and other supporting materials, will be part of the public record and subject to public disclosure. You should submit only information that you wish to make publicly available.

FOR FURTHER INFORMATION CONTACT: The Office of Gulf Coast Restoration at restoreact@treasury.gov, or Laurie McGilvray at 202–622–7340.

SUPPLEMENTARY INFORMATION:

I. Background

The RESTORE Act (33 U.S.C. 1321(t) and note) makes funds available for the ecological and economic restoration of the Gulf Coast Region, and certain programs with respect to the Gulf of Mexico, through a trust fund in the Treasury of the United States known as the Gulf Coast Restoration Trust Fund (trust fund). The trust fund holds 80 percent of the administrative and civil penalties paid under the Federal Water Pollution Control Act after July 6, 2012 in connection with the Deepwater Horizon Oil Spill.

Treasury administers two of the five components established by the Act, the Direct Component and Centers of Excellence Research Grants Program. The Act also established an independent Federal entity, the Gulf Coast Ecosystem Restoration Council (Council), to administer two components of the Act, the Comprehensive Plan Component and the Spill Impact Component. The National Oceanic and Atmospheric Administration (NOAA) administers one component, the NOAA RESTORE Act Science Program. This NPRM only affects grants under the Direct Component, Comprehensive Plan Component, and Spill Impact Component of the Act, which are collectively referred to throughout the NPRM as the three “components.”

On December 14, 2015, Treasury promulgated a final rule on the RESTORE Act, 80 FR 77239, which became effective on February 12, 2016.

I. Extension of the Comment Period

On May 21, 2018, OSHA published a NPRM titled “Cranes and Derricks in Construction: Operator Qualification” (83 FR 23534). In the NPRM, OSHA proposed to amend 29 CFR part 1926, subpart CC, to revise sections that address crane operator training, certification/licensing, and competency. The purpose of these amendments is to: require comprehensive training of operators; remove certification by capacity from certification requirements; clarify and permanently extend the employer duty to evaluate potential operators for their ability to safely operate equipment covered by subpart CC; and require documentation of that evaluation.

The public comment period for this NPRM was to conclude on June 20, 2018, 30 days after publication of the NPRM. However, OSHA received requests from stakeholders for an extension of the public comment period (OSHA—2007–0066–0683 and –0693). These requests state that, given the complexity and significance of this NPRM, more time for submitting comments was necessary to gather information from members of the organizations and develop meaningful comments.

OSHA agrees to an extension and concludes that a 15 day extension of the public comment period is a sufficient amount of time to address these concerns.

II. Extension Request

On December 14, 2015, Treasury published the final rule on the RESTORE Act, 80 FR 77239. The final rule announced that the Gulf Coast states and localities have 90 days from the date of the final rule to submit their final recovery plans. The final rule also made the funds available for the Comprehensive Plan Component and Spill Impact Component of the Act.

Comments and public disclosure. You should submit only information that you wish to make publicly available.

III. Proposed Amendments

On May 21, 2018, OSHA published a NPRM titled “Cranes and Derricks in Construction: Operator Qualification” (83 FR 23534). In the NPRM, OSHA proposed to amend 29 CFR part 1926, subpart CC, to revise sections that address crane operator training, certification/licensing, and competency. The purpose of these amendments is to: require comprehensive training of operators; remove certification by capacity from certification requirements; clarify and permanently extend the employer duty to evaluate potential operators for their ability to safely operate equipment covered by subpart CC; and require documentation of that evaluation.

The public comment period for this NPRM was to conclude on June 20, 2018, 30 days after publication of the NPRM. However, OSHA received requests from stakeholders for an extension of the public comment period (OSHA—2007–0066–0683 and –0693). These requests state that, given the complexity and significance of this NPRM, more time for submitting comments was necessary to gather information from members of the organizations and develop meaningful comments.

OSHA agrees to an extension and believes that a 15 day extension of the public comment period is a sufficient amount of time to address these concerns in light of the short period of time remaining before the deadline for crane operator certification. Therefore, the public comment period will now conclude July 5, 2018. Comments can be submitted by following the procedures listed under ADDRESSES section of this notice.

List of Subjects in 29 CFR Part 1926

Cranes, Derricks, Occupational safety and health, Qualification, Safety, Training.

Signed at Washington, DC, on June 15, 2018.

Loren Sweat, Deputy Assistant Secretary of Labor for Occupational Safety and Health.
