BILLING CODE 4410–09–P

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[Docket No. DEA–694]

Importer of Controlled Substances Application: Chattem Chemicals Inc

ACTION: Notice of application.

DATES: Registered bulk manufacturers of the affected basic class(es), and applicants therefore, may file written comments on or objections to the issuance of the proposed registration on or before September 2, 2020. Such persons may also file a written request for a hearing on the application on or before September 2, 2020.

ADDRESSES: Written comments should be sent to: Drug Enforcement Administration, Attention: DEA Federal Register Representative/DPW, 8701 Morrissette Drive, Springfield, Virginia 22152; and Hearing Clerk/OALJ, 8701 Morrissette Drive, Springfield, Virginia 22152. All requests for a hearing must be sent to: Hearing Clerk/OALJ, 8701 Morrissette Drive, Springfield, Virginia 22152–3421, applied to be registered as an importer of the following basic class(es) of controlled substances:

<table>
<thead>
<tr>
<th>Controlled substance</th>
<th>Drug code</th>
<th>Schedule</th>
</tr>
</thead>
<tbody>
<tr>
<td>Methamphetamine</td>
<td>1105</td>
<td>II</td>
</tr>
<tr>
<td>4-Anilino-N-phenethyl-4-piperidine (ANPP).</td>
<td>8333</td>
<td>II</td>
</tr>
<tr>
<td>Phenytoine</td>
<td>8501</td>
<td>II</td>
</tr>
<tr>
<td>Coca Leaves</td>

BILLING CODE 4410–09–P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA–2011–0009]

Fire Brigades Standard; Extension of the Office of Management and Budget’s (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning the proposal to extend the Office of Management and Budget’s (OMB) approval of the collection of information contained in the Fire Brigades Standard.

DATES: Comments must be submitted (postmarked, sent, or received) by October 2, 2020.

ADDRESSES:
Electronically: You may submit comments and attachments electronically at http://www.regulations.gov, which is the Federal eRulemaking Portal. Follow the
*Supplementary Information:*

**I. Background**

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing collection of information requirements in accordance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657). OSHA does not mandate that employers establish fire brigades; however, if they do so, they must comply with the provisions of the Fire Brigades Standard. The provisions of the standard, including the paperwork requirements, apply to fire brigades, industrial fire departments, and private or contract fire departments, but not to airport crash rescue units or forest firefighting operations. Paragraphs (b)(1), (b)(2), and (c)(4) contain the paperwork requirements of the standard.

Under paragraph (b)(1) of the standard, employers must develop and maintain an organizational statement that establishes the: Existence of a fire brigade; the basic organizational structure of the brigade; type, amount, and frequency of training provided to brigade members; expected number of members in the brigade; and functions that the brigade is to perform. This paragraph also specifies that the organizational statement must be available for review by workers, their designated representatives, and OSHA compliance officers. The organizational statement describes the functions performed by the brigade members and, thereby, determines the level of training and type of personal protective equipment (PPE) necessary for these members to perform their assigned functions safely. Making the statement available to workers, their designated representatives, and OSHA compliance officers ensures that the elements of the statement are consistent with the functions performed by the brigade members and the occupational hazards they experience, and that employers are providing training and PPE appropriate to these functions and hazards.

To permit a worker with known heart disease, epilepsy, or emphysema to participate in fire brigade emergency activities, paragraph (b)(2) of the standard requires employers to obtain a physician’s certificate of the worker’s fitness. This provision provides employers with a direct and efficient means of ascertaining whether or not they can safely expose workers with these medical conditions to the hazards of firefighting operations.

Paragraph (c)(4) of the standard requires employers to inform fire brigade members of special hazards, such as the storage and use of flammable liquids and gases, toxic chemicals, radioactive sources, water-reactive substances that may be present during fires and other emergencies, and any changes in these special hazards. It also requires that employers develop written procedures describing the actions that brigade members are to take when special hazards are present, and to make these procedures available in the education and training program and for review by brigade members.

**II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency’s functions, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

**III. Proposed Actions**

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Fire Brigades Standard (29 CFR 1910.156). The agency is requesting an adjustment increase in the number of burden hours from 2,693 to 2,767, a total increase of 74 hours. The adjustment is due to an increase in the estimated number of manufacturing facilities with 100 or more workers from 24,856 to 25,546. The agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.
IV. Public Participation—Submission of Comments on this Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at http://www.regulations.gov, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (Docket No. OSHA–2011–0009). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled ADDRESSES). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the agency can attach them to your comments.

Due to security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693–2350, (TTY (877) 889–5627).

Comments and submissions are posted without change at http://www.regulations.gov. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the http://www.regulations.gov index, some information (e.g., copyrighted material) is not publicly available to read or download through this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the http://www.regulations.gov website to submit comments and access the docket is available at the website’s “User Tips” link. Contact the OSHA Docket Office for information about materials not available through the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

Loren Sweatt, Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 et seq.) and Secretary of Labor’s Order No. 1–2012 (77 FR 3912).

Loren Sweatt,
Principal Deputy Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510–26–P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Modification Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of Permit Modification Request Received and Permit Issued.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of requests to modify permits issued to conduct activities regulated and permits issued under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act in the Code of Federal Regulations. This is the required notice of a requested permit modification and permit issued.

FOR FURTHER INFORMATION CONTACT: Nature McGinn, ACA Permit Officer, Office of Polar Programs, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314; 703–292–8224; email: AGApermits@nsf.gov.

SUPPLEMENTARY INFORMATION: The National Science Foundation (NSF), as directed by the Antarctic Conservation Act of 1978 (Pub. L. 95–541, 45 CFR 670), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection.

1. NSF issued a permit (ACA 2018–013) to Linnea Pearson on October 16, 2017. The issued permit allows the permit holder to handle Weddell seal pups per year for the purposes of studying the thermoregulatory strategies by which the pups maintain euthermia in air and in water and examine the development of diving capability as the animals prepare for independent foraging. On October 18, 2019, NSF approved a modification to the permit to allow changes to the sedation procedures, take numbers, tag attachment, sample collection, and antibiotic treatment.

Now the permit holder has requested the following modification to allow for full antibiotic treatment of pups in the study, should the need arise. The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

The permit modification was issued on November 8, 2019.

2. NSF issued a permit (ACA 2017–012) to George Watters. The issued permit allows the permit holder and agents to engage in take, harmful interference, ASPA entry, and import in support of the marine mammal and avian research activities conducted by National Oceanic and Atmospheric Administration’s (NOAA) Antarctic Marine Living Resources (AMLR) Program.

Now the permit holder proposes a permit modification to collect fresh penguin fecal material (feces, scat, guano) samples to aid in a study of microplastics levels in the diets of seabirds. The samples would be collected during the course of research activities that are already permitted and would not cause any additional disturbance to the penguins. Therefore, there is no request for additional take or harmful interference. The samples would be preserved in ethanol and transported to a laboratory in the U.S. for microscopic analysis. The sample collection would begin in the 2019/2020 season and continue for the duration of the permit. The Environmental Officer has reviewed the modification request and has determined that the amendment is not a material change to the permit, and it will have a less than a minor or transitory impact.

The permit modification was issued on November 21, 2019.

3. NSF issued a permit (ACA 2017–029) to John Durban. The issued permit allows the permit holder and agents to engage in take and import into the USA. Manner of taking includes using a remotely piloted aircraft system (RPAS) for photogrammetry and blow sample
