

Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW, Room N-3655, Washington, DC 20210; telephone: (202) 693-2350. Docket No. OSHA-2007-0042 contains all materials in the record concerning TUVRNA's recognition.

**II. Final Decision and Order**

OSHA staff examined TUVRNA's expansion application and examined other pertinent information. Based on a review of this evidence, OSHA finds that TUVRNA meets the requirements of 29 CFR 1910.7 for expansion of recognition, subject to the limitation

and conditions listed below. OSHA, therefore, is proceeding with this final notice to grant expansion of TUVRNA's scope of recognition. OSHA limits the expansion of TUVRNA's scope of recognition to testing and certification of products for demonstration of conformance to the test standard listed in Table 1.

TABLE 1—LIST OF APPROPRIATE TEST STANDARD FOR INCLUSION IN TUVRNA'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 698A .....	Standard for Industrial Control Panels Relating to Hazardous (Classified) Locations.

OSHA's recognition of any NRTL for a particular test standard is limited to equipment or materials for which OSHA standards require third-party testing and certification before using them in the workplace. Consequently, if a test standard also covers any products for which OSHA does not require such testing and certification, a NRTL's scope of recognition does not include these products.

**A. Conditions**

In addition to those conditions already required by 29 CFR 1910.7, TUVRNA must abide by the following conditions of the recognition:

1. TUVRNA must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);
2. TUVRNA must meet all the terms of the recognition and comply with all OSHA policies pertaining to this recognition; and
3. TUVRNA must continue to meet the requirements for recognition, including all previously published conditions on TUVRNA's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of TUVRNA, subject to the limitation and conditions specified above.

**SUPPLEMENTARY INFORMATION:**

## I. Background

The Department of Labor, as part of a continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance process to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, the reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act, or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining said information (29 U.S.C. 657).

The Cranes and Derricks standard's information collection requirements impose a duty on employers to produce and maintain records that implement controls and take other measures to protect workers from hazards related to cranes and derricks used in construction. Accordingly, construction businesses with workers who operate or work in the vicinity of cranes and derricks must have, as applicable, the following documents on file and available at the jobsite: Operator certifications, equipment ratings, employee training records, written authorizations from qualified individuals, and program qualification audits.

## II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and

- Ways to minimize the burden on employers who must comply—for example, by using automated or other technological information collection and transmission techniques.

## III. Proposed Actions

The agency requests an overall adjustment burden hour increase of 15,750 hours (from 382,750 to 398,500 hours) and \$156,112 in capital (operation and maintenance) costs (from \$2,286,501 to \$2,442,613). The burden hour increase is a result of both the agency's use of a different rounding methodology for calculating average burden hours, and the incorporation of previously-approved burden hours under OMB control number 1218-0270. For the same reason, and also due to inflation, the agency requests an adjustment increase in capital (operation and maintenance) costs.

**Operator Qualification Final Rule (Non-Material Change)**—A portion of the burden hour increase is an increase of 6,130 burden hours due to the incorporation of burden hours previously approved by OMB under OMB Control Number 1218-0270. This aspect of the ICR constitutes a non-material change as the collection of information associated with 29 CFR 1926.1427 remains the same as approved. For the same reason, a portion of the capital cost adjustment is due to the incorporation of a \$571 decrease in costs previously approved by OMB under OMB Control Number 1218-0270. Under the currently approved OMB Control Number 1218-0261, the annual capital costs associated with 29 CFR 1926.1427 total \$655. The final crane operator qualification final rule approved under OMB Control Number 1218-0270 estimates these costs be \$84. This results in a net decrease for this ICR of \$571.

*Type of Review:* Extension of a currently approved collection.

*Title:* Cranes and Derricks in Construction (29 CFR 1926, subpart CC).

*OMB Control Number:* 1218-0261.

*Affected Public:* Business or other for-profits.

*Number of Respondents:* 212,625.

*Frequency:* Annually; On occasion.

*Average Time per Response:* Various.

*Estimated Number of Responses:* 2,750,968.

*Estimated Total Burden Hours:* 398,500.

*Estimated Cost (Operation and Maintenance):* \$2,442,613.

## IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the agency name and the OSHA docket number (Docket No. OSHA-2013-0021) for the ICR. You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify electronic comments by your name, date, and the docket number so that the agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350; TTY (877) 889-5627.

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (*e.g.*, copyrighted material) is not publicly available to read or download through this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the website, and for assistance in using the internet to locate docket submissions.

#### SUPPLEMENTARY INFORMATION:

##### I. Notice of the Application for Expansion

OSHA is providing notice that SGS North America, Inc. (SGS), is applying for expansion of current recognition as a NRTL. SGS requests the addition of one recognized testing and certification site to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an

acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides the preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including SGS, which details the NRTL's scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpc/nrtl/index.html>.

SGS currently has nine facilities (sites) recognized by OSHA for product testing and certification, with headquarters located at: SGS North America, Inc., 620 Old Peachtree Road, Suwanee, Georgia 30024. A complete list of SGS sites recognized by OSHA is available at <https://www.osha.gov/dts/otpc/nrtl/sgs.html>.

##### II. General Background on the Application

SGS submitted an application, dated October 16, 2017 (OSHA-2006-0040-0052) to expand recognition to include the addition of one recognized testing and certification site located at: SGS Consumer and Retail France, 135, Rue Rene Descartes- CS 30584, 13857 Aix en Provence Cedex 3, France. OSHA staff performed an on-site review of SGS France's testing facilities on July 23-24, 2018, in which the assessors found some nonconformances with the requirements of 29 CFR 1910.7. SGS addressed these nonconformances satisfactorily, and OSHA has made a preliminary decision to approve the application.
