 Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in ADDRESSES. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice and, if joined to a request from one or more of the Indian Tribes, any one or more of the following non-federally recognized Indian groups: the Burt Lake Band of Ottawa and Chippewa Indians, Michigan; Little Traverse Bay Bands of Odawa Indians, Michigan; Little Traverse Bay Bands of Ottawa Indians, Michigan; and the Ottawa Tribe of Oklahoma.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after June 20, 2023. If competing requests for repatriation are received, Michigan State University must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. Michigan State University is responsible for sending a copy of this notice to the Indian Tribes identified in this notice.

illuminations; drive pulleys; bottom (boot) pulleys; and clearance; pulleys supports; motor; driving mechanism; brake; electrical switches; vibration and misalignment; and any “skip” on the up or down run when mounting a step (indicating worn gears). A certification record of the inspection must be prepared upon completion of the inspection. The record must contain the date of the inspection, the signature of the person who performed the inspection, and the serial number or other identifier of the inspected manlift.

Disclosure of Inspection Certification Records

Employers are to maintain the certification record and make it available to OSHA compliance officers. This record provides assurance to employers, workers, and compliance officers that manlifts were inspected as required by the Standard. The inspections are made to keep equipment in safe operating condition thereby preventing manlift failure while carrying workers to elevated worksites. These records also provide the most efficient means for the compliance officers to determine that an employer is complying with the Standard.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:
- Whether the proposed information collection requirements are necessary for the proper performance of the agency’s functions to protect workers, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Manlifts Standard (29 CFR 1910.68(e)). The agency is requesting to retain the estimated burden of 37,800 hours. The total number of responses remains the same at 36,000 for the number of inspections certifications maintained annually.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.
