

Appeals System (“ECAS”), and Immigration Court Online Resource (“ICOR”).

DATES: The public forum will be held on Wednesday, March 30, 2022, from 2:00–3:00 p.m. EDT (ECAS session) and from 3:00–4:00 p.m. EDT (ICOR session).

ADDRESSES: The public forum will be held online via GoToWebinar. Please RSVP to EngagewithEOIR@usdoj.gov by 5:00 p.m. EDT on March 28, 2022, with the name(s) of the attendee(s), any relevant organization, and a valid email address.

FOR FURTHER INFORMATION CONTACT: Lauren Alder Reid, Assistant Director, Office of Policy, Executive Office for Immigration Review, 5107 Leesburg Pike, Falls Church, VA 22041, telephone (703) 305–0289.

I. Background

EOIR is hosting the first of a series of public engagement sessions regarding the Access EOIR Initiative. See Executive Office for Immigration Review, *EOIR Announces “Access EOIR” Initiative: Agency Launches New Counsel and Training Programs* (Sept. 28, 2021), available at <https://www.justice.gov/eoir/pr/eoir-announces-access-eoir-initiative>. Access EOIR is intended to improve access to pertinent information and resources for respondents and practitioners appearing before the immigration courts and general information of interest to the public. Two efforts of the initiative will be the focus of the online public forum on March 30, 2022.

The first effort that will be addressed is ECAS, which is part of an overarching information technology modernization effort at EOIR. ECAS was first introduced in July 2018 to phase out paper filing and processing and to retain all records and case-related documents in electronic format. ECAS supports the full life cycle of immigration cases including: Electronic filing of court and appeals documents, processing and receiving filings, maintaining electronic Records of Proceedings (eROPs), preparing case information, conducting a hearing, and adjudicating appeals. ECAS is now fully implemented at all immigration courts and adjudication centers and at the Board of Immigration Appeals, and as of February 11, 2022, DHS and all attorneys and fully accredited representatives are required to electronically file documents in all cases eligible for electronic filing. 8 CFR 1003.2(g)(4), 1003.31(a); see also Executive Office for Immigration Review Electronic Case Access and Filing, 86 FR 70708 (Dec. 13, 2021)

(final rule implementing mandatory electronic filing in eligible cases).

The second system that will be addressed is ICOR, which is a web-based and mobile friendly tool that provides respondents, practitioners, and other interested parties with a centralized location for resources pertaining to immigration proceedings before EOIR. ICOR provides information to help respondents learn about and prepare for immigration proceedings, including a tool to access general information about the forms of relief and protection from removal. ICOR also provides information for practitioners, including information on practice before EOIR’s adjudicators. Currently, ICOR is available in English, Spanish, Chinese, Haitian Creole, Portuguese, and Punjabi.

II. Agenda

From 2:00–3:00 p.m. EDT on March 30, 2022, members of the public are invited to provide feedback on ECAS and its recent implementation nationwide. Feedback that would be most useful to the agency would include comments—either positive or negative—related to the ECAS user experience, along with any suggestions for improvements to ECAS now that its functionalities have been fully implemented.

From 3:00–4:00 p.m. EDT on March 30, 2022, members of the public are invited to provide feedback on ICOR. The agency similarly welcomes all feedback from the public, whether positive or negative, regarding the utility and functionality of ICOR, along with any suggestions for changes or improvements to ICOR.

Public Participation

This meeting is open to all members of the public who RSVP to EngagewithEOIR@usdoj.gov by 5:00 p.m. EDT on March 28, 2022, with the name(s) of the attendee(s), any relevant organization, and a valid email address. EOIR will send webinar information and an agenda to those who RSVP. Attendance for this program will be limited to 500 participants.

In addition, EOIR welcomes written feedback from the public on these topics. Written submissions are due no later than 5:00 p.m. EDT on Friday, April 29, 2022.

All media inquiries should be directed to the Communications and

Legislative Affairs Division at pao.eoir@usdoj.gov.

Lauren Alder Reid,

Assistant Director, Office of Policy, Executive Office for Immigration Review.

BILLING CODE P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA–2011–0059]

Occupational Exposure to Hazardous Chemicals in Laboratories; Extension of the Office of Management and Budget’s (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning the proposal to extend the Office of Management and Budget’s (OMB) approval of the information collection requirements specified in the Occupational Exposure to Hazardous Chemicals in Laboratories.

DATES: Comments must be submitted (postmarked, sent, or received) by May 27, 2022.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov>. Documents in the docket are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the website. All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693–2350 (TTY (877) 889–5627) for assistance in locating docket submissions.

Instructions: All submissions must include the agency name and OSHA docket number (OSHA–2011–0059) for the Information Collection Request (ICR). OSHA will place all comments, including any personal information, in the public docket, which may be made available online. Therefore, OSHA

cautions interested parties about submitting personal information such as social security numbers and birthdates. For further information on submitting comments, see the “Public Participation” heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

Seleda Perryman or Theda Kenney, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone (202) 693–2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, the collection instruments are clearly understood, and OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

The following sections describe who uses the information collected under each requirement, as well as how they use it. The purpose of these requirements is to reduce employees’ risk of death or serious injury by ensuring that employment has been tested and is in safe operating condition.

