## DEPARTMENT OF LABOR

### Agency Information Collection Activities; Submission for OMB Review; Comment Request; Occupational Code Assignment

**ACTION:** Notice of availability; request for comments.

**SUMMARY:** The Department of Labor (DOL) is submitting this Employment and Training Administration (ETA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

**DATES:** The OMB will consider all written comments that the agency receives on or before May 14, 2025.

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Michael Howell by telephone at 202–693–6782, or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:** The Form ETA 741, the Occupational Code Assignment (OCA), is necessary to help occupational information users relate an occupational specialty or job title to an occupational code and title within the framework of the O\*NET–SOC (Occupational Information Network–Standard Occupational Classification) based system. It helps provide occupational codes for jobs where duties have changed to the extent that the published information is no longer appropriate, or the user is unable to classify the job on their own. The Occupational Code Assignment helps

users obtain an O\*NET–SOC code which allows for compatibility and standardization in the area of occupational coding. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 24, 2024 (89 FR 84934).

*Comments are invited on:* (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

*Agency:* DOL–ETA.

*Title of Collection:* Occupational Code Assignment.

*OMB Control Number:* 1205–0137.

*Affected Public:* State Workforce Agencies.

*Total Estimated Number of Respondents:* 60.

*Total Estimated Number of Responses:* 60.

*Total Estimated Annual Time Burden:* 36 hours.

*Total Estimated Annual Other Costs Burden:* \$0.

Standards and Guidance, OSHA, U.S. Department of Labor; telephone (202) 693-2222.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with a minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining said information (29 U.S.C. 657).

The Cadmium in Construction Standard requires initial and periodic exposure monitoring and measurements, medical surveillance by physicians through biological monitoring and examinations, and recordkeeping and notification obligations. These requirements help protect workers from the adverse health effects that may result from their occupational involvement with Cadmium, and provide access to these records by OSHA, the National Institute for Occupational Safety and Health (NIOSH), the affected workers, and designated representatives. The major information collection requirements of this standard include the following elements of the Standard.

##### II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;

- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

##### III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Cadmium in Construction Standard. The agency is requesting an increase in the burden hour estimate by 218 hours (from 50,226 hours to 50,444 hours) due to a computational error discovered in the last ICR. OSHA is requesting to retain the same capital cost for operation and maintenance of \$2,082,199. OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

*Type of Review:* Extension of a currently approved data collection.

*Title:* Cadmium in Construction Standard.

*OMB Control Number:* 1218-0186.

*Affected Public:* Business or other for-profits; Federal Government; State, Local, or Tribal Government.

*Number of Respondents:* 10,000.

*Number of Responses:* 335,082.

*Frequency of Responses:* On occasion.

*Average Time per Response:* Varies.

*Estimated Total Burden Hours:* 50,444.

*Estimated Cost (Operation and Maintenance):* \$2,082,199.

##### IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal; or (2) by facsimile (fax), if your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at 202-693-1648. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (OSHA-2012-0004). You may supplement electronic submission by uploading document files electronically.

Comments and submissions are posted without change at <https://www.regulations.gov>. Therefore, OSHA

cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the <https://www.regulations.gov> index, some information (*e.g.*, copyrighted material) is not publicly available to read or download from this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <https://www.regulations.gov> website to submit comments and access the docket is available at the website's "User Tips" link. Contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627 for information about materials not available from the website, and for assistance in using the internet to locate docket submissions.
