

The NCS has a national survey design for the ECI and the EBS. The NCS private industry sample is on a three-year rotational cycle, with one frozen sample year every ten years for the NCS private industry sample when a new NCS State and local government sample starts (approximately in 2025).

The NCS continues to provide employee benefit provision and participation data. These data include estimates of how many workers receive the various employer-sponsored benefits. The data also include information about the common provisions of benefit plans.

NCS collection will use a number of collection forms (normally having unique private industry and government initiation and update collection forms and versions). For NCS update collection, the forms or screens give respondents their previously reported information, the dates they expected change to occur to these data, and space for reporting these changes.

The NCS for electronic collection uses a Web-based system (Web-Lite) that

allows NCS respondents, using Secure Sockets Layer (SSL) encryption and the establishment's schedule number, to upload data files to a secure BLS server that forwards those files to the assigned BLS field economist.

Some benefits (called "Other benefits") data are collected to track the emergence of new or changing benefits over time. The BLS only asks whether sampled occupations receive these benefits and periodically modifies this list.

**III. Desired Focus of Comments**

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

**SUPPLEMENTARY INFORMATION:** The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The Office of Workers' Compensation Programs administers the Longshore and Harbor Workers' Compensation Act. The Act provides benefits to workers' injured in maritime employment on the navigable waters of the United States or in an adjoining area customarily used by an employer in loading, unloading, repairing, or building a vessel. In addition, several acts extend the Longshore Act's coverage to certain other employees.

Section 33 U.S.C. 907 of the Longshore Act and 20 CFR 702.419, the employer/insurance carrier is responsible for furnishing medical care for the injured employee for such period of time as the injury or recovery period may require. Form LS-1 serves two purposes: It authorizes the medical care, and it provides a vehicle for the treating

physician to report the findings, treatment given, and anticipated physical condition of the employee.

Legal authority for this information collection is found at 33 U.S.C. 907.

Regulatory authority is found at 20 CFR 702.419.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Written comments will receive consideration, and summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB No. 1240-0029.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