The Standard entitled “Occupational Exposure to Hazardous Chemicals in Laboratories” (29 CFR 1910.1450; the “Standard”) applies to laboratories that use hazardous chemicals in accord with the Standard’s definitions for “laboratory use of hazardous chemicals” and “laboratory scale.” The Standard requires these laboratories to maintain worker exposures at or below the permissible exposure limits specified

for the hazardous chemicals in 29 CFR part 1910, subpart Z. The laboratories do so by developing a written Chemical Hygiene Plan (CHP) that describes the following: Standard operating procedures for using hazardous chemicals; hazard-control techniques; equipment-reliability measures; worker information and training programs; conditions under which the employer must approve operations, procedures, and activities before implementation; and medical consultations and examinations. The CHP also designates personnel responsible for implementing the CHP and specifies the procedures to be used to provide additional protection to workers exposed to particularly hazardous chemicals.

Other information collection requirements of the Standard include: Documenting exposure monitoring results; notifying workers in writing of these results; presenting specified information and training to workers; establishing a medical surveillance program for overexposed workers; providing required information to the physician; obtaining the physician’s written opinion on using proper respiratory equipment; and establishing, maintaining, transferring, and disclosing exposure monitoring and medical records. These collection of information requirements, including the CHP, control worker overexposure to hazardous laboratory chemicals, thereby preventing serious illnesses and death among workers exposed to such chemicals.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency’s functions to protect workers, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection, and transmission techniques.

III. Proposed Actions

OSHA is requesting an adjustment increase in the existing burden hour estimate for the collection of information requirements in the Standard. The agency is requesting to

increase the current burden hour estimate from 695,105 to 832,036 hours for a total increase of 136,931 hours. The increase is due to an increase in the worker and establishment estimates for this ICR. Additionally, the capital cost estimate increased from \$79,770,481 to \$94,198,596 for a total increase of \$14,428,115. This increase is a result of an increase in the number of workers requiring medical consultations and medical examinations.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.

Title: Occupational Exposure to Hazardous Chemicals in Laboratories (29 CFR 1910.1450).

OMB Control Number: 1218–0131.

Affected Public: Business or other for-profits.

Number of Respondents: 169,188.

Number of Responses: 2,026,410.

Frequency of Responses: On occasion.

Average Time per Response: Varies from 3 minutes to 1 hour.

Estimated Total Burden Hours: 832,036.

Estimated Cost (Operation and Maintenance): \$94,198,596.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

- (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. *Please note:* While OSHA’s Docket Office is continuing to accept and process submissions by regular mail due to the COVID–19 pandemic, the Docket Office is closed to the public and not able to receive submissions to the docket by hand, express mail, messenger, and courier service. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (Docket No. OSHA–2011–0059). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or a facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so that the

agency can attach them to your comments.

Due to security procedures, the use of regular mail may cause a significant delay in the receipt of comments.

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download from this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627 for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

James S. Frederick, Deputy Assistant Secretary for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*) and Secretary of Labor's Order No. 1-2012 (77 FR 3912).

Signed at Washington, DC, on March 21, 2022.

James S. Frederick,

Deputy Assistant Secretary for Occupational Safety and Health.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2007-0043]

TUV SUD America, Inc.: Grant of Expansion of Recognition and Modification to the NRTL Program's List of Appropriate Test Standards

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the final decision to expand the scope of recognition for TUV SUD

America, Inc. as a Nationally Recognized Testing Laboratory (NRTL). Additionally, OSHA announces the final decision to add two test standards to the NRTL Program's list of appropriate test standards.

DATES: The expansion of the scope of recognition becomes effective on March 28, 2022.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor, telephone: (202) 693-1999; email: meilinger.francis2@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor, phone: (202) 693-2110 or email: robinson.kevin@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of TUV SUD America, Inc. (TUVAM) as a NRTL. TUVAM's expansion covers the addition of eight test standards to the NRTL scope of recognition, two of which OSHA will add to the NRTL Program's List of Appropriate Test Standards.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification of the products.

The agency processes applications by a NRTL for initial recognition and for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides the final decision on the

application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including TUVAM, which details the NRTL's scope of recognition. These pages are available from the OSHA website at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

TUVAM submitted an application, dated May 26, 2021, to expand their recognition as a NRTL to include eight additional test standards (OSHA-2007-0043-0038). OSHA staff performed a detailed analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

OSHA published the preliminary notice announcing TUVAM's expansion application in the **Federal Register** on February 18, 2022 (87 FR 9387). The agency requested comments by March 7, 2022, but it received no comments in response to this notice. OSHA is now proceeding with this final notice to grant expansion of TUVAM's scope of recognition and modification to the NRTL Program's List of Appropriate Test Standards.

To obtain or review copies of all public documents pertaining to TUVAM's application, go to <http://www.regulations.gov> or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, Docket No. OSHA-2007-0043 contains all materials in the record concerning TUVAM's recognition. Please note: Due to the COVID-19 pandemic, the Docket Office is closed to the public at this time but can be contacted at (202) 693-2350 (TTY) (877) 889-5627).

II. Final Decision and Order

OSHA staff examined TUVAM's expansion application, its capability to meet the requirements of the test standards, and other pertinent information. Based on its review of this evidence, OSHA finds that TUVAM meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitations and conditions listed in this notice. OSHA, therefore, is proceeding with this final notice to grant TUVAM's scope of recognition. OSHA limits the expansion of TUVAM's recognition to testing and certification of products for demonstration of conformance to the test standards listed below in Table 1.
