

ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The information collection requirements specified in the Acrylonitrile (AN) Standard (29 CFR 1910.1045) protect workers from the adverse health effects that may result from their exposure to AN. The major information collection requirements of the AN Standard include notifying workers of their AN exposures, implementing a written compliance program, providing examining physicians with specific information, ensuring that workers receive a copy of their medical examination results, maintaining worker's exposure monitoring and medical records for specific periods, and providing access to these records by OSHA, the National Institute for Occupational Safety and Health (NIOSH), the affected workers, and designated representatives.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply. For example, by using automated or other technological information collection, and transmission techniques.

III. Proposed Actions

The agency is requesting an adjustment increase of 12,087 burden

hours (from 2,619 hours to 14,706 hours). The increase in burden is due to an increase in the number of employees and the number of establishments. In addition, the estimated capital cost to the employer has increased from \$208,077.00 to \$1,164,652.89, a total increase of \$956,575.89. This increase is due to an increase in the number of workers being sampled and receiving medical exams.

Type of Review: Extension of a currently approved collection.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

(1) Electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile; or (3) by hard copy. Please note: While OSHA's Docket Office is continuing to accept and process submissions by regular mail due to the COVID-19 pandemic, the Docket Office is closed to the public and not able to receive submissions to the docket by hand, express mail, messenger, and courier service. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (Docket No. OSHA-2011-0195). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or a facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so that the agency can attach them to your comments.

Due to security procedures, the use of regular mail may cause a significant delay in the receipt of comments.

Comments and submissions are posted without change at <https://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and date of birth.

Although all submissions are listed in the <https://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <https://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627) for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.

SUPPLEMENTARY INFORMATION:

I. Notice of the Application for Expansion

The Occupational Safety and Health Administration is providing notice that MET Laboratories, Inc. (MET), is applying for expansion of its current recognition as a NRTL. MET requests the addition of seventeen test standards to its NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by its applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides a final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including MET, which details the NRTL's scope of recognition. These pages are available from the OSHA website at <https://www.osha.gov/dts/otpc/nrtl/index.html>.

MET currently has one facility (site) recognized by OSHA for product testing and certification, with its headquarters located at: MET Laboratories, Inc., 914 West Patapsco Avenue, Baltimore, Maryland 21230. A complete list of MET's scope of recognition is available at <https://www.osha.gov/dts/otpc/nrtl/met.html>.

II. General Background on the Application

MET submitted an application to expand its NRTL recognition on April 20, 2020 (OSHA-2006-0028-0082). The expansion application would add seventeen additional test standards to MET's NRTL scope of recognition. OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

Table 1, below, lists the appropriate test standards found in MET's application for expansion for testing and certification of products under the NRTL Program.

III. Preliminary Findings on the Application

MET submitted an acceptable application for expansion of its scope of recognition. OSHA's review of the application file, and pertinent documentation, indicate that MET can meet the requirements prescribed by 29 CFR 1910.7 for expanding its recognition to include the addition of these seventeen test standards for NRTL testing and certification listed in Table 1. This preliminary finding does not constitute an interim or temporary approval of MET's application.

OSHA welcomes public comment as to whether MET meets the requirements of 29 CFR 1910.7 for expansion of its recognition as a NRTL. Comments should consist of pertinent written documents and exhibits. Commenters needing more time to comment must submit a request in writing, stating the reasons for the request. Commenters must submit the written request for an extension by the due date for comments. OSHA will limit any extension to 10 days unless the requester justifies a longer period. OSHA may deny a request for an extension if the request is not adequately justified. To obtain or review copies of the exhibits identified in this notice, as well as comments submitted to the docket, contact the Docket Office, at the above address. These materials also are available online at <https://www.regulations.gov> under Docket No. OSHA–2006–0028.

OSHA staff will review all comments to the docket submitted in a timely manner and, after addressing the issues raised by these comments, will make a recommendation to the Assistant Secretary for Occupational Safety and Health whether to grant MET's application for expansion of its scope of

recognition. The Assistant Secretary will make the final decision on granting the application. In making this decision, the Assistant Secretary may undertake other proceedings prescribed in Appendix A to 29 CFR 1910.7.

OSHA will publish a public notice of its final decision in the **Federal Register**.

IV. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to Section 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 8–2020 (85 FR 58393; Sept. 18, 2020), and 29 CFR 1910.7.

Signed at Washington, DC, on January 25, 2022.

James S. Frederick,

Deputy Assistant Secretary of Labor for Occupational Safety and Health.
